(5) In any fiscal year, the board may adjust the amount of a Michigan merit award scholarship available to students eligible under 1 or more of subsections (2), (3), and (9), based upon its determination of available resources and amounts appropriated, but the board shall not increase an amount by more than 5% in any fiscal year. The board shall notify the governor, the speaker of the house of representatives, and the majority leader of the senate in writing at least 30 days before an adjustment under this subsection.

(6) For assessment tests administered after January 1, 2000, the board shall not use the assessment test to determine eligibility for a Michigan merit award scholarship under this section for a particular year unless the board has reviewed and approved the assessment test before it was administered for that year.

(7) The board shall provide each student written notice of whether or not the student is eligible for the award of 1 or more Michigan merit award scholarships described in this section. If the student is eligible, the written notice shall also contain the Michigan merit award scholarship amount for which the student is eligible, how the student applies for payment of Michigan merit award scholarship, and any other information the board considers necessary regarding qualification requirements or conditions relating to the use of the Michigan merit award scholarship.

(8) It is the intent of the legislature that the level of student performance required to achieve qualifying results in a subject area of an assessment test remains approximately the same, and that the board not reduce the required level of student performance as a means of increasing the number of Michigan merit award scholarships awarded.

(9) If a student who has previously received a $1,000.00 Michigan merit award scholarship as a student enrolled in an approved postsecondary educational institution outside of this state enrolls in an approved postsecondary educational institution in this state and meets the requirements of subsection (4), and subject to adjustment under subsection (5), the student is eligible for the award of an additional $1,500.00 Michigan merit award scholarship.

(10) A pupil who does not initially receive qualifying results shall be extended an opportunity to achieve the requisite qualifying results by taking a subsequent assessment test.

(11) A nonpublic school student or home school student may take, and the board shall administer if requested, an assessment test at a site designated by the board.

390.1458 Scholarship; use; payment; consideration in determining financial aid program; certification or affirmation by student; request or application for payment.

Sec. 8. (1) A Michigan merit award scholarship shall be used only to pay for eligible costs. The board shall determine the manner and form of application for payment of a Michigan merit award scholarship by a student eligible under section 7 and the procedure for payment to the student or to the approved postsecondary educational institution on the student's behalf. As determined by the board, upon the request of a student or parent or legal guardian of a minor student, the board may pay a Michigan merit award scholarship in 2 consecutive annual installments rather than 1 lump sum.

(2) An approved postsecondary educational institution shall not consider a Michigan merit award scholarship in determining a student's eligibility for a financial aid program administered by this state. It is the intent of the legislature that an approved postsecondary educational institution not reduce institutionally-funded student aid because of the Michigan merit award scholarship program.

(3) Before payment of a Michigan merit award scholarship to a student or approved postsecondary educational institution, the student shall certify or affirm in writing to the board each of the following:

(a) That the student is enrolled at an approved postsecondary educational institution.

(b) The name of the approved postsecondary educational institution in which the student is enrolled.

(c) That the student agrees to use the Michigan merit award scholarship only for eligible costs.

(d) That the student has not been convicted of a felony involving an assault, physical injury, or death.

(e) That the student graduated from high school or passed the general educational development (GED) test or approved graduate equivalency examination within 1 of the following time periods:

(*i*) If the student graduated from high school or passed the test or examination before March 1, 2002, within the 7-year period preceding the date of the student's application to receive his or her Michigan merit award scholarship.

(*ii*) If the student graduated on or after March 1, 2002, within the 4-year period preceding the date of the student's application to receive his or her Michigan merit award scholarship, or within a period equal to 4 years plus the number of days the student served as a member of the United States armed forces or peace corps if the student became a member of the United States armed forces or peace corps during this 4-year period and served for 4 years or less. The board may also extend the 4-year period if the board determines that an extension is warranted because of an illness or disability of the student or in the student's immediate family or another family emergency.

(4) The board shall not disburse funds for a Michigan merit award scholarship to a student or an approved postsecondary educational institution on behalf of the student for use in any academic year unless it receives the request or application for payment, including the written certification or affirmation described in this section, from the student on or before September 30 in that academic year.

AN ACT to amend 1989 PA 24, entitled "An act to provide for the establishment and maintenance of district libraries; to provide for district library boards; to define the powers and duties of certain state and local governmental entities; to prescribe penalties and provide remedies; and to repeal acts and parts of acts," by amending sections 6, 12, 14, and 25 (MCL 397.176, 397.182, 397.184, and 397.195) and by adding section 25a.

Compensation shall not exceed $30.00 per board member per meeting. A board member shall not be compensated for attending more than 52 meetings per year.

(3) Money for the district library shall be paid to the board and deposited in a fund known as the district library fund. The board shall exclusively control the expenditure of money deposited in the district library fund.

397.184 Provisions governing elections.

Sec. 14. (1) An election for or recall of board members and an election for a districtwide tax shall be conducted under the provisions of the Michigan election law, 1954 PA 116, MCL 168.1 to 168.992, and applicable provisions of the revised school code, 1976 PA 451, MCL 380.1 to 380.1852, except to the extent that those provisions are inconsistent with the provisions of this act.

(2) If none of the participating municipalities are school districts, an election for a districtwide tax is governed by sections 15 to 18 and section 23. If 1 or more of the participating municipalities are school districts, an election for a districtwide tax is governed by section 15 and sections 19 to 23.

(3) If none of the participating municipalities are school districts, an election for district library board members is governed by sections 16 to 18 and section 23. If 1 or more of the participating municipalities are school districts, an election for district library board members is governed by sections 19 to 23.

397.195 Municipality other than school district as party to existing agreement; requirements; acceptance conditioned on authorization of tax; change in number of mills based on district library agreement.

Sec. 25. (1) A municipality other than a school district may become a party to an existing agreement if the agreement's requirements concerning the addition of a participating municipality are satisfied, or, in the absence of requirements in the agreement, if each of the following requirements is satisfied:

(a) The legislative body of the municipality resolves by majority vote that the municipality become a participating municipality and that all or, pursuant to section 3(2), a portion of the territory of the municipality be added to the district.

(b) The resolution is conditioned upon the board's adopting, within a period of time specified in the resolution, amendments to the agreement specified in the resolution. The amendments specified shall reflect the addition of the municipality or of the territory to the district and shall include, but need not be limited to, changes in board representation

or the percentage of funds necessary for the establishment and operation of the district library to be supplied by each participating municipality after the municipality becomes a party to the agreement.

(c) The board amends the agreement within the time and in the manner specified in the resolution of the legislative body of the municipality. Notwithstanding anything to the contrary in the procedure for amending the agreement set forth in the agreement pursuant to section 4, the amendment shall be made by majority vote of the members of the board elected or appointed and serving.

(2) If there is a districtwide library tax, the board shall condition acceptance of the municipality or portion of the territory of the municipality into the district on the authorization of that tax by a majority of the electors of the municipality or portion of the territory of the municipality voting on the proposal.

(3) Notwithstanding section 13 or a districtwide tax or taxes authorized by section 13, an existing district library agreement may change the number of mills authorized in the existing district library agreement if 1 or more municipalities or parts of municipalities join the existing district library district. The change of the number of mills to be levied in the district library district shall be contingent on the approval by a majority of the voters of the existing district library district voting on the question and on the approval of a majority of the voters of each municipality or part of a municipality seeking to join the existing library district voting on the question. Defeat of the proposal submitted to the electors of the existing district library district shall not have any effect on the validity of the continued levy by the existing district library of previously authorized millage.

397.195a Consolidated district library agreement.

Sec. 25a. (1) A county, having a population of at least 400,000 and not more than 500,000 on the date the amendatory act that added this section became effective, and 1 or more other participating municipalities may jointly establish a consolidated district library if each of the following requirements is satisfied:

(a) The consolidated district library is a consolidation of 2 or more district libraries each of which has been established, under this act, and includes all of the district of each district library included in the consolidated district library, and the district of each included district library is located wholly within the county joining in establishing the consolidated district library.

(b) The legislative body of each participating municipality identified in the agreement for the consolidated district library adopts a resolution providing for establishment of the consolidated district library and approving a consolidated district library agreement.

(c) The participating municipalities in the consolidated district library include at least 1 participating municipality from each of the district libraries included in the consolidated district library. The county may be the required participating municipality for any included district library if the county is a participating municipality of that district library.

(d) Establishment of the consolidated district library is approved by a majority of the electors of the district of each district library included in the consolidated district library, and by a majority of the electors of each participating municipality in a district library included in the consolidated district library, in which municipality a district library tax is levied by that municipality or is authorized to be levied by the municipality.

(2) Except as otherwise provided by this section, a consolidated district library agreement shall comply with section 4. A consolidated district library agreement may contain the provision authorized by section 4(2), and, if it does include such a provision, the agreement shall comply with the requirements of section 4(2).

(3) A consolidated district library agreement shall specify an establishment date for the consolidated district library and, as to each district library being consolidated into the consolidated district library, a date on which, if the consolidated district library has been established, the district library being consolidated into the consolidated district library will cease providing library services. The specified establishment date for the consolidated district library may be the date on which the electors approve the establishment of the consolidated district library as prescribed in subsection (1)(d).

(4) The board of commissioners of a county proposing to join in establishing a consolidated district library, on behalf of the participating municipalities proposing to establish that consolidated district library, shall file the consolidated district library agreement with the state librarian, and shall otherwise comply with section 3(5). For purposes of section 3(6), (7), and (8), and section 5, the filed consolidated district library agreement is considered to be an agreement described in section 4 if filed in accordance with section 3(5) and section 5(1).

(5) Subject to subsection (1), a consolidated district library is established the later of either of the following:

(a) The establishment date specified in the consolidated district library agreement.

(b) The earlier of the date on which the county board of commissioners receives notice of the state librarian's approval of the agreement, or the expiration of 30 days following the date on which the state librarian receives the agreement, without the state librarian having sent a written statement of approval or disapproval.

(6) On the date specified in the consolidated district library agreement for a district library being consolidated into the consolidated district library to cease providing library services, the board of that district library is dissolved and, subject to subsection (8), the assets and liabilities of that district library are transferred to the consolidated district library. Any contract entered into by a district library consolidated into the consolidated district library, if entered into after the requirements of subsection (1) for establishment of a consolidated district library have been satisfied, may be rescinded by the consolidated district library within 60 days after the consolidated district library is established. If so provided in the consolidated district library agreement, the consolidated district library board may be established and may function prior to the consolidated district library establishment date specified in the agreement for the purpose of preparing for the establishment. Preparation may include, but is not limited to, entering into contracts that will become effective on or after the date on which the consolidated district library is established. Preparation does not include levying a tax. A consolidated district library is a successor district library to the district libraries consolidated into the consolidated district library.

(7) If a consolidated district library agreement prescribes appointed board members, the board shall consist of not fewer than 5 and not more than 9 members. The agreement may authorize 1 or more board members to be appointed by a municipality that was a participating municipality in a district library included in the consolidated district library, even though that municipality is not participating in the consolidated district library.

(8) A tangible asset of a district library being included in a consolidated district library, that was contributed to that district library for use by that district library only, shall be distributed upon establishment of the consolidated district library to the distributee designated by that included district library's agreement to receive that asset upon dissolution of that district library, unless that distributee concurs in a different distribution. A tangible asset that has been transferred to a district library for nominal consideration is considered contributed to that library. A tangible asset that was

originally received by a district library being included in a consolidated district library, from a participating municipality of that district library, and which under that district library's agreement is to be distributed to that municipality upon dissolution of that district library, is not transferred to the consolidated district library without the approval of that municipality.

(9) A consolidated district library may not levy a tax that was authorized for a district library included in the consolidated district library. A ballot question for approval of the establishment of a consolidated district library may include authorization for a districtwide tax for the consolidated district library. However, a consolidated district library tax authorization may be stated as a separate ballot question. A question whether to approve the establishment of a consolidated district library, and, prior to establishment of a consolidated district library, a proposal for authorization of a districtwide tax for a consolidated district library, may be submitted to the electorate through adoption of a resolution of, and certification by, the county board of commissioners. After a consolidated district library is established, any ballot proposal for a districtwide tax for that library shall be adopted and certified by that library's board. Submission to the electorate of a proposal for authorization of a districtwide tax, as permitted by this subsection through action by the county board of commissioners prior to establishment of a consolidated district library, does not render the tax, if authorized and levied, a county tax as distinguished from a district library tax. If the tax is authorized, any levy of the tax shall be by the board of the consolidated district library. A consolidated district library shall not levy a tax before the boards of all the district libraries being consolidated into the consolidated district library are dissolved as provided in subsection (6).

(10) A question of whether to approve establishment of a district library, and a question of whether to approve a proposal for a districtwide tax for a consolidated district library, shall be certified by the county board of commissioners or the consolidated district library board to the clerk not later than 60 days before the election. The question shall be certified for inclusion on the ballot at the next general election or the next state primary election immediately preceding the next general election, scheduled to be held at least 60 days after the certification, or at a special election not occurring within 45 days of that next general or primary election.

(11) For purposes of sections 14 through 23, a question certified under subsection (10), and an election of members of a consolidated district library board, shall be considered as being for a district in which none of the participating municipalities are school districts, notwithstanding whether 1 or more school districts are such municipalities. If a consolidated district library is established, the costs of an election on whether to approve a resolution providing for establishment of the district library shall be charged to and reimbursed by the consolidated district library in the same manner and to the same extent as costs are charged to and reimbursed by the district library under section 23 for an election for board members or a districtwide tax. If there is an election on whether to approve the establishment of a consolidated district library, and if the consolidated district library is not established, costs of the election, which would be charged to and reimbursed by the consolidated district library under this subsection if the consolidated district library had been established, shall be charged to and reimbursed by the county. Those costs include the costs of any proposal for a districtwide tax for the consolidated district library submitted to the electorate at that same election.

(12) A consolidated district library is a district library established pursuant to this act. Subject to this section, other sections of this act apply to a consolidated district library.

This act is ordered to take immediate effect.

Sec. 303. (1) Each municipality shall file an audit report annually with the department within 6 months from the end of its fiscal year or as otherwise provided in the uniform budgeting and accounting act, 1968 PA 2, MCL 141.421 to 141.440a.

(2) Accompanying the audit report described in subsection (1), a municipality shall file a qualifying statement, on a form and in the manner provided by the department, which shall be certified by the chief administrative officer. Within 30 business days of the receipt of the qualifying statement, the department shall determine if the municipality complies with the requirements of subsection (3). If the department determines that the municipality complies with the provisions of subsection (3) or if the department fails to notify the municipality of its determination under this subsection within 30 business days of receipt of the qualifying statement, the municipality may proceed to issue municipal securities under this act without further approval from the department until 30 business days after the next qualifying statement is due or a new determination is made by the department, whichever occurs first.

(3) To qualify to issue municipal securities without further approval from the department, the municipality shall be in material compliance with all of the following requirements, as determined by the department:

(a) The municipality is not operating under the provisions of the local government fiscal responsibility act, 1990 PA 72, MCL 141.1201 to 141.1291.

(b) The municipality did not issue securities in the immediately preceding 5 fiscal years or current fiscal year that were authorized by either the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, other than a security issued for a loan authorized under section 3(2)(a) of the emergency municipal loan act, 1980 PA 243, MCL 141.933, or the fiscal stabilization act, 1981 PA 80, MCL 141.1001 to 141.1011.

(d) The most recent audit report, as required by the uniform budgeting and accounting act, 1968 PA 2, MCL 141.421 to 141.440a, was filed with the department within 6 months from the end of the fiscal year of the municipality.

(5) A municipality may request a reconsideration of the determination from the department. That request shall indicate the requirements that the department determined the municipality to be not in compliance with and the action taken by the municipality to correct the noncompliance. Within 30 business days of the receipt of the request for reconsideration, the department shall determine if the municipality complies with the requirements of subsection (3) or, if the department fails to notify the municipality of its determination under this subsection within 30 business days of receipt of the request for reconsideration, the municipality will be granted qualified status.

(6) If a municipality is notified within 30 business days after filing a request for reconsideration that it does not comply with the requirements of subsection (3), the municipality shall not issue municipal securities under this act without the prior written approval of the department to issue a municipal security as provided in subsections (7) and (8).

(7) If a municipality has not been granted qualified status, the municipality must obtain, for each municipal security, the prior written approval of the department to issue a municipal security. To request prior written approval to issue a municipal security, the municipality shall submit an application and supporting documentation to the department on a form and in a manner prescribed by the department, which shall be certified by the chief administrative officer. A filing fee equal to 0.03% of the principal amount of the municipal security to be issued, but not less than $800.00 and not greater than $2,000.00 as determined by the department, shall accompany each application. If the qualifying statement required by subsection (2) was received by the department more than 6 months after the end of the municipality's fiscal year, a late fee of $100.00 shall accompany the first application filed after that date. (8) If the department determines that the requirements in subsection (7) have been met, the department shall approve the issuance of the proposed municipal security. If the department determines that the requirements in subsection (7) have not been met, the department shall issue a notice of deficiency to the municipality that prevents the issuance of the proposed municipal security. The notice of deficiency shall state the specific deficiencies and problems with the proposed issuance. After the deficiencies and problems

have been addressed as determined by the department, the department shall approve the issuance of the proposed municipal security.

(9) A determination by the department that a municipality has been granted qualified status constitutes an order granting exception from prior approval under former 1943 PA 202, of that municipality's securities.

141.2401 Short-term municipal securities; issuance; conditions; public airport authority.

Sec. 401. (1) A municipality may, by resolution of its governing body, and without a vote of the electors, issue short-term municipal securities in anticipation of and payable from taxes to be collected by the municipality for its then next succeeding fiscal year or the taxes for a current fiscal year, or if the taxes for the next succeeding fiscal year and the taxes for the current fiscal year are both levied in the same calendar year, then in anticipation of and payable from the collection of both of the taxes.

(2) By resolution of its governing body and without a vote of the electors, an authority organized under 1957 PA 206, MCL 259.621 to 259.631, or a public airport authority created or incorporated under the public airport authority act, chapter VIA of the aeronautics code of the state of Michigan, 1945 PA 327, MCL 259.108 to 259.125c, may borrow money and issue short-term municipal securities maturing not more than 1 year from the date of issue in anticipation of the collection of revenues to which it will be entitled to receive within 1 year from the date of the short-term municipal securities' issuance. The amount of the short-term municipal securities issued under this section shall

not exceed 50% of the revenues collected in the preceding fiscal year not pledged for the payment of a security other than a short-term municipal security issued under this section as conclusively certified by the governing body of the authority. The resolution shall provide for the pledging of all or a portion of the revenues of the authority not previously pledged for the payment of a security. The resolution may also provide for the pledging of other assets of the authority as additional security for the payment of the short-term municipal security. The resolution also shall provide that from the receipts of the revenues in anticipation of which the authority issued the short-term municipal security, there shall be set aside in a special fund to be used for the payment of principal and interest on the short-term municipal security a portion of each dollar received that is not less than 125% of the percentage that the principal amount of the short-term municipal security bears to the amount certified as the revenues estimated to be collected, until the amount set aside is sufficient for the payment of principal and interest on the short-term municipal security. The amount set aside shall be used only for the payment of the principal and interest on the short-term municipal security until the short-term municipal security is paid as to both principal and interest. Except when in conflict with the requirements of section 9 of 1957 PA 206, MCL 259.629, the short-term municipal securities authorized under this subsection are subject to this act.

141.2517 Capital improvement items; issuance of municipal security to pay cost; notice of intent; petition; referendum; special election; limitation on amount.

Sec. 517. (1) A county, city, village, or township may by resolution of its governing body, and without a vote of its electors, issue a municipal security under this section to pay the cost of any capital improvement items, provided that the amount of taxes necessary to pay the principal and interest on that municipal security, together with the taxes levied for the same year, shall not exceed the limit authorized by law.

(2) If a county, city, village, or township issues a municipal security under this section, before issuance, the county, city, village, or township shall publish a notice of intent to issue the municipal security. The notice of intent shall be directed to the electors of the county, city, village, or township, shall be published in a newspaper that has general circulation in the county, city, village, or township, and shall state the maximum amount of municipal securities to be issued, the purpose of the municipal securities, the source of payment, the right of referendum on the issuance of the municipal securities, and any other information the county, city, village, or township determines necessary to adequately inform the electors of the nature of the issue. The notice of intent shall not be less than 1/4 page in size in the newspaper. If, within 45 days after the publication of the notice of intent, a petition, signed by not less than 10% or 15,000 of the registered electors, whichever is less, residing within the county, city, village, or township, is filed with the governing body of the county, city, village, or township, requesting a referendum upon the question of the issuance of the municipal securities, then the municipality shall not issue the municipal securities until authorized by the vote of a majority of the electors of the county, city, village, or township qualified to vote and voting on the question at a general or special election. A special election called for this purpose shall not be included in a statutory or charter limitation as to the number of special elections to be called within a period of time. Signatures on the petition shall be verified by a person under oath as the actual signatures of the persons whose names are signed to the petition, and the governing body of the county, city, village, or township shall have the same power to reject signatures and petitions as city clerks under section 25 of the home rule city act, 1909 PA 279, MCL 117.25. The number of registered electors in the county, city, village, or township shall be determined by the governing body of the county, city, village, or township.

Sec. 802. (1) If a municipality fails to pay any installment of principal or interest on an outstanding municipal security on or before its due date, the state treasurer, for a municipality other than a school district, or the superintendent of public instruction, for a school district, may take that action it considers advisable to investigate the municipality's fiscal affairs, may consult with the governing body of the municipality, and may negotiate with the municipality's creditors in order to assist the municipality in developing a plan for financing, adjusting, or compromising the outstanding municipal security for which a payment of an installment of principal or interest had not been paid. As a component of a plan for financing the outstanding municipal security that has been defaulted upon, the department may agree and shall have the power to withhold all or part of state payments under an appropriation made to the municipality, the Glenn Steil state revenue sharing act of 1971, 1971 PA 140, MCL 141.901 to 141.921, or the state school aid act of 1979, 1979 PA 94, MCL 388.1601 to 388.1772, that the municipality is entitled to receive and to use these withheld amounts to pay unpaid amounts or subsequently due amounts, or both, of principal and interest on the outstanding municipal security.

(2) When a plan is developed that the department finds to be fair and equitable and reasonably within the ability of the municipality to meet, the department shall enter an order finding that it is fair, equitable, and within the ability of the municipality to meet. The department shall then advise the governing body to take the necessary steps to implement the plan. If the governing body declines or refuses to do so within 90 days after receiving the department's advice, the department shall be vested with all powers of the municipality, its governing body, and its officers that are necessary to implement the plan. When the department is vested with the authority to implement the plan, the members of the governing body and all officers and employees of the municipality shall be under an affirmative duty to do all things the department determines to be necessary to implement the plan. The department may institute appropriate proceedings in the courts of this state, including those for writs of mandamus and injunctions, to enforce the department's implementation of the plan and compliance with the plan by the governing body and other officers and employees of the municipality.

141.2809 Effect of orders approving issuance of securities.

Sec. 809. All orders approving the issuance of securities issued by the department shall continue in force and effect until October 31, 2002. (5) The department shall make the compilation or information from the compilation available to a department post, local law enforcement agency, sheriff's department, and the public by electronic, computerized, or other similar means accessible to the post, agency, or sheriff's department. The authority may issue refunding bonds whenever it considers refunding expedient, whether the bonds to be refunded have or have not matured. The proceeds of the refunding bonds shall be applied to the purchase, redemption, or payment of the bonds refunded. Except as may otherwise be expressly provided in the resolution authorizing the bonds, every issue of bonds shall be general obligations of the authority to be satisfied out of any revenues or money or other property of the authority, subject to an agreement with the holders of particular bonds in support of which particular receipts, revenues, security for educational loans, or other property of the authority has been pledged or mortgaged.

Neither the resolution nor any other instrument by which a pledge is created need be recorded.

(5) The issuance of bonds and notes under this act is subject to the agency financing reporting act.

The People of the State of Michigan enact:

257.217 Application for registration and certificate of title; out-of-state vehicle; form; fee; signature of owner; contents; leased pickup truck or vehicle; duties of dealer and person selling certain vehicles; temporary registration; copy of security agreement; service fee; imprint on back side of check or bank draft; liability for damages.

Sec. 217. (1) An owner of a vehicle that is subject to registration under this act shall apply to the secretary of state, upon an appropriate form furnished by the secretary of state, for the registration of the vehicle and issuance of a certificate of title for the vehicle. A vehicle brought into this state from another state or jurisdiction that has a rebuilt, salvage, scrap, flood, or comparable certificate of title issued by that other state or jurisdiction shall be issued a rebuilt, salvage, scrap, or flood certificate of title by the secretary of state. The application shall be accompanied by the required fee. An application for a certificate of title shall bear the signature of the owner. The application shall contain all of the following:

(a) The owner's name, the owner's bona fide residence, and either of the following:

(*i*) If the owner is an individual, the owner's mailing address.

(*ii*) If the owner is a firm, association, partnership, limited liability company, or corporation, the owner's business address.

(b) A description of the vehicle including the make or name, style of body, and model year; the number of miles, not including the tenths of a mile, registered on the vehicle's odometer at the time of transfer; whether the vehicle is a flood vehicle or another state previously issued the vehicle a flood certificate of title; whether the vehicle is to be or has been used as a taxi or police vehicle, or by a political subdivision of this state, unless the vehicle is owned by a dealer and loaned or leased to a political subdivision of this state for use as a driver education vehicle; whether the vehicle has previously been issued a salvage or rebuilt certificate of title from this state or a comparable certificate of title from any other state or jurisdiction; vehicle identification number; and the vehicle's weight fully equipped, if a passenger vehicle registered in accordance with section 801(1)(a), and, if a trailer coach or pickup camper, in addition to the weight, the manufacturer's serial number, or in the absence of the serial number, a number assigned by the secretary of state. A number assigned by the secretary of state shall be permanently placed on the trailer coach or pickup camper in the manner and place designated by the secretary of state.

(c) A statement of the applicant's title and the names and addresses of the holders of security interests in the vehicle and in an accessory to the vehicle, in the order of their priority.

(d) Further information that the secretary of state reasonably requires to enable the secretary of state to determine whether the vehicle is lawfully entitled to registration and the owner entitled to a certificate of title. If the secretary of state is not satisfied as to the ownership of a late model vehicle or other vehicle having a value over $2,500.00, before registering the vehicle and issuing a certificate of title, the secretary of state may require the applicant to file a properly executed surety bond in a form prescribed by the secretary of state and executed by the applicant and a company authorized to conduct a surety business in this state. The bond shall be in an amount equal to twice the value of the vehicle as determined by the secretary of state and shall be conditioned to indemnify or reimburse the secretary of state, any prior owner, and any subsequent purchaser of the vehicle and their successors in interest against any expense, loss, or damage, including reasonable attorney's fees, by reason of the issuance of a certificate of title for the vehicle or on account of any defect in the right, title, or interest of the applicant in the vehicle. An interested person has a right of action to recover on the bond for a breach of the conditions of the bond, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. The bond shall be returned at the end of 3 years, or before 3 years if the vehicle is no longer registered in this state and the currently valid certificate of title is surrendered to the secretary of state, unless the secretary of state has received notification of the pendency of an action to recover on the bond. If the secretary of state is not satisfied as to the ownership of a vehicle that is valued at $2,500.00 or less and that is not a late model vehicle, the secretary of state shall require the applicant to certify that the applicant is the owner of the vehicle and entitled to register and title the vehicle.

(e) Except as provided in subdivision (f), an application for a commercial vehicle shall also have attached a scale weight receipt of the motor vehicle fully equipped as of the time the application is made. A scale weight receipt is not necessary if there is presented with the application a registration receipt of the previous year that shows on its face the empty weight of the motor vehicle as registered with the secretary of state that is accompanied by a statement of the applicant that there has not been structural change in the motor vehicle that has increased the empty weight and that the previous registered weight is the true weight.

(f) An application for registration of a vehicle on the basis of elected gross weight shall include a declaration by the applicant specifying the elected gross weight for which application is being made.

(g) If the application is for a certificate of title of a motor vehicle registered in accordance with section 801(1)(p), the application shall include the manufacturer's suggested base list price for the model year of the vehicle. Annually, the secretary of state shall publish a list of the manufacturer's suggested base list price for each vehicle being manufactured. Once a base list price is published by the secretary of state for a model year for a vehicle, the base list price shall not be affected by subsequent increases in the manufacturer's suggested base list price but shall remain the same throughout the model year unless changed in the annual list published by the secretary of state. If the secretary of state's list has not been published for that vehicle by the time of the application for registration, the base list price shall be the manufacturer's suggested retail price as shown on the label required to be affixed to the vehicle under section 3 of the automobile information disclosure act, Public Law 85-506, 15 U.S.C. 1232. If the manufacturer's suggested retail price is unavailable, the application shall list the purchase price of the vehicle as defined in section 801(4).

(2) An applicant for registration of a leased pickup truck or passenger vehicle that is subject to registration under this act, except a vehicle that is subject to registration tax under section 801g, shall disclose in writing to the secretary of state the lessee's name, the lessee's bona fide residence, and either of the following:

(a) If the lessee is an individual, the lessee's Michigan driver license number or Michigan personal identification number or, if the lessee does not have a Michigan driver license or Michigan personal identification number, the lessee's mailing address.

(b) If the lessee is a firm, association, partnership, limited liability company, or corporation, the lessee's business address.

(3) The secretary of state shall maintain the information described in subsection (2) on the secretary of state's computer records.

(4) A dealer selling or exchanging vehicles required to be titled, within 15 days after delivering a vehicle to the purchaser, and a person engaged in the sale of vessels required to be numbered by part 801 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.80101 to 324.80199, within 15 days after delivering a boat trailer weighing less than 2,500 pounds to the purchaser, shall apply to the secretary of state for a new title, if required, and transfer or secure registration plates and secure a certificate of registration for the vehicle or boat trailer, in the name of the purchaser. The dealer's license may be suspended or revoked in accordance with section 249 for failure to apply for a title when required or for failure to transfer or secure registration plates and certificate of registration within the 15 days required by this section. If the dealer or person fails to apply for a title when required, and to transfer or secure registration plates and secure a certificate of registration and pay the required fees within 15 days of delivery of the vehicle or boat trailer, a title and registration for the vehicle or boat trailer may subsequently be acquired only upon the payment of a transfer fee of $15.00 in addition to the fees specified in section 806. The purchaser of the vehicle or boat trailer shall sign the application, including, when applicable, the declaration specifying the maximum elected gross weight, as required by subsection (1)(f), and other necessary papers to enable the dealer or person to secure the title, registration plates, and transfers from the secretary of state. If the secretary of state mails or delivers a purchaser's certificate of title to a dealer, the dealer shall mail or deliver the certificate of title to the purchaser not more than 5 days after receiving the certificate of title from the secretary of state.

(5) If a vehicle is delivered to a purchaser who has valid Michigan registration plates that are to be transferred to the vehicle, and an application for title, if required, and registration for the vehicle is not made before delivery of the vehicle to the purchaser, the registration plates shall be affixed to the vehicle immediately, and the dealer shall provide the purchaser with an instrument in writing, on a form prescribed by the secretary of state, which shall serve as a temporary registration for the vehicle for a period of 15 days from the date the vehicle is delivered.

(6) An application for a certificate of title that indicates the existence of a security interest in the vehicle or in an accessory to the vehicle, if requested by the security interest holder, shall be accompanied by a copy of the security agreement which need not be signed. The request may be made of the seller on an annual basis. The secretary of state shall indicate on the copy the date and place of filing of the application and return the copy to the person submitting the application who shall forward it to the holder of the security interest named in the application.

(7) If the seller does not prepare the credit information, contract note, and mortgage, and the holder, finance company, credit union, or banking institution requires the installment seller to record the lien on the title, the holder, finance company, credit union, or

banking institution shall pay the seller a service fee of not more than $10.00. The service fee shall be paid from the finance charges and shall not be charged to the buyer in addition to the finance charges. The holder, finance company, credit union, or banking institution shall issue its check or bank draft for the principal amount financed, payable jointly to the buyer and seller, and there shall be imprinted on the back side of the check or bank draft the following:

"Under Michigan law, the seller must record a first lien in favor of (name of lender) _____ on the vehicle with vehicle identification number _____ and title the vehicle only in the name(s) shown on the reverse side." On the front of the sales check or draft, the holder, finance company, credit union, or banking institution shall note the name(s) of the prospective owner(s). Failure of the holder, finance company, credit union, or banking institution to comply with these requirements frees the seller from any obligation to record the lien or from any liability that may arise as a result of the failure to record the lien. A service fee shall not be charged to the buyer.

(8) In the absence of actual malice proved independently and not inferred from lack of probable cause, a person who in any manner causes a prosecution for larceny of a motor vehicle; for embezzlement of a motor vehicle; for any crime an element of which is the taking of a motor vehicle without authority; or for buying, receiving, possessing, or aiding in the concealment of a stolen, embezzled, or converted motor vehicle knowing that the motor vehicle has been stolen, embezzled, or converted, is not liable for damages in a civil action for causing the prosecution. This subsection does not relieve a person from proving any other element necessary to sustain his or her cause of action.

257.234 Presentation of certificate of title and registration certificate to secretary of state; fees; issuance of new certificate of title and registration certificate; mail or delivery; repossession of license plates; payment of transfer fee; compliance with § 257.238.

Sec. 234. (1) The purchaser or transferee, unless the person is a licensed dealer, shall present or cause to be presented the certificate of title and registration certificate if plates are being transferred to another vehicle, assigned as provided in this act, to the secretary of state accompanied by the fees as provided by law, whereupon a new certificate of title and registration certificate shall be issued to the assignee. The certificate of title shall be mailed or delivered to the owner or another person the owner may direct in a separate instrument in a form the secretary of state shall prescribe.

(2) If the secretary of state mails or delivers a purchaser's or transferee's certificate of title to a dealer, the dealer shall mail or deliver that certificate of title to the purchaser or transferee not more than 5 days after receiving the certificate of title from the secretary of state.

(3) Unless the transfer is made and the fee paid within 15 days, the vehicle is considered to be without registration, the secretary of state may repossess the license plates, and transfer of the vehicle ownership may be effected and a valid registration acquired thereafter only upon payment of a transfer fee of $15.00 in addition to the fee provided for in section 806.

(4) If a security interest is reserved or created at the time of the transfer, the parties shall comply with the requirements of section 238.

257.717 Maximum permissible width of vehicle or load; operation or movement of implement of husbandry; extension beyond center line of highway; permit; designation of highway for operation of vehicle or vehicle combination; special permit; violation as civil infraction; charging owner.

Sec. 717. (1) The total outside width of a vehicle or the load on a vehicle shall not exceed 96 inches, except as otherwise provided in this section.

(2) A person may operate or move an implement of husbandry of any width on a highway as required, designed, and intended for farming operations, including the movement of implements of husbandry being driven or towed and not hauled on a trailer, without obtaining a special permit for an excessively wide vehicle or load under section 725. The operation or movement of the implement of husbandry shall be in a manner so as to minimize the interruption of traffic flow. A person shall not operate or move an implement of husbandry to the left of the center of the roadway from a half hour after sunset to a half hour before sunrise, under the conditions specified in section 639, or at any time visibility is substantially diminished due to weather conditions. A person operating or moving an implement of husbandry shall follow all traffic regulations.

(3) The total outside width of the load of a vehicle hauling concrete pipe, agricultural products, or unprocessed logs, pulpwood, or wood bolts shall not exceed 108 inches.

(4) Except as provided in subsections (2) and (5) and this subsection, if a vehicle that is equipped with pneumatic tires is operated on a highway, the maximum width from the outside of 1 wheel and tire to the outside of the opposite wheel and tire shall not exceed 102 inches, and the outside width of the body of the vehicle or the load on the vehicle shall not exceed 96 inches. However, a truck and trailer or a tractor and semitrailer combination hauling pulpwood or unprocessed logs may be operated with a maximum width of not to exceed 108 inches in accordance with a special permit issued under section 725.

(5) The total outside body width of a bus, a trailer coach, a truck camper, or a motor home shall not exceed 102 inches. However, an appurtenance of a trailer coach, a truck camper, or a motor home that extends not more than 6 inches beyond the total outside body width is not a violation of this section.

(6) A vehicle shall not extend beyond the center line of a state trunk line highway except when authorized by law. Except as provided in subsection (2), if the width of the vehicle makes it impossible to stay away from the center line, a permit shall be obtained under section 725.

(7) The director of the state transportation department, a county road commission, or a local authority may designate a highway under the agency's jurisdiction as a highway on which a person may operate a vehicle or vehicle combination that is not more than 102 inches in width, including load, the operation of which would otherwise be prohibited by this section. The agency making the designation may require that the owner or lessee of the vehicle or of each vehicle in the vehicle combination secure a permit before operating the vehicle or vehicle combination. This subsection does not restrict the issuance of a special permit under section 725 for the operation of a vehicle or vehicle combination. This subsection does not permit the operation of a vehicle or vehicle combination described in section 722a carrying a load described in that section if the operation would otherwise result in a violation of that section.

(8) The director of the state transportation department, a county road commission, or a local authority may issue a special permit under section 725 to a person operating a vehicle or vehicle combination if all of the following are met:

(a) The vehicle or vehicle combination, including load, is not more than 106 inches in width.

(b) The vehicle or vehicle combination is used solely to move new motor vehicles or parts or components of new motor vehicles between facilities that meet all of the following:

(*i*) New motor vehicles or parts or components of new motor vehicles are manufactured or assembled in the facilities.

(*ii*) The facilities are located within 10 miles of each other.

(*iii*) The facilities are located within the city limits of the same city and the city is located in a county that has a population of more than 400,000 and less than 500,000 according to the most recent federal decennial census.

(c) The special permit and any renewals are each issued for a term of 1 year or less.

(9) A person who violates this section is responsible for a civil infraction. The owner of the vehicle may be charged with a violation of this section.

(*l*) The insurance to be carried on a project and the use and disposition of insurance money and condemnation awards.

(n) Any other matters, of like or different character, which in any way affect the security or protection of the notes or bonds.

(9) A pledge made by the fund is valid and binding from the time the pledge is made. The money or property so pledged and thereafter received by the fund is immediately

The lien of a pledge is valid and binding as against parties having claims of any kind in tort, contract, or otherwise against the fund and is valid and binding as against the transfer of the money or property pledged, irrespective of whether the parties have notice. Neither the resolution, the trust agreement, nor any other instrument by which a pledge is created need be recorded.

The state covenants with the purchasers and all subsequent holders and transferees of notes and bonds issued by the fund under this act, in consideration of the acceptance of and payment for the notes and bonds, that the notes and bonds of the fund, issued pursuant to this act, the interest on the notes and bonds, the transfer of the notes and bonds, and all its fees, charges, gifts, grants, revenues, receipts, and other money received or to be received and pledged to pay or secure the payment of the notes or bonds shall at all times be free and exempt from all state or local taxation provided by the laws of this state, except for estate, gift, and inheritance taxes.

(14) The issuance of bonds and notes under this act is subject to the agency financing reporting act.

(15) For the purpose of more effectively managing its debt service, the fund may enter into an interest rate exchange or swap, hedge, or similar agreement with respect to its bonds or notes on the terms and payable from the sources and with the security, if any, as determined by a resolution of the board.

PREMIUM INFORMATION

We (insert health care corporation's name) can only raise your premium if we raise the premium for all certificates like yours in this state. (If the premium is based on the increasing age of the member, include information specifying when premiums will change).

DISCLOSURES

Use this outline to compare benefits and premiums among policies, certificates, and contracts.

READ YOUR POLICY VERY CAREFULLY

This is only an outline describing your certificate's most important features. The certificate is your contract. You must read the certificate itself to understand all of the rights and duties of both you and your health care corporation.

RIGHT TO RETURN CERTIFICATE

If you find that you are not satisfied with your certificate, you may return it to (insert health care corporation's address). If you send the certificate back to us within 30 days after you receive it, we will treat the certificate as if it had never been issued and return all of your payments.

CERTIFICATE REPLACEMENT

If you are replacing another health insurance policy, contract, or certificate, do not cancel it until you have actually received your new certificate and are sure you want to keep it.

NOTICE

This policy may not fully cover all of your medical costs.

[For agent issued certificates]

Neither (insert health care corporation's name) nor its agents are connected with medicare.

[For direct response issued certificates]

(Insert health care corporation's name) is not connected with medicare.

This outline of coverage does not give all the details of medicare coverage. Contact your local social security office or consult "the medicare handbook" for more details.

COMPLETE ANSWERS ARE VERY IMPORTANT

When you fill out the application for the new certificate, be sure to answer truthfully and completely all questions about your medical and health history. The company may cancel your certificate and refuse to pay any claims if you leave out or falsify important medical information. [If the certificate is guaranteed issue, this paragraph need not appear.]

Review the application carefully before you sign it. Be certain that all information has been properly recorded.

[Include for each plan offered by the health care corporation a chart showing the services, medicare payments, plan payments, and member payments using the same language, in the same order, and using uniform layout and format as shown in the charts that follow. A health care corporation may use additional benefit plan designations on these charts pursuant to section 461(4). Include an explanation of any innovative benefits on the cover page and in the chart, in a manner approved by the commissioner. The health care corporation issuing the certificate shall change the dollar amounts each year to reflect current figures. No more than 4 plans may be shown on 1 chart.] Charts for each plan are as follows:

550.1469 Medicare supplement certificate; minimum standards; notice of medical assistance under medicaid; suspension of benefits and premiums; reinstitution of certificate.

Sec. 469. (1) A certificate shall not be titled, advertised, solicited, or issued for delivery in this state as a medicare supplement certificate if the certificate does not meet the minimum standards prescribed in this section. These minimum standards are in addition to all other requirements of this part.

(2) The following standards apply to medicare supplement certificates:

(a) A medicare supplement certificate shall not deny a claim for losses incurred more than 6 months from the effective date of coverage because it involved a preexisting condition. The certificate shall not define a preexisting condition more restrictively than to mean a condition for which medical advice was given or treatment was recommended by or received from a physician within 6 months before the effective date of coverage.

(b) A medicare supplement certificate shall not indemnify against losses resulting from sickness on a different basis than losses resulting from accidents.

(c) A medicare supplement certificate shall provide that benefits designed to cover cost sharing amounts under medicare will be changed automatically to coincide with any changes in the applicable medicare deductible amount and copayment percentage factors. Premiums may be modified to correspond with such changes.

(d) A medicare supplement certificate shall be guaranteed renewable. Termination shall be for nonpayment of premium or material misrepresentation only.

(e) Termination of a medicare supplement certificate shall not reduce or limit the payment of benefits for any continuous loss that commenced while the certificate was in force, but the extension of benefits beyond the period during which the certificate was in force may be predicated upon the continuous total disability of the member, limited to the duration of the certificate benefit period, if any, or payment of the maximum benefits.

(f) A medicare supplement certificate shall not provide for termination of coverage of a spouse solely because of the occurrence of an event specified for termination of coverage of the member, other than the nonpayment of premium.

(3) A medicare supplement certificate shall provide that benefits and premiums under the certificate shall be suspended at the request of the certificate holder for a period not to exceed 24 months in which the certificate holder has applied for and is determined to be entitled to medical assistance under medicaid, but only if the certificate holder notifies the health care corporation of such assistance within 90 days after the date the individual becomes entitled to the assistance. Upon receipt of timely notice, the health care corporation shall return to the certificate holder that portion of the premium attributable to the period of medicaid eligibility, subject to adjustment for paid claims. If a suspension occurs and if the certificate holder loses entitlement to medical assistance under medicaid, the certificate shall be automatically reinstituted effective as of the date of termination of the assistance if the certificate holder provides notice of loss of medicaid medical assistance within 90 days after the date of the loss and pays the premium attributable to the period effective as of the date of termination of the assistance. Each medicare supplement certificate shall provide that benefits and premiums under the certificate shall be suspended at the request of the member if the member is entitled to benefits under section 226(b) of title II of the social security act, and is covered under a group health plan as defined in section 1862(b)(1)(A)(*v*) of the social security act. If suspension occurs and if the member loses coverage under the group health plan, the certificate shall be automatically reinstituted effective as of the date of loss of coverage if the member provides notice of loss of coverage within 90 days after the date of the loss and pays the premium attributable to the period, effective as of the date of termination of enrollment in the group health plan. All of the following apply to the reinstitution of a medicare supplement certificate under this subsection:

(*i*) The reinstitution shall not provide for any waiting period with respect to treatment of preexisting conditions.

(*ii*) Reinstituted coverage shall be substantially equivalent to coverage in effect before the date of the suspension.

(*iii*) Classification of premiums for reinstituted coverage shall be on terms at least as favorable to the certificate holder as the premium classification terms that would have applied to the certificate holder had the coverage not been suspended.

550.1479 Medicare supplement certificate; denial or conditioning of issuance or discrimination in pricing prohibited; conditions; availability of certificate; excluded benefits based on preexisting condition; prohibition; "creditable coverage" defined.

Sec. 479. (1) A health care corporation shall not deny or condition the issuance or effectiveness of a medicare supplement certificate available for sale in this state, or discriminate in the pricing of such a certificate, because of the health status, claims experience, receipt of health care, or medical condition of an applicant if an application for the certificate is submitted during the 6-month period beginning with the first month in which an individual who is 65 years of age or older first enrolled for benefits under medicare part B. Each medicare supplement certificate currently available from a health care corporation shall be made available to all applicants who qualify under this section without regard to age.

(2) If an applicant qualifies under subsection (1), submits an application during the time period provided in subsection (1), and as of the date of application has had a continuous

period of creditable coverage of not less than 6 months, the health care corporation shall not exclude benefits based on a preexisting condition. If the applicant qualifies under subsection (1), submits an application during the time period in subsection (1), and as of the date of application has had a continuous period of creditable coverage that is less than 6 months, the health care corporation shall reduce the period of any preexisting condition exclusion by the aggregate of the period of creditable coverage applicable to the applicant as of the enrollment date. The secretary shall specify the manner of the reduction under this subsection.

(3) Except as provided in subsection (2) and section 483, subsection (1) does not prevent the exclusion of benefits under a certificate, during the first 6 months, based on a preexisting condition for which the member received treatment or was otherwise diagnosed during the 6 months before the coverage became effective.

(4) "Creditable coverage" does not include any of the following:

(a) One or more of the following:

(*i*) Coverage only for accident or disability income insurance, or any combination of accident or disability income insurance.

(*ii*) Coverage issued as a supplement to liability insurance.

(*iii*) Liability insurance, including general liability insurance and automobile liability insurance.

(*iv*) Workers' compensation or similar insurance.

(*v*) Automobile medical payment insurance.

(*vi*) Credit-only insurance.

(*vii*) Coverage for on-site medical clinics.

(*viii*) Other similar insurance coverage, specified in federal regulations, under which benefits for medical care are secondary or incidental to other insurance benefits.

(b) The following benefits if they are provided under a separate policy, certificate, or contract of insurance or are otherwise not an integral part of the plan:

(*i*) Limited scope dental or vision benefits.

(*ii*) Benefits for long-term care, nursing home care, home health care, community-based care, or any combination of long-term care, nursing home care, home health care, or community-based care.

(*iii*) Such other similar, limited benefits as are specified in federal regulations.

(c) The following benefits if offered as independent, noncoordinated benefits:

(*i*) Coverage only for a specified disease or illness.

(*ii*) Hospital indemnity or other fixed indemnity insurance.

(d) The following if it is offered as a separate policy, certificate, or contract of insurance:

(*i*) Medicare supplemental policy as defined under section 1882(g)(1) of part D of medicare, 42 U.S.C. 1395ss.

(*ii*) Coverage supplemental to the coverage provided under chapter 55 of title 10 of the United States Code, 10 U.S.C. 1071 to 1109.

(*iii*) Similar supplemental coverage provided to coverage under a group health plan.

550.1480 Eligibility provisions.

Sec. 480. (1) An eligible person is an individual described in subsection (2) who applies to enroll under a medicare supplement certificate during the period described in subsection (3), and who submits evidence of the date of termination or disenrollment with the application for a medicare supplement certificate. For an eligible person, a health care corporation shall not deny or condition the issuance or effectiveness of a medicare supplement certificate described in subsections (5), (6), and (7) that is offered and is available for issuance to new enrollees by the health care corporation, shall not discriminate in the pricing of the medicare supplement certificate because of health status, claims experience, receipt of health care, or medical condition, and shall not impose an exclusion of benefits based on a preexisting condition under the medicare supplement certificate.

(2) An eligible person under this section is an individual that meets any of the following:

(a) Is enrolled under an employee welfare benefit plan that provides health benefits that supplement the benefits under medicare and the plan terminates or the plan ceases to provide all those supplemental health benefits to the individual.

(b) Is enrolled with a medicare+choice organization under a medicare+choice plan under part C of medicare, and any of the following circumstances apply, or the individual is 65 years of age or older and is enrolled with a PACE provider under section 1894 of the social security act, and there are circumstances similar to those described below that would permit discontinuance of the individual's enrollment with the provider if the individual were enrolled in a medicare+choice plan:

(*i*) The certification of the organization or plan has been terminated.

(*ii*) The organization has terminated or otherwise discontinued providing the plan in the area in which the individual resides.

(*iii*) The individual is no longer eligible to elect the plan because of a change in the individual's place of residence or other change in circumstances specified by the secretary, but not including termination of the individual's enrollment on the basis described in section 1851(g)(3)(b) of the social security act, where the individual has not paid premiums on a timely basis or has engaged in disruptive behavior as specified in standards established under section 1856 of the social security act, or the plan is terminated for all individuals within a residence area.

(*iv*) The individual demonstrates, in accordance with guidelines established by the secretary, that the organization offering the plan substantially violated a material provision of the organization's contract in relation to the individual, including the failure to provide an enrollee on a timely basis medically necessary care for which benefits are available under the plan or the failure to provide covered care in accordance with applicable quality standards, or the organization, or agent or other entity acting on the organization's behalf, materially misrepresented the plan's provisions in marketing the plan to the individual.

(*v*) The individual meets other exceptional conditions as the secretary may provide.

(c) Is enrolled with an eligible organization under a contract under section 1876 of the social security act, a similar organization operating under demonstration project authority, effective for periods before April 1, 1999, an organization under an agreement under section 1833(a)(1)(a) of the social security act, a health care prepayment plan, or an organization under a medicare select policy or certificate, and the enrollment ceases under the same circumstances that would permit discontinuance of an individual's election of coverage under subdivision (b).

(d) Is enrolled under a medicare supplement policy or certificate and the enrollment ceases because of any of the following:

(*i*) The insolvency of the insurer or health care corporation or bankruptcy of the noninsurer organization or of other involuntary termination of coverage or enrollment under the policy or certificate.

(*ii*) The insurer or health care corporation substantially violated a material provision of the policy or certificate.

(*iii*) The insurer or health care corporation or an agent or other entity acting on the insurer's or health care corporation's behalf, materially misrepresented the policy's or certificate's provisions in marketing the policy or certificate to the individual.

(e) Was enrolled under a medicare supplement policy or certificate and terminates enrollment and subsequently enrolls, for the first time, with any medicare+choice organization under a medicare+choice plan under part C of medicare, any eligible organization under a contract under section 1876 of the social security act, medicare cost, any similar organization operating under demonstration project authority, any PACE provider under section 1894 of the social security act, or a medicare select policy or certificate; and the subsequent enrollment is terminated by the individual during any period within the first 12 months of the subsequent enrollment during which the individual is permitted to terminate the subsequent enrollment under section 1851(e) of the social security act.

(f) Upon first becoming eligible for benefits under part A of medicare at age 65, enrolls in a medicare+choice plan under part C of medicare, or with a PACE provider under section 1894 of the social security act, and disenrolls from the plan or program by not later than 12 months after the effective date of enrollment.

(3) The guaranteed issue time periods under this section are as follows:

(a) For an individual described in subsection (2)(a), the guaranteed issue time period begins on the date the individual receives a notice of termination or cessation of all supplemental health benefits or, if a notice is not received, notice that a claim has been denied because of a termination or cessation, and ends 63 days after the date of the applicable notice.

(b) For an individual described in subsection (2)(b), (c), (e), or (f) whose enrollment is terminated involuntarily, the guaranteed issue time period begins on the date that the individual receives a notice of termination and ends 63 days after the date the applicable coverage is terminated.

(c) For an individual described in subsection (2)(d)(*i*), the guaranteed issue time period begins on the earlier of the date that the individual receives a notice of termination, a notice of the issuer's bankruptcy or insolvency, or other such similar notice, if any, or the date that the applicable coverage is terminated, and ends on the date that is 63 days after the date the coverage is terminated.

(d) For an individual described in subsection (2)(b), (d)(*ii*), (d)(*iii*), (e), or (f) who disenrolls voluntarily, the guaranteed issue time period begins on the date that is 60 days before the effective date of the disenrollment and ends on the date that is 63 days after the effective date.

(e) For an individual described in subsection (2) but not described in subdivisions (a) to (d), the guaranteed issue time period begins on the effective date of disenrollment and ends on the date that is 63 days after the effective date.

(4) For an individual described in subsection (2)(e) whose enrollment with an organization or provider described in subsection (2)(e) is involuntarily terminated within the first 12 months of enrollment, and who, without an intervening enrollment, enrolls

with another such organization or provider, the subsequent enrollment shall be considered an initial enrollment described in subsection (2)(e). For an individual described in subsection (2)(f) whose enrollment within a plan or in a program described in subsection (2)(f) is involuntarily terminated within the first 12 months of enrollment, and who, without an intervening enrollment, enrolls in another such plan or program, the subsequent enrollment shall be considered an initial enrollment described in subsection (2)(f). For purposes of subsections (2)(e) and (f), an enrollment of an individual with an organization or provider described in subsection (2)(e), or with a plan or provider described in subsection (2)(f), shall not be considered to be an initial enrollment after the 2-year period beginning on the date on which the individual first enrolled with such an organization, provider, or plan.

(5) The medicare supplement certificate to which an eligible person is entitled under subsection (2)(a), (b), (c), and (d) is a medicare supplement certificate that has a benefit package classified as plan a, b, c, or f offered by any health care corporation.

(6) The medicare supplement certificate to which an eligible person is entitled under subsection (2)(e) is the same medicare supplement certificate in which the individual was most recently previously enrolled, if available from the same health care corporation, or, if not so available, a certificate described in subsection (5).

(7) The medicare supplement certificate to which an eligible person is entitled under subsection (2)(f) shall include any medicare supplement certificate offered by any health care corporation.

550.1480a Cessation of enrollment; notification.

Sec. 480a. (1) At the time of an event described in section 480(2) because of which an individual loses coverage or benefits due to the termination of a contract or agreement, policy, certificate, or plan, the organization that terminates the contract or agreement, the insurer terminating the policy, the health care corporation terminating the certificate, or the administrator of the plan being terminated, respectively, shall notify the individual of his or her rights under section 480 and of the obligations of health care corporations of medicare supplement certificates under section 480(1). The notice shall be communicated contemporaneously with the notification of termination.

(2) At the time of an event described in section 480(2) because of which an individual ceases enrollment under a contract or agreement, policy, certificate, or plan, the organization that offers the contract or agreement, regardless of the basis for the cessation of enrollment, the insurer offering the policy, the health care corporation offering the certificate, or the administrator of the plan, respectively, shall notify the individual of his or her rights under section 480 and of the obligations of health care corporations providing medicare supplement certificates under section 480(1). The notice shall be communicated within 10 working days of the health care corporation receiving notification of disenrollment.

552.605c Support order; monthly amounts; conversion; proration; applicability of excess payment against arrearage.

Sec. 5c. (1) All support orders shall be stated in monthly amounts payable on the first of each month in advance. A support obligation not paid by the last day of the month in which it accrues is past due. If a support order does not state the amount of support as a monthly amount, the support amount stated in the order shall be converted to a monthly amount using the formula established by the state court administrative office.

(2) If payments under a support order are being made in the amount required, through income withholding, pursuant to an installment payment order, or otherwise, and there are no preexisting arrearages, the friend of the court shall not consider the payer as having an arrearage if a periodic temporary arrearage is created based upon the conversion of the monthly support order to an income withholding order or other payment schedule and which results from a divergence between the cycle of payments under the income withholding or payment schedule and the cycle of charges.

(3) If a support order takes effect on other than the first day of a month, the monthly amount is prorated based on the daily amount for that month. A monthly support order amount shall be prorated for the last month in which the order is in effect.

(4) If the title IV-D agency receives a support payment that, at the time of its receipt, exceeds a payer's support amount payable plus an amount payable under an arrearage payment schedule, the title IV-D agency shall apply the excess against the payer's total arrearage accrued under all support orders under which the payer is obligated. If a balance remains after application against the total arrearage, the title IV-D agency shall do 1 of the following:

(a) If the payer designates the balance as additional support, immediately disburse that amount to the recipient of support.

(b) If, at the time the payment is received, the payer is obligated under a support order for a future support payment and the balance is less than or equal to the monthly support order amount, retain the balance and disburse it to the recipient of support immediately when the amount is payable as support.

(c) If, at the time the payment is received, the payer is not obligated for a future support payment, or the payer is obligated under a support order for a future support payment but the balance is greater than the monthly support order amount, return the balance to the payer.

552.625a Lien; creation; effect; full faith and credit to liens created in other states; priority; notice.

Sec. 25a. (1) The amount of past due support that accrues under a judgment as provided in section 3 or under the law of another state constitutes a lien in favor of the recipient of support against the real and personal property of a payer, other than financial assets pledged to a financial institution as collateral or financial assets to which a financial institution has a prior right of setoff or other lien. The lien is effective at the time that the support is due and unpaid and shall continue until the amount of past due support is paid in full or the lien is terminated by the IV-D agency.

(2) Liens that arise in other states shall be accorded full faith and credit when the requirements of section 25b or 25c are met.

(3) A lien created under subsection (1) is subordinate to a prior perfected lien. All liens created under subsection (1) and described in subsection (2) have equal priority.

(4) Before a lien is perfected or levied under this act, the title IV-D agency shall send a notice to the payer subject to the support order informing the payer of the imposition of liens by operation of law and that the payer's real and personal property can be encumbered or seized if an arrearage accrues in an amount that exceeds the amount of periodic support payments payable under the payer's support order for the time period specified in this act.

(5) The title IV-D agency or another person required to provide notice under this section or sections 25b to 25i shall provide notice by paper, unless the person to be notified agrees to notice by other means. The title IV-D agency or other person providing notice under this section or sections 25b to 25i shall complete and preserve proof of service of the notice in a form substantially conforming to the requirements for proof of service under the Michigan court rules.

552.625b Remedy as cumulative; lien; perfection; notice; review procedures; enforcement; termination; disclosure of information.

Sec. 25b. (1) A remedy provided by this section is cumulative and does not affect the availability of another remedy under this act or other law.

(2) Except for a financial asset to which section 25c applies, the title IV-D agency may perfect a lien created under section 25a upon the real or personal property of the payer

when an arrearage has accrued in an amount that exceeds 2 times the monthly amount of periodic support payments payable under the payer's support order.

(3) If the arrearage under subsection (2) is reached and the title IV-D agency has determined that the delinquent payer holds real or personal property, other than a financial asset to which section 25c applies, the title IV-D agency may perfect the lien. The title IV-D agency shall perfect a lien on property to which this section applies in the same manner in which another lien on property of the same type is perfected.

(4) The title IV-D agency shall notify the payer when the title IV-D agency has perfected a lien against real or personal property of the payer. The notice shall be sent by ordinary mail to the payer's last known address, and a copy of the notice shall be sent by ordinary mail to the recipient of support. A notice under this subsection shall include all of the following:

(a) The amount of the arrearage.

(b) That a lien is in effect on the real or personal property of the payer.

(c) That the property is subject to seizure unless the payer responds by paying the arrearage or requesting a review within 21 days after the date of mailing the notice.

(d) That, at the review, the payer may object to the lien and to proposed action based on a mistake of fact concerning the overdue support amount or the payer's identity.

(e) That, if the payer believes that the amount of support ordered should be modified because of a change in circumstances, the payer may file a petition with the court for modification of the support order.

(5) Within 21 days after the date on which the notice described in subsection (4) is mailed to a payer, the payer may request a review on the lien and the proposed action. If the payer requests a review under this subsection, the title IV-D agency shall conduct the review within 14 days after the date of the request.

(6) If, at the review, the payer establishes that the lien is not proper because of a mistake of fact, the title IV-D agency shall terminate the lien and, within 7 days, notify the applicable entity that the lien is terminated.

(7) If the payer fails to request a review, to appear for a review, or to establish a mistake of fact, the title IV-D agency may collect the arrearage by levy upon any property belonging to the payer as provided in this section. The title IV-D agency shall notify the payer at the review or by written notice of its intent to levy.

(8) To enforce a lien on real property or personal property, the title IV-D agency may sell the real property in the manner provided by law for the judicial foreclosure of mortgage liens; apply to the circuit court for an order to execute the judgment, to appoint a receiver of the real and personal property subject to the lien, and to order the property and its income to be applied to the amount of the judgment; or take any other appropriate action to enforce the judgment. The title IV-D agency shall mail a copy of orders under this subsection to the payer and recipient of support at his or her last known address.

(9) A payer may request that the title IV-D agency terminate a lien against the real and personal property of the payer on the basis that the payer is no longer in arrears. If the payer is no longer in arrears, the title IV-D agency shall terminate the lien in accordance with law.

(10) An entity is not liable under any federal or state law to any person for any disclosure of information to the title IV-D agency under this section or for any other action taken in good faith to comply with the requirements of this section.

552.625c Remedy as cumulative; payer's financial assets held by financial institution; notice of lien and levy; form; notice of withdrawal; release of assets.

Sec. 25c. (1) A remedy provided by this section is cumulative and does not affect the availability of another remedy under this act or other law.

(2) If a payer's financial assets held by a financial institution are subject to a lien under section 25a and an arrearage has accrued in an amount that exceeds 2 times the monthly amount of periodic support payments payable under the payer's support order, the title IV-D agency may levy against the payer's financial assets held by a financial institution. To levy against a payer's financial assets, the title IV-D agency shall serve the financial institution holding the financial assets with a notice of the lien and levy, directing the financial institution to freeze the payer's financial assets held by the financial institution.

(3) The office of child support, in consultation with the state court administrative office, shall create the form that is required for the notice to a financial institution under subsection (2). The form shall include, or provide for inclusion of, at least all of the following:

(a) The levy amount.

(b) Information that enables the financial institution to link the payer with his or her financial assets and to notify the payer.

(c) Information on how to contact the title IV-D agency.

(d) Statements setting forth the rights and responsibilities of the financial institution and payer.

(4) A title IV-D agency may withdraw a levy under this section at any time before the circuit court considers or hears the matter in an action filed under section 25f. The title IV-D agency shall give notice of the withdrawal to the payer and financial institution. Upon receiving notice of a withdrawal of a levy, the financial institution shall release the payer's financial assets by the close of business on 1 of the following days:

(a) If the notice is received before noon, the first business day after the business day on which the notice is received.

(b) If the notice is received at noon or later, the second business day after the business day on which the notice is received.

552.625d Obligation or liability of financial institutions; limitations.

Sec. 25d. (1) A financial institution incurs no obligation or liability to a depositor, account holder, or other person arising from the furnishing of information under sections 25c to 25i or from the failure to disclose to a depositor, account holder, or other person that the person's name as a person with an interest in the financial assets was included in the information provided.

(2) A financial institution incurs no obligation or liability to the title IV-D agency or another person for an error or omission made in good faith compliance with sections 25c to 25i.

(3) A financial institution incurs no obligation or liability for blocking, freezing, placing a hold upon, forwarding, or otherwise dealing with a person's financial assets in response to a lien or levy imposed or information provided under sections 25c to 25i.

(4) A financial institution is not obligated to block, freeze, place a hold upon, forward, or otherwise deal with a person's financial assets until served with the notice of levy in accordance with section 25c. A financial institution that forwards financial assets to the

title IV-D agency in response to a levy under section 25c is discharged from any obligation or liability to the depositor, account holder, or other person with an interest in the financial assets that are forwarded to the title IV-D agency.

552.625e Freeze of payer's financial assets; execution; notice.

Sec. 25e. (1) When a financial institution receives a notice of levy on a payer's financial assets held by the financial institution under section 25c, the financial institution shall freeze those financial assets. If the payer's financial assets held by a financial institution exceed the levy amount, the financial institution shall freeze those financial assets up to the levy amount. A financial institution shall execute the freeze of a payer's financial assets under this section by the close of business on 1 of the following days:

(a) If the notice is received before noon, the first business day after the business day on which the notice is received.

(b) If the notice is received at noon or later, the second business day after the business day on which the notice is received.

(2) After complying with subsection (1), a financial institution shall give notice of that compliance to the title IV-D agency, the payer, and each other person with an interest in the financial assets as shown in the financial institution's records. A financial institution's notice to a payer under this subsection shall include a copy of the title IV-D agency notice to the financial institution.

552.625f Levy on financial assets; challenge; procedures.

Sec. 25f. (1) A payer whose financial assets are levied on under section 25c or a person with an interest in those assets may challenge the levy by submitting a written challenge with the title IV-D agency at the location specified in the title IV-D agency notice. A payer or other person with an interest must submit a written challenge under this section within 21 days after the financial institution sends the payer a copy of the title IV-D agency notice as required by section 25e. A challenge to a levy under section 25c is governed by this act and is not subject to chapter 4 of the administrative procedures act of 1969, 1969 PA 306, MCL 24.271 to 24.287. A payer or other person with an interest who submits a challenge under this subsection may withdraw the challenge at any time by giving notice of the withdrawal to the title IV-D agency.

(2) If the title IV-D agency receives a written challenge from a payer or other person with an interest within the time limit required by subsection (1), the title IV-D agency shall notify the financial institution about the challenge and, within 7 days, shall review the case with the challenger. The title IV-D agency shall consider only a mistake in the payer's identity or in the amount of the payer's past due support, or another mistake of fact, as cause to release or modify the levy. If the title IV-D agency determines that a mistake of fact occurred, the title IV-D agency shall do 1 of the following:

(a) If the mistake is the payer's identity or that the payer does not owe past due support in an amount equal to or greater than 2 times the payer's monthly support amount under a support order, notify the financial institution and the payer that the levy is released.

(b) If the payer does owe past due support in an amount equal to or greater than 2 times the payer's monthly support amount under a support order, but the amount in the notice to levy is more than the payer owes, notify the payer of the corrected amount.

(c) If the mistake concerns a fact other than those described in subdivisions (a) and (b), take action appropriate to the mistake.

(3) If the title IV-D agency finds no mistake of fact, the title IV-D agency shall notify the payer or other person with an interest of that finding.

(4) If the payer or other person with an interest disagrees with the title IV-D agency review determination under this section, the payer or other person with an interest may challenge the levy under section 25c by filing an action in the circuit court that issued a support order that is an underlying basis for the levy. A payer or other person with an interest must file an action under this subsection within 21 days after the title IV-D agency sends notice of its review determination and shall give the title IV-D agency notice of the action.

(5) If an action is not filed in the circuit court within the time limit required by subsection (4), the title IV-D agency shall notify the financial institution, directing the financial institution to act in accordance with the title IV-D agency review determination under this section. If an action is filed in the circuit court within the time limit prescribed in subsection (4), the title IV-D agency shall notify the financial institution, directing the financial institution to act in accordance with the court decision.

552.625g Forwarding money by financial institution.

Sec. 25g. (1) A financial institution that receives a notice of levy under section 25c shall forward money in the amount of past due support as stated in the notice, or in the corrected amount if notified of a corrected amount, to the state disbursement unit, along with information necessary to identify the payer as required by the notice.

(2) A financial institution shall forward money as required by subsection (1) no sooner than the next day and no later than the seventh day after 1 of the following takes place:

(a) The financial institution notifies the payer and the title IV-D agency that the payer's financial assets are frozen as required by section 25e and has not received, within 28 days after the day on which the financial institution sent the notices, a notice from the title IV-D agency that the payer or another person with an interest in the financial assets has submitted a challenge to the levy under section 25f.

(b) The financial institution receives, within the time limit prescribed in subdivision (a), a notice from the title IV-D agency that the payer or another person with an interest in the financial assets submitted a challenge to the levy and receives the subsequent title IV-D agency notice required by section 25f, directing the financial institution to act in accordance with either the title IV-D agency review determination or the circuit court decision.

(3) If, in order to forward sufficient money to the SDU, the financial institution must convert 1 or more financial assets to cash, the financial institution shall execute the conversion, assessing a resulting fee or other cost or penalty against the payer. If the payer's financial assets are insufficient to pay the past due support amount plus resulting fees and other costs or penalties, the financial institution may deduct the fees, costs, and penalties before forwarding the balance of the money.

552.625h Circuit court review.

Sec. 25h. (1) If an action is filed in circuit court within the time limit prescribed in section 25f, the circuit court shall review the matter de novo. The action is governed by this section and the Michigan court rules. The circuit court review is not limited to mistakes of fact.

(2) All of the following apply in an action governed by this section:

(a) The circuit court shall only address the issues of the propriety of the levy and whether the levy amount is correct.

(b) The circuit court shall not admit evidence or consider an issue that is related to custody, parenting time, or the amount of support under a support order unless that evidence is related to the levy against a payer's financial assets.

(c) The circuit court shall not modify a support order. A court finding regarding a monthly or past due support amount does not modify the underlying support order.

552.625i Return of forwarded money to payer; reimbursement of fee, cost, or penalty; interest; allocations.

Sec. 25i. (1) If, after a financial institution forwards money to the state disbursement unit, all of the forwarded money is returned to the payer due to a mistake of fact or court order, the title IV-D agency shall reimburse the payer for a fee, cost, or penalty that the financial institution assessed against the payer under section 25g. In addition, the IV-D agency shall compensate the payer for the amount of interest that the financial assets would have earned had they not been converted and forwarded to the SDU, to the extent that the interest can be determined with a reasonable degree of certainty.

(2) If the total amount of past due support the payer owes under all support orders subject to levy under section 25c is more than the amount of money a financial institution forwards the SDU under section 25g, the SDU shall allocate the money among those support orders by multiplying the total amount of money forwarded by the percentages arrived at by dividing the past due support amount under each of those support orders by the total of the past due support amounts under all of those support orders.

552.628 Order to suspend payer's occupational, driver's, or recreational or sporting license; petition by office of friend of the court; circumstances; notice to payer.

Sec. 28. (1) For a friend of the court case, the office of the friend of the court may petition the court for an order to suspend a payer's occupational license, driver's license, or recreational or sporting license, or any combination of the licenses, if all of the following circumstances are true:

(a) An arrearage has accrued in an amount greater than the amount of periodic support payments payable for 2 months under the payer's support order.

(b) The payer holds an occupational license, driver's license, or recreational or sporting license or the payer's occupation requires an occupational license.

(c) An order of income withholding is not applicable or has been unsuccessful in assuring regular payments on the support obligation and regular payments on the arrearage.

(2) An office of the friend of the court shall not file a petition as authorized under subsection (1) unless the office sends the payer a notice that includes all of the following information:

(a) The amount of the arrearage.

(b) That the payer's occupational license, driver's license, or recreational or sporting license, or any combination of the licenses, may be subject to an order of suspension.

(c) That the suspension order will be entered and sent to the licensing agency unless the payer responds by paying the arrearage or requesting a hearing within 21 days after the date of mailing the notice.

(d) That, at the hearing, the payer may do either of the following:

(*i*) Object to the proposed suspension based on a mistake of fact concerning the overdue support amount or the payer's identity.

(*ii*) Suggest to the court a schedule for the payment of the arrearage.

(e) That, if the payer believes that the amount of support ordered should be modified due to a change in circumstances, the payer may file a petition with the court for modification of the support order.

If the payer fails to appear in response to an order to show cause, the court shall do 1 or more of the following:

(a) Find the payer in contempt for failure to appear.

(b) Find the payer in contempt for the reasons stated in the motion for the show cause hearing.

(c) Apply an enforcement remedy authorized under this act or the friend of the court act for the nonpayment of support.

(d) Issue a bench warrant for the payer's arrest requiring that the payer be brought before the court without unnecessary delay for further proceedings in connection with the show cause or contempt proceedings.

(e) Adjourn the hearing.

(f) Dismiss the order to show cause if the court determines that the payer is not in contempt.

(2) In a bench warrant issued under this section, the court shall decree that the payer is subject to arrest if apprehended or detained anywhere in this state and shall require that, upon arrest, unless the payer deposits a cash performance bond in the manner required by section 32, the payer shall remain in custody until the time of the hearing. The court shall specify in the bench warrant the cash performance bond amount. The court shall set the cash performance bond at not less than $500.00 or 25% of the arrearage, whichever is greater. At its own discretion, the court may set the cash performance bond at an amount up to 100% of the arrearage and add to the amount of the required deposit the amount of the costs the court may require under subsection (3).

(3) If the court issues a bench warrant under this section, except for good cause shown on the record, the court shall order the payer to pay the costs related to the hearing, issuance of the warrant, arrest, and further hearings. Those costs and costs ordered for failure to appear under section 32 or 44 shall be transmitted to the county treasurer for distribution as required in section 2530 of the revised judicature act of 1961, 1961 PA 236, MCL 600.2530.

552.632 Payer arrested under bench warrant; cash performance bond; hearing on order to show cause; form of bond receipt; failure to appear; transmission and deposit of bond; setting aside contempt finding.

Sec. 32. (1) If a bench warrant was issued and the payer is arrested in the county that issued the warrant or another county in this state, the payer shall remain in custody until there is a hearing or the payer posts an adequate cash performance bond. If the payer cannot post the cash performance bond in the amount stated in the bench warrant, the payer is entitled to a hearing within 48 hours, excluding weekends and holidays. The issues to be considered at a hearing required under this subsection are limited to the payer's answer to the order to show cause and, if the payer was found in contempt, to further proceedings related to the payer's contempt. If the hearing is not held as provided in this subsection, the court shall review, based on criteria prescribed in the Michigan court rules, the amount of the cash performance bond to determine an amount that will ensure the payer's appearance and shall set a date for a hearing to be held under subsection (4) within the time limit prescribed in the Michigan court rules.

(2) The officer receiving a cash performance bond under subsection (1) shall give to the arrested payer a receipt for the cash performance bond on a form substantially as follows:

"Date_____

Received from _____ (referred to in this receipt as "the payer") to assure the performance of the payer's support obligation. The payer shall appear for hearing at a date noticed to the payer by the court at the following address:

_____

(address furnished by the payer for receipt of notice)

The hearing is for the payer to answer the show cause order and, if the payer was found in contempt, to further proceedings related to the payer's contempt.

If the payer fails to appear at the time and place indicated in the court's notice, fails to submit to the jurisdiction of the court, and fails to abide by an order of the court, the cash performance bond shall be transmitted to the friend of the court or to the state disbursement unit for payment of the arrearage to the recipient of support and of costs to the court. If the payer appears at the time and place indicated above and the court determines that the payer owes an arrearage under the support order that is the basis of

the order to show cause or owes costs to the court, the cash performance bond deposited shall be transmitted to the office of the friend of the court or to the state disbursement unit for payment of the arrearage to the recipient of support and of costs to the court. By depositing the cash performance bond with the officer and accepting this receipt, the recipient of this receipt waives a claim to the money under the cash performance bond following its transmittal to the friend of the court or to the SDU.

_____

Officer:_____Dept.:_____".

(3) The officer receiving a cash performance bond shall in turn deposit the bond received under this section with the clerk of the court that issued the bench warrant. If the payer deposits a cash performance bond under this section, the date for a hearing to be held under subsection (4) shall be set within the time limit prescribed in the Michigan court rules.

(4) At a hearing held after a payer deposits a cash performance bond, the issues to be considered are limited to the payer's answer to the order to show cause and, if the payer was found in contempt, to further proceedings related to the payer's contempt. On the basis of the hearing, the court by order shall determine how much of the cash performance bond deposited under this section is to be transmitted to the friend of the court or to the SDU for payment to 1 or more recipients of support and to the county treasurer for distribution as provided in section 31. The balance, if any, shall be returned to the person who posted the cash performance bond on the payer's behalf.

(5) If the payer fails to appear as required, the court shall order the cash performance bond forfeited and transmit the bond to the friend of the court or to the SDU for payment to 1 or more recipients of support and to the county treasurer for distribution as provided in section 31. In addition, the court may again issue a bench warrant for the further appearance of the payer as provided in section 31.

(6) The court may set aside a finding of contempt under section 31 if the court finds, based on the hearing under this section, that the payer is in compliance with the court's order or for other good cause shown.

552.633 Finding payer in contempt; presumption; proof of currently available resources; orders; noncompliance with arrearage payment schedule; suspension of license.

Sec. 33. (1) The court may find a payer in contempt if the court finds that the payer is in arrears and if the court is satisfied that the payer has the capacity to pay out of currently available resources all or some portion of the amount due under the support order. In the absence of proofs to the contrary introduced by the payer, the court shall presume that the payer has currently available resources equal to 4 weeks of payments under the support order. The court shall not find that the payer has currently available resources of more than 4 weeks of payments without proof of those resources by the office of the friend of the court or the recipient of support. Upon finding a payer in contempt of court under this section, the court may immediately enter an order doing 1 or more of the following:

(a) Committing the payer to the county jail.

(d) If the payer holds an occupational license, driver's license, or recreational or sporting license, conditioning a suspension of the payer's license, or any combination of the licenses, upon noncompliance with an order for payment of the arrearage in 1 or more scheduled installments of a sum certain. A court shall not order the sanction authorized by this subdivision unless the court finds that the payer has accrued an arrearage of support payments in an amount greater than the amount of periodic support payments payable for 2 months under the payer's support order.

(e) Ordering the payer to participate in a work activity. This subdivision does not alter the court's authority to include provisions in an order issued under this section concerning a payer's employment or his or her seeking of employment as that authority exists on August 10, 1998.

(f) If available within the court's jurisdiction, order the payer to participate in a community corrections program established as provided in the community corrections act, 1988 PA 511, MCL 791.401 to 791.414.

(2) If the court enters an order under subsection (1)(d) and the payer fails to comply with the arrearage payment schedule, after notice and opportunity for a hearing, the court shall order suspension of the payer's license or licenses with respect to which the order under subsection (1)(d) was entered and shall proceed under section 30.

552.635 Finding payer in contempt; orders; release from county jail of unemployed payer who finds employment; noncompliance with arrearage payment schedule; suspension of license.

Sec. 35. (1) The court may find a payer in contempt if the court finds that the payer is in arrears and if the court is satisfied that by the exercise of diligence the payer could have the capacity to pay all or some portion of the amount due under the support order and that the payer fails or refuses to do so.

(2) Upon finding a payer in contempt of court under this section, the court may immediately enter an order doing 1 or more of the following:

(a) Committing the payer to the county jail with the privilege of leaving the jail during the hours the court determines, and under the supervision the court considers, necessary for the purpose of allowing the payer to go to and return from his or her place of employment or, if the person wishes to seek employment, to seek employment.

(b) If the payer holds an occupational license, driver's license, or recreational or sporting license, conditioning a suspension of the payer's license, or any combination of the licenses, upon noncompliance with an order for payment of the arrearage in 1 or more scheduled installments of a sum certain. A court shall not order the sanction authorized by this subdivision unless the court finds that the payer has accrued an arrearage of support payments in an amount greater than the amount of periodic support payments payable for 2 months under the payer's support order.

(c) Ordering the payer to participate in a work activity. This subdivision does not alter the court's authority to include provisions in an order issued under this section concerning a payer's employment or his or her seeking of employment as that authority exists on August 10, 1998.

(d) If available within the court's jurisdiction, order the payer to participate in a community corrections program established as provided in the community corrections act, 1988 PA 511, MCL 791.401 to 791.414.

(3) Notwithstanding the length of commitment imposed under this section, the court may release a payer who is unemployed when committed to a county jail under this section and who finds employment if either of the following applies:

(a) The payer is self-employed, completes 2 consecutive weeks at his or her employment, and makes a support payment as required by the court.

(b) The payer is employed and completes 2 consecutive weeks at his or her employment and an order of income withholding is effective.

(4) If the court enters an order under subsection (2)(b) and the payer fails to comply with the arrearage payment schedule, after notice and an opportunity for a hearing, the court shall order suspension of the payer's license or licenses with respect to which the order under subsection (2)(b) was entered and shall proceed under section 30.

The court shall hold the requested hearing unless the parenting time dispute is resolved by other means. The court shall combine the hearing prescribed by this subsection with the hearing on the order to show cause unless the court finds for good cause shown on the record that the hearings should be held separately. If the court finds that the hearings should be held separately, the hearing on a proposed modification of parenting time shall be held before the hearing on the order to show cause.

With their initial pleadings, the parties to a domestic relations matter may file a motion for the court to order the office of the friend of the court not to open a friend of the court case for the domestic relations matter. If the parties to a domestic relations matter file a motion under this subsection, the court shall issue that order unless the court determines 1 or more of the following:

(a) A party to the domestic relations matter is eligible for title IV-D services because of the party's current or past receipt of public assistance.

(b) A party to the domestic relations matter applies for title IV-D services.

(c) A party to the domestic relations matter requests that the office of the friend of the court open and maintain a friend of the court case for the domestic relations matter, even though the party may not be eligible for title IV-D services because the domestic relations matter involves, by way of example and not limitation, only spousal support, child custody, parenting time, or child custody and parenting time.

(4) The parties to a friend of the court case may file a motion for the court to order the office of the friend of the court to close their friend of the court case. (b) A party to the friend of the court case is eligible for title IV-D services because the party is receiving public assistance.

(g) The parties have not filed with the court a document, signed by each party, that includes a list of the friend of the court services and an acknowledgment that the parties are choosing to do without those services.

(5) The closure of a friend of the court case does not release a party from the party's obligations imposed in the underlying domestic relations matter. The parties to a closed friend of the court case assume full responsibility for administration and enforcement of obligations imposed in the underlying domestic relations matter.

(6) If a party to the underlying domestic relations matter wants to ensure that child support payments made after a friend of the court case is closed will be taken into account in any possible future office of the friend of the court enforcement action, the child support payments must be made through the SDU. If the parties choose to continue to have child support payments made through the SDU, the office of the friend of the court shall not close its friend of the court case until each party provides the SDU with the information necessary to process the child support payments required in the underlying domestic relations matter.

(7) If a party to a domestic relations matter for which there is not an open friend of the court case applies for services from the office of the friend of the court or applies for public assistance, the office of the friend of the court shall open or reopen a friend of the court case. If the office of the friend of the court opens or reopens a friend of the court case as required by this subsection, the court shall issue an order in that domestic relations matter that contains the provisions required by this act and by the support and parenting time enforcement act for a friend of the court case.

(8) If the parties to a domestic relations matter file a motion under subsection (2) or (4), the friend of the court shall advise the parties in writing as to the services that the office of the friend of the court is not required to provide. The state court administrative office shall develop and make available a form for use by an office of the friend of the court under this subsection and a document for use by parties to a domestic relations matter under subsection (2) or (4).

Sec. 9. (1) Except as otherwise provided in subsections (2) and (3) or in the order or judgment, after a support order is entered in a friend of the court case, the office shall receive each payment and service fee under the support order; shall, not less than once each month, record each support payment due, paid, and past due; and shall disburse each support payment to the recipient of support within 14 days after the office receives each payment or within the federally mandated time frame, whichever is shorter.

(2) An office shall receive support order and service fee payments, and shall disburse support, as required by subsection (1) until the state disbursement unit implements support and fee receipt and disbursement for the cases administered by that office. At the family independence agency's direction and in cooperation with the SDU, an office shall continue support and fee receipt and support disbursement to facilitate the transition of that responsibility to the SDU as directed in, and in accordance with the transition schedule developed as required by, the office of child support act, 1971 PA 174, MCL 400.231 to 400.240.

(3) After SDU support and fee receipt and disbursement is implemented in a circuit court circuit, the office for that court may accept a support payment made in cash or by cashier's check or money order. If the office accepts such a payment, the office shall transmit the payment to the SDU and shall inform the payer of the SDU's location and the requirement to make payments through the SDU.

(4) Promptly after November 3, 1999, each office shall establish and maintain the support order and account records necessary to enforce support orders and necessary to record obligations, support and fee receipt and disbursement, and related payments. Each office shall provide the SDU with access to those records and shall assist the SDU to resolve support and fee receipt and disbursement problems related to inadequate identifying information.

(5) The office shall provide annually to each party, without charge, 1 statement of account upon request. Additional statements of account shall be provided at a reasonable fee sufficient to pay for the cost of reproduction. Statements provided under this subsection are in addition to statements provided for administrative and judicial hearings.

(6) The office shall initiate and carry out proceedings to enforce an order in a friend of the court case regarding custody, parenting time, health care coverage, or support in accordance with this act, the support and parenting time enforcement act, and supreme court rules.

(7) Upon request of a child support agency of another state, the office shall initiate and carry out certain proceedings to enforce support orders entered in the other state without the need to register the order as a friend of the court case in this state. The order shall be enforced using automated administrative enforcement actions authorized under the support and parenting time enforcement act.

552.511 Initiating enforcement of support order and custody or parenting time order; procedure; arrearage.

Sec. 11. (1) Each office shall initiate 1 or more support enforcement measures under the support and parenting time enforcement act when 1 of the following applies:

(a) Except as otherwise provided in this subdivision, the arrearage under the support order is equal to or greater than the monthly amount of support payable under the order. If the support order was entered ex parte, an office shall not initiate enforcement under this subdivision until the office receives a copy of proof of service for the order and at least 1 month has elapsed since the date of service. An office is not required to initiate enforcement under this subdivision if 1 or more of the following circumstances exist:

(*i*) Despite the existence of the arrearage, an order of income withholding is effective and payment is being made under the order of income withholding in the amount required under the order.

(*ii*) Despite the existence of the arrearage and even though an order of income withholding is not effective, payment is being made in the amount required under the order.

(*iii*) One or more support enforcement measures have been initiated and an objection to 1 or more of those measures has not been resolved.

(b) A parent fails to obtain or maintain health care coverage for the parent's child as ordered by the court. The office shall initiate enforcement under this subdivision at the following times:

(*i*) Within 60 days after the entry of a support order containing health care coverage provisions.

(*ii*) When a review is conducted as provided in section 17.

(*iii*) Concurrent with enforcement initiated by the office under subdivision (a).

(*iv*) Upon receipt of a written complaint from a party.

(*v*) Upon receipt of a written complaint from the department if the child for whose benefit health care coverage is ordered is a recipient of public assistance or medical assistance.

(c) A person legally responsible for the actual care of a child incurs an uninsured health care expense and submits to the office a written complaint that meets the requirements of section 11a.

(2) An arrearage amount that arises at the moment a court issues an order imposing or modifying support, because the order relates back to a petition or motion filing date, shall not be considered as an arrearage for the purpose of initiating support enforcement measures, centralizing enforcement, or other action required or authorized in response to a support arrearage under this act or the support and parenting time enforcement act, unless the payer fails to become current with the court ordered support payments within 2 months after entry of the order imposing or modifying support.

Parties shall not be required to meet with a domestic relations mediator. The service may be provided directly by the office only if such a service is in place on July 1, 1983, if the service is not available from a private source, or if the court can demonstrate that providing the service within the friend of the court office is cost beneficial. Sec. 17. (1) After a final judgment containing a child support order has been entered in a friend of the court case, the office shall periodically review the order, as follows:

(*i*) The office receives notice from the department that good cause exists not to proceed with support action.

(*ii*) Neither party has requested a review.

(b) At the initiative of the office, if there are reasonable grounds to believe that the amount of child support awarded in the judgment should be modified or that dependent health care coverage is available and the support order should be modified to include an order for health care coverage. Reasonable grounds to review an order under this subdivision include temporary or permanent changes in the physical custody of a child that the court has not ordered, increased or decreased need of the child, probable access by an employed parent to dependent health care coverage, or changed financial conditions of a recipient or a payer of child support including, but not limited to, application for or receipt of public assistance, unemployment compensation, or worker's compensation.

(c) Upon receipt of a written request from either party. Within 15 days after receipt of the review request, the office shall determine whether the order is due for review. The

(e) If requested by the initiating state for a recipient of services in that state under title IV-D, not less than once each 24 months. Within 15 days after receipt of a review request, the office shall determine whether an order is due for review.

(2) Within 180 days after determining that a review is required under subsection (1), the office shall send notices as provided in section 17b(2) and (3), conduct a review, and obtain a modification of the order if appropriate.

(3) The office shall use the child support formula developed by the bureau under section 19 in calculating the child support award. If the office determines from the facts of the case that application of the child support formula would be unjust or inappropriate, or that income should not be based on actual income earned by the parties, the office shall prepare a written report that includes all of the following:

(a) The support amount, based on actual income earned by the parties, determined by application of the child support formula and all factual assumptions upon which that support amount is based.

(b) An alternative support recommendation and all factual assumptions upon which the alternative support recommendation is based.

(c) How the alternative support recommendation deviates from the child support formula.

(d) The reasons for the alternative support recommendation.

(e) All evidence known to the friend of the court that the individual is or is not able to earn the income imputed to him or her.

(4) The office shall petition the court if modification is determined to be necessary under subsection (3) unless either of the following applies:

(a) The difference between the existing and projected child support award is within the minimum threshold for modification of a child support amount as established by the formula.

(b) The court previously determined that application of the formula was unjust or inappropriate and the office determines under subsection (3) that the facts of the case and the reasons and amount of the prior deviation remain unchanged.

(5) A petition for modification may be made at the same time the parties are provided with notice under section 17b(3). A hearing held on a proposed modification shall be scheduled no earlier than 30 days after the date of the notice provided for in section 17b(3).

(6) If the office determines there should be no change in the order and a party objects to the determination in writing to the office within 30 days after the date of the notice provided for in section 17b(3), the office shall schedule a hearing before the court.

(7) If a support order lacks provisions for health care coverage, the office shall petition the court for a modification to require that 1 or both parents obtain or maintain health care coverage for the benefit of each child who is subject to the support order if either of

the following is true:

(a) Either parent has health care coverage available, as a benefit of employment, for the benefit of the child at a reasonable cost.

(b) Either parent is self-employed, maintains health care coverage for himself or herself, and can obtain health care coverage for the benefit of the child at a reasonable cost.

(8) The office shall determine the costs to each parent for dependent health care coverage and child care costs and shall disclose those costs in the report under section 17b(4).

552.517b Review of order; notice of right to request; notice of review; notice of increase or decrease in amount of child support, modification to order health care, or determination of no change in order; availability of documents.

Sec. 17b. (1) Each party subject to a child support order shall be notified of the right to request a review of the order as provided in section 17, and the place and manner in which to make the request. For a friend of the court case, the notice shall be provided by the office or, pursuant to court rule, by the plaintiff, using the informational pamphlet required under section 5. The notice shall be sent to the party's last known address.

(2) The office shall notify each party of a review of a child support order under section 17 at least 30 days before the review is conducted. The notice shall request income, expense, or other information as needed from the party to conduct the review and shall specify the date by which that information is due. The notice shall be sent to each party to his or her last known address.

(3) After a review of a child support order has been conducted, the office shall notify each party of a proposed increase or decrease in the amount of child support, a proposed modification to order health care coverage, or a determination that there should be no change in the order. Notice of an increase or decrease in child support or a modification to order health care coverage can be provided by or with a copy of the petition for modification. The notice shall also inform the parties of both of the following:

(a) That the party may object to the proposed modification or determination that there should be no change in the order at a hearing before a referee or the court.

(b) The time, place, and manner in which to raise objections.

(4) The office shall make available to each party and his or her attorney a copy of the written report, transcript, recommendation, and supporting documents or a summary of supporting documents prepared or used by the office under section 17 before the court modifies a support order.

552.517c Review of support order in another state; procedures.

Sec. 17c. (1) If Michigan is the initiating state in an interstate friend of the court case involving child support, the office shall determine whether a review of a support order in another state is appropriate in accordance with section 17 and is appropriate based upon the residence and jurisdiction of the parties.

(2) If the office determines that a review of a support order in another state is appropriate, the office shall obtain income, expense, and other information needed to conduct the review from the requesting party or recipient of public assistance or medical assistance.

(3) The office shall initiate a request for a review within 20 calendar days after receipt of the information requested under subsection (2).

(4) The office shall forward to a party who resides in Michigan a copy of each notice issued by the responding state in conjunction with the review and modification of a support order, which notice is sent to the office for distribution.

552.526 Grievance procedure; records; public access to report of grievances; powers and duties of citizen advisory committee.

Sec. 26. (1) A party to a friend of the court case who has a grievance concerning office operations or employees shall utilize the following grievance procedure:

(a) File the grievance, in writing, with the appropriate friend of the court office. The office shall cause the grievance to be investigated and decided as soon as practicable. Within 30 days after a grievance is filed, the office shall respond to the grievance or issue a statement to the party filing the grievance stating the reason a response is not possible within that time.

(b) A party who is not satisfied with the decision of the office under subdivision (a) may file a further grievance, in writing, with the chief judge. The chief judge shall cause the grievance to be investigated and decided as soon as practicable. Within 30 days after a grievance is filed, the court shall respond to the grievance or issue a statement to the party filing the grievance stating the reason a response is not possible within that time.

(2) Each office shall maintain a record of grievances received and a record of whether the grievance is decided or outstanding. The record shall be transmitted not less than biannually to the bureau. Each office shall provide public access to the report of grievances prepared by the bureau under section 19.

(3) In addition to the grievance procedure provided in subsection (1), a party to a friend of the court case who has a grievance concerning office operations may file, at any time during the proceedings, the grievance in writing with the appropriate citizen advisory committee. In its discretion, the citizen advisory committee shall conduct a review or investigation of, or hold a formal or informal hearing on, a grievance submitted to the committee. The citizen advisory committee may delegate its responsibility under this subsection to subcommittees appointed as provided in section 4a.

(4) In addition to action taken under subsection (3), the citizen advisory committee shall establish a procedure for randomly selecting grievances submitted directly to the office of the friend of the court. The citizen advisory committee shall review the response of the office to these grievances and report its findings to the court and the county board, either immediately or in the committee's annual report.

(5) The citizen advisory committee shall examine the grievances filed with the friend of the court under this section and shall review or investigate each grievance that alleges that a decision was made based on gender rather than the best interests of the child.

(6) If a citizen advisory committee reviews or investigates a grievance, the committee shall respond to the grievance as soon as practicable.

(7) A grievance filed under subsection (3) is limited to office operations, and the citizen advisory committee shall inform an individual who files with the committee a grievance that concerns an office employee or a court or office decision or recommendation regarding a specific case that such a matter is not a proper subject for a grievance.

(2) A copy of the notice provided for in subsection (1) shall be sent by ordinary mail to each recipient of support.

(3) A payer to whom notice is sent under subsection (1), within 21 days after the date on which the notice was sent, may request a hearing on the grounds that the withholding is not proper because of a mistake of fact concerning the amount of current or overdue support or the identity of the payer.

If an existing support order does not provide for support to any other child of whom the payer does not have custody, for support to a former spouse, or for payments of confinement or pregnancy expenses, the court shall terminate the order of income withholding as soon as any previously accumulated arrearage has been paid.

(2) The office of the friend of the court shall suspend or terminate an order of income withholding under any of the following circumstances:

In making a determination under this subdivision, the court may consider the previous payment record of the payer, evidence of the payer's intent to make regular and timely support payments, and any other factors considered relevant by the court. However, the payment of arrearages under the support order shall not be the sole reason for termination of an order of income withholding.

(d) The parties enter into a written agreement that is reviewed and entered in the record by the court that provides for all of the following:

(*i*) The order of income withholding shall be suspended.

(*ii*) An alternative payment arrangement.

(4) If a written agreement is entered into under subsection (2)(d), the order of income withholding shall take effect when an arrearage in support payments as agreed to under the written agreement reaches the arrearage amount that would require the initiation of 1 or more support enforcement measures if the case were a friend of the court case, as provided in section 11 of the friend of the court act, MCL 552.511.

(5) The court may suspend or terminate an order of income withholding if the custodial parent moves out of the state without court authorization.

(6) The office of the friend of the court shall promptly refund money that has been improperly withheld.

552.624a Proceedings to set aside transfer of title or ownership of property without fair consideration.

Sec. 24a. For a friend of the court case, if a support arrearage has accrued and there is reason to believe the payer transferred title or ownership of real or personal property without fair consideration, the title IV-D agency shall initiate proceedings to have the transfer set aside as provided in the uniform fraudulent transfer act, 1998 PA 434, MCL 566.31 to 566.43, or obtain a settlement in the form of full payment of the arrearage or in periodic repayments as is possible in the best interest of the recipient of support.

(2) If an order for dependent health care coverage was entered before September 30, 2001, the office shall, at the time notice of the order is sent to the employer under subsection (1), provide the payer or parent with instructions on how to request a review or hearing to contest the availability of dependent health care coverage at a reasonable cost.

(3) Notwithstanding subsection (2), if a parent fails to obtain or maintain health care coverage for the parent's child as ordered by the court, the office of the friend of the court shall, as applicable, do either of the following:

(3) If there is no dispute regarding a child's custody, the court shall include in an order for support issued under this act specific provisions governing custody of and parenting time for the child in accordance with the child custody act of 1970, 1970 PA 91, MCL 722.21 to 722.31. An employee of the regional entity shall not, by reason of the transfer, be placed in a worse position for a period of 1 year with respect to worker's compensation, pension, seniority, wages, sick leave, vacation, health and welfare insurance, or another benefit that the employee had as an employee of the participating community mental health services program. A transferred employee's accrued benefits or credits shall not be diminished by reason of the transfer.

(c) If a participating community mental health services program was the designated employer or participated in the development of a collective bargaining agreement, the regional entity assumes and is bound by the existing collective bargaining agreement. Establishing a regional entity does not adversely affect existing rights or obligations contained in the existing collective bargaining agreement. For the purposes of this subsection, "participation in the development of a collective bargaining agreement" means that a representative of the participating community mental health services program actively participated in bargaining sessions with the employer representative and union or was consulted during the bargaining process.

The People of the State of Michigan enact:

330.1226 Board; powers and duties; appointment of executive director.

Sec. 226. (1) The board of a community mental health services program shall do all of the following:

(a) Annually conduct a needs assessment to determine the mental health needs of the residents of the county or counties it represents and identify public and nonpublic services

necessary to meet those needs. Information and data concerning the mental health needs of individuals with developmental disability, serious mental illness, and serious emotional disturbance shall be reported to the department in accordance with procedures and at a time established by the department, along with plans to meet identified needs. It is the responsibility of the community mental health services program to involve the public and private providers of mental health services located in the county or counties served by the community mental health program in this assessment and service identification process. The needs assessment shall include information gathered from all appropriate sources, including community mental health waiting list data and school districts providing special education services.

(b) Annually review and submit to the department a needs assessment report, annual plan, and request for new funds for the community mental health services program. The standard format and documentation of the needs assessment, annual plan, and request for new funds shall be specified by the department.

(c) In the case of a county community mental health agency, obtain approval of its needs assessment, annual plan and budget, and request for new funds from the board of commissioners of each participating county before submission of the plan to the department. In the case of a community mental health organization, provide a copy of its needs assessment, annual plan, request for new funds, and any other document specified in accordance with the terms and conditions of the organization's inter-local agreement to the board of commissioners of each county creating the organization. (d) Submit the needs assessment, annual plan, and request for new funds to the department by the date specified by the department. The submission constitutes the community mental health services program's official application for new state funds.

(e) Provide and advertise a public hearing on the needs assessment, annual plan, and request for new funds before providing them to the county board of commissioners.

(f) Submit to each board of commissioners for their approval an annual request for county funds to support the program. The request shall be in the form and at the time determined by the board or boards of commissioners.

(g) Annually approve the community mental health services program's operating budget for the year.

(h) Take those actions it considers necessary and appropriate to secure private, federal, and other public funds to help support the community mental health services program.

(i) Approve and authorize all contracts for the provision of services.

(j) Review and evaluate the quality, effectiveness, and efficiency of services being provided by the community mental health services program. The board shall identify specific performance criteria and standards to be used in the review and evaluation. These shall be in writing and available for public inspection upon request.

(k) Subject to subsection (3), appoint an executive director of the community mental health services program who meets the standards of training and experience established by the department.

(*l*) Establish general policy guidelines within which the executive director shall execute the community mental health services program.

(m) Require the executive director to select a physician, a registered professional nurse with a specialty certification issued under section 17210 of the public health code, 1978 PA 368, MCL 333.17210, or a licensed psychologist to advise the executive director on treatment issues.

(2) A community mental health services program may do all of the following:

(c) Carry forward the operating margin up to 5% of the community mental health services program's state share of the operating budget for the fiscal years ending September 30, 2000, 2001, 2002, 2003, and 2004. As used in this subdivision, "operating margin" means the excess of state revenue over state expenditures for a single fiscal year exclusive of capitated payments under a managed care system. In the case of a community mental health authority, this carryforward is in addition to the reserve accounts described in section 205(4)(h).

(d) Pursue, develop, and establish partnerships with private individuals or organizations to provide mental health services.

(e) Share the costs or risks, or both, of managing and providing publicly funded mental health services with other community mental health services programs through participation in risk pooling arrangements, reinsurance agreements, and other joint or cooperative arrangements as permitted by law.

The People of the State of Michigan enact:

330.1232b Specialty prepaid health plans.

Sec. 232b. (1) The department shall establish standards for community mental health services programs designated as specialty prepaid health plans under the medicaid managed care program described in section 109f of the social welfare act, 1939 PA 280, MCL 400.109f. The standards established under this section shall reference applicable federal regulations related to medicaid managed care programs and specify additional state requirements for specialty prepaid health plans. The standards established under this section shall be published in a departmental bulletin or by an updating insert to a departmental manual.

(2) As a condition for contracting and for receiving payment under the medicaid managed care program, a community mental health services program designated as a specialty prepaid health plan shall certify both of the following:

(a) That the program is in substantial compliance with the standards promulgated by the department and with applicable federal regulations.

(b) That the program has established policies and procedures to monitor compliance with the standards promulgated by the department and with applicable federal regulations and to ensure program integrity.

(3) The department shall conduct an annual review of all community mental health services programs designated as specialty prepaid health plans to verify the declarations made by the community mental health services program and to monitor compliance with the standards promulgated for specialty prepaid health plans and with applicable federal

regulations. The annual review process established under this section shall be published in a departmental bulletin or by an updating insert to a departmental manual.

(4) The department may conduct separate reviews of a specialty prepaid health plan in response to beneficiary complaints, financial status considerations, or health and safety concerns.

(5) Contracts with specialty prepaid health plans shall indicate the sanctions that the department may invoke if it makes a determination that a specialty prepaid health plan is not in substantial compliance with promulgated standards and with established federal regulations, that the specialty prepaid health plan has misrepresented or falsified information reported to the state or to the federal government, or that the specialty prepaid health plan has failed substantially to provide necessary covered services to recipients under the terms of the contract. Sanctions may include intermediate actions including, but not limited to, a monetary penalty imposed on the administrative and management operation of the specialty prepaid health plan, imposition of temporary state management of a community mental health services program operating as a specialty prepaid health plan, or termination of the department's medicaid managed care contract with the community mental health services program.

(SB 3)

AN ACT to amend 1947 PA 179, entitled "An act to provide for the incorporation of certain municipal authorities for the collection or disposal, or both, of garbage or rubbish, or both, and for the operation of a dog pound; and to prescribe the powers, rights and duties thereof," (MCL 123.301 to 123.310) by adding section 11.

The People of the State of Michigan enact:

123.311 Entering or extending contract, obligation, bond, or note; sale or transfer of property; determination of current market value; withdrawal of member from qualified authority; payment; dissolution of authority; payment of environmental activities; distribution of assets; articles of incorporation; definitions.

Sec. 11. (1) After the effective date of the 2002 amendatory act that added this section, a qualified authority shall not enter into or extend any contract, obligation, bond, or note

that has, or as extended would have, a termination date after the termination date of the authority's most recently approved contract under section 5(1), unless the contract, obligation, bond, or note or extension thereof, is approved by all members.

(2) Within 90 days after a qualified authority decides to sell or transfer real property located within the territory of a member or former member, the member or former member may exercise the right of first refusal to purchase the real property at a price not less than the greater of the real property's current market value or the highest price offered for the real property in an arm's length, bona fide offer by a third party. The current market value of such real property shall be determined by an appraiser acceptable to the authority and the interested member. Any dispute regarding a determination of current market value shall be resolved by independent arbitration.

(3) Unless its withdrawal would cause an impairment of any contract, a member may withdraw from a qualified authority if all of the following requirements are met:

(a) The legislative body of the member adopts a resolution stating that the authority is no longer effectively serving the member's needs and declaring its decision to withdraw from the authority on a date specified in the resolution.

(b) The withdrawal date specified in the resolution under subdivision (a) is not either of the following:

(*i*) Less than 60 days after the date the resolution is adopted.

(*ii*) Within 1 year before the termination date of the authority's most recently approved contract under section 5(1) unless the filings required by subdivision (c) are made more than 1 year before the specified withdrawal date.

(c) The clerk of the member promptly files a certified copy of the resolution adopted under subdivision (a) with the authority and the secretary of state.

(4) By the withdrawal date, the withdrawing member, at its option, either shall pay to the authority the amount of the withdrawing member's fair share of the negative equity of the authority, if any, determined as of the withdrawal date, or shall provide the authority with a bond or other independent, insured guarantee that any such amount will be paid not later than 30 days after the expiration date of the authority's most recently approved contract under section 5(1). This subsection does not relieve the withdrawing member from either of the following:

(a) The member's fair share of any obligation to reimburse the authority following the member's withdrawal for any environmental liabilities subsequently incurred by the authority, to the extent that the environmental liabilities result from the authority's disposal of the withdrawn former member's municipal solid waste, recyclable materials, or yard waste.

(b) The member's payment of any money damages, owed on account of its or the authority's default under a contract under section 6 if the default and damages result directly and solely from the member's withdrawal and are necessary to prevent an impairment of the contract. If 2 or more members withdraw, they are jointly liable for damages under this subdivision.

(c) The member's fair share of any obligation to reimburse the authority following the member's withdrawal for liability incurred by the authority as a result of litigation or arbitration proceedings that were initiated before the date of withdrawal, or litigation or arbitration involving a cause of action arising before the date of withdrawal, if the total amount of the member's fair share of the obligation cannot be exactly determined by the date of withdrawal.

(5) At the option of the authority, by the withdrawal date, the authority shall pay to the withdrawing member the withdrawing member's fair share of the equity of the authority, determined as of the withdrawal date, or shall provide the withdrawing member with a bond or other independent, insured guarantee that such amount will be paid no later than 30 days after the expiration date of the authority's most recently approved contract under section 5(1). If an authority elects to provide such a bond or other guarantee, the withdrawn former member may direct the bonding company or guarantor at any time thereafter to pay from the bond or other guarantee any obligation or liability owed to the authority by the withdrawn former member, including, but not limited to, an obligation described in subsection (4)(a) or (b).

(6) Unless it would cause an impairment of an authority contract under section 6, a qualified authority shall dissolve if both of the following requirements are met:

(a) The legislative bodies of 60% of the members, weighted by the percentage of recent waste delivery, each adopt a resolution stating that the authority is no longer effectively serving the public good for which it was created and directing that the authority be dissolved pursuant to this subsection and subsections (7) to (9).

(b) The clerk of each member whose legislative body adopts a resolution under subdivision (a) promptly files a certified copy of the resolution with the authority and the secretary of state.

(7) Within 6 months after the requirements of subsection (6) are met, the qualified authority shall establish a mechanism to manage and pay for environmental activities required under existing law and cease the activities described in section 1 for which it was incorporated. Within 6 months after ceasing activities described in section 1, the authority shall settle its accounts, including, but not limited to, all vested or accrued employee benefits, employment contracts, collective bargaining agreements, and unemployment compensation, and, subject to subsection (2), shall sell all of its property. In addition, the authority shall establish a mechanism for handling future environmental liabilities. A qualified authority with respect to which the requirements of subsection (6) have been met and a new authority incorporated under subsection (10) may agree to the assignment of contracts from the qualified authority to the new authority.

(8) After the requirements of subsection (7) are met, the qualified authority shall distribute to each member that member's fair share of the authority's remaining assets.

(9) Upon distribution of the qualified authority's assets under subsection (8), both of the following apply:

(a) The authority is dissolved.

(b) All liabilities of each member and former member of the authority are terminated, except for both of the following:

(*i*) Any environmental liabilities attributed to the authority to the extent that the environmental liabilities result from the authority's disposal of the member's or former member's fair share of municipal solid waste, recyclable materials, or yard waste.

(*ii*) The member's fair share of any obligation to reimburse the authority following the dissolution for liability incurred by the authority as a result of litigation or arbitration proceedings that were initiated before the date of dissolution, or litigation or arbitration involving a cause of action arising before the date of dissolution, if the total amount of the member's fair share of the obligation cannot be exactly determined by the time the requirements of subsection (7) are met.

(10) Subsections (6) to (9) do not prevent the incorporation of a new authority by some or all of the members or former members of an authority with respect to which the requirements of subsection (6) have been met.

(11) If, after the effective date of the amendatory act that added this section, a qualified authority is incorporated or amends its articles of incorporation, the qualified authority shall include in its articles the provisions of subsections (3) to (9).

(12) As used in this act:

(j) "Percentage of recent waste delivery" means the amount of municipal solid waste, recyclable materials, and yard waste generated within a particular member's territory and disposed of by the authority during the latest full calendar year for which the authority disposed of such materials or waste generated within the territory of that member, divided by the sum of such amounts for all members, as determined, in the event of a dispute, by independent arbitration.

(h) Provision for determining the existence and extent of any surplus in any marketing period for any agricultural commodity or agricultural commodity input, or of any grade, size, or quality of any agricultural commodity or agricultural commodity input, and providing for handling and equitably sharing the cost of such surplus handling among the producers of the agricultural commodity or agricultural commodity input. Before provisions under this subdivision are included in any marketing program, particular attention shall be given to determining that Michigan producers affected by the provisions produce a sufficient proportion of the product covered by the provisions for the program to be effective in the particular market toward which the provisions would be applicable.

(i) Provision for payment of assessments for all usable products purchased from producers according to established grades.

(2) A proposed marketing program shall include definition of terms, purpose, maximum rate of an assessment, method of collection of the assessment, and nominating procedures, qualifications, representation, and size of the committee as well as other provisions considered necessary by a committee. This subsection does not invalidate any marketing programs established under this act before the effective date of the amendatory act that added this sentence that are in substantial compliance with this act as determined by the director.

(3) A marketing agreement or marketing program that allows the committee to contract with organizations, agencies, governmental entities, institutions of higher education, individuals, or other legal entities in order to carry out the activities described in this act or allows the committee to award grants may provide in the marketing agreement or marketing program that the marketing program or marketing agreement be allowed to participate in the income or earnings of any royalties or license fees derived from the results of those activities. However, the marketing program or marketing agreement shall provide that the royalties or license fees be utilized only in the manner provided for in that marketing program or marketing agreement.

290.654 Inspection and grading; approved inspectors.

Sec. 4. For the purpose of this act, all inspection and grading shall be performed by or under the supervision of trained inspectors approved by the director or by inspectors supplied under cooperative agreement between the department and the United States department of agriculture.

290.655 Assessments to defray program and administrative costs; collection; maximum assessment to be specified; collection by processors, distributors, or handlers; disposition; trust fund; complaint; notice of due date; ability to borrow money; assessment for loans and interest.

Sec. 5. (a) Assessments shall be collected from each producer of a marketable agricultural commodity produced in this state and directly affected by a marketing program issued for the agricultural commodity to defray all program and administrative costs

except for nonparticipating producers as provided for under section 3(1)(k). Assessments shall be collected on agricultural commodity inputs in this state directly affected by a marketing program established for the agricultural commodity input in order to defray all marketing program and administrative costs. Subject to approval by the director, assessments may also be collected from either producers or distributors, or both, and manufacturers, of a marketable agricultural commodity produced in this state or an agricultural commodity input used in this state if the director determines that the unique nature of the agricultural commodity or agricultural commodity input or the industry structure warrants the assessment of both the producer and the distributors of the agricultural commodity or agricultural commodity input.

(b) Each marketing program shall specify the maximum assessment on an agricultural commodity or an agricultural commodity input and may provide for any other assessment mechanism as approved by the director to be collected to cover program and administrative costs.

(c) Pursuant to the marketing program and for convenience, the processors, distributors, or handlers of the agricultural commodity or agricultural commodity input may be required to collect and remit producer assessments to the committee at no cost to the marketing program unless the marketing program expressly provides for the payment of a reasonable fee for making the deduction and remittance.

In the case of a marketing program that provides for the imposition of an assessment, the processors, distributors, or handlers dealing with the producer shall collect the assessment from the producer by deducting the assessment from the gross amount owing to the producer and shall remit the assessment and data to the committee within a reasonable time period as established by the committee. A processor, distributor, or handler who fails to deduct or remit the assessment is liable to the committee for any assessments not deducted or remitted. If a processor, distributor, or handler is not involved at the first point of sale of an agricultural commodity or agricultural commodity input, or is not within this state and the assessment is not deducted and remitted, the producer shall remit the assessments to the committee on all sales of the agricultural commodity or agricultural commodity input, subject to a marketing program and within a time period specified by the committee.

(d) All assessments deducted or collected and held by a processor, distributor, or handler for over 92 days shall be deposited in a separate interest bearing escrow account held jointly with the marketing program committee and not commingled with other funds. Interest accrued in the escrow account shall be forwarded to the committee.

(e) All assessments collected or deducted shall be considered trust funds and be remitted quarterly or more frequently if required by the marketing program to the appropriate committee.

(f) A committee may file a written complaint with the director documenting that a processor, distributor, handler, or producer has failed to deduct or remit any assessment due to the committee pursuant to a marketing program. Upon receipt of such a complaint, the director shall conduct an investigation of the allegations. If, after investigation, the director finds that the processor, distributor, handler, or producer has failed to deduct or remit an assessment to the committee, the director shall request by certified mail the processor, distributor, handler, or producer to remit the assessment within 10 days after the director determines that a deduction or remittance was not made. In the case of the failure to deduct an assessment, the director shall compute the amount that reasonably should have been deducted and impose an assessment in that amount. If the assessment is not remitted within 30 days after the request or is not in compliance with a written

agreement for full payment, the director may file an action in a court of competent jurisdiction to collect the assessment. Venue in such an action is the place where the processor, distributor, handler, or producer has its primary place of business. In any action to recover an assessment under this subsection, if the director prevails, the court shall award to the director all costs and expenses in bringing the action, including, but not limited to, reasonable and actual attorney fees, court costs, and audit expenses. If the director does not prevail, he or she shall charge the committee for reasonable and actual attorney fees, court costs, and expenses incurred in bringing about the action.

(g) Each committee shall specify the date the assessment is due in the account of the marketing program on that production. Producers, processors, distributors, or handlers of the affected agricultural commodity or agricultural commodity input shall be given reasonable notice of the due date.

(h) A committee established pursuant to this act has the ability to borrow money in anticipation of the receipt of assessments if the following conditions are met:

(*i*) The loan will not be requested or authorized, or will not mature, within 90 days before a resubmittal or termination referendum for the marketing program.

(*ii*) The amount of the loan does not exceed 50% of the annual average assessment revenue during the previous 3 years. In the case of a marketing program that has been in existence for less than 3 years, the loan does not exceed 25% of the projected annual assessment revenue.

(*iii*) The loan repayment period does not exceed the life of the marketing program.

(*iv*) The loan has the prior written consent of the director. The director may request an audit of the committee by the auditor general before approving the loan.

(i) The director shall assess against the agricultural commodity input or the producers of the agricultural commodity all outstanding loans, including interest, approved under subsection (h) if the marketing program is inactive or is terminated.

290.657 Committee; establishment; appointment, qualifications, and terms of members; reapportionment of districts; expenses and per diem; duties and responsibilities; conducting business at public meeting; notice of meeting; availability of writings to public; exemption of certain information from freedom of information act.

Sec. 7. (1) A marketing program shall provide for the establishment of a committee to consist of an odd number of members which shall be not less than 5 and not more than 13.

(2) The members of the committee shall be appointed by the governor with the advice and consent of the senate from nominations received from the producers and handlers or processors of the agricultural commodity or agricultural commodity input for which the marketing program is established. Nominating procedures, qualifications, representation, term of office, and size of the committee shall be prescribed in the marketing program for which the committee is appointed. Each committee shall be composed of producers and handlers or processors who are directly affected by the marketing program in the proportion of representation as prescribed by the program. The term of office of a committee member is 3 years or until such time as his or her successor is appointed and qualified.

(3) The director or his or her representative shall serve as a nonvoting ex officio member. Additional nonvoting ex officio members may serve if approved for in a specific marketing program.

(4) A committee, with the advice and consent of the director and the commission of agriculture, may reapportion either the number of committee members or member

districts, or both. Reapportionment of the districts shall be on the basis of production or industry representation. The reapportionment may be commenced 30 days after the effective date of the amendatory act that added this subsection. Reapportionment of either members or districts shall not occur more often than twice in any 5-year period and shall not occur within 6 months before a referendum.

(5) After the reapportionment described in subsection (4), if the residence of a member of the committee falls outside of the district for which he or she serves on the committee and falls within the district for which another member serves on the committee, then both members shall continue to serve on the committee for a term equal to the remaining term of the member who served for the longest period of time. After the reapportionment described in subsection (4), if a district is created in which no member serving on the committee resides, then a member shall be selected in the manner as prescribed in each program. After a reapportionment or redistricting, a committee may temporarily have more members than prescribed in the marketing program until the expiration of the term of the longest serving member from that district.

(6) A member of a committee is entitled to reimbursement for actual expenses and a per diem payment to be set by the committee not to exceed the commission of agriculture rate while attending meetings of the committee or while engaged in the performance of official responsibilities delegated by the committee.

(7) The duties and responsibilities of a committee shall be prescribed in the order establishing the marketing program and to the extent applicable shall include the following duties and responsibilities:

(a) Developing procedures relating to the marketing program.

(b) Recommending amendments to the marketing program as are considered advisable.

(c) Preparing the estimated budget required for the proper operation of the marketing program.

(d) Developing methods for collecting and auditing the assessments.

(e) Collecting and assembling information and data necessary for proper administration of the marketing program.

(f) Performing other duties necessary for the operation of the marketing program as agreed upon with the director.

(8) The business which a committee may perform shall be conducted at a public meeting of the committee held in compliance with the open meetings act, 1976 PA 267, MCL 15.261 to 15.275. Public notice of the time, date, and place of the meeting shall be given in the manner required by the open meetings act, 1976 PA 267, MCL 15.261 to 15.275.

(9) Subject to section 10(b) and except as otherwise provided in this subsection, a writing prepared, owned, used, in the possession of, or retained by a committee in the performance of an official function shall be made available to the public in compliance with the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246. Except for information regarding penalties levied under this act, information relating to specific assessments to a specific person under a marketing program as well as names and addresses of producers shall be exempt from disclosure to any other person or committee. This subsection does not prevent the director or the department from obtaining information necessary to confirm compliance with this act and does not prevent the director or the department from disclosing statistical information so long as that disclosure does not reveal specific assessments or production levels of any producer, handler, or processor.

290.658 Disposition of moneys or assets collected; expenditures.

Sec. 8. (1) Money, assets, or other items of value collected or received under this act, whether collected from assessments, received as grants or gifts, or earned from royalties

or license fees or derived from any activities performed by another organization, agency, or individual and conducted under a marketing program, are not state money and shall be deposited in a financial institution in this state. The money shall be allocated to the marketing program under which it is collected or received and shall be disbursed only for the necessary expenses incurred for the marketing program according to the rules established under the marketing program and for grants authorized under a marketing agreement or marketing program.

(2) Except as otherwise provided for in this subsection, all expenditures shall be audited by a certified public accountant at least annually and within 30 days after completion of the audit, the certified public accountant shall give copies of the audit to the members of the committee and the director. An activity and financial report shall be published annually and made available to interested parties. A committee with annual assets of $50,000.00 or less, based upon a 3-year average, shall be audited twice between referenda and shall have a financial review conducted in those years where it is not audited under this subsection.

290.659 Refunds.

Sec. 9. (1) Money remaining from the assessments collected under a marketing program may be refunded at the close of any marketing season upon a pro rata basis to all persons from whom assessments were collected. If the committee finds that the money may be necessary to defray the cost of operating a marketing program in succeeding marketing seasons, all or any portion of the money may be carried over into succeeding seasons.

(2) Upon termination of any marketing program, all money remaining and not required to defray the expenses of operating the marketing program shall be refunded on a pro rata basis to persons from whom assessments were collected. If the committee finds that the refundable amount is so small as to make impracticable the computation and refunding of the money, it may be used to defray the expenses incurred by the department in the formulation, adoption, administration, or enforcement of any subsequent marketing program for the commodity or for agricultural research for that commodity. In the case of money earned from royalties, license fees, or other assets that may be collected or received after termination of a marketing program, that money shall be allocated to any institution of higher education engaged in agricultural or nutritional research, as determined by the director.

290.660 Petition for program or amendment; notice; public hearing; decision by director; producers.

Sec. 10. (a) Whenever the director has received a petition signed by 25%, or 200, whichever is less, of the producers of an agricultural commodity regarding the adoption of a marketing program or amendments to an existing marketing program, he or she shall give notice of a public hearing on the proposed marketing program or the proposed amendments to an existing marketing program. After receiving a petition for the establishment of a marketing program, the director may appoint a temporary producer committee to develop the proposed marketing program to be considered at the public hearing.

(b) The director may require all handlers or processors of the agricultural commodity or distributors of the agricultural commodity input as individuals or through their trade associations to file with him or her within 30 days a report, properly certified, showing the correct names and addresses of all producers of the agricultural commodity from whom such handler, processor, or distributor received such agricultural commodity or agricultural commodity input in the marketing season next preceding the filing of such report. The director shall not make public or provide to anyone for private use the information

contained in the individual reports of handlers or processors filed with the director pursuant to this section.

(c) The director shall issue a decision within 45 days after the close of the hearing based upon his or her findings and deliver to all parties of record appearing at the hearing and any other interested parties upon the request of those interested parties, by mail or otherwise, copies of the findings and recommendation approving or disapproving of the proposed marketing program. The recommendation shall contain the text in full of any proposed marketing program or amendment of an existing marketing program. The recommendation shall be substantially within the purview of the notice of hearings and shall be supported by evidence taken at the hearing or by documents of which the director is authorized to take official notice.

290.661 Referendum to determine assent of producers and processors.

Sec. 11. (1) After recommending the adoption or amendment of a marketing program, the director shall determine by a referendum whether the affected producers assent to the proposed action. If provisions prescribed in section 3(1)(h) are part of the proposed marketing program, the director shall also determine by a referendum if processors assent to the proposed action. The director shall conduct the referendum within 45 days after the issuance of the recommendation. The affected producers shall be considered to have assented to the proposal if more than 50% by number of those voting representing more than 50% of the volume of the affected agricultural commodity produced by those voting assent to the proposal. The affected processors, if provisions prescribed in section 3(1)(h) are in the marketing program, shall be considered to have assented to the proposal if more than 50% by number of those voting representing more than 50% of the volume of the affected agricultural commodity processed by those voting assent to the proposal.

(2) A marketing program involving provisions prescribed in section 3(1)(h) shall not be instituted without assent of both the affected producers and the affected processors.

290.667 Marketing agreements with producers, handlers, and others; effective upon signing.

Sec. 17. (1) The director may enter into marketing agreements with producers, handlers, or other parties where such agreements will tend to supplement or aid in the accomplishment of the objectives of a marketing program.

(2) The execution of a marketing agreement does not affect the adoption, administration, or enforcement of any marketing program under this act. The director may hold a concurrent hearing upon a proposed marketing agreement and a proposed marketing program in the manner provided in this act, giving due notice and opportunity for hearing for a marketing agreement.

(3) When a marketing agreement is proposed for any agricultural commodity or agricultural commodity input, the director shall call a public hearing. The director's decision to enter into or not enter into a marketing agreement is subject to the same requirements for justification on the basis of factual evidence introduced at the hearing. A marketing agreement, if recommended by the director, shall become effective when signed by the director and the other parties to the agreement.

290.669 Action to enforce compliance; injunction; jurisdiction.

Sec. 19. The director may institute an action necessary to enforce compliance with this act, a rule promulgated under this act, or a marketing agreement or program adopted under this act and committed to his or her administration. In addition to any other remedy

provided by law, the director may apply for relief by injunction to protect the public interest without being compelled to allege or prove that an adequate remedy at law does not exist. The application may be made to a court of competent jurisdiction.

290.671 Referendum; requirements; exception; time period.

Sec. 21. (1) Except as otherwise provided in subsection (2), all marketing programs established under this act shall be resubmitted to a referendum of the producers during each fifth year of operation.

(2) A producer referendum under subsection (1) is not required for a marketing program if all the following circumstances exist:

(a) The agricultural commodity or agricultural commodity input subject to the marketing program is involved in a commodity checkoff program established pursuant to federal law.

The People of the State of Michigan enact:

460.10d Electric utility with 1,000,000 or more retail customers; rates; recovery of costs; utility using securitization financing; compliance with federal rules, regulations, and standards; security recovery factor; protective orders; definitions.

Sec. 10d. (1) Except as otherwise provided under subsection (3) or unless otherwise reduced by the commission under subsection (5), the commission shall establish the residential rates for each electric utility with 1,000,000 or more retail customers in this state as of May 1, 2000 that will result in a 5% rate reduction from the rates that were authorized or in effect on May 1, 2000. Notwithstanding any other provision of law or commission order, rates for each electric utility with 1,000,000 or more retail customers

established under this subsection become effective on June 5, 2000 and remain in effect until December 31, 2003 and all other electric retail rates of an electric utility with 1,000,000 or more retail customers authorized or in effect as of May 1, 2000 shall remain in effect until December 31, 2003.

(2) On and after December 31, 2003, rates for an electric utility with 1,000,000 or more retail customers in this state as of May 1, 2000 shall not be increased until the earlier of December 31, 2013 or until the commission determines, after notice and hearing, that the utility meets the market test under section 10f and has completed the transmission expansion provided for in the plan required under section 10v. The rates for commercial or manufacturing customers of an electric utility with 1,000,000 or more retail customers with annual peak demands of less than 15 kilowatts shall not be increased before January 1, 2005. There shall be no cost shifting from customers with capped rates to customers without capped rates as a result of this section. In no event shall residential rates be increased before January 1, 2006 above the rates established under subsection (1).

(3) Subsections (1) and (2) do not apply to rates or charges authorized by the commission under subsection (13).

(4) Beginning January 1, 2004, annual return of and on capital expenditures in excess of depreciation levels incurred during and before the time period described in subsection (2), and expenses incurred as a result of changes in taxes, laws, or other state or federal governmental actions incurred by electric utilities during the period described in subsection (2), shall be accrued and deferred for recovery. After notice and hearing, the commission shall determine the amount of reasonable and prudent costs, if any, to be recovered and the recovery period, which shall not exceed 5 years, and shall not commence until after the expiration of the period described in subsection (2).

(5) If the commission authorizes an electric utility to use securitization financing under section 10i, any savings resulting from securitization shall be used to reduce retail electric rates from those authorized or in effect as of May 1, 2000 as required under subsection (1). A rate reduction under this subsection shall not be less than the 5% required under subsection (1). The financing order may provide that a utility shall only issue securitization bonds in an amount equal to or less than requested by the utility, but the commission shall not preclude the issuance of an amount of securitization bonds sufficient to fund the rate reduction required under subsection (1).

(6) Except for savings assigned to the low-income and energy efficiency fund under subsection (7), securitization savings greater than those used to achieve the 5% rate reduction under subsection (1) shall be allocated by the commission to further rate reductions or to reduce the level of any charges authorized by the commission to recover an electric utility's stranded costs. The commission shall allocate approved securitization, transition, stranded, and other related charges and credits in a manner that does not result in a reallocation of cost responsibility among the different customer classes.

(7) If securitization savings exceed the amount needed to achieve a 5% rate reduction for all customers, then, for a period of 6 years, 100% of the excess savings, up to 2% of the electric utility's commercial and industrial revenues, shall be allocated to the low-income and energy efficiency fund administered by the commission. The commission shall establish standards for the use of the fund to provide shut-off and other protection for low-income customers and to promote energy efficiency by all customer classes. The commission shall issue a report to the legislature and the governor every 2 years regarding the effectiveness of the fund.

(8) Except as provided under subsection (3), until the end of the period described in subsection (2), the commission shall not authorize any fees or charges that will cause the residential rate reduction required under subsection (1) to be less than 5%.

(9) If an electric utility serving less than 1,000,000 retail customers in this state as of May 1, 2000 issues securitization bonds as allowed under this act, it shall have the same rights, duties, and obligations under this section as an electric utility serving 1,000,000 or more retail customers in this state as of May 1, 2000.

(10) The commission shall take the necessary steps to ensure that all electrical power generating facilities in this state comply with all rules, regulations, and standards of the federal environmental protection agency regarding mercury emissions.

(11) A covered utility may apply to the commission to recover enhanced security costs for an electric generating facility through a security recovery factor. If the commission action under subsection (13) is approval of a security recovery factor, the covered utility may recover those enhanced security costs.

(12) The commission shall require that notice of the application filed under subsection (11) be published by the covered utility within 30 days from the date the application was filed. The initial hearing by the commission shall be held within 20 days of the date the notice was published in newspapers of general circulation in the service territory of the covered utility.

(13) The commission may issue an order approving, rejecting, or modifying the security recovery factor. If the commission issues an order approving a security recovery factor, that order shall be issued within 120 days of the initial hearing required under subsection (12). In determining the security recovery factor, the commission shall only include costs that the commission determines are reasonable and prudent and that are jurisdictionally assigned to retail customers of the covered utility in this state. The costs included shall be net of any proceeds that have been or will be received from another source, including, but not limited to, any applicable insurance settlements received by the covered utility or any grants or other emergency relief from federal, state, or local governmental agencies for the purpose of defraying enhanced security costs. In its order, the commission shall designate a period for recovery of enhanced security costs, including a reasonable return on the unamortized balance, over a period not to exceed 5 years. The security recovery factor shall not be less than zero.

(14) Within 60 days of the effective date of the amendatory act that added this subsection, the commission shall by order prescribe the form for the filing of an application for a security recovery factor under subsection (11). If the commission or its designee determines that a filing is incomplete, it shall notify the covered utility within 10 days of the filing.

(15) Records or other information supplied by the covered utility in an application for recovery of security costs under subsection (11) that describe security measures, including, but not limited to, emergency response plans, risk planning documents, threat assessments, domestic preparedness strategies, and other plans for responding to acts of terrorism are not subject to the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246, and shall be treated as confidential by the commission.

(16) The commission shall issue protective orders as are necessary to protect the information found by the commission to be confidential under this section.

(17) As used in this section:

(a) "Act of terrorism" means a willful and deliberate act that is all of the following:

(*i*) An act that would be a violent felony under the laws of this state, whether or not committed in this state.

(*ii*) An act that the person knows or has reason to know is dangerous to human life.

(*iii*) An act that is intended to intimidate or coerce a civilian population or influence or affect the conduct of government or a unit of government through intimidation or coercion.

(b) "Covered utility" means an electric utility subject to the rate freeze provisions of subsection (1), the rate cap provisions of subsection (2), or the rate provisions of commission orders in case numbers U-11181-R and U-12204.

(c) "Enhanced security costs" means reasonable and prudent costs of new and enhanced security measures incurred before January 1, 2006 for an electric generating facility by a covered utility that are required by federal or state regulatory security requirements issued after September 11, 2001 or determined to be necessary by the commission to provide reasonable security from an act of terrorism. Enhanced security costs include increases in the cost of insurance that are attributable to an increased terror related risk and the costs of maintaining or restoring electric service as the result of an act of terrorism.

(d) "Security recovery factor" means an unbundled charge for all retail customers, except for customers of alternative electric suppliers, to recover enhanced security costs that have been approved by the commission.

This act is ordered to take immediate effect.

A determination of true cash value and taxable value is not final until reviewed as provided in this act. For the purpose of arriving at the true cash value and taxable value of the property on the assessment roll, the state board of assessors may personally inspect the property assessed, may consider the reports filed under this act or reports and returns filed in the office of any officer of this state or in the office of any other governmental agency, and any other evidence or information obtained or possessed by the state board of assessors.

(2) In determining the true cash value and taxable value of the property of a railroad, union station, and depot company that owns, leases, operates, or uses lines partly within or partly outside of this state, the state board of assessors shall consider the proportion of the number of miles of all track controlled or used by that company within this state to the entire mileage of all track controlled or used by that company both within and outside of this state. The state board of assessors shall also consider any other uniform factors that reflect a fair allocation of value to this state.

(3) For tax years that begin before January 1, 2006, in determining the true cash value and taxable value of the property of a telegraph company or telephone company that owns, leases, operates, or uses lines partly within and partly outside of this state, the state board of assessors shall only consider the proportion of the number of miles of telegraph or telephone lines controlled or used by that company within this state to the entire mileage of telegraph or telephone lines controlled or used by that company both within and outside of this state. The state board of assessors shall also consider any other uniform factors that reflect a fair allocation of value to this state.

(4) In determining the true cash value and taxable value of the property of an express company, the state board of assessors shall determine the actual value of the entire

amount of the capital stock and bonded indebtedness of that express company. From that amount, the state board of assessors shall determine and deduct the actual value of all real property owned by that express company, and the actual value of all personal property owned by that express company that is not used in the express business of that express company. The state board of assessors shall then divide the remaining amount by the total number of miles, as determined by the state board of assessors, of railroad, stage, water, and other routes over which the company did business to obtain the value per mile. The state board of assessors shall then multiply the value per mile by the total number of miles of the routes within this state, as determined by the state board of assessors. The state board of assessors shall then add to the product of that calculation the value of all real estate owned by that express company in this state, as determined by the state board of assessors. The sum of this calculation is the actual value of the property of that express company subject to assessment and taxation in this state.

(5) If the state board of assessors determines that the ocean routes of a company are so different in character from its other routes that the mileage basis of apportionment of the value of the entire property to be apportioned in this state would be unfair if the full mileage of the ocean routes were included, the state board of assessors may make an allowance for that company's ocean routes to bring those ocean routes to parity with that company's other routes. In making this determination, the state board of assessors shall consider the relative mileage values and earning capacities of the ocean routes and the other routes and shall require special reports of the character, mileage, earnings, and value of the ocean routes. The state board of assessors may exclude from its determination of aggregate mileage any ocean routes on which the express company fails to furnish the requisite reports, but no further penalty shall be imposed for the failure to report the mileage of ocean routes.

(6) If a company claims in writing that the mileage basis of apportionment of the value of the entire property to be attributed to this state is unfair, the state board of assessors shall make the apportionment that in its judgment is fair. In making that apportionment, the state board of assessors shall consider the mileage within and outside of this state, making any necessary allowance for ocean mileage as provided in this section.

(7) In determining the true cash value and taxable value of the property in this state of car loaning, stock car, refrigerator, fast freight lines, and other car companies, and other companies owning, leasing, running, or operating cars subject to taxation under this act, the state board of assessors shall consider the proportion of the aggregate car mileage made or run by the entire number of cars owned or operated by a company to the car mileage made or run by the entire number of cars owned or operated by that company within this state.

This act is ordered to take immediate effect.

The department may suspend or revoke the approval of a person for a violation of this article or of the rules promulgated under this article. A person shall not represent that its students are assured of passing an examination required by the department. Sec. 1a. (1) A home solicitation sale shall not be made by telephonic solicitation using in whole or in part a recorded message. A person shall not make a telephone solicitation that consists in whole or in part of a recorded message.

(2) Within 120 days after the effective date of the amendatory act that added this subsection, the commission shall do 1 of the following:

(a) Establish a state do-not-call list. All of the following apply if the commission establishes a do-not-call list under this subdivision:

(*i*) The commission shall publish the do-not-call list quarterly for use by telephone solicitors.

(*ii*) The do-not-call list fund is created in the state treasury. Money received from fees under subparagraph (*iii*) shall be credited to the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments. Money remaining in the fund at the end of a fiscal year shall be carried over in the fund to the next and succeeding fiscal years. Money in the fund may be appropriated to the commission to cover the costs of administering the do-not-call list, but may not be appropriated to compensate or reimburse a vendor designated under subdivision (b) to maintain a do-not-call list under that subdivision.

(*iii*) The commission shall establish and collect 1 or both of the following fees to cover the costs to the commission for administering the do-not-call list:

(A) Fees charged to telephone solicitors for access to the do-not-call list.

(B) Fees charged to residential telephone subscribers for inclusion on the do-not-call list. The commission shall not charge a residential telephone subscriber a fee of more than $5.00 for a 3-year period.

(*iv*) The commission shall maintain the do-not-call list for at least 1 year. After 1 year, the commission may at any time elect to designate a vendor to maintain a do-not-call list under subdivision (b), in which case subdivision (b) shall apply.

(b) Designate a vendor to maintain a do-not-call list. All of the following apply to a vendor designated to maintain a do-not-call list under this subdivision:

(*i*) The commission shall establish a procedure or follow existing procedure for the submission of bids by vendors to maintain a do-not-call list under this subdivision.

(*ii*) The commission shall establish a procedure or follow existing procedure for the selection of the vendor to maintain the do-not-call list. In selecting the vendor, the commission shall consider at least all of the following factors:

(A) The cost of obtaining and the accessibility and frequency of publication of the do-not-call list to telephone solicitors.

(B) The cost and ease of registration on the do-not-call list to consumers who are seeking inclusion on the do-not-call list.

(*iii*) The commission may review its designation and make a different designation under this subdivision if the commission determines that another person would be better than the designated vendor in meeting the selection factors established under subparagraph (*ii*) or if the designated vendor engages in activities the commission considers contrary to the public interest.

(*iv*) If the commission does not establish a state do-not-call list under subdivision (a), the commission shall comply with the designation requirements of this subdivision for at least 1 year. After 1 year, the commission may at any time elect to establish and maintain a do-not-call list under subdivision (a), in which case subdivision (a) shall apply.

(*v*) Unless the vendor is a governmental entity, a vendor designated by the commission under this subdivision is not a governmental agency and is not an agent of the commission in maintaining a do-not-call list.

(*vi*) The commission and a vendor designated under this subdivision shall execute a written contract. The contract shall include the vendor's agreement to the requirements of this section and any additional requirements established by the commission.

(*vii*) The commission shall not use state funds to compensate or reimburse a vendor designated under this subdivision. The vendor may receive compensation or reimbursement for maintaining a designated do-not-call list under this subdivision only from 1 or both of the following:

(A) Fees charged by the vendor to telephone solicitors for access to the do-not-call list.

(B) Fees charged by the vendor to residential telephone subscribers for inclusion on the do-not-call list. A designated vendor shall not charge a residential telephone subscriber a fee of more than $5.00 for a 3-year period.

(*viii*) The designee do-not-call list fund is created in the state treasury. If the vendor is a department or agency of this state, money received from fees under subparagraph (*vii*) by that vendor shall be credited to the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments. Money remaining in the fund at the end of a fiscal year shall be carried over in the fund to the next and succeeding fiscal years. Money in the fund may be appropriated to that vendor to cover the costs of administering the do-not-call list.

(3) In determining whether to establish a state do-not-call list under subsection (2)(a) or designate a vendor under subsection (2)(b), and in designating a vendor under subsection (2)(b), the commission shall consider comments submitted to the commission from consumers, telephone solicitors, or any other person.

(4) Beginning 90 days after the commission establishes a do-not-call list under subsection (2)(a) or designates a vendor to maintain a do-not-call list under subsection (2)(b), a telephone solicitor shall not make a telephone solicitation to a residential telephone subscriber whose name and residential telephone number is on the then-current version of that do-not-call list.

(5) Notwithstanding any other provision of this section, if an agency of the federal government establishes a federal do-not-call list, within 120 days after the establishment of the federal do-not-call list, the commission shall designate the federal list as the state do-not-call list. The federal list shall remain the state do-not-call list as long as the federal list is maintained. A telephone solicitor shall not make a telephone solicitation to a residential telephone subscriber whose name and residential telephone number is on the then-current version of the federal list.

(6) A telephone solicitor shall not use a do-not-call list for any purpose other than meeting the requirements of subsection (4) or (5).

(7) The commission or a vendor shall not sell or transfer the do-not-call list to any person for any purpose unrelated to this section.

445.111b Information to be provided by person making telephone solicitation; interference with caller ID function prohibited.

Sec. 1b. (1) At the beginning of a telephone solicitation, a person making a telephone solicitation to a residential telephone subscriber shall state his or her name and the full name of the organization or other person on whose behalf the call was initiated and provide a telephone number of the organization or other person on request. A natural person must be available to answer the telephone number at any time when telephone solicitations are being made.

(2) The person answering the telephone number required under subsection (1) shall provide a residential telephone subscriber calling the telephone number with information describing the organization or other person on whose behalf the telephone solicitation was made to the residential telephone subscriber and describing the telephone solicitation.

(3) A telephone solicitor shall not intentionally block or otherwise interfere with the caller ID function on the telephone of a residential telephone subscriber to whom a telephone solicitation is made so that the telephone number of the caller is not displayed on the telephone of the residential telephone subscriber.

445.111c Unfair or deceptive act or practice; violation; penalty.

Sec. 1c. (1) It is an unfair or deceptive act or practice and a violation of this act for a telephone solicitor to do any of the following:

(a) Misrepresent or fail to disclose, in a clear, conspicuous, and intelligible manner and before payment is received from the consumer, all of the following information:

(*i*) Total purchase price to the consumer of the goods or services to be received.

(*ii*) Any restrictions, limitations, or conditions to purchase or to use the goods or services that are the subject of an offer to sell goods or services.

(*iii*) Any material term or condition of the seller's refund, cancellation, or exchange policy, including a consumer's right to cancel a home solicitation sale under section 2 and, if applicable, that the seller does not have a refund, cancellation, or exchange policy.

(*iv*) Any material costs or conditions related to receiving a prize, including the odds of winning the prize, and if the odds are not calculable in advance, the factors used in calculating the odds, the nature and value of a prize, that no purchase is necessary to win the prize, and the "no purchase required" method of entering the contest.

(*v*) Any material aspect of an investment opportunity the seller is offering, including, but not limited to, risk, liquidity, earnings potential, market value, and profitability.

(*vi*) The quantity and any material aspect of the quality or basic characteristics of any goods or services offered.

(*vii*) The right to cancel a sale under this act, if any.

(b) Misrepresent any material aspect of the quality or basic characteristics of any goods or services offered.

(c) Make a false or misleading statement with the purpose of inducing a consumer to pay for goods or services.

(d) Request or accept payment from a consumer or make or submit any charge to the consumer's credit or bank account before the telephone solicitor or seller receives from the consumer an express verifiable authorization. As used in this subdivision, "qualified charitable distribution" means a distribution of assets to a qualified charitable organization by a taxpayer not more than 60 days after the date on which the taxpayer received the assets as a distribution from a retirement or pension plan described in subsection (8)(a). As used in this subdivision and subdivision (c), "dependent" means that term as defined in section 30e.

(c) For tax years beginning after 1999, $1,800.00 for each taxpayer and every dependent of the taxpayer who is a deaf person as defined in section 2 of the deaf persons' interpreters act, 1982 PA 204, MCL 393.502; a paraplegic, a quadriplegic, or a hemiplegic; a person who is blind as defined in section 504; or a person who is totally and permanently disabled as defined in section 522. (7) For each tax year after the 1997 tax year, the personal exemption allowed under subsection (2) shall be adjusted by multiplying the exemption for the tax year beginning in 1997 by a fraction, the numerator of which is the United States consumer price index for the state fiscal year ending in the tax year prior to the tax year for which the adjustment is being made and the denominator of which is the United States consumer price index for the 1995-96 state fiscal year. The resultant product shall be rounded to the

nearest $100.00 increment. The personal exemption for the tax year shall be determined by adding $200.00 to that rounded amount. As used in this section, "United States consumer price index" means the United States consumer price index for all urban consumers as defined and reported by the United States department of labor, bureau of labor statistics. For each year after the 2000 tax year, the exemptions allowed under subsection (3) shall be adjusted by multiplying the exemption amount under subsection (3) for the tax year beginning in 2000 by a fraction, the numerator of which is the United States consumer price index for the state fiscal year ending the tax year prior to the tax year for which the adjustment is being made and the denominator of which is the United States consumer price index for the 1998-1999 state fiscal year. The resultant product shall be rounded to the nearest $100.00 increment.

(4) To be eligible for a voluntary disclosure agreement, subject to subsection (1), a person must meet all of the following requirements:

(a) Except as otherwise provided in this subdivision, has had no previous contact by the department or its agents regarding a tax covered by the agreement. For purposes of

this subdivision, a letter of inquiry, whether a final letter or otherwise, requesting information under section 21(2)(a) that was sent to a nonfiler shall not be considered a previous contact under this subdivision if the nonfiler sends a written request to the department to enter into a voluntary disclosure agreement not later than June 30, 1999.

(b) Has had no notification of an impending audit by the department or its agents.

(c) Is not currently under audit by the department of treasury or under investigation by the department of state police, department of attorney general, or any local law enforcement agency regarding a tax covered by the agreement.

(5) If a person satisfies all requirements stated in subsections (1), (2), and (4), the department shall enter into a voluntary disclosure agreement with that person providing the following relief:

(a) Notwithstanding section 28(1)(e) of this act, the department shall not assess any tax, delinquency for a tax, penalty, or interest covered under the agreement for any period before the lookback period identified in the agreement.

(10) Nothing in subsections (2) to (9) shall be interpreted to allow or permit unjust enrichment as that term is defined in subsection (15). The signs shall be official signs and a person shall not stop, stand, or park a vehicle in violation of the restrictions stated on the signs. The signs shall be installed only after a proper traffic order is filed with the county clerk. Upon the application to the state transportation commission by a home rule city affected by an order, opportunity shall be given to the city for a hearing before the state transportation commission, pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, except when an ordinance of the home rule city prohibits or restricts the parking of vehicles on a state trunk line highway; when the home rule city, by lawfully authorized official action, requests the state transportation department to prohibit or restrict parking on a state trunk line highway; or when the home rule city enters into a construction agreement with the state transportation department providing for the prohibition or restriction of parking on a state trunk line highway during or after the period of construction. Traffic control orders, so long as they affect parking upon a state trunk line highway within the corporate limits of a home rule city, are considered "rules" within the meaning of the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, and upon application for a hearing by a home rule city, the proceedings before the state transportation commission shall be considered a "contested case" within the meaning of that act.

(5) A disabled person may apply, on a form prescribed by the secretary of state, for a serially numbered nontransferable temporary or permanent windshield placard for the personal use of the disabled person. An individual who has a religious objection to having a medical examination may personally apply at a branch office of the secretary of state for a serially numbered nontransferable temporary or permanent windshield placard for the personal use of the disabled individual. If it appears obvious that the individual has a qualifying disability, the individual shall not be required to present a medical statement attesting to the disability. The application for and the issuance of the serially numbered

nontransferable temporary or permanent windshield placard is subject to all of the following:

(a) The secretary of state may issue to a disabled person with a temporary disability a temporary windshield placard that is valid for a period of not more than 6 months.

(b) The secretary of state may issue to a disabled person with a permanent disability an original or renewal permanent windshield placard that is valid for at least 4 years.

(c) An original certificate of identification or permanent windshield placard shall expire on the disabled person's fifth birthday after the date of issuance.

(d) A renewal permanent windshield placard shall expire on the disabled person's fourth birthday after the date of renewal.

(e) A person holding a certificate of identification or permanent windshield placard at any time within 45 days before the expiration of his or her certificate or placard may make application for a new or renewal placard as provided for in this section. However, if the person will be out of state during the 45 days immediately preceding expiration of the certificate or placard or for other good cause shown cannot apply for a placard within the 45-day period, application for a new or renewal placard may be made not more than 6 months before expiration of the certificate or placard. A placard issued or renewed under this subdivision shall expire as provided for in this subsection.

(f) Upon application in the manner prescribed by the secretary of state for replacement of a lost, stolen, or destroyed certificate or placard described in this section, a disabled person or organization that provides specialized services to disabled persons may be issued a placard that in substance duplicates the original certificate or placard for a fee of $10.00.

(g) A certificate or placard described in this section may be used by a person other than the disabled person for the sole purpose of transporting the disabled person. An organization that provides specialized services to disabled persons may apply for and receive a permanent windshield placard to be used in any motor vehicle actually transporting a disabled person. If the organization ceases to transport disabled persons, the placard shall be returned to the secretary of state for cancellation and destruction.

(6) A disabled person with a certificate of identification, windshield placard, special registration plates issued under section 803d, a special registration plate issued under section 803f that has a tab for persons with disabilities attached, a certificate of identification or windshield placard from another state, or special registration plates from another state issued for persons with disabilities is entitled to courtesy in the parking of a vehicle. The courtesy shall relieve the disabled person or the person transporting the disabled person from liability for a violation with respect to parking, other than in violation of this act. A local authority may by ordinance prohibit parking on a street or highway to create a fire lane or to provide for the accommodation of heavy traffic during morning and afternoon rush hours, and the privileges extending to veterans and physically disabled persons under this subsection do not supersede that ordinance.

(7) Except as otherwise provided in subsection (24), an application for an initial free parking sticker shall contain a certification by a physician or physician assistant licensed to practice in this state attesting to the nature and estimated duration of the applicant's disabling condition and verifying that the applicant qualifies for a free parking sticker. An individual who has a religious objection to having a medical examination may personally apply at a branch office of the secretary of state for an initial free parking sticker. If it appears obvious that the individual is unable to do 1 or more of the acts listed in subdivisions (a) to (d), the individual shall not be required to present a certification by a physician or a physician assistant attesting to the nature and estimated duration of the

applicant's disabling condition or verifying that the applicant qualifies for a free parking sticker. The applicant qualifies for a free parking sticker if the applicant is a licensed driver and the physician or physician assistant certifies or, if an individual is not required to have a certification by a physician or a physician assistant, it is obvious that the applicant is unable to do 1 or more of the following:

(a) Manage, manipulate, or insert coins, or obtain tickets or tokens in parking meters or ticket machines in parking lots or parking structures, due to the lack of fine motor control of both hands.

(b) Reach above his or her head to a height of 42 inches from the ground, due to a lack of finger, hand, or upper extremity strength or mobility.

(c) Approach a parking meter due to his or her use of a wheelchair or other device.

(d) Walk more than 20 feet due to an orthopedic, neurological, cardiovascular, or lung condition in which the degree of debilitation is so severe that it almost completely impedes the ability to walk.

(8) To be entitled to free parking in a metered space or in a publicly owned parking structure or area, a vehicle must properly display 1 of the following:

(a) A windshield placard bearing a free parking sticker issued pursuant to this act.

(b) A valid certificate of identification issued before October 1, 1994.

(c) A valid windshield placard issued by another state.

(d) A certificate of identification issued by another state.

(e) A license plate for persons with disabilities issued by another state.

(f) A special registration plate with a tab for persons with disabilities attached issued by another state.

(9) A vehicle that does not properly display 1 of the items listed in subsection (8) is not entitled to free parking in a metered parking space or in a publicly owned parking area or structure, and the disabled person or vehicle operator shall pay all parking fees and may be responsible for a civil infraction.

(10) Blindness that is not accompanied by an incapacity described in subsection (7) does not entitle a person to a free parking sticker.

(11) The secretary of state shall attach a free parking sticker, in contrasting colors, to the windshield placard of a person certified as having an incapacity described in subsection (7).

(12) A windshield placard issued under this section shall be displayed on the interior rearview mirror of the vehicle or, if there is no interior rearview mirror, on the lower left corner of the dashboard while the vehicle is parked or being parked by or under the direction of a disabled person pursuant to this section.

(13) A certificate of identification issued before February 11, 1992 shall be displayed on the lower left corner of the dashboard of the parked vehicle.

(14) Upon conviction of an offense involving a violation of the special privileges conferred upon a holder of a certificate of identification, windshield placard, or free parking sticker, a magistrate or judge trying the case, as a part of any penalty imposed, may confiscate the serially numbered certificate of identification, windshield placard, or free parking sticker and return the confiscated item or items to the secretary of state together with a certified copy of the sentence imposed. Upon receipt of a certificate of identification, windshield placard, or free parking sticker from a judge or magistrate, the secretary of state shall cancel and destroy the certificate, placard, or sticker, and the disabled person to whom it was issued shall not receive another certificate, placard, or sticker until

he or she submits a completed application and presents a current medical statement attesting to his or her condition. A law enforcement officer who observes a misuse of a certificate of identification, windshield placard, or free parking sticker may immediately confiscate the certificate, placard, or sticker and forward it with a copy of his or her report to the secretary of state.

(15) A person who intentionally makes a false statement of material fact or commits or attempts to commit a deception or fraud on a medical statement attesting to a disability, submitted in support of an application for a certificate of identification, windshield placard, free parking sticker, special registration plate, or tab for persons with disabilities under this section, section 803d, or section 803f, is guilty of a misdemeanor, punishable by a fine of not more than $500.00 or imprisonment for not more than 30 days, or both.

(16) A person who commits or attempts to commit a deception or fraud by 1 or more of the following methods is guilty of a misdemeanor punishable by a fine of not more than $500.00 or imprisonment for not more than 30 days, or both:

(a) Using a certificate of identification, windshield placard, or free parking sticker issued under this section or by another state to provide transportation to a disabled person, when the person is not providing transportation to a disabled person.

(b) Altering, modifying, or selling a certificate of identification, windshield placard, or free parking sticker issued under this section or by another state.

(c) Copying or forging a certificate of identification, windshield placard, or free parking sticker described in this section or selling a copied or forged certificate, placard, or sticker described in this section. In the case of a violation of this subdivision, the fine described in this subsection shall be not less than $250.00.

(d) Using a copied or forged certificate of identification, windshield placard, or free parking sticker described in this section.

(e) Making a false statement of material fact to obtain or assist an individual in obtaining a certificate, placard, or sticker described in this section, a special registration plate under section 803d, or a tab for persons with disabilities under section 803f.

(f) Knowingly using or displaying a certificate, placard, or sticker described in this section that has been canceled by the secretary of state.

(17) Except as otherwise provided in this section, a person who violates this section is responsible for a civil infraction.

(18) A certificate of identification issued before October 1, 1994 and containing an expiration date is valid for free parking in a space controlled or regulated by a meter on a public highway or in a publicly owned parking area or structure when the time for parking indicated on the meter has expired, or in a parking space clearly identified by an official sign as being reserved for use by disabled persons that is on public property or private property available for public use, until the expiration date printed on the certificate. The certificate expires and shall be canceled on its expiration date.

(19) A certificate of identification issued before October 1, 1994 that does not contain an expiration date expires and shall be canceled on October 1, 1994.

(20) A certificate of identification shall not be issued or renewed by the secretary of state after October 1, 1994.

(21) The secretary of state may cancel, revoke, or suspend a windshield placard, free parking sticker, or certificate of identification under any of the following circumstances:

(a) The secretary of state determines that a windshield placard, free parking sticker, or certificate of identification was fraudulently or erroneously issued.

(b) The secretary of state determines that a person has made or is making an unlawful use of his or her windshield placard, free parking sticker, or certificate of identification.

(c) The secretary of state determines that a check or draft used to pay the required fee is not paid on its first presentation and is not paid upon reasonable notice or demand or that the required fee is paid by an invalid credit card.

(d) The secretary of state determines that the person is no longer eligible to receive or use a windshield placard, free parking sticker, or certificate of identification.

(e) The secretary of state determines that the owner has committed an offense under this act involving a windshield placard, free parking sticker, or certificate of identification.

(f) A person has violated this act and the secretary of state is authorized under this act to cancel, revoke, or suspend a windshield placard, free parking sticker, or certificate of identification for that violation.

(g) The secretary of state receives notice from another state or foreign country that a windshield placard, free parking sticker, or certificate of identification issued by the secretary of state has been surrendered by the owner or seized in conformity with the laws of that other state or foreign country, or has been improperly used or displayed in violation of the laws of that other state or foreign country.

(22) Before a cancellation, revocation, or suspension under subsection (21), the person affected thereby shall be given notice and an opportunity to be heard.

(23) A windshield placard issued to a disabled person shall bear the disabled person's driver's or chauffeur's license number or the number on his or her official state personal identification card issued under 1972 PA 222, MCL 28.291 to 28.300.

(24) For purposes of this section only, the secretary of state may accept an application for a windshield placard, special registration plate, or free parking sticker from a disabled person that is signed by a physician or physician assistant licensed to practice in another state if the application is accompanied by a copy of that physician's or physician assistant's current medical license issued by that state.

(10) An applicant seeking a certificate of need for the acquisition of an existing health facility may file a single, consolidated application for the certificate of need if the project results in the acquisition of an existing health facility but does not result in an increase or relocation of licensed beds or the initiation, expansion, or replacement of a covered clinical service. (12) As used in this section, "sharing agreement" means a written agreement between a federal veterans health care facility and a hospital licensed under part 215 for the use of the federal veterans health care facility's beds or equipment, or both, to provide covered clinical services.

A certificate of need review standard may also establish ongoing quality assurance requirements including any or all of the requirements specified in section 22225(2)(c). Except for nursing home and hospital long-term care unit bed review standards, by January 1, 2004, the commission shall revise all certificate of need review standards to include a requirement that each applicant participate in title XIX of the social security act, chapter 531, 49 Stat. 620, 1396r-6 and 1396r-8 to 1396v.

(*l*) If the commission determines it necessary, appoint standard advisory committees to assist in the development of proposed certificate of need review standards. A standard advisory committee shall complete its duties under this subdivision and submit its recommendations to the commission within 6 months unless a shorter period of time is specified by the commission when the standard advisory committee is appointed. An individual shall serve on no more than 2 standard advisory committees in any 2-year period. The composition of a standard advisory committee shall not include a lobbyist registered under 1978 PA 472, MCL 4.411 to 4.431, but shall include all of the following:

The 45 days shall include not less than 9 legislative session days. Legislative disapproval shall be expressed by concurrent resolution which shall be adopted by each house of the legislature. The concurrent resolution shall state specific objections to the proposed final action. If the proposed final action is not disapproved under this subsection, it is effective and binding on all persons affected by this part upon the expiration of the 45-day period or on a later date specified in the proposed final action. As used in this subsection, "legislative session day" means each day in which a quorum of either the house of representatives or the senate, following a call to order, officially convenes in Lansing to conduct legislative business.

(5) The commission shall not develop, approve, or revise a certificate of need review standard that requires the payment of money or goods or the provision of services

unrelated to the proposed project as a condition that must be satisfied by a person seeking a certificate of need for the initiation, replacement, or expansion of covered clinical services, the acquisition or beginning the operation of a health facility, making changes in bed capacity, or making covered capital expenditures. This subsection does not preclude a requirement that each applicant participate in title XIX of the social security act, chapter 531, 49 Stat. 620, 1396r-6 and 1396r-8 to 1396v, or a requirement that each applicant provide covered clinical services to all patients regardless of his or her ability to pay.

(6) If the reports received under section 22221(f) indicate that the certificate of need application fees collected under section 20161 have not been within 10% of 3/4 the cost to the department of implementing this part, the commission shall make recommendations regarding the revision of those fees so that the certificate of need application fees collected equal approximately 3/4 of the cost to the department of implementing this part.

(4) The joint committee shall review the recommendations made by the commission under section 22215(6) regarding the revision of the certificate of need application fees and submit a written report to the legislature outlining the costs to the department to implement the program, the amount of fees collected, and its recommendation regarding the revision of those fees.

(5) The joint committee may develop a plan for the revision of the certificate of need program. If a plan is developed by the joint committee, the joint committee shall recommend to the legislature the appropriate statutory changes to implement the plan.

As used in this subdivision, "consumer price index" means the most comprehensive index of consumer prices available for this state from the bureau of labor statistics of the United States department of labor.

(h) Annually review the application process, including all forms, reports, and other materials that are required to be submitted with the application. If needed to promote administrative efficiency, revise the forms, reports, and any other materials required with the application.

333.22224a Magnetic resonance image units.

Sec. 22224a. (1) A person seeking to initiate, expand, replace, relocate, or acquire a fixed or mobile magnetic resonance imager service within a county that has a population of more than 160,000 but does not have at least 2 magnetic resonance imager units may file a letter of intent with the department prior to the initiation, expansion, replacement, relocation, or acquisition of a fixed or mobile magnetic resonance imager unit within that county instead of obtaining a certificate of need.

(2) Within 30 days after receiving the letter of intent, if the department verifies that the county has a population of more than 160,000 and that the county does not already have 2 magnetic resonance imager units, the department shall send a written acknowledgment to the person approving the initiation, expansion, replacement, relocation, or acquisition of a fixed or mobile magnetic resonance imager unit.

(3) A person shall not initiate, expand, replace, relocate, or acquire a fixed or mobile magnetic resonance imager unit under this section without a certificate of need unless that person receives a written acknowledgment of approval from the department under subsection (2).

(4) A person seeking to initiate, expand, replace, relocate, or acquire a fixed or mobile magnetic resonance imager service under this section shall be a nonprofit organization and shall demonstrate that the service shall be accessible to all patients regardless of his or her ability to pay and shall participate in title XIX of the social security act, chapter 531, 49 Stat. 620, 42 U.S.C. 1396 to 1396r-8 to 1396v.

333.22226 Regional certificate of need review agency; standards; designation of person for specific review area; requirements; duration and termination of agency; local certificate of need review agency; application or other information; review; recommendations; decision; convening consumers, providers, purchasers, or payers of health care; public hearing; meetings; "review area" defined.

Sec. 22226. (1) The commission shall develop standards for the designation by the department of a regional certificate of need review agency for each review area to develop advisory recommendations for proposed projects. The standards shall be based on the requirements for a regional certificate of review agency set forth in subsection (3).

(2) The department, with the concurrence of the commission, shall designate a person to be a regional certificate of need review agency for a specific review area, according to procedures approved by the commission, if the person meets the standards approved under subsection (1), and if a regional certificate of need review agency has not already been designated for that specific review area.

(f) Not receive more than a designated proportion of its financial support from health facilities and health professionals, as determined by the commission.

(g) Meet other requirements established by the commission that are relevant to the functions of a regional certificate of need review agency, under this part.

(4) The designation of a regional certificate of need review agency shall be operative for a period of time approved by the commission, but not for more than 24 months. The designation of a regional certificate of need review agency may be terminated by the department with the concurrence of the commission at any time for noncompliance with the standards approved under subsection (1). In addition, the designation may be terminated by the regional certificate of need review agency upon the expiration of 60 days after the department receives written notice of the termination.

(5) A local certificate of need review agency that was designated pursuant to a designation agreement authorized under former section 22124 and effective on October 1, 1988 is designated as the regional certificate of need review agency for its review area until the expiration of 1 year after the date of final approval of the standards developed under subsection (1), unless the designation is terminated by either the department under subsection (4) or the regional certificate of need review agency before that time.

(6) A person applying for a certificate of need under this part shall simultaneously provide a copy of any letter of intent, application, or additional information required by the department to the regional certificate of need review agency designated by the department for the review area in which the proposed project would be located, unless the regional certificate of need review agency determines that it will not review the application or other information, and notifies both the applicant and the department in writing of its determination. The regional certificate of need review agency may review the application and submit its recommendations to the department. If the regional certificate of need review agency determines that it will not review the application, then the regional certificate of need review agency shall notify both the applicant and the department in writing of its determination. In developing its recommendations, the regional certificate of need review agency shall utilize the review procedures and time frames specified for regional certificate of need review agencies in the rules continued or promulgated under this part, and shall also utilize certificate of need review standards, statutory criteria, and forms identical to those used by the department.

(7) Before developing a proposed decision on an application, the department shall review the recommendations of the regional certificate of need review agency for the review area in which the proposed project would be located, if the recommendations are submitted to the department within the time frames required under subsection (6). If the director makes a final decision that is inconsistent with the recommendations of the regional certificate of need review agency, the department shall promptly provide the regional certificate of need review agency with a detailed statement of the reasons for the director's decision. The statement shall address each instance in which the director's decision is inconsistent with the recommendation of the regional certificate of need review agency regarding a specific certificate of need review standard or criterion.

(8) A regional certificate of need review agency may convene consumers, providers, purchasers, or payers of health care, or representatives of all of those groups, related to activities in its review area for the purpose of achieving the objectives of this part.

(9) Before developing a recommendation on a certificate of need application, a regional certificate of need review agency shall hold a public hearing on the proposed project. If the department determines that local interest merits a public hearing and a regional certificate of need review agency has not been designated for the review area in which the proposed project will be located, then the department shall hold a public hearing on the proposed project.

(10) A regional certificate of need review agency shall conduct all meetings regarding its activities for the purpose of achieving the objectives of this part in compliance with the open meetings act, 1976 PA 267, MCL 15.261 to 15.275.

333.22230 Participation in medicaid program as distinct criterion.

Sec. 22230. 333.22231 Decision to grant or deny application for certificate of need; conditions; single decision for all applications; proposed decision; final decision; notice of reversal; hearing; judicial review; effect of exceeding time frames.

Sec. 22231. (1) The decision to grant or deny an application for a certificate of need shall be made by the director. A decision shall be proposed to the director by a bureau within the department designated by the director as responsible for the certificate of need program. A decision shall be in writing and shall indicate 1 of the following:

(a) Approval of the application.

(b) Disapproval of the application.

(c) Subject to subsection (2), approval of the application with conditions.

(d) If agreed to by the department and the applicant, approval of the application with stipulations.

(2) If an application is approved with conditions under subsection (1)(c), the conditions shall be explicit, shall be related to the proposed project or to the applicable provisions of this part, and shall specify a time, not to exceed 1 year after the date the decision is rendered, within which the conditions shall be met.

(3) If the department is conducting a comparative review, the director shall issue only 1 decision for all of the applications included in the comparative review.

(4) Before a final decision on an application is made, the bureau of the department designated by the director as responsible for the certificate of need program shall issue a proposed decision with specific findings of fact in support of the proposed decision with regard to each of the criteria listed in section 22225. The proposed decision also shall state with specificity the reasons and authority of the department for the proposed decision. The department shall transmit a copy of the proposed decision to the applicant.

(5) The proposed decision shall be submitted to the director on the same day the proposed decision is issued.

(6) If the proposed decision is other than an approval without conditions or stipulations, the director shall issue a final decision not later than 60 days after the date a proposed decision is submitted to the director unless the applicant has filed a request for a hearing on the proposed decision. If the proposed decision is an approval, the director shall issue a final decision not later than 5 days after the proposed decision is submitted to the director.

(7) The director shall review the proposed decision before a final decision is rendered.

(8) If a proposed decision is an approval, and if, upon review, the director reverses the proposed decision, the director immediately shall notify the applicant of the reversal. Within 15 days after receipt of the notice of reversal, the applicant may request a hearing under section 22232. After the hearing, the applicant may request the director to reconsider the reversal of the proposed decision, based on the results of the hearing.

(9) Within 30 days after the final decision of the director, the final decision of the director may be appealed only by the applicant and only on the record directly to the circuit court for the county where the applicant has its principal place of business in this state or the circuit court for Ingham county. Judicial review is governed by the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(10) If the department exceeds the time set forth in this section for other than good cause, as determined by the commission, upon the written request of an applicant, the department shall return to the applicant all of the certificate of need application fee paid by the applicant under section 20161.

333.22235 Waiver of law and procedural requirements and criteria for review; affidavit; emergency certificate of need.

Sec. 22235. (1) The department may waive otherwise applicable provisions of this part and procedural requirements and criteria for review upon a showing by the applicant, by affidavit, of all of the following:

(a) The necessity for immediate or temporary relief due to natural disaster, fire, unforeseen safety consideration, or other emergency circumstances.

(b) The serious adverse effect of delay on the applicant and the community that would be occasioned by compliance with the otherwise applicable requirements of this part and rules promulgated under this part.

(c) The lack of substantial change in facilities or services that existed before the emergency circumstances established under subdivision (a).

(d) The temporary nature of the construction of facilities or the services that will not preclude different disposition of longer term determinations in a subsequent application for a certificate of need not made under this section.

(2) The department may issue an emergency certificate of need after necessary and appropriate review. A record of the review shall be made, including copies of affidavits and other documentation. Findings and conclusions shall be made as to an application for an emergency certificate of need, whether the emergency certificate of need is issued or denied.

(3) An emergency certificate of need issued under this section is a final decision and the applicant is not required to submit a formal application for a second review. A certificate of need issued under this section may be subject to special limitations and restrictions, in regard to duration and right of extension or renewal and other factors, imposed by the department.

333.22239 Stipulation.

Sec. 22239. (1) If the certificate of need approval was based on a stipulation that the project would participate in title XIX and the project has not participated in title XIX for at least 12 consecutive months within the first 2 years of operation or continued to participate annually thereafter, the department shall revoke the certificate of need. A stipulation described in this section is germane to all health facility projects.

(2) The department shall monitor the participation in title XIX of each certificate of need applicant approved under this part. Except as otherwise provided in subsection (3), the department shall require each applicant to provide verification of participation in title XIX with its application and annually thereafter.

(3) The department shall not revoke or deny a certificate of need for a nursing home licensed under part 217 if that nursing home does not participate in title XIX on the effective date of the amendatory act that added this subsection but agrees to participate in title XIX if beds become available. This section does not prohibit a person from applying for and obtaining a certificate of need to acquire or begin operation of a nursing home that does not participate in title XIX.

333.22241 "New technology" defined; new technology review period; conditions to acquisition of new technology before end of review period; appointment, composition, and purpose of standing new medical technology advisory committee.

(2) The period ending 12 months after the date of federal food and drug administration approval of new technology for commercial use shall be considered the new technology review period. A person shall not acquire new technology before the end of a new technology review period, unless 1 of the following occurs:

(b) The person complies with the requirements of section 22243.

(c) The commission approves the addition of the new technology to the list of covered medical equipment, and the person obtains a certificate of need for that covered medical equipment.

A majority of the new medical technology advisory committee shall be representatives of health care provider organizations concerned with licensed health facilities or licensed health professions and other persons knowledgeable in medical technology. The commission also shall appoint representatives of health care consumer, purchaser, and third party payer organizations to the committee. (2) If the department determines that the recipient of a certificate of need under this part is not in compliance with the terms of the certificate of need or that a person is in violation of this part or the rules promulgated under this part, the department shall do 1 or more of the following:

(a) Revoke or suspend the certificate of need.

(b) Impose a civil fine of not more than the amount of the billings for the services provided in violation of this part.

(3) A person shall not charge to, or collect from, another person or otherwise recover costs for services provided or for equipment or facilities that are acquired in violation of this part. If a person has violated this subsection, in addition to the sanctions provided under subsection (2), the person shall, upon request of the person from whom the charges were collected, refund those charges, either directly or through a credit on a subsequent bill.

The People of the State of Michigan enact:

211.2 Real property; definition; determination of taxable status; acquisition for public purposes by purchase or condemnation; responsibilities of parties in real estate transaction; "levy date" defined.

Sec. 2. (1) For the purpose of taxation, real property includes all of the following:

(a) All land within this state, all buildings and fixtures on the land, and all appurtenances to the land, except as expressly exempted by law.

(b) All real property owned by this state or purchased or condemned for public highway purposes by any board, officer, commission, or department of this state and sold on land contract, notwithstanding the fact that the deed has not been executed transferring title.

(c) For taxes levied after December 31, 2002, buildings and improvements located upon leased real property, except buildings and improvements exempt under section 9f or improvements assessable under section 8(h), if the value of the buildings or improvements is not otherwise included in the assessment of the real property. However, buildings and improvements located on leased real property shall not be treated as real property unless they would be treated as real property if they were located on real property owned by the taxpayer.

(2) The taxable status of persons and real and personal property for a tax year shall be determined as of each December 31 of the immediately preceding year, which is considered the tax day, any provisions in the charter of any city or village to the contrary notwithstanding. An assessing officer is not restricted to any particular period in the preparation of the assessment roll but may survey, examine, or review property at any time before or after the tax day.

(3) Notwithstanding a provision to the contrary in any law, if real property is acquired for public purposes by purchase or condemnation, all general property taxes, but not penalties, levied during the 12 months immediately preceding, but not including, the day title passes to the public agency shall be prorated in accordance with this subsection. The seller or condemnee is responsible for the portion of taxes from the levy date or dates to, but not including, the day title passes and the public agency is responsible for the remainder of the taxes. If the date that title will pass cannot be ascertained definitely and an agreement in advance to prorate taxes is desirable, an estimated date for the passage of title may be agreed to. In the absence of an agreement, the public agency shall compute the proration of taxes as of the date title passes. The question of proration of taxes shall not be considered in any condemnation proceeding. As used in this subsection, "levy date" means the day on which general property taxes become due and payable. In addition to the portion of taxes for which the public agency is responsible under the provisions of this subsection, the public agency is also responsible for all general property taxes levied on or after the date title passes and before the property is removed from the tax rolls.

(4) In a real estate transaction between private parties in the absence of an agreement to the contrary, the seller is responsible for that portion of the annual taxes levied during the 12 months immediately preceding, but not including, the day title passes, from the levy date or dates to, but not including, the day title passes and the buyer is responsible for the remainder of the annual taxes. As used in this subsection, "levy date" means the day on which a general property tax becomes due and payable.

211.7u Homestead of persons in poverty; exemption from taxation; applicability of section to property of corporation; eligibility for exemption; application; policy and guidelines to be used by local assessing unit; duties of board of review; appeal of property assessment; "homestead" defined.

Sec. 7u. (1) The homestead of persons who, in the judgment of the supervisor and board of review, by reason of poverty, are unable to contribute toward the public charges is eligible for exemption in whole or in part from taxation under this act. This section does not apply to the property of a corporation.

(2) To be eligible for exemption under this section, a person shall do all of the following on an annual basis:

(a) Be an owner of and occupy as a homestead the property for which an exemption is requested.

(b) File a claim with the supervisor or board of review on a form provided by the local assessing unit, accompanied by federal and state income tax returns for all persons residing in the homestead, including any property tax credit returns, filed in the immediately preceding year or in the current year. The filing of a claim under this subsection constitutes an appearance before the board of review for the purpose of preserving the claimant's right to appeal the decision of the board of review regarding the claim.

(c) Produce a valid driver's license or other form of identification if requested by the supervisor or board of review.

(d) Produce a deed, land contract, or other evidence of ownership of the property for which an exemption is requested if required by the supervisor or board of review.

(e) Meet the federal poverty guidelines updated annually in the federal register by the United States department of health and human services under authority of section 673 of subtitle B of title VI of the omnibus budget reconciliation act of 1981, Public Law 97-35, 42 U.S.C. 9902, or alternative guidelines adopted by the governing body of the local assessing unit provided the alternative guidelines do not provide income eligibility requirements less than the federal guidelines.

(3) The application for an exemption under this section shall be filed after January 1 but before the day prior to the last day of the board of review.

(4) The governing body of the local assessing unit shall determine and make available to the public the policy and guidelines the local assessing unit uses for the granting of exemptions under this section. The guidelines shall include but not be limited to the specific income and asset levels of the claimant and total household income and assets.

(5) The board of review shall follow the policy and guidelines of the local assessing unit in granting or denying an exemption under this section unless the board of review determines there are substantial and compelling reasons why there should be a deviation from the policy and guidelines and the substantial and compelling reasons are communicated in writing to the claimant.

(6) A person who files a claim under this section is not prohibited from also appealing the assessment on the property for which that claim is made before the board of review in the same year.

(7) As used in this section, "homestead" means homestead or qualified agricultural property as those terms are defined in section 7dd.

211.8 Personal property; scope.

Sec. 8. For the purposes of taxation, personal property includes all of the following:

(a) All goods, chattels, and effects within this state.

(b) All goods, chattels, and effects belonging to inhabitants of this state, located without this state, except that property actually and permanently invested in business in another state shall not be included.

(c) All interests owned by individuals in real property, the fee title to which is in this state or the United States, except as otherwise provided in this act.

(d) For taxes levied before January 1, 2003, buildings and improvements located upon leased real property, except if the value of the real property is also assessed to the lessee or owner of those buildings and improvements. For taxes levied after December 31, 2002, buildings and improvements located upon leased real property, except buildings and improvements exempt under section 9f or improvements assessable under section 8(h), shall be assessed as real property under section 2 to the owner of the buildings or improvements in the local tax collecting unit in which the buildings or improvements are located if the value of the buildings or improvements is not otherwise included in the assessment of the real property. For taxes levied after December 31, 2001, buildings and improvements exempt under section 9f or improvements assessable under section 8(h) and located on leased real property shall be assessed as personal property.

(e) Tombs or vaults built within any burial grounds and kept for hire or rent, in whole or in part, and the stock of a corporation or association owning the tombs, vaults, or burial grounds.

(f) All other personal property not enumerated in this section and not especially exempted by law.

(g) The personal property of gas and coke companies, natural gas companies, electric light companies, waterworks companies, hydraulic companies, and pipe line companies transporting oil or gas as public or common carriers, to be assessed in the local tax collecting unit in which the personal property is located. The mains, pipes, supports, and wires of these companies, including the supports and wire or other line used for communication purposes in the operation of those facilities, and the rights of way and the easements or other interests in real property by virtue of which the mains, pipes, supports, and wires are erected and maintained, shall be assessed as personal property in the local tax collecting unit where laid, placed, or located. Interests in underground rock strata used for gas storage purposes, whether by lease or ownership separate from the surface of real property, shall be separately valued and assessed as personal property in the local tax collecting unit in which it is located to the person who holds the interest. Interests in underground rock strata shall be reported as personal property to the appropriate assessing officer for all property descriptions included in the storage field in the local tax collecting unit and a separate valuation shall be assessed for each school district. The personal property of street railroad, plank road, cable or electric railroad or transportation companies, bridge companies, and all other companies not required to pay a specific tax to this state in lieu of all other taxes, shall, except as otherwise provided in this section, be assessed in the local tax collecting unit in which the property is located, used, or laid, and the track, road, or bridge of a company is considered personal property. None of the property assessable as personal property under this subdivision shall be affected by any assessment or tax levied on the real property through or over which the personal property is laid, placed, or located, nor shall any right of way, easement, or other interest in real property, assessable as personal property under this subdivision, be extinguished or otherwise affected in case the real property subject to assessment is sold in the exercise of the taxing power.

(h) During the tenancy of a lessee, leasehold improvements and structures installed and constructed on real property by the lessee, provided and to the extent the improvements

or structures add to the true cash taxable value of the real property notwithstanding that the real property is encumbered by a lease agreement, and the value added by the improvements or structures is not otherwise included in the assessment of the real property or not otherwise assessable under subdivision (j). The cost of leasehold improvements and structures on real property shall not be the sole indicator of value. Leasehold improvements and structures assessed under this subdivision shall be assessed to the lessee.

(i) A leasehold estate received by a sublessor from which the sublessor receives net rentals in excess of net rentals required to be paid by the sublessor except to the extent that the excess rentals are attributable to the installation and construction of improvements and structures assessed under subdivision (h) or (j) or included in the assessment of the real property. For purposes of this act, a leasehold estate is considered to be owned by the lessee receiving additional net rentals. A lessee in possession is required to provide the assessor with the name and address of its lessor. Taxes collected under this act on leasehold estates shall become a lien against the rentals paid by the sublessee to the sublessor.

(j) To the extent not assessed as real property, a leasehold estate of a lessee created by the difference between the income that would be received by the lessor from the lessee on the basis of the present economic income of the property as defined and allowed by section 27(4), minus the actual value to the lessor under the lease. This subdivision does not apply to property if subject to a lease entered into before January 1, 1984 for which the terms of the lease governing the rental rate or the tax liability have not been renegotiated after December 31, 1983. This subdivision does not apply to a nonprofit housing cooperative. As used in this subdivision, "nonprofit cooperative housing corporation" means a nonprofit cooperative housing corporation that is engaged in providing housing services to its stockholders and members and that does not pay dividends or interest upon stock or membership investment but that does distribute all earnings to its stockholders or members.

(k) For taxes levied after December 31, 2002, a trade fixture.

211.14 Personal property; taxable situs.

Sec. 14. (1) All goods and chattels located in a local tax collecting unit other than that in which the owner of the goods or chattels resides shall be assessed in the local tax collecting unit in which the goods or chattels are located.

(2) All animals kept throughout the year in a local tax collecting unit other than that in which the owner of the animals resides shall be assessed to the owner or the person in possession of the animals in the local tax collecting unit in which the animals are kept.

(3) The tangible personal property of minors under guardianship shall be assessed to the guardian in the local tax collecting unit in which the guardian resides, and the personal property of any other person under guardianship shall be assessed to the guardian in the local tax collecting unit in which the ward resides.

(4) Tangible personal property belonging to the estate of a deceased person, in the hands of the executors, administrators, or trustees appointed under the last will and testament of the deceased person, or by order of any court of competent jurisdiction, shall be assessed to the executors, administrators, or trustees in the local tax collecting unit and in the school district in which the deceased person resided, until the executors, administrators, or trustees give notice to the appropriate assessing officer that the estate has been distributed. If the deceased person was a nonresident of this state, the property

shall be assessed in the local tax collecting unit in which it is located, to the executors, administrators, or trustees or to the person in possession of the property.

(5) Tangible personal property under the control of a trustee or agent, whether a corporation or a natural person, may be assessed to the trustee or agent in the local tax collecting unit in which the trustee or agent resides, except as otherwise provided. Personal property mortgaged or pledged is considered the property of the person in possession of that personal property and may be assessed to that person. Personal property not otherwise taxed under this act that is in the possession of any person, firm, or corporation using that property in connection with a business conducted for profit is considered the property of that person, firm, or corporation for taxation and shall be assessed to that person, firm, or corporation.

(6) For taxes levied before January 1, 2003, a building situated upon real property of the United States or of this state, or upon the real property of any person, firm, association, or corporation if the owner of the building is not the owner of the fee title to that real property, and if the value of the real property is not assessed to the owner of the building, shall be assessed as personal property to the owner or occupant of the building in the local tax collecting unit in which the real property is located. The building is subject to sale for taxes in the same manner as provided for the sale of personal property. It is not necessary to remove a building for the purpose of sale. For taxes levied after December 31, 2002, buildings and improvements, except buildings and improvements exempt under section 9f or improvements assessable under section 8(h), located upon real property of the United States or of this state, or upon the real property of any person, firm, association, or corporation if the owner of the building is not the owner of the fee title to that real property is considered real property for the purposes of taxation and assessment, and shall be assessed as real property under section 2 to the owner or occupant of the building in the local tax collecting unit in which the buildings are located if the value of the building is not otherwise included in the assessment of the real property. For taxes levied after December 31, 2001, buildings and improvements exempt under section 9f that are located upon the real property of the United States or of this state, or upon the real property of any person, firm, association, or corporation if the owner of the building is not the owner of the fee title to that real property shall be assessed as personal property to the owner or occupant of the building in the local tax collecting unit in which the real property is located.

(7) Tangible personal property of nonresidents of this state and all forest products, owned by residents or nonresidents, or estates of deceased persons, shall be assessed in the local tax collecting unit in which the tangible personal property or forest products are located, to the person or corporation in control of the premises, store, mill, dockyard, piling ground, place of storage, or warehouse where the tangible personal property or forest products are located, on December 31. If tangible personal property or forest products are in transit to a local tax collecting unit within this state, the tangible personal property or forest products shall be assessed in that local tax collecting unit. If tangible personal property or forest products are in transit to some place without this state, the tangible personal property or forest products shall be assessed at the local tax collecting unit in this state nearest to the last boom or sorting gap of the stream in or bordering on this state in which the tangible personal property or forest products will naturally be last floated during transit, and if the transit of the tangible personal property or forest products is to be other than through any watercourse in or bordering on this state, then the assessment shall be made in the local tax collecting unit at the point at which the tangible personal property or forest products will naturally leave this state in the ordinary course of transit. The tangible personal property or forest products in transit to

any place without this state shall be assessed to the owner or the person or corporation in possession or control of the tangible personal property or forest products. If the transit of the tangible personal property or forest products will pass through the booms or sorting gaps or into the places of storage of any person or corporation operating upon any stream, then the tangible personal property or forest products may be assessed to that person or corporation. A person or corporation assessed for any tangible personal property or forest products belonging to a nonresident of this state is entitled to recover from the owner of the tangible personal property or forest products by a suit in attachment, garnishment, or for money had and received, any amount that the person or corporation assessed is compelled to pay because of the assessment, shall have a lien upon the tangible personal property or forest products as a security against loss or damage because of being assessed for the tangible personal property or forest products of another, and may retain possession of the tangible personal property or forest products until that lien is satisfied. A person or corporation assessed is not compelled to pay taxes on account of that assessment unless the appropriate assessing officer, at the time of assessment, serves notice in writing on the person or corporation in control of the premises, store, mill, dockyard, piling ground, place of storage, or warehouse that the assessment will be made. An owner or person interested in the tangible personal property or forest products may secure the release of the tangible personal property or forest products from that lien by giving to the person or corporation assessed a bond in an amount double the probable tax to be assessed on the tangible personal property or forest products, but not less than $200.00, with 2 sufficient sureties, conditioned for the payment of the tax by the owner or person interested and the saving of the person or corporation assessed from payment of the assessment and from costs, damages, and expenses on account of nonpayment, which bond as to amount and sufficiency of sureties shall be approved by the county clerk of the county in which the assessment is made.

211.24 Property tax assessment roll; time; determining value of metallic mining properties and mineral rights; report of state geologist; certification by state tax commission; appeal.

Sec. 24. (1) On or before the first Monday in March in each year, the assessor shall make and complete an assessment roll, upon which he or she shall set down all of the following:

(a) The name and address of every person liable to be taxed in the local tax collecting unit with a full description of all the real property liable to be taxed. If the name of the owner or occupant of any tract or parcel of real property is known, the assessor shall enter the name and address of the owner or occupant opposite to the description of the property. If unknown, the real property described upon the roll shall be assessed as "owner unknown". All contiguous subdivisions of any section that are owned by 1 person, firm, corporation, or other legal entity and all unimproved lots in any block that are contiguous and owned by 1 person, firm, corporation, or other legal entity shall be assessed as 1 parcel, unless demand in writing is made by the owner or occupant to have each subdivision of the section or each lot assessed separately. However, failure to assess contiguous parcels as entireties does not invalidate the assessment as made. Each description shall show as near as possible the number of acres contained in it, as determined by the assessor. It is not necessary for the assessment roll to specify the quantity of land comprised in any town, city, or village lot.

(b) The assessor shall estimate, according to his or her best information and judgment, the true cash value and assessed value of every parcel of real property and set the assessed value down opposite the parcel.

(c) The assessor shall calculate the tentative taxable value of every parcel of real property and set that value down opposite the parcel.

(d) The assessor shall determine the percentage of value of every parcel of real property that is exempt from the tax levied by a local school district for school operating purposes to the extent provided under section 1211 of the revised school code, 1976 PA 451, MCL 380.1211, and set that percentage of value down opposite the parcel.

(e) The assessor shall determine the date of the last transfer of ownership of every parcel of real property occurring after December 31, 1994 and set that date down opposite the parcel.

(f) The assessor shall estimate the true cash value of all the personal property of each person, and set the assessed value and tentative taxable value down opposite the name of the person. In determining the property to be assessed and in estimating the value of that property, the assessor is not bound to follow the statements of any person, but shall exercise his or her best judgment. For taxes levied after December 31, 2003, the assessor shall separately state the assessed value and tentative taxable value of any leasehold improvements.

(g) Property assessed to a person other than the owner shall be assessed separately from the owner's property and shall show in what capacity it is assessed to that person, whether as agent, guardian, or otherwise. Two or more persons not being copartners, owning personal property in common, may each be assessed severally for each person's portion. Undivided interests in lands owned by tenants in common, or joint tenants not being copartners, may be assessed to the owners.

(2) The state geologist, or his or her duly authorized deputy, shall determine, according to his or her best information and judgment, the true cash value of the metallic mining properties and mineral rights consisting of metallic resources that are either producing, developed, or have a known commercial mineral value, including surface rights and personal property that may be used in the operation or development of the property assessed, or any stockpile of ore or mineral stored on the surface. For the purpose of encouraging the exploration and development of metallic mineral resources, metallic mineral ore newly discovered or proven in the ground and not part of the property of an operating mine shall be exempt from the taxes collected under this act for a maximum period of 10 years or until the time it becomes part of the property of an operating mine or it in itself becomes an operating mine. Metallic mineral ore newly discovered or proven in the ground and part of the property of an operating mine shall be exempt from taxes collected under this act until it, in combination with previously discovered metallic mineral ore of the operating mine, comes into a 10-year recovery period of the mine as determined by the average normal annual rate of extraction of the mine.

(3) An operating mine shall be defined to be an operating mine as of the date of starting of a shaft, stripping of overburden, or rehabilitation, or an abandoned or idle mine closed for not less than 2 years. Ore shall not enjoy more than 10 years' exemption from taxation. This section does not exempt from the taxes collected under this act ore reserves proven as of April 1, 1947. It is the intent of this act that mineral properties shall be valued and assessed in the future for ad valorem taxes according to the formula used in the valuation of mineral properties before the effective date of this act. It is the intent of this act that no metallic mineral ore shall be exempt more than 10 years because of the application of this act and if at any time it becomes evident that such is the case, the state tax commission shall determine the value of this untaxed ore and place this valuation on the proper tax roll. The state geologist shall report his or her determination of the true cash value of the mineral properties to the state tax commission on or before February 10 of

each year. The state tax commission shall assess the mineral properties containing 20% or more of natural iron per ton of ore in conformity and uniformity with all other property within the assessing district. The state tax commission shall assess all other metallic mineral properties at the value certified by the state geologist. The state tax commission, as early as is practicable before February 20, shall certify the assessment of the property to the assessor of the township or city in which the property is situated, who shall for the mineral properties and mineral rights that are owned separate from the surface rights on the property assess each to the owner at the valuation certified to him or her. However, an adjustment to the value certified by the state tax commission may be made by the assessor of the township or city to reflect any general adjustment of assessed valuation from the immediately preceding year not included in the state tax commission computation. The assessor shall determine the true cash value of the surface rights and assess the value of the surface rights to the owner. The assessment upon the metallic mining properties and mineral rights may be altered from year to year regardless of whether any previous assessment has been reviewed by the state tax commission. The assessor or the owner of any interest in the property assessed may appeal the assessment and valuation of the property as determined by the board of review to the state tax commission which shall review the assessment and valuation as provided in section 152.

211.24c Notice of increase in tentative state equalized valuation or tentative taxable value; contents; required information and forms; addressing and mailing assessment notice; effect of failure to send or receive assessment notice; calculation of tentative equalized valuation; model assessment notice form; statement; separate statement.

Sec. 24c. (1) The assessor shall give to each owner or person or persons listed on the assessment roll of the property a notice by first-class mail of an increase in the tentative state equalized valuation or the tentative taxable value for the year. The notice shall specify each parcel of property, the tentative taxable value for the current year and, beginning in 1996, the taxable value for the immediately preceding year. The notice shall also specify the time and place of the meeting of the board of review. Beginning in 1996, the notice shall also specify the difference between the property's tentative taxable value in the current year and the property's taxable value in the immediately preceding year.

(2) The notice shall include, in addition to the information required by subsection (1), all of the following:

(a) The state equalized valuation for the immediately preceding year.

(b) The tentative state equalized valuation for the current year.

(c) The net change between the tentative state equalized valuation for the current year and the state equalized valuation for the immediately preceding year.

(d) The classification of the property as defined by section 34c.

(e) The inflation rate for the immediately preceding year as defined in section 34d.

(f) A statement provided by the state tax commission explaining the relationship between state equalized valuation and taxable value. Beginning in 1996, if the assessor believes that a transfer of ownership has occurred in the immediately preceding year, the statement shall state that the ownership was transferred and that the taxable value of that property is the same as the state equalized valuation of that property.

(3) When required by the income tax act of 1967, 1967 PA 281, MCL 206.1 to 206.532, the assessment notice shall include or be accompanied by information or forms prescribed by the income tax act of 1967, 1967 PA 281, MCL 206.1 to 206.532.

(4) The assessment notice shall be addressed to the owner according to the records of the assessor and mailed not less than 10 days before the meeting of the board of review. The failure to send or receive an assessment notice does not invalidate an assessment roll or an assessment on that property.

(5) The tentative state equalized valuation shall be calculated by multiplying the assessment by the tentative equalized valuation multiplier. If the assessor has made assessment adjustments that would have changed the tentative multiplier, the assessor may recalculate the multiplier for use in the notice.

(6) The state tax commission shall prepare a model assessment notice form that shall be made available to local units of government.

(7) Beginning in 1995, the assessment notice under subsection (1) shall include the following statement:

"If you purchased your homestead after May 1 last year, to claim the homestead exemption, if you have not already done so, you are required to file an affidavit before May 1.".

(8) For taxes levied after December 31, 2003, the assessment notice under subsection (1) shall separately state the state equalized valuation and taxable value for any leasehold improvements.

211.34c Classification of assessable property; tabulation of assessed valuations; transmittal of tabulation and other statistical information; classifications of assessable real and personal property; buildings on leased land as improvements; total usage of parcel which includes more than 1 classification; notice to assessor and protest of assigned classification; decision; petition; arbitration; determination final and binding; appeal by department; construction of section.

Sec. 34c. (1) Not later than the first Monday in March in each year, the assessor shall classify every item of assessable property according to the definitions contained in this section. Following the March board of review, the assessor shall tabulate the total number of items and the valuations as approved by the board of review for each classification and for the totals of real and personal property in the local tax collecting unit. The assessor shall transmit to the county equalization department and to the state tax commission the tabulation of assessed valuations and other statistical information the state tax commission considers necessary to meet the requirements of this act and 1911 PA 44, MCL 209.1 to 209.8.

(2) The classifications of assessable real property are described as follows:

(a) Agricultural real property includes parcels used partially or wholly for agricultural operations, with or without buildings, and parcels assessed to the department of natural resources and valued by the state tax commission. For taxes levied after December 31, 2002, agricultural real property includes buildings on leased land used for agricultural operations. As used in this subdivision, "agricultural operations" means the following:

(*i*) Farming in all its branches, including cultivating soil.

(*ii*) Growing and harvesting any agricultural, horticultural, or floricultural commodity.

(*iii*) Dairying.

(*iv*) Raising livestock, bees, fish, fur-bearing animals, or poultry.

(*v*) Turf and tree farming.

The state tax he or she shall apportion among the several counties in proportion to the valuation of the taxable property in each county as determined by the last preceding state board of equalization, and shall before the October session of the board of supervisors in each year make out and transmit to the clerk of each county a statement of the amount of the taxes apportioned to that county. The state treasurer shall also, in a separate item of the statement, set forth the amount of indebtedness of the county to the state remaining unpaid at the time the statement is made, as shown by the statement of the account between the county and this state made by the state treasurer on the first day of July after the apportionment, which amount shall be apportioned by the board of supervisors of the proper county at the same time as state taxes contained in the apportionment of the state treasurer, and shall be levied in the same manner as and become a portion of the county taxes for the same year, unless the indebtedness is paid to the state before October first. The portion of the taxes, if any, that should be assessed to a particular township, shall be apportioned to and assessed upon the township, ward, or city.

211.41 Assessor; local clerk; duties; county clerk; statement to state treasurer; contents.

Sec. 41. Before the supervisor or assessing officer delivers the roll to the township treasurer or city collector, he or she shall carefully foot the several columns of valuation and taxes, and make a detailed statement, which he or she shall give the clerk of his or her township or city, and the clerk shall immediately charge the amount of taxes to the township treasurer or city collector. The clerk of each city and incorporated village shall report to the clerk of their respective counties all taxes levied in their respective cities or villages, and not included in the general tax levy, on or before the first day of October in each year. The county clerk shall, within 30 days after the close of the annual session of the board of supervisors in October in each year, forward to the state treasurer, to be filed in his or her office, a statement showing the aggregate valuation of all property as assessed in each assessing precinct within the county during the current year. The state treasurer shall include in the statement a detail of all taxes to be raised in the county for that year and the amount of taxes not included in the general tax levy, reported to him or her by the several city and village clerks as provided in this section.

211.57a State treasurer to prescribe practice for county treasurers; failure of county treasurer to comply; state treasurer to complete work; expense borne by county; state treasurer to furnish to county treasurers changes in tax laws.

Sec. 57a. (1) It is the duty of the state treasurer to prescribe uniform practices, forms, and methods that shall be used by the several county treasurers of this state in carrying out this act. All proceedings under the authority of this act shall be conducted in conformity with the uniform practices prescribed by the state treasurer. On the neglect or failure on the part of any county treasurer to abide by the uniform practices and use the uniform forms prescribed, the state treasurer may give notice in writing to the county clerk and to the county board of commissioners, or in lieu of the board of commissioners, the board of county auditors in counties having a county board of auditors, which notice shall state the facts constituting the alleged neglect or failure. If the alleged neglect or failure is not corrected within 10 days after giving the notice, the state treasurer shall have complete power and authority, by himself or herself or his or her deputy or authorized agents, to enter the office of the county treasurer and complete the work in the office in conformity with the uniform practices, the expenses of that work to be charged back to the county, which expense shall be paid from the general fund of the county.

(2) The state treasurer shall, within 30 days after the final adjournment of the legislature in every year, furnish the county treasurers with instructions relative to changes made in the tax laws of this state with respect to the duties of the township treasurers and county treasurers in connection with the collection of taxes. The several county treasurers shall, within 7 days after the receipt of those instructions, forward a copy of the instructions to each township treasurer in his or her respective county. The instructions shall contain all changes made since the filing of the previous instructions. In case of the furnishing of the first instructions to county treasurers under the provisions of this section, all changes of tax collection procedure as well as instructions with respect to tax collection procedures shall be furnished.

211.58 Payments to county treasurer; receipt; numbering; certificate.

Sec. 58. After the return of lands for unpaid taxes, the county treasurer is authorized to receive, under like provisions as in section 53, the amounts of the several taxes or any of them due, and the board of commissioners in each county may authorize notice to be given to all delinquent taxpayers so far as known. Neither taxes nor special assessments that are delinquent may be paid under protest to the county treasurer. The county treasurer shall issue duplicate receipts for all the taxes received by him or her, which shall be accounted for by the county clerk, or by the board of auditors in counties having a board of auditors, 1 of the duplicate receipts shall be delivered to the person paying the taxes, and 1 filed in the office of the county treasurer, which receipt shall be available to the county clerk or board of county auditors in counties having a board of auditors for abstracting and accounting purposes. All receipts issued under the provisions of this section shall be consecutively numbered by the printer and by the printer delivered to the county clerk who shall account for the receipts. At the time the printer delivers the receipts to the county clerk, the printer shall notify the state treasurer of the delivery, specifying the quantity and numbers of the receipts. Except when the final installment of the tax is paid, the county treasurer shall not issue a receipt for a payment of less than $1.00 and any tax or installment then sought to be paid in an amount less than $1.00 shall not be discharged or considered paid unless the sum of $1.00 is paid, and the difference between the amount of the tax paid and $1.00 shall be considered to be a part payment of the cost of issuing the receipts and shall be credited to the general fund of the county. In the case of payments by the same taxpayer as many descriptions shall be included in 1 receipt as will be sufficient to make a payment of $1.00. When payment of the taxes on any parcel or description of land or on any undivided share of land is made to any county treasurer, the treasurer shall place or cause to be placed upon the face of the receipt or redemption certificate, the following certificate: "I hereby certify that application was made to pay all taxes and special assessments due and payable at this office on the description shown in this receipt except for the years and items as follows:

(Signed). . . . . .Treas."

Every receipt shall be deemed to include the foregoing certificate, and unless otherwise noted on the certificate, shall be construed as an application to pay all taxes and special assessments assessed against the property described on the certificate and then due and payable at the office of the treasurer issuing the receipt. Future installments of special assessments shall not be considered as being then due and payable.

211.62 County clerk and circuit court; duties; court order; form.

Sec. 62. If a petition is filed, the county clerk shall present the petition to the circuit court of the county in which the delinquent tax property is situated, and the circuit court shall enter an order as prescribed in this section. The county clerk shall countersign the

order, record the order in the proper books of his or her office, and transmit a true copy of the order to the state treasurer. The order shall be substantially in the following form:

211.63 Designated newspapers; publication of order and petition; notice of tax sale advertising.

Sec. 63. (1) The state treasurer shall designate a newspaper in which an order and petition are to be published on or before September 1 in each year. If the publisher of the

designated newspaper fails to accept the designation within 15 days after the designation is made or refuses or neglects to publish and print the order and petition, or, for any other cause, the publication becomes impracticable, the state treasurer shall designate some other newspaper before the time limited for commencing publication.

(2) In counties in which 1 or more regularly established newspapers have been printed, published, and circulated more than 1 year before the designation, 1 of those newspapers shall be designated for the publication required under subsection (1).

(3) The state treasurer shall also cause to be carried in not more than 10 newspapers in each county a notice advising the public of the tax sale advertising. The newspapers shall be designated by the state treasurer, and the notice shall be carried once in each of the newspapers designated on a date selected by the state treasurer. The notice shall contain the name of the newspaper in the county designated to print the order and petition and description of property advertised.

211.64 Publication by distribution; county treasurer; duties.

Sec. 64. (1) If a newspaper is not published in a county in which delinquent tax property is located, or if a newspaper cannot be secured to publish an order and petition in that county, the state treasurer shall cause the order and petition containing the list of property delinquent for taxes to be printed in proper form for general distribution, and shall provide the county treasurer with enough copies to provide each voter at the last general election in the county with 1 copy.

(2) The county treasurer shall distribute the order and petition in such a manner that copies shall become public in every local tax collecting unit in the county, and shall post or cause to be posted 3 copies in 3 public places in each local tax collecting unit.

(3) The county treasurer shall file an affidavit of the posting and distribution of the order and petition in the usual form in the office of the county treasurer and of the state treasurer.

211.66 Publication of petition and order for hearing; jurisdiction; objections; hearing; evidence; order setting aside taxes; judgment.

Sec. 66. (1) The state treasurer shall cause a copy of the order and a copy of the petition to be published once each week for 3 consecutive weeks before the time fixed for the hearing on the petition, in a newspaper published in the county in which the petition is filed selected by the state treasurer.

(2) The order and petition shall be published in the same newspaper, the order immediately preceding the petition. The petition shall state the years for which delinquent taxes are due and the total amount of taxes, interest, and charges due for each parcel.

(3) The cost of publishing the order and petition shall be paid by this state.

(4) The proprietor of the newspaper in which the order and petition are published shall furnish the proper county treasurer with not more than 400 copies of each publication, 10 copies to each local tax collecting unit, and 2 copies to the state treasurer.

(5) The state treasurer and county treasurer shall carefully examine the notices published and determine if they are correct.

(6) The term 3 consecutive weeks means 3 publications in 3 successive weeks and the dates of the publications shall be specified by the state treasurer.

(7) A person familiar with the facts may make an affidavit as to the publication required.

(8) The state treasurer shall not pay for the publication unless satisfied that the publication has been made according to law.

(9) The publication of the order and petition is equivalent to a personal service of notice of the filing of the petition on all persons who are interested in the property specified in the petition, of all proceedings on the petition, and on the sale of the property under the judgment, and gives the court jurisdiction to hear the petition, determine all questions arising on the petition, and to enter a judgment ordering the sale of the property for the payment of all taxes, interest, and charges on the property.

(10) The circuit court has jurisdiction to hear, try, and determine the matters alleged in the petition, even though the amount involved in the petition is less than $100.00.

(11) The prosecuting attorney shall prosecute all proceedings under this section on the part of this state. If the prosecuting attorney does not prosecute a proceeding under this section, the court shall appoint another competent person to take charge of and prosecute the proceeding, who shall be paid by the county. The county board of commissioners may employ a competent person to prosecute or to assist in the prosecution of proceedings under this section.

(12) An affidavit attesting to the publication of the order and petition required under this section shall be filed in both the office of the county clerk and state treasurer before any final order is entered. Proof of the filing of an affidavit of publication in the office of the state treasurer may be made by affidavit of the state treasurer or his or her deputy.

(13) A person with an interest in the property or any portion of the property included or referred to in the petition who desires to contest the validity of any tax shall file written objections with the clerk of the county in which the property is advertised for sale and serve a copy of the objections on the prosecuting attorney of the county, the state treasurer, and the county, local tax collecting unit, and school district in which the property is located, and shall file proof of service on or before the day fixed in the notice for the hearing of the petition. A person shall not make any objections not specified in written objections filed under this section. A hearing upon objections filed under this subsection shall not be held until service is made and proof of service is filed.

(14) If on the day fixed in the notice for the hearing on the petition or on the day following that day, the court determines that any person has been prevented from filing objections to any tax without any fault on his or her part, the court may grant additional time for that purpose, not to exceed 5 days. The court shall give precedence to the hearing of a petition over all other business, shall examine, consider, and determine the matters stated in the petition and any objections made in a summary manner without other pleadings, and to enter a final judgment on the petition.

(15) The taxes specified in the petition are presumed to be legal and a judgment for those taxes shall be made unless the taxes are shown to be improper. Evidence shall be taken in open court. All oral testimony shall, at the request of any person interested, be written down and filed. The court may make any order necessary to facilitate the proceedings. The court shall decide all questions as to the admissibility of evidence, and that decision is final and not subject to review or appeal.

(16) If the property of 2 or more persons has been assessed together, the court may, if practicable, separate the assessments and apportion to each parcel the just proportion of the taxes, interest, and charges. If any tax is found illegal, that part shall be set aside and the remaining tax is valid. The total amount of taxes, interest, and charges fixed by the court shall be entered by the register of the court opposite each parcel of property in the column of the record under the heading "amount of judgment against property." If the court makes any order setting aside the taxes on any parcel of property, or any part of the taxes, or any special order relating to any parcel of property, or taxes on any parcel of property, a brief entry of that order shall be entered opposite that property or tax. The

special order shall be signed by the judge of the court, either by his or her full name or initials, and that entry has the same effect as if made and entered as a part of a final judgment.

(17) At least 10 days before the time fixed for the sale of the property, the court shall enter a final judgment in favor of this state for the payment of all valid taxes, interest, and charges, shall determine the total amount chargeable against each parcel of property, and shall order that unless payment is made, the property, or as much of the property as is necessary to satisfy the amount fixed by the judgment, shall severally be sold as the law directs. A judgment is considered in favor of this state against each parcel of property for each tax included in the judgment. The court may decree costs against a person contesting any tax that is equitable, if the tax, or any part of the tax that remains unpaid, is determined to be valid.

(18) In the absence from the file of a proper affidavit of publication as required by this section, secondary evidence of the publication and the filing of the affidavit is admissible if, according to the calendar entry of the clerk of the court, an affidavit of publication was filed. The affidavit of publication filed in the office of the state treasurer is admissible as secondary evidence.

211.67 Judgment; form; vesting of title in state; disposition of disputed taxes; appeal; condition; rejection and reassessment.

Sec. 67. (1) A final judgment shall be entered in the record for recording judgments of the circuit court of the county in which the property is located. The judgment shall have the usual caption for judgments and shall be substantially in the following form:

"State of Michigan,)
The circuit court for the)
county of .....)

At a session of this court held at the court house in the ..... of ..... on the ..... day of ..... 20....

Present: Hon. ....., Circuit Judge

In the matter of the petition of ....., state treasurer of the state of Michigan, for and in behalf of this state, for the sale of certain property for taxes assessed on that property:

The petition and the matters stated in the petition, and the objections filed to the taxes claimed in the petition (if any objections are filed) came on to be heard, and proof of the publication of the order of hearing, and of the petition having been made and filed, and after hearing all interested parties: It is ordered that the amount of taxes, interest, collection fee, and charges set down in the tax record, which is incorporated as part of the petition, are valid, and judgment is entered in favor of the state of Michigan against each parcel of property for payment of the amount set down in the tax record opposite that parcel. It is further ordered that unless that amount is paid prior to sale, that property, or that interest in the property necessary to satisfy the judgment against the property, shall be severally sold as the law directs, on the ..... day of May, A.D. 20...., beginning at 10 o'clock a.m. It is further ordered that title to each parcel of property ordered in this judgment to be offered for sale, that is bid off to the state, shall become absolute in the state of Michigan on the expiration of the period of redemption from that sale, and all taxes, special assessments that are charged against or are liens upon that property, and other liens and encumbrances against that property of whatever kind or nature, shall be canceled as of that date, unless any parcel of property is redeemed as provided in section 74 of the general property tax act, 1893 PA 206, MCL 211.74, or unless

an appeal is taken as provided in the general property tax act, 1893 PA 206, MCL 211.1 to 211.157. It is further ordered that the special orders made by this court, and entered on the tax records, are made a part of this judgment, with the same effect as if entered in this judgment.

Clerk of Courts."

(2) Unless sooner redeemed, upon the expiration of the period of redemption provided in section 74, absolute title to the property bid off to this state vests in this state as provided in the judgment.

(3) If costs are adjudged against any person contesting a tax, the judgment shall state the costs and execution awarded. The judgment shall be signed by the judge and countersigned by the clerk.

(4) Immediately after the entry of the judgment, the county clerk shall make a certified copy of the judgment, and annex the judgment to the tax record. The county clerk shall then deliver the tax record to the county treasurer, in whose office the tax record shall remain.

(5) If the hearing on the petition is not held on the day fixed in the notice, the hearing shall be continued from day to day during the term without the entry of any order of continuance, until disposed of.

(6) If it is determined to be impracticable to hear and determine the objections to all of the taxes specified in the petition within the time fixed for that purpose, then the court shall, within the time stated in this section, enter a final judgment as to all taxes to which no objections have been filed, and also those to which objections have been filed, which the court has then heard and determined to be valid. The judgment shall be signed and recorded as provided in this section. The court shall proceed with the consideration of the remaining taxes set forth in the petition, and objections to those taxes, and as soon as practicable dispose of the remaining taxes by 1 or more judgments in a form as the court determines, which shall be entered in the record of the court. The judgment shall describe the property and specify the total amount of taxes, interest, and charges on each parcel of property. After the judgment is entered, the county clerk shall immediately deliver to the county treasurer a certified copy of the judgment, to be kept and used as provided in this section. A copy of the judgment shall be annexed to the tax record and is part of the tax record.

(7) If a decree is not entered on a petition as to the taxes named in the petition, or any part of the taxes named in the petition, the state treasurer shall, as soon as practicable, file a new petition for sale, and proceedings on that new petition shall be conducted and judgment entered and sale made as provided in this section.

(8) If judgment is entered in favor of the validity of any disputed tax, and the person contesting the validity of that tax desires to appeal to the court of appeals, that person may do so on paying the amount of the judgment to the county treasurer within 10 days after the date the judgment is entered. The county treasurer shall retain the amount of the judgment until the decision of the court of appeals, and shall pay the amount of the judgment to the party appealing the judgment if the tax appealed is held invalid. If the tax appealed is held valid, then the amount of the judgment shall be credited to the proper

fund. Payment of the amount of the judgment discharges the tax lien on the property. If the court rules against the validity of any tax, either the county treasurer or the state treasurer may appeal to the court of appeals on behalf of this state, but there shall be no sale for the tax held invalid until the decision appealed is reversed or modified by the supreme court.

(9) Proceedings in which the validity of any tax is in dispute shall, if no other provision is made in this section, follow the ordinary practice of the court, and the court may allow amendments as in ordinary cases.

(10) Notice shall be given of all appeals to the court of appeals, and an appeal shall be claimed, entered, and bond for costs given, within 20 days after the judgment is entered. Any party appealing from a judgment, except the state treasurer and any political subdivision of this state, shall file a bond for costs in the usual form, the amount of the bond and sureties on the bond to be approved by the court that entered the judgment. The judge shall, at the request of either party and on due notice, settle in proper form a case containing as much of the record and proceedings as necessary to the understanding of the judgment by the court of appeals, and if an appeal is taken, the case shall be transmitted to the court of appeals. An appeal of the tax on any parcel does not delay or affect the proceedings for the sale of any property on which there is no appeal.

(11) If the court in its judgment determines an assessment to be void because of an erroneous or indefinite description of the parcel of property, the court shall, in that judgment, direct the state treasurer to reject that tax and cause that tax to be reassessed on a correct description of the parcel of property. The judgment shall also set forth the correct description of that property.

211.70 Sale; payment of bid; cancellation and forfeiture for failure to make payment; reoffer; state bid; report and confirmation of sale; setting aside; report to state treasurer.

Sec. 70. (1) On the first Tuesday of May, beginning at 10:00 a.m., the county treasurer shall commence the sale of the property mentioned in the judgment upon which the amounts charged have not been paid. The county treasurer shall continue the sale from day to day, Sundays and other legal holidays excepted, until as much of each parcel is sold as is sufficient to pay the amounts charged.

(2) The county treasurer may deputize 1 or more persons in his or her office to conduct the sale for him or her and in his or her behalf. An appointment shall be filed by the county treasurer with the county clerk in the court proceedings relating to the tax sale.

(3) Each parcel described in the judgment shall be sold separately for the total taxes, interest, and charges. The property shall be sold to the person paying the full amount charged against that parcel, and accepting a conveyance of the smallest undivided fee simple interest in that parcel. No greater interest in any parcel shall be sold than is sufficient to pay the amount of the tax, interest, and charges for which the property is sold.

(4) If no person will pay the tax, interest, and charges and take a conveyance of less than the entire fee simple interest in a parcel, then the whole parcel shall be offered and sold.

(5) The sale shall be held at the county seat, at the office of or at a convenient place selected by the county treasurer. Property sold is subject to the taxes assessed after taxes included in the judgment and for the year for which the sale is made.

(6) The county treasurer may, in his or her discretion, require immediate payment of any person to whom any parcel of property is sold. In all cases where payment is not made in 24 hours after the sale, the county treasurer shall declare the bid canceled and sell the

land again. Any person who fails to pay to the county treasurer the amount of his or her bid, shall forfeit to the state 5 times the amount of that bid, and costs of collection, which may be recovered in the name of the people of the state of Michigan in an action in any court of competent jurisdiction. The county treasurer and prosecuting attorney of the county shall prosecute for all delinquencies and penalties without unnecessary delay. Any subsequent bid of a person who fails to pay a previous bid at that sale may be disregarded by the treasurer.

(7) If a parcel of property cannot be sold for taxes, interest, and charges, that parcel shall be passed over and shall be reoffered before the close of the sale. If the property cannot be sold for the taxes, interest, and charges, the county treasurer or his or her deputy or deputies shall bid off the property in the name of the state for the state, county, and township, in proportion to the taxes, interest, and charges due each. Taxes, interest, and charges on property bid off to the state shall remain a lien on that property, and any person may purchase that property as provided in this act.

(8) The county treasurer shall enter or cause to be entered in the proper columns of the tax record the interest in property sold, the name and post office address of each purchaser opposite each parcel sold, and the word "state" opposite each parcel bid off in the name of the state. Certificates shall be given to each purchaser of the property and the interest bid off by him or her, showing the year's tax for which he or she has purchased, the amount of that tax, and of all charges paid by him or her at the time of purchase. The certificate shall state that he or she will be entitled to a deed after the period of redemption provided for in section 74 has expired, and that if the sale is not confirmed the money will be returned.

(9) As soon as possible after the conclusion of any sale, and within 25 days after the day named in the notice for the commencement of the sale, the county treasurer shall make and file with the clerk of the court a report of the sale, referring to the tax record for the particulars. Upon petition by the county treasurer, the court may extend the time within which the report is required to be filed, not to exceed 50 days from the date of the commencement of the sale.

(10) All sales shall stand confirmed, subject to the right of redemption provided for in section 74, unless objections to the sale are filed within 8 days after the time limited for filing the report described in subsection (9), without the entry of an order or further notice. Procedures for setting aside a sale are the same, so far as applicable, as in a sale in equity on the foreclosure of mortgages. No sale shall be set aside for inadequacy of price, except upon payment of the amount bid, with interest and costs. No sale shall be set aside after confirmation, unless the taxes were paid or the property was exempt from taxation and, in that case, the owner of the property may move the court at any time within 1 year after he or she has notice of the sale to set the sale aside.

(11) As soon as practicable after sales are confirmed and within 30 days from the date of confirmation, the county treasurer shall make full report of the sale to the state treasurer, in a form prescribed by the state treasurer, giving a description of the property sold, the amounts for which the property was sold, and the names and addresses of the purchasers. The state treasurer shall, after the period of redemption provided in section 74 has expired, execute deeds to the purchasers in a form prescribed by him or her.

(12) All property bid off in the name of the state shall continue liable to be taxed in the same manner as if it was not the property of the state.

(13) If property included in the judgment is not sold as advertised, the state treasurer shall cause a sale to be made at some other time as he or she may fix for that purpose. Notice of that sale shall be published at least 4 weeks prior to the sale. The notice shall

contain a description of the property and the amount of taxes, interest, and charges, as provided in the judgment. The sale and all other proceedings shall be the same as if made on the first day of the initial sale. The county treasurer shall receive only that amount receivable at the state treasury. All money received at any tax sales that belong to the state shall be paid into the state treasury. The expenses of advertising and sale exclusive of the county's share shall be paid from the state treasury on the warrant of the state treasurer, and the remainder shall be credited to the general fund.

211.73 Tax deed; setting aside or cancellation; 5 year limitation; improvements; refund; taxes.

Sec. 73. (1) No sale of property or deed issued by the state treasurer under this act shall be set aside or annulled by any court of this state after the purchaser or his or her heirs or assigns have been in actual and undisputed possession of the property sold for a period of 5 years from the date of the purchase or deed.

(2) If a sale made under this act is set aside by any court less than 5 years from the date of the sale or deed, the court shall determine the value of improvements made by the purchaser, if he or she has been in possession of the property, and enter a judgment in that amount in favor of the purchaser, and issue execution to collect that amount from the claimant before putting him or her in possession.

(3) If a sale made under this act is set aside by any court or is canceled by the state treasurer as provided in this act, the state treasurer shall refund to the purchaser the amount paid at the time of the sale, with interest at the rate of 6% per annum from the time of the purchase to the time when the sale was set aside or canceled.

(4) No refund of purchase money and interest shall be made more than 5 years from the date of expiration of the redemption period in the case of a tax certificate, or more than 5 years from the date the purchaser or his or her heirs or assigns, was entitled to a tax deed, if a tax deed was issued. The state treasurer shall charge back to the county all taxes, interest, and charges for all years for which the taxes are invalid or the description erroneous. For all years for which no invalidity has been found the state treasurer shall proceed to enforce the collection of the taxes for all years refunded as provided in this act, as in the case of taxes for which sale has not been made.

211.73a Adverse possession or failure to give notice for reconveyance as bar to certain rights; failure to present certificate of purchase or due proof of loss as bar to securing tax deed; certificate of cancellation; effect of bona fide attempt to give notice of reconveyance; effect of failure to redeem; barred or voided tax deed or certificate of purchase not revived.

Sec. 73a. (1) The right to recover possession of property to a refund of the amount paid, or to secure a tax deed, by a person claiming through or under a deed executed by the state treasurer or by an officer authorized to issue tax deeds under a former tax law of the territory of the state of Michigan or by virtue of a certificate of purchase issued under this act or by a former tax law, is forever barred by the actual, open, and continuous possession of a person claiming that property adversely to the tax deed or certificate of purchase, for the period of 5 years after the purchaser of the tax title or his or her heirs or assigns are entitled to a deed or by a failure of the tax title purchaser or his or her heirs or assigns to make a bona fide attempt to give notice required under this act, or by a former tax law, for a reconveyance of the property within 5 years.

(2) In case of a failure to give the required notice for reconveyance within the period of 5 years from the date the purchaser or his or her heirs or assigns become entitled to a

tax deed to be issued by the state treasurer, the person claiming title under the tax deed or certificate of purchase is barred from asserting that title or claiming a lien on the land by reason of a tax purchase and the purchaser or his or her heirs or assigns are not entitled to a refund of the amount paid as a condition of the purchase of the tax title by reason of any defect, irregularity, invalidity, or any cause whatever affecting the taxes or the sale of the property for a tax lien.

(3) The failure of a tax title purchaser or his or her heirs or assigns to present a certificate of purchase or due proof of loss to the state treasurer or his or her deputy, as prescribed in section 72, or to the officer empowered by a former law to issue tax deeds, within 5 years from the purchase of the tax title, bars the tax title purchaser or his or her heirs or assigns from securing a tax deed.

(4) In the case of failure to present a certificate of purchase to the state treasurer or his or her deputy or to an officer empowered by a former tax law to issue tax deeds, a person owning an interest in the property sold for taxes, upon the payment of 50 cents to the state treasurer or his or her deputy, shall be entitled to a certificate of cancellation under the hand and seal of the state treasurer or his or her deputy, setting forth a description of the certificate of purchase and that, according to the records of the state treasurer, a tax deed has not been issued for a certificate of purchase, and that the time for presentation of the certificate of purchase or due proof of loss of the certificate has expired, and neither the certificate of purchase nor due proof of loss of the certificate was presented within the time required. The certificate of cancellation may be recorded in the office of the register of deeds of the county in which the property is situated. When recorded, the certificate prima facie evidence of the facts certified and has the same effect as evidence and notice of title as the recording of deeds and other conveyances. The register of deeds is entitled, for the recording of the certificate of cancellation, to the same fees as for recording of deeds.

(5) If within the period of 5 years the tax title purchaser or his or her heirs or assigns have made a bona fide attempt to give the required notice for the reconveyance of the premises, neither the legality or sufficiency of the sale or notice, nor the bona fides of the purchaser in this attempt to give the statutory notice, shall be questioned, raised, or adjudicated except in or by a suit in equity.

(6) A person who has been properly served with notice and who has failed to redeem from a sale in accordance with this act, within the period specified, is not entitled to question or deny in any manner the sufficiency of notice upon the ground that some other person entitled to notice was not also served.

(7) Nothing in this section shall be construed, by implication or otherwise, to revive or give effect to a tax deed or certificate of purchase barred or voided by operations of law or otherwise.

211.73b Effect of failure to present purchaser's certificate of tax sale of property or due proof of loss; action based on tax deed against person in possession; possession of unoccupied, unimproved, and unenclosed lands; barred or voided certificate or deed not revived.

Sec. 73b. (1) A purchaser's certificate of tax sale issued under this act or any prior act, including any law of the territory of Michigan prior to September 28, 1907, which, or due proof of loss of which, has not been presented to the state treasurer or his or her deputy, as prescribed in section 72, within 90 days after the effective date of this section, is barred and shall cease to be a cloud upon the title to the property affected.

(2) An action based upon a tax deed executed by an officer of the state of Michigan before September 28, 1942 shall not be maintained in any court to recover property in this state or to establish, maintain, or recover an interest in property against a person in possession who, or whose predecessors in interest, paid or caused to be paid the taxes regularly assessed against the property for at least 5 consecutive years preceding the date when the action is brought and who claim the property under a connected chain of title from the person who was the last grantee in the regular chain of title of the property at the time the tax deed was executed.

(3) In the case of unoccupied, unimproved, and unenclosed property a person shall be considered to be in possession of the property for the purposes of subsection (2) if that person or his or her predecessors in interest paid or caused to be paid all taxes regularly assessed against the property for a period of at least 5 consecutive years before the action is brought against him or her.

(4) Nothing in this section shall be construed, by implication or otherwise, to revive or give any effect to any certificate or deed barred or voided by operation of law or otherwise.

211.75 Annulment of certificate of redemption or tax deed; copy; record; notice to state treasurer.

Sec. 75. If a court annuls a certificate executed by the county treasurer or any deed issued by the state treasurer, the clerk of the court, on the payment by any party interested of $1.00, shall deliver to that person a certified copy of the judgment or order. The certified copy of the judgment or order may be recorded in the office of the register of deeds of the county in which the property is located. On recording the certificate, the register of deeds shall enter in the margin of the record of the tax deed affected a brief statement of the judgment or order, and shall also send notice of the judgment or order to the office of the state treasurer.

211.83 Loss of certificate of sale or deed; verification; issuance of deed; contents; fee.

Sec. 83. (1) If a certificate of sale for delinquent taxes is lost, the purchaser, his or her legal representative, or his or her assigns may file a verified affidavit of the loss and that the purchaser was, at the time of the loss, the bona fide and legal holder and owner of the certificate.

(2) If an affidavit is filed under subsection (1), the state treasurer or his or her designated representative shall execute a deed to the property described in the certificate, if the certificate has not been redeemed, in the same manner as though the certificate had been presented and surrendered.

(3) The state treasurer or his or her designated representative shall execute a second deed to property conveyed if the original deed and record of the original deed is lost or destroyed. A second deed shall declare upon its face that it is a second deed, and shall recite the loss or destruction of the former deed and its date, if possible. A second deed shall inure to the benefit of the grantee in the first deed or his or her heirs or assigns, as the case may be, and shall have the same force and effect as the first deed. Before execution of a second deed, the party applying for the second deed shall pay to the state treasurer the sum of $1.00, which shall be credited to the general fund of this state.

211.85 Enforcement of remaining unpaid taxes.

Sec. 85. The sale of any of the bids of the state for which the time of redemption has not expired shall not prejudice the right to enforce the collection of any tax prior or subse-

quent to the year or years for which the property was sold. For the taxes and charges remaining unpaid for prior or subsequent year or years, the state treasurer shall offer that property in regular succession at the next annual tax sale, giving notice as required by law, unless previously redeemed or otherwise discharged.

211.86 Ejectment action; authorized against state; evidence; tax refund.

Sec. 86. In the prosecution of an action of ejectment by any person holding an adverse claim to any property bid off to the state as provided in this act, the state treasurer may be defendant. In all cases in the prosecution or defense of an action of ejectment or trespass by any person holding or claiming property under any deed or other conveyance of property bid off or purchased for delinquent or unpaid taxes, the party reclaiming under the purchase for unpaid taxes may show his or her title to the property, whether title was derived under 1 or more purchases or sales for taxes or otherwise, and may give in evidence any and all deeds of conveyance or other legal evidence of purchase, which he or she may have received on sales for taxes, and may claim title under any or all of them. The state or county shall not be required to refund any taxes or money by reason of defect in the taxes or sales prior to the particular tax or deed decreed valid.

211.87 Adjustment of accounts; statement of account; interest on delinquent payments; charge back lists.

Sec. 87. (1) The accounts between this state and each county and local tax collecting unit in this state shall be adjusted on the basis of crediting and paying to each county and local tax collecting unit the taxes collected by and for each county and local tax collecting unit with interest on those taxes.

(2) The state treasurer shall, on January 1, April 1, July 1, and October 1 in each year, make a statement of account between this state and each county and deliver the statement of account to the county treasurer of each county together with a warrant payable to the county treasurer for all money in the state treasury collected for the county, a local tax collecting unit, school district, or highway in that county, or any other purposes for that county, local tax collecting unit, school district, or highway. The state treasurer shall send notice of the warrant to the county clerk.

(3) At the time designated in subsection (2), the county treasurer shall pay to this state all money collected and due from that county to this state, as shown by the statement of account prepared by the state treasurer. On January 15, and on the fifteenth day of each month thereafter, the county treasurer shall pay to this state all money coming into his or her hands from the collection of the state tax, and shall transmit a sworn statement of the amount of taxes received from the collector in each assessing district in that county. The collector in each assessing district in the county shall pay to the county treasurer of its respective county all money collected not later than January 10, and not later than the tenth day of each month thereafter until the regular quarterly settlement for the quarter ending March 31 is made each year. The county treasurer or collector of each assessing district in the county shall also pay to the state treasurer for the use of this state 1/2 of 1% for each month or fraction of a month as interest on all money in his or her possession belonging to this state and not remitted on the fifteenth of the month. The state treasurer shall include all sums due as interest in his or her quarterly statement to the county treasurer. The sum due as interest shall be paid by the county the same as the taxes are paid and collected by the county from the treasurer or the sureties on his or her bond.

(4) The county treasurer of each county shall, on or before the fifteenth day of each month, make out a detailed statement of account for the preceding calendar month

between the county and the local tax collecting units in that county. The statement shall show the different funds to which the several debits and credits belong. The county treasurer shall deliver the statement to the treasurer of the local tax collecting unit and pay the amount shown by the statement to the local tax collecting unit. The county treasurer shall notify the clerk of the local tax collecting unit of the total amount paid and provide a description of the property upon which the taxes were paid. The county clerk shall charge that amount to the county treasurer, and the clerks of the local tax collecting units shall charge that amount to the treasurers of the local tax collecting units on the books of their respective offices.

(5) Treasurers for the local tax collecting units are not required to make a settlement with the county treasurer for the items of state and county taxes included in the annual charge back list until the annual settlement with the county treasurer.

(6) The county board of commissioners by majority vote may authorize the county treasurer to pay directly to the school districts all money shown on the statement to be due to the school districts within the county. In that case the county superintendent is not required to compute and report delinquent school taxes handled by the county.

211.88 Tax report of state treasurer; contents; time; entries of county treasurer.

Sec. 88. The state treasurer shall, on the first Monday in each month, transmit to the treasurer of each county a list of the property in that county upon which the taxes have been paid to the state treasurer and also a list of all property bid off to the state that has been sold during the preceding month. Upon receiving the lists the county treasurer shall make the proper entries showing the payment or sale. Where a sale has been made by the state treasurer, the county treasurer shall note that fact upon the tax record.

211.90 Compensation and expenses; payment.

Sec. 90. All compensation of officers in the assessment and collection of taxes in townships and in the return of delinquent taxes to the county treasurer, except fees collected by township treasurers on their tax rolls, shall be paid by the township. All compensation of county officers and expenses incurred by them under the provisions of this act shall be paid by the county. The compensation of all state officers and expenses incurred by them shall be paid by this state. Expenses incurred by the state officers shall be audited by the state treasurer and paid out of the general fund.

211.95 State treasurer or county treasurer withholding sale because of error; taxes charged back; change in boundaries.

Sec. 95. (1) If the state treasurer or county treasurer discovers before the sale of any property for delinquent taxes that for any reason the property should not be sold, the state treasurer or county treasurer shall cause the property to be withheld from sale.

(2) If the error originated with the local tax collecting unit or county officers, the amount of the taxes shall be charged against the county from which the taxes were returned as delinquent.

(3) If the error was made by an officer of a local tax collecting unit, the amount of the taxes shall be charged by the county treasurer to the local tax collecting unit.

(4) If there has been a change in the boundaries of the county in which the property is situated after the return of the taxes, the taxes shall be charged to the county in which the property was located when the taxes were returned as delinquent.

211.96 Rejected taxes; list; reassessment.

Sec. 96. (1) The county treasurer shall, on or before June 30 of each year, prepare a statement setting forth all rejected taxes, the reasons for the rejection, and a description of the property upon which the taxes were assessed.

(2) After due examination, if the rejection is approved, the state treasurer shall submit the rejected taxes, through the county treasurer, to the county board of commissioners at the next annual fall session.

(3) If taxes are rejected or charged back by the state treasurer or the county treasurer, unless the property was not subject to taxation at the time the taxes were assessed, the taxes on the property have been paid, or there had been a double assessment of the taxes on the property, the county board of commissioners shall cause the taxes to be reassessed upon the same property, collected with the taxes of the current year, and treated in the same manner as taxes of the current year. Taxes that are rejected or charged back are not subject to penalties other than the penalties that apply to taxes assessed in the current year. If the taxes cannot be properly reassessed upon the same property, the county board of commissioners shall cause the taxes to be reassessed upon the taxable property of the proper local tax collecting unit.

211.97 Rejected taxes on detached lands; statement to state treasurer; tax credit.

Sec. 97. The county board of commissioners shall furnish to the state treasurer a list of all taxes that have been rejected or charged back to their county upon property that has been detached from the county after the taxes were assessed. The state treasurer shall credit to that county the amount charged back, and charge that amount to the county in which the property is situated if the taxes have not been paid or reassessed.

211.98 Conveyance; grounds for withholding; 5 year limitation; cancellation of sale; rejection and reassessment of taxes.

Sec. 98. (1) If property returned to the state treasurer under this act is sold for the nonpayment of taxes and the state treasurer discovers any of the following, the state treasurer shall suspend the sale or forfeiture of that property:

(a) The property was not subject to taxation on the date of the assessment of the taxes for which it was sold.

(b) The taxes had been paid to the proper officer within the time limited by law for payment or redemption.

(c) The sale violated a provision of this act.

(d) A certificate, including the certificate provided for in section 135, tax history, or statement to the effect that all taxes charged against the property has been paid, is given by the proper officer within the time limited by law for payment or redemption.

(e) The description of the property used in the assessment was so indefinite or erroneous as to result in the tax lien being void.

(2) The state treasurer shall withhold a conveyance of property the sale of which is suspended pursuant to subsection (1) and shall, on demand, refund the purchase price to the purchaser with interest at 6% per annum.

(3) If a sale is suspended pursuant to subsection (1)(d), the person on whose behalf the certificate, tax history, or statement was given shall, when presenting the certificate to the state treasurer, pay to the state treasurer all taxes and charges due to this state upon the property at the time the certificate was issued. A refund of the purchase price and interest shall not be made more than 5 years after the expiration of the redemption period.

(4) If the discovery of any of the conditions set forth in subsection (1) is not made until after a conveyance of the property is executed and delivered, a certificate of error may be issued in proper form for recording and the deed, if not recorded, shall be surrendered when the purchase price is refunded. If the deed has been recorded, the purchase price shall be refunded on a recorded release from the holder of the tax deed. Conveyance of the property shall not be withheld or a certificate of error issued more than 5 years after the date of the sale unless 1 or more of the following conditions exist:

(a) The property was not subject to taxation at the time of the assessment of the taxes for which it was sold.

(b) The taxes had been paid to the proper officer within the time limited by law for the payment or redemption.

(5) Refund of the purchase price and interest shall not be made more than 5 years after the purchaser or his or her heirs or assigns was entitled to a tax deed.

(6) If a conveyance of property is withheld or a certificate of error issued under this section, the state treasurer shall cancel the sale. If a conveyance is withheld or certificate of error issued for the reasons set forth in subsection (1)(a), (b), and (e), the state treasurer shall reject the taxes and special assessments for the nonpayment of which the property was sold. The rejected taxes and special assessments shall be reassessed pursuant to section 96. If a conveyance is withheld or certificate of error issued for the reasons set forth in subsection (1)(c) or (d), the state treasurer may proceed to enforce the collection of the taxes under this act.

211.98a Certificate of payment of taxes, certificate of error, or cancellation of sale; payment.

Sec. 98a. (1) If taxes are paid to the officer authorized under this act to receive payment, and the entry of that payment is not made upon the tax roll, a person applying for a certificate of error or a cancellation of the sale for delinquent taxes, and rejection of the taxes, shall present to the state treasurer the certificate of the county treasurer that the taxes were paid on the ..... day of ..... (giving date), as it appears on the copy of the receipt for payment of the taxes on file in the county treasurer's office.

(2) A certified copy of the receipt shall be forwarded to the state treasurer with the certificate.

(3) The county treasurer shall make a certified copy of receipts presented to him or her and file those receipts in his or her office, and shall return the original receipt to the person entitled to the original receipt.

(4) The county treasurer shall immediately notify the person or officer receiving payment of the production of the receipt and require payment to the county treasurer of the amount not discharged by entry upon the tax roll at the time of payment. If the person who received payment does not pay that amount within 30 days of the receipt of the notice, the county treasurer shall bring suit against that person and against his or her bond for the recovery of that amount. On receipt of the amount paid, the county treasurer shall pay that amount to the proper officer of the local tax collecting unit or fund entitled to that amount, and shall notify the county board of commissioners at the annual session in October of the amounts collected and paid.

211.99 Irregularities; records prima facie evidence; presumption; signing of records; deed unimpeachable.

Sec. 99. (1) A tax assessed upon property or a sale of property for a delinquent tax shall not be held invalid by any court of this state on account of any of the following:

(a) An irregularity in any assessment.

(b) An assessment or tax roll not having been made or a proceeding held within the time required by law.

(c) The property having been assessed without the name of the owner, or in the name of any person other than the owner.

(d) Any other irregularity, informality, or omission, or lack of any matter of form or substance in any proceeding that does not prejudice the property rights of the person whose property is taxed.

(2) All proceedings in assessing and levying taxes and in the sale of property for delinquent taxes shall be presumed by all the courts of this state to be legal, unless affirmatively shown to be illegal.

(3) All records, statements, and certificates provided for in this act are prima facie evidence of the facts set forth in the record, statement, or certificate.

(4) The absence of any record of any proceeding, the omission of any mention in any record of any vote or proceeding, or the mention of any matter in any statement or certificate that should appear in the statement or certificate under any law of this state does not affect the validity of any proceeding, tax, or title, if the fact that the vote or proceeding was had or the tax was authorized is shown by any other record, statement, or certificate entered as evidence under this act or any other law of this state.

(5) A tax or sale of property for any tax shall not be rendered or held invalid if a record, statement, certificate, affidavit, paper, or return cannot be found in the proper office. Unless the contrary is affirmatively shown, the presumption is that the record was made, and the certificate, statement, affidavit, paper, or return was duly made and filed.

(6) If any statement, certificate, or record is required to be made or signed by a school district board or the governing body of a local tax collecting unit, that statement, certificate, or record may be made and signed by the members of the school district board or the governing body of a local tax collecting unit, or a majority of the school district board or the governing body of a local tax collecting unit, and it is not necessary that other members be present when each signs the certificate, statement, affidavit, paper, or return.

(7) This section shall not be construed to authorize any showing impeaching the validity of any deed executed by the state treasurer under this act, and that deed is absolute and conclusive as provided in this act.

211.101 Deed to deceased person; title conveyed.

Sec. 101. If property is sold for delinquent taxes and the purchaser or his or her assigns dies before a deed is executed on the sale, the deed may be executed by the state treasurer to and in the name of the deceased person, if the deceased person would be entitled to a deed if still alive, and the deed vests title to the property in the heirs or devisees of the deceased person, in the same manner and liable to the claims of creditors and other persons as if the deed had been executed to the deceased person immediately prior to his or her death. The executor or administrator may assign the certificate of purchase and the deed may issue to the assignee of the certificate.

211.102 Delinquent tax return to department of natural resources; time; record; failure to pay; forfeiture.

Sec. 102. (1) The county treasurer shall, at the same time he or she makes his or her return of delinquent property to the state treasurer, make a similar return to the department of natural resources of all homestead and part paid state property, the fee of

which is in this state, the taxes upon which have not been collected, with a statement of the amount of the taxes.

(2) The department of natural resources shall provide suitable books, and enter in those books the description of every parcel of property returned and the taxes on that property.

(3) The person holding an interest in any parcel of property returned shall, on or before the first day of July following the return, pay to the state treasurer the taxes assessed on that property, with interest at the rate of 1% per month or fraction of a month from the immediately preceding March 1. If the taxes are not paid, the certificate of purchase of that parcel shall become void and that parcel shall be subject to sale and redemption in the same time and manner as property forfeited for nonpayment of interest. A patent shall not be made of that property until all taxes levied on that property are paid.

211.103 Statement of taxes paid; time; credit.

Sec. 103. The department of natural resources shall, on or before the first day of May and November in each year, make out and furnish to the state treasurer a statement containing a description of the property upon which the taxes have been paid, and the amount of the payments. At the same time, the department of natural resources shall transmit to each county treasurer a copy of the statement so far as the same relates to his or her county. The state treasurer shall credit to each county its proper part of those taxes, and the county treasurer shall credit each township with its share of that amount.

211.105 Organization of new county; division of local tax collecting unit; effect on assessments; credit.

Sec. 105. (1) If a new county is organized after the time for making the assessment roll and before the return of the treasurer of the local tax collecting unit, the new organization does not affect the assessment, collection, or return of taxes for that year on any property attached to the new county.

(2) The division of a local tax collecting unit after the time for making the assessment roll and before the return of the treasurer of the local tax collecting unit does not affect the assessment, collection, and return of taxes set forth on that assessment roll. The taxes shall be assessed, collected, and returned as though there had been no division of the local tax collecting unit.

(3) If property is detached from any county after the taxes on property in that county are returned to the state treasurer, and any of those taxes are rejected or set aside, the county from which the taxes were detached shall receive credit, and the county to which they are attached shall be charged.

211.113 Waste; removal of property from lands bid to state prohibited; warrant for seizure and sale of property; agreement; injunctive relief.

Sec. 113. (1) A person shall not remove any building or fixture, sand, gravel, or minerals, or cut or remove any logs, wood, timber, or any other part of property sold for delinquent taxes while this state owns that property or holds a tax lien on that property by virtue of the sale or the nonpayment of any other delinquent taxes.

(2) If a person removes a building or fixture, sand, gravel, or minerals, or cuts or removes logs, wood, timber, or any other part of property in violation of subsection (1), the state treasurer or his or her designated representative shall issue a warrant in the

name of the people of this state directed to the sheriff of the county in which the property is situated. The warrant shall set forth a description of the property and the amount of the unpaid taxes, interest, and charges, and command the sheriff to seize the buildings, fixtures, sand, gravel, minerals, logs, wood, timber, or other property wherever found in any county in this state and to sell the buildings, fixtures, sand, gravel, minerals, logs, wood, timber, or other property or a sufficient quantity of the buildings, fixtures, sand, gravel, minerals, logs, wood, timber, or other property to satisfy the taxes, interest, and charges and the cost of the seizure and sale.

(3) The sheriff shall receive the warrant and execute the warrant as directed in the warrant, as if a levy and sale on execution, and make a return on the warrant to the state treasurer, within 60 days after the receipt of the warrant, and pay all money collected to the state treasurer.

(a) The quality assurance assessment fee shall be implemented on May 10, 2002.

(b) The quality assurance assessment fee shall be assessed on the non-medicare premiums collected by each health maintenance organization described in subsection (1) based on the health maintenance organization's most recent statement filed with the commissioner pursuant to sections 438 and 438a. Except as otherwise provided, the quality assurance assessment fee shall be payable on a quarterly basis with the first payment due 90 days after the date the fee is assessed. If a health maintenance organization does not have non-medicare premium revenue listed in a filing under section 438 or 438a, the assessment shall be based on an estimate by the department of community health of the health maintenance organization's non-medicare premiums for the quarter and shall be payable upon receipt.

If the commissioner determines that a reasonable degree of competition in the worker's compensation insurance market does not exist on a statewide basis, the commissioner shall hold a public hearing and shall issue a report delineating specific classifications and kinds or types of insurance, if any, where competition does not exist. The report shall be based on relevant economic tests, including but not limited to those in subsection (3). The findings in the report shall not be based on any single measure of competition, but appropriate weight shall be given to all measures of competition. Any person who disagrees with the report and findings of the commissioner may request a contested hearing pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, not later than 60 days after issuance of the report under this subsection.

A plan for competition or availability adopted pursuant to this section shall be included in a report or supplemental report under section 2409. The plan shall only relate to those geographic areas, classifications, or kinds or types of risks where competition has been certified not to exist. If the commissioner determines that a reasonable degree of competition in the commercial liability insurance market does not exist on a statewide basis, the commissioner shall hold a public hearing and shall issue a report delineating specific classifications and kinds or types of insurance, if any, where a reasonable degree of competition does not exist. The report shall be based on relevant economic tests, including, but not limited to, those in subsection (3). The findings in the report shall not be based on any single measure of competition, but appropriate weight shall be given to all measures of competition. Any person who disagrees with the report and findings of the commissioner may request a contested hearing pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, not later than 60 days after issuance of the report under this subsection.

(2) If the results of the report issued under subsection (1) are disputed or if the commissioner determines that circumstances that the report was based on have changed, the commissioner shall issue a supplemental report to the report under subsection (1) which shall include a certification of whether or not a reasonable degree of competition exists in the commercial liability insurance market. The supplemental report and certification shall be issued not later than November 15 immediately following the release of the report under subsection (1) that this report supplements and shall be supported by substantial evidence.

The People of the State of Michigan enact:

211.7cc Homestead exemption from tax levied by local school district for school operating purposes; procedures.

Sec. 7cc. (1) A homestead is exempt from the tax levied by a local school district for school operating purposes to the extent provided under section 1211 of the revised school code, 1976 PA 451, MCL 380.1211, if an owner of that homestead claims an exemption as provided in this section. Notwithstanding the tax day provided in section 2, the status of property as a homestead shall be determined on the date an affidavit claiming an exemption is filed under subsection (2).

(2) An owner of property may claim an exemption under this section by filing an affidavit on or before May 1 with the local tax collecting unit in which the property is located. The affidavit shall state that the property is owned and occupied as a homestead by that owner of the property on the date that the affidavit is signed. The affidavit shall be on a form prescribed by the department of treasury. Beginning in 1995, 1 copy of the affidavit shall be retained by the owner, 1 copy shall be retained by the local tax collecting unit until any appeal or audit period under this act has expired, and 1 copy shall be forwarded to the department of treasury pursuant to subsection (4), together with all information submitted under subsection (18) for a cooperative housing corporation. Beginning in 1995, the affidavit shall require the owner claiming the exemption to indicate if that owner has claimed another exemption on property in this state that is not rescinded. If the affidavit requires an owner to include a social security number, that owner's number is subject to the disclosure restrictions in 1941 PA 122, MCL 205.1 to 205.31.

(3) A husband and wife who are required to file or who do file a joint Michigan income tax return are entitled to not more than 1 homestead exemption.

(4) Upon receipt of an affidavit filed under subsection (2) and unless the claim is denied under subsection (6), the assessor shall exempt the property from the collection of the tax levied by a local school district for school operating purposes to the extent provided under section 1211 of the revised school code, 1976 PA 451, MCL 380.1211, as provided in subsection (1) until December 31 of the year in which the property is transferred or is no longer a homestead as defined in section 7dd. The local tax collecting unit shall forward

copies of affidavits to the department of treasury according to a schedule prescribed by the department of treasury.

(5) Not more than 90 days after exempted property is no longer used as a homestead by the owner claiming an exemption, that owner shall rescind the claim of exemption by filing with the local tax collecting unit a rescission form prescribed by the department of treasury. Beginning October 1, 1994, an owner who fails to file a rescission as required by this subsection is subject to a penalty of $5.00 per day for each separate failure beginning after the 90 days have elapsed, up to a maximum of $200.00. This penalty shall be collected under 1941 PA 122, MCL 205.1 to 205.31, and shall be deposited in the state school aid fund established in section 11 of article IX of the state constitution of 1963. This penalty may be waived by the department of treasury.

(6) If the assessor of the local tax collecting unit believes that the property for which an exemption is claimed is not the homestead of the owner claiming the exemption, effective for taxes levied after 1994 the assessor may deny a new or existing claim by notifying the owner and the department of treasury in writing of the reason for the denial and advising the owner that the denial may be appealed to the department of treasury within 35 days after the date of the notice. The denial shall be made on a form prescribed by the department of treasury. If the assessor of the local tax collecting unit believes that the property for which the exemption is claimed is not the homestead of the owner claiming the exemption, for taxes levied in 1994 the assessor may send a recommendation for denial for any affidavit that is forwarded to the department of treasury stating the reasons for the recommendation. If the assessor of the local tax collecting unit believes that the property for which the exemption is claimed is not the homestead of the owner claiming the exemption and has not denied the claim, for taxes levied after 1994 the assessor shall include a recommendation for denial with any affidavit that is forwarded to the department of treasury or, for an existing claim, shall send a recommendation for denial to the department of treasury, stating the reasons for the recommendation.

(7) The department of treasury shall determine if the property is the homestead of the owner claiming the exemption. The department of treasury may review the validity of exemptions for the current calendar year and for the 3 immediately preceding calendar years. If the department of treasury determines that the property is not the homestead of the owner claiming the exemption, the department shall send a notice of that determination to the local tax collecting unit and to the owner of the property claiming the exemption, indicating that the claim for exemption is denied, stating the reason for the denial, and advising the owner claiming the exemption of the right to appeal the determination to the department of treasury and what those rights of appeal are. The department of treasury may issue a notice denying a claim if an owner fails to respond within 30 days of receipt of a request for information from that department. An owner may appeal the denial of a claim of exemption to the department of treasury within 35 days of receipt of the notice of denial. An appeal to the department of treasury shall be conducted according to the provisions for an informal conference in section 21 of 1941 PA 122, MCL 205.21. Within 10 days after acknowledging an appeal of a denial of a claim of exemption, the department of treasury shall notify the assessor and the treasurer for the county in which the property is located that an appeal has been filed. Upon receipt of a notice that the department of treasury has denied a claim for exemption, the assessor shall remove the exemption of the property and, if the tax roll is in the local tax collecting unit's possession, amend the tax roll to reflect the denial and the local treasurer shall issue a corrected tax bill for previously unpaid taxes with interest and penalties computed based on the interest and penalties that would have accrued from the date the taxes were originally levied if there had not been an exemption. If the tax roll is in the county

treasurer's possession, the tax roll shall be amended to reflect the denial and the county treasurer shall prepare and submit a supplemental tax bill for any additional taxes, together with any interest and penalties. For taxes levied in 1994 only, the county treasurer shall waive any interest and penalties due if the owner pays the supplemental tax bill not more than 30 days after the owner receives the supplemental tax bill. Interest and penalties shall not be assessed for any period before February 14, 1995. However, if the property has been transferred to a bona fide purchaser before additional taxes were billed to the seller as a result of the denial of a claim for exemption, the taxes, interest, and penalties shall not be billed to the bona fide purchaser, and the local tax collecting unit if the local tax collecting unit has possession of the tax roll or the county treasurer if the county has possession of the tax roll shall notify the department of treasury of the amount of tax due and interest through the date of that notification. The department of treasury shall then assess the owner who claimed the homestead property tax exemption for the tax and interest plus penalty accruing as a result of the denial of the claim for exemption, if any, as for unpaid taxes provided under 1941 PA 122, MCL 205.1 to 205.31, and shall deposit any tax, interest, or penalty collected into the state school aid fund.

(8) An owner may appeal a final decision of the department of treasury to the residential and small claims division of the Michigan tax tribunal within 35 days of that decision. An assessor may appeal a final decision of the department of treasury to the residential and small claims division of the Michigan tax tribunal within 35 days of that decision if the assessor denied the exemption under subsection (6), or, for taxes levied in 1994 only, the assessor forwarded a recommendation for denial to the department of treasury under subsection (6). An owner is not required to pay the amount of tax in dispute in order to appeal a denial of a claim of exemption to the department of treasury or to receive a final determination of the residential and small claims division of the Michigan tax tribunal. However, interest and penalties except as provided in subsection (7), if any, shall accrue and be computed based on the interest and penalties that would have accrued from the date the taxes were originally levied as if there had not been an exemption.

(9) An affidavit filed by an owner for a homestead rescinds all previous exemptions filed by that owner for any other homestead. The department of treasury shall notify the assessor of the local tax collecting unit in which the property for which a previous exemption was claimed is located that the previous exemption is rescinded by the subsequent affidavit. Upon receipt of notice that an exemption is rescinded, the assessor of the local tax collecting unit shall remove the exemption effective December 31 of the year in which the property is transferred or is no longer a homestead as defined in section 7dd. The assessor of the local tax collecting unit in which that property is located shall notify the treasurer in possession of the tax roll for a year for which the exemption is rescinded. If the tax roll is in the local tax collecting unit's possession, the tax roll shall be amended to reflect the rescission and the local treasurer shall prepare and issue a corrected tax bill for previously unpaid taxes with interest and penalties computed based on the interest and penalties that would have accrued from the date the taxes were originally levied if there had not been an exemption for that year. If the tax roll is in the county treasurer's possession, the tax roll shall be amended to reflect the rescission and the county treasurer shall prepare and submit a supplemental tax bill for any additional taxes, together with any interest and penalties. However, if the property has been transferred to a bona fide purchaser, the taxes, interest, and penalties shall not be billed to the bona fide purchaser, and the local tax collecting unit if the local tax collecting unit has possession of the tax roll or the county treasurer if the county has possession of the tax roll shall notify the department of treasury of the amount of tax due and interest through the date of that notification. The department of treasury shall then assess the

owner who received the homestead property tax exemption when the property was not a homestead as defined in section 7dd for the tax and interest plus penalty accruing, if any, as for unpaid taxes provided under 1941 PA 122, MCL 205.1 to 205.31, and shall deposit any tax, interest, or penalty collected into the state school aid fund.

(10) An owner of property for which a claim of exemption is rescinded may appeal that rescission with either the July or December board of review in either the year for which the exemption is rescinded or in the immediately succeeding year. If an appeal of a rescission of a claim for exemption is received not later than 5 days prior to the date of the December board of review, the local tax collecting unit shall convene a December board of review and consider the appeal pursuant to this section and section 53b. An owner of property for which a claim of exemption is rescinded may appeal the decision of the board of review to the residential and small claims division of the Michigan tax tribunal within 35 days of that decision.

(11) If the homestead is part of a unit in a multiple-unit dwelling or a dwelling unit in a multiple-purpose structure, an owner shall claim an exemption for only that portion of the total taxable value of the property used as the homestead of that owner in a manner prescribed by the department of treasury. If a portion of a parcel for which the owner claims an exemption is used for a purpose other than as a homestead, the owner shall claim an exemption for only that portion of the taxable value of the property used as the homestead of that owner in a manner prescribed by the department of treasury.

(12) When a county register of deeds records a transfer of ownership of a property, he or she shall notify the local tax collecting unit in which the property is located of the transfer.

(13) The department of treasury shall make available the affidavit forms and the forms to rescind an exemption, which may be on the same form, to all city and township assessors, county equalization officers, county registers of deeds, and closing agents. A person who prepares a closing statement for the sale of property shall provide affidavit and rescission forms to the buyer and seller at the closing and, if requested by the buyer or seller after execution by the buyer or seller, shall file the forms with the local tax collecting unit in which the property is located. If a closing statement preparer fails to provide homestead exemption affidavit and rescission forms to the buyer and seller, or fails to file the affidavit and rescission forms with the local tax collecting unit if requested by the buyer or seller, the buyer may appeal to the department of treasury within 30 days of notice to the buyer that an exemption was not recorded. If the department of treasury determines that the buyer qualifies for the exemption, the department of treasury shall notify the assessor of the local tax collecting unit that the exemption is granted and the assessor of the local tax collecting unit or, if the tax roll is in the possession of the county treasurer, the county treasurer shall correct the tax roll to reflect the exemption. This subsection does not create a cause of action at law or in equity against a closing statement preparer who fails to provide homestead exemption affidavit and rescission forms to a buyer and seller or who fails to file the affidavit and rescission forms with the local tax collecting unit when requested to do so by the buyer or seller.

(14) An owner who owned and occupied a homestead on May 1 for which the exemption was not on the tax roll may file an appeal with the July board of review or December board of review in the year for which the exemption was claimed or the immediately succeeding 3 years. If an appeal of a claim for exemption that was not on the tax roll is received not later than 5 days prior to the date of the December board of review, the local tax collecting unit shall convene a December board of review and consider the appeal pursuant to this section and section 53b.

(15) If the assessor or treasurer of the local tax collecting unit believes that the department of treasury erroneously denied a claim for exemption, the assessor or treasurer may submit written information supporting the owner's claim for exemption to the department of treasury within 35 days of the owner's receipt of the notice denying the claim for exemption. If, after reviewing the information provided, the department of treasury determines that the claim for exemption was erroneously denied, the department of treasury shall grant the exemption and the tax roll shall be amended to reflect the exemption.

(16) If granting the exemption under this section results in an overpayment of the tax, a rebate, including any interest paid, shall be made to the taxpayer by the local tax collecting unit if the local tax collecting unit has possession of the tax roll or by the county treasurer if the county has possession of the tax roll within 30 days of the date the exemption is granted. The rebate shall be without interest.

(17) If an exemption under this section is erroneously granted, an owner may request in writing that the department of treasury withdraw the exemption. If an owner requests that an exemption be withdrawn, the department of treasury shall issue an order notifying the local assessor that the exemption issued under this section has been denied based on the owner's request. If an exemption is withdrawn, the property that had been subject to that exemption shall be immediately placed on the tax roll by the local tax collecting unit if the local tax collecting unit has possession of the tax roll or by the county treasurer if the county has possession of the tax roll as though the exemption had not been granted. A corrected tax bill shall be issued for the tax year being adjusted by the local tax collecting unit if the local tax collecting unit has possession of the tax roll or by the county treasurer if the county has possession of the tax roll. If an owner requests that an exemption under this section be withdrawn before that owner is contacted in writing by either the local assessor or the department of treasury regarding that owner's eligibility for the exemption and that owner pays the corrected tax bill issued under this subsection within 30 days after the corrected tax bill is issued, that owner is not liable for any penalty or interest on the additional tax. An owner who pays a corrected tax bill issued under this subsection more than 30 days after the corrected tax bill is issued is liable for the penalties and interest that would have accrued if the exemption had not been granted from the date the taxes were originally levied.

(18) For tax years beginning on and after January 1, 1994, a cooperative housing corporation is entitled to a full or partial exemption under this section for the tax year in which the cooperative housing corporation files all of the following with the local tax collecting unit in which the cooperative housing corporation is located if filed on or before May 1 of the tax year, or for the tax year following the year in which all of the following are filed if filed after May 1 of the tax year:

(a) An affidavit form.

(b) A statement of the total number of units owned by the cooperative housing corporation and occupied as the principal residence of a tenant stockholder as of the date of the filing under this subsection.

(c) A list that includes the name, address, and social security number of each tenant stockholder of the cooperative housing corporation occupying a unit in the cooperative housing corporation as his or her principal residence as of the date of the filing under this subsection.

(d) A statement of the total number of units of the cooperative housing corporation on which an exemption under this section was claimed and that were transferred in the tax year immediately preceding the tax year in which the filing under this section was made.

211.53b Clerical error or mutual mistake of fact as to assessment figures, rate of taxation, or mathematical computation; verification, approval, and affidavit; correction of records; rebate; notice and payment; initiation of action; actions of board of review; exemption; appeal.

Sec. 53b. (1) If there has been a clerical error or a mutual mistake of fact relative to the correct assessment figures, the rate of taxation, or the mathematical computation relating to the assessing of taxes, the clerical error or mutual mistake of fact shall be verified by the local assessing officer and approved by the board of review at a meeting held for the purposes of this section on Tuesday following the second Monday in December and, for summer property taxes, on Tuesday following the third Monday in July. If there is not a levy of summer property taxes, the board of review may meet for the purposes of this section on Tuesday following the third Monday in July. If approved, the board of review shall file an affidavit within 30 days relative to the clerical error or mutual mistake of fact with the proper officials who are involved with the assessment figures, rate of taxation, or mathematical computation and all affected official records shall be corrected. If the clerical error or mutual mistake of fact results in an overpayment or underpayment, the rebate, including any interest paid, shall be made to the taxpayer or the taxpayer shall be notified and payment made within 30 days of the notice. A rebate shall be without interest. The county treasurer may deduct the rebate from the appropriate tax collecting unit's subsequent distribution of taxes. The county treasurer shall bill to the appropriate tax collecting unit the tax collecting unit's share of taxes rebated. Except as otherwise provided in subsection (6), a correction under this subsection may be made in the year in which the error was made or in the following year only.

(2) Action pursuant to this section may be initiated by the taxpayer or the assessing officer.

(3) The board of review meeting in July and December shall meet only for the purpose described in subsection (1) and to hear appeals provided for in sections 7u, 7cc, and 7ee. If an exemption under section 7u is approved, the board of review shall file an affidavit with the proper officials involved in the assessment and collection of taxes and all affected official records shall be corrected. If an appeal under section 7cc or 7ee results in a determination that an overpayment has been made, the board of review shall file an affidavit and a rebate shall be made at the times and in the manner provided in subsection (1). Except as otherwise provided in sections 7cc and 7ee, a correction under this subsection shall be made for the year in which the appeal is made only. If the board of review grants an exemption or provides a rebate for property under section 7cc or 7ee as provided in this subsection, the board of review shall require the owner to execute the affidavit provided for in section 7cc or 7ee and shall forward a copy of any section 7cc affidavits to the department of treasury.

(4) If an exemption under section 7cc is granted by the board of review under this section, the provisions of section 7cc(6) through (8) apply. If an exemption under section 7cc is not granted by the board of review under this section, the owner may appeal that decision in writing to the department of treasury within 35 days of the board of review's denial and the appeal shall be conducted as provided in section 7cc(7).

(5) An owner or assessor may appeal a decision of the board of review under this section regarding an exemption under section 7ee to the residential and small claims division of the Michigan tax tribunal. An owner is not required to pay the amount of tax in dispute in order to receive a final determination of the residential and small claims division of the Michigan tax tribunal. However, interest and penalties, if any, shall accrue

and be computed based on interest and penalties that would have accrued from the date the taxes were originally levied as if there had not been an exemption.

(6) A correction under this section that grants a homestead exemption pursuant to section 7cc(14) may be made for the year in which the appeal was filed and the 3 immediately preceding tax years.

This act is ordered to take immediate effect.

The People of the State of Michigan enact:

CHAPTER XIIA

712A.17b Definitions; proceedings to which section applicable; use of dolls or mannequins; support person; notice; videorecorded statement; shielding of witness; videorecorded deposition; special arrangements to protect welfare of witness; section additional to other protections or procedures.

Sec. 17b. (1) As used in this section:

(a) "Custodian of the videorecorded statement" means the family independence agency, investigating law enforcement agency, prosecuting attorney, or department of attorney general or another person designated under the county protocols established as required by section 8 of the child protection law, 1975 PA 238, MCL 722.628.

(b) "Developmental disability" means that term as defined in section 100a of the mental health code, 1974 PA 258, MCL 330.1100a, except that, for the purposes of implementing this section, developmental disability includes only a condition that is attributable to a mental impairment or to a combination of mental and physical impairments, and does not include a condition attributable to a physical impairment unaccompanied by a mental impairment.

(c) "Videorecorded statement" means a witness's statement taken by a custodian of the videorecorded statement as provided in subsection (5). Videorecorded statement does not include a videorecorded deposition taken as provided in subsections (16) and (17).

(d) "Witness" means an alleged victim of an offense listed under subsection (2) who is either of the following:

(*i*) A person under 16 years of age.

(*ii*) A person 16 years of age or older with a developmental disability.

(2) This section only applies to either of the following:

(a) A proceeding brought under section 2(a)(1) of this chapter in which the alleged offense, if committed by an adult, would be a felony under section 136b, 145c, 520b to 520e, or 520g of the Michigan penal code, 1931 PA 328, MCL 750.136b, 750.145c, 750.520b to 750.520e, and 750.520g, or under former section 136 or 136a of the Michigan penal code, 1931 PA 328.

(b) A proceeding brought under section 2(b) of this chapter.

(3) If pertinent, the witness shall be permitted the use of dolls or mannequins, including, but not limited to, anatomically correct dolls or mannequins, to assist the witness in testifying on direct and cross-examination.

(4) A witness who is called upon to testify shall be permitted to have a support person sit with, accompany, or be in close proximity to the witness during his or her testimony. A notice of intent to use a support person shall name the support person, identify the relationship the support person has with the witness, and give notice to all parties to the proceeding that the witness may request that the named support person sit with the witness when the witness is called upon to testify during any stage of the proceeding. The notice of intent to use a named support person shall be filed with the court and shall be served upon all parties to the proceeding. The court shall rule on a motion objecting to the use of a named support person before the date at which the witness desires to use the support person.

(5) A custodian of the videorecorded statement may take a witness's videorecorded statement. The videorecorded statement shall be admitted at all proceedings except the adjudication stage instead of the live testimony of the witness. The videorecorded statement shall state the date and time that the statement was taken; shall identify the persons present in the room and state whether they were present for the entire videorecording or only a portion of the videorecording; and shall show a time clock that is running during the taking of the statement.

(7) A custodian of the videorecorded statement may release or consent to the release or use of a videorecorded statement or copies of a videorecorded statement to a law enforcement agency, an agency authorized to prosecute the criminal case to which the

videorecorded statement relates, or an entity that is part of county protocols established under section 8 of the child protection law, 1975 PA 238, MCL 722.628. Each respondent and, if represented, his or her attorney has the right to view and hear the videorecorded statement at a reasonable time before it is offered into evidence. In preparation for a court proceeding and under protective conditions, including, but not limited to, a prohibition on the copying, release, display, or circulation of the videorecorded statement, the court may order that a copy of the videorecorded statement be given to the defense.

(8) If authorized by the prosecuting attorney in the county in which the videorecorded statement was taken, a videorecorded statement may be used for purposes of training the custodians of the videorecorded statement in that county on the forensic interview protocol implemented as required by section 8 of the child protection law, 1975 PA 238, MCL 722.628.

(9) Except as provided in this section, an individual, including, but not limited to, a custodian of the videorecorded statement, the witness, or the witness's parent, guardian, guardian ad litem, or attorney, shall not release or consent to release a videorecorded statement or a copy of a videorecorded statement.

(10) A videorecorded statement that becomes part of the court record is subject to a protective order of the court for the purpose of protecting the privacy of the witness.

(11) A videorecorded statement shall not be copied or reproduced in any manner except as provided in this section. A videorecorded statement is exempt from disclosure under the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246, is not subject to release under another statute, and is not subject to disclosure under the Michigan court rules governing discovery. This section does not prohibit the production or release of a transcript of a videorecorded statement.

(12) Except as otherwise provided in subsection (15), if, upon the motion of a party or in the court's discretion, the court finds on the record that psychological harm to the witness would occur if the witness were to testify in the presence of the respondent at a court proceeding or in a videorecorded deposition taken as provided in subsection (13), the court shall order that the witness during his or her testimony be shielded from viewing the respondent in such a manner as to enable the respondent to consult with his or her attorney and to see and hear the testimony of the witness without the witness being able to see the respondent.

(13) In a proceeding brought under section 2(b) of this chapter, if, upon the motion of a party or in the court's discretion, the court finds on the record that psychological harm to the witness would occur if the witness were to testify at the adjudication stage, the court shall order to be taken a videorecorded deposition of a witness that shall be admitted into evidence at the adjudication stage instead of the live testimony of the witness. The examination and cross-examination of the witness in the videorecorded deposition shall proceed in the same manner as permitted at the adjudication stage.

(14) In a proceeding brought under section 2(a)(1) of this chapter in which the alleged offense, if committed by an adult, would be a felony under section 136b, 145c, 520b to 520e, or 520g of the Michigan penal code, 1931 PA 328, MCL 750.136b, 750.145c, 750.520b to 750.520e, and 750.520g, or under former section 136 or 136a of the Michigan penal code, 1931 PA 328, if, upon the motion of a party made before the adjudication stage, the court finds on the record that the special arrangements specified in subsection (15) are necessary to protect the welfare of the witness, the court shall order 1 or both of those special arrangements. In determining whether it is necessary to protect the welfare of the witness, the court shall consider both of the following:

(a) The age of the witness.

(b) The nature of the offense or offenses.

(15) If the court determines on the record that it is necessary to protect the welfare of the witness and grants the motion made under subsection (14), the court shall order 1 or both of the following:

(a) In order to protect the witness from directly viewing the respondent, the courtroom shall be arranged so that the respondent is seated as far from the witness stand as is reasonable and not directly in front of the witness stand. The respondent's position shall be located so as to allow the respondent to hear and see all witnesses and be able to communicate with his or her attorney.

(b) A questioner's stand or podium shall be used for all questioning of all witnesses by all parties, and shall be located in front of the witness stand.

(16) In a proceeding brought under section 2(a)(1) of this chapter in which the alleged offense, if committed by an adult, would be a felony under section 136b, 145c, 520b to 520e, or 520g of the Michigan penal code, 1931 PA 328, MCL 750.136b, 750.145c, 750.520b to 750.520e, and 750.520g, or under former section 136 or 136a of the Michigan penal code, 1931 PA 328, if, upon the motion of a party or in the court's discretion, the court finds on the record that the witness is or will be psychologically or emotionally unable to testify at a court proceeding even with the benefit of the protections afforded the witness in subsections (3), (4), and (15), the court shall order that a videorecorded deposition of a witness shall be taken to be admitted at the adjudication stage instead of the witness's live testimony.

(17) For purposes of the videorecorded deposition under subsection (16), the witness's examination and cross-examination shall proceed in the same manner as if the witness testified at the adjudication stage, and the court shall order that the witness, during his or her testimony, shall not be confronted by the respondent but shall permit the respondent to hear the testimony of the witness and to consult with his or her attorney.

(18) This section is in addition to other protections or procedures afforded to a witness by law or court rule.

(19) A person who intentionally releases a videorecorded statement in violation of this section is guilty of a misdemeanor punishable by imprisonment for not more than 93 days or a fine of not more than $500.00, or both.

(SB 358)

AN ACT to amend 1937 PA 306, entitled "An act to promote the safety, welfare and educational interests of the people of the state of Michigan by regulating the construction, reconstruction and remodeling of certain public or private school buildings or additions thereto, by regulating the construction, reconstruction and remodeling of buildings leased or acquired for school purposes, and to define the class of buildings affected by this act; to prescribe the powers and duties of the superintendent of public instruction, the state fire marshal, architects, engineers and school board members with respect thereto; to prescribe penalties for the violation of this act; and to repeal all acts and parts of acts, general, local and special, inconsistent with or contrary to the provisions of this act," by amending the title and section 1 (MCL 388.851) and by adding section 1b.

The People of the State of Michigan enact:

TITLE

An act to promote the safety, welfare, and educational interests of the people of the state of Michigan by regulating the construction, reconstruction, and remodeling of certain public or private school buildings or additions to such buildings, by regulating the construction, reconstruction, and remodeling of buildings leased or acquired for school purposes, and to define the class of buildings affected by this act; to prescribe the powers and duties of certain state agencies and officials; to prescribe penalties for the violation of this act; and to repeal acts and parts of acts.

388.851 School buildings; construction requirements; waiver.

Sec. 1. A school building, public or private, or any additions to a school building, shall not be erected, remodeled, or reconstructed in this state except in conformity with all of the following provisions:

(a) All plans and specifications for buildings shall be prepared by an architect or professional engineer who is licensed in this state. An architect or professional engineer licensed in this state or another person qualified to supervise construction shall supervise the construction of a school building.

(b) All walls, floors, partitions, and roofs shall be constructed of fire-resisting materials such as stone, brick, tile, concrete, gypsum, steel, or similar fire-resisting material. All steel members shall be protected by at least 3/4 of an inch of fire-resisting material.

(c) Wood lath or wood furring shall not be used in the construction. These regulations shall not be construed as prohibiting the use of finished wood flooring, wood door and window frames, wood sash, or wood furring and grounds, for the purpose of installing wood trim, panelling, acoustical units, or similar facing materials on masonry walls, structural steel, or concrete ceiling members.

(d) Every room enclosing a heating unit shall be enclosed by walls of fire-resisting materials and shall be equipped with automatically closing fire doors. All heating units shall not be located directly beneath any portion of a school building or addition that is constructed or reconstructed after January 1, 2003. This regulation shall not be construed to require the removal of an existing heating plant from beneath an existing building when an addition to the building is constructed unless the department requires such removal in the interests of the public safety. In any school where natural gas or any other kind of gas is used for heating purposes, the gas shall be chemically treated before being used in such a manner as to give a very distinguishable odor if any leak should develop in the heating system.

(e) In gymnasiums, fire-proofings may be omitted from the trusses and purlins if they are more than 16 feet off the main floor level.

(f) The architect or engineer shall provide adequate exits from all parts of school buildings. In all cases, there shall be at least 2 stairways and the distance from the door of any class or assembly room to a stairway or exit shall not exceed 100 feet.

(g) Provisions in subdivisions (b) to (f) may be waived in writing by the department.

(h) Compliance with section 1b.

388.851b School buildings; administration and enforcement of act; inspection; methods; plan reviews; delegation of responsibilities; approval under fire prevention code; scope of act; definitions.

Sec. 1b. (1) Except as provided in subsection (5), the department is responsible for the administration and enforcement of this act and the Stille-DeRossett-Hale single state construction code act of 1972, 1972 PA 230, MCL 125.1501 to 125.1531, in each school building in this state.

(2) Except as provided in subsection (5), a school building covered by bond issues that were approved by the department of treasury after July 1, 2003 shall not be constructed, remodeled, or reconstructed in this state until written approval of the plans and specifications is obtained from the department indicating that the school building will be designed and constructed in conformance with the code. This subsection does not apply to any school building for which construction is covered by bond issues that were approved by the department of treasury before July 1, 2003.

(3) Responsibility for inspections of school buildings shall be determined by 1 of the following methods:

(a) By an independent third party designated in the contract governing the construction, remodeling, or reconstruction of a school building. The independent third party shall be responsible for all inspections required to insure compliance with the code. The school authority shall verify that the independent third party named is knowledgeable about construction practices and codes and is otherwise qualified to conduct the inspections. The name of the independent third party to be responsible for conducting inspections shall be submitted to the department with the plans and specifications required by subsection (2). If the department determines that the independent third party is not qualified to conduct the inspections or is not an independent third party, it shall disapprove of the designation and notify the school authority. All inspection reports prepared by the person designated by the school authority under this subdivision shall be sent to the department upon completion of the inspection. The department may return the report for further work if there are questions relating to the scope of the inspection or whether the construction, remodeling, or reconstruction meets the requirements of the code.

(b) If a designation of an independent third party is not made as required under subdivision (a), the inspections required to insure compliance with the code will be performed by the department or as provided under subsection (5).

(4) Except as provided in subsection (5), the department shall perform for school buildings all plan reviews within 60 days from the date the plans are filed or considered approved and inspections within 5 business days as required by the code and shall be the enforcing agency for this act.

(5) The department shall delegate the responsibility for the administration and enforcement of this act to the applicable agency if both the school board and the governing body of the governmental subdivision have annually certified to the department, in a manner prescribed by the department, that full-time code officials, inspectors, and plan reviewers registered under the building officials and inspectors registration act, 1986 PA 54, MCL 338.2301 to 338.2313, will conduct plan reviews and inspections of school buildings.

(6) This section does not affect the responsibilities of the department under the fire prevention code, 1941 PA 207, MCL 29.1 to 29.34. (7) If a defendant in a prosecution under this section proposes to offer in his or her defense evidence to establish that a depiction that appears to include a child was not, in fact, created using a depiction of any part of an actual person under the age of 18, the defendant shall at the time of the arraignment on the information or within 15 days after

AN ACT to amend 1939 PA 3, entitled "An act to provide for the regulation and control of public utilities and other services affected with a public interest within this state; to provide for alternative energy suppliers; to provide for licensing; to include municipally owned utilities and other providers of energy under certain provisions of this act; to create a public service commission and to prescribe and define its powers and duties; to abolish the Michigan public utilities commission and to confer the powers and duties vested by law on the public service commission; to provide for the continuance, transfer, and completion of certain matters and proceedings; to abolish automatic adjustment clauses; to prohibit certain rate increases without notice and hearing; to qualify residential energy conservation programs permitted under state law for certain federal exemption; to create a fund; to provide for a restructuring of the manner in which energy is provided in this state; to encourage the utilization of resource recovery facilities; to prohibit certain acts and practices of providers of energy; to allow for the securitization of stranded costs; to reduce rates; to provide for appeals; to provide appropriations; to declare the effect and purpose of this act; to prescribe remedies and penalties; and to repeal acts and parts of acts," (MCL 460.1 to 460.10cc) by adding sections 9 and 9b.

The People of the State of Michigan enact:

460.9 Definitions; customer switched to alternative gas supplier or natural gas utility; prohibitions; standards; rules; violation; remedies and penalties.

Sec. 9. (1) As used in this section:

(a) "Alternative gas supplier" or "supplier" means a person who sells natural gas at unregulated retail rates to customers located in this state, where the gas is delivered to customers by a natural gas utility that has a customer choice program. Retail sales in a customer choice program by an alternative gas supplier do not constitute public utility service.

(b) "Commission" means the Michigan public service commission in the department of consumer and industry services.

(c) "Customer" means an end-user of natural gas.

(d) "Customer choice program" means a program approved by the commission on application by a natural gas utility that allows retail customers to choose an alternative gas supplier.

(e) "Natural gas utility" means an investor-owned business engaged in the sale and distribution of natural gas within this state whose rates are regulated by the commission.

(2) An alternative gas supplier or natural gas utility shall not switch a customer to its gas supply without authorization of the customer. A natural gas utility shall not be found in violation of this subsection or a commission order issued under subsection (3), if the customer's service was switched by the natural gas utility under the applicable terms and conditions of a commission approved gas customer choice program or as the result of the default of an alternative gas supplier.

(3) The commission may issue orders to ensure that an alternative gas supplier or natural gas utility does not switch a customer to another supplier without the customer's written confirmation, confirmation through an independent third party, or other verification procedures subject to commission approval, confirming the customer's intent to make a switch and that the customer has approved the specific details of the switch.

(4) An alternative gas supplier or natural gas utility shall not include or add optional services in a customer's service package without the authorization of the customer.

(5) The commission may issue orders to ensure that an alternative gas supplier or natural gas utility does not include or add optional services in a customer's service package without the customer's written confirmation, confirmation through an independent third party, or other verification procedures approved by the commission confirming the customer's intent to receive the optional services.

(6) An alternative gas supplier or natural gas utility shall not solicit or enter into contracts subject to this section with customers in this state in a misleading, fraudulent, or deceptive manner.

(7) The commission may by order establish minimum standards for the form and content of all disclosures, explanations, or sales information relating to the sale of a natural gas commodity in a customer choice program and disseminated by an alternative gas supplier or natural gas utility to ensure that the disclosures, explanations, and sales information contain accurate and understandable information and enable a customer to make an informed decision relating to the purchase of a natural gas commodity. Any standards established under this subsection shall be developed to do all of the following:

(a) Not be unduly burdensome.

(b) Not unnecessarily delay or inhibit the initiation and development of competition among alternative gas suppliers or natural gas utilities in any market.

(c) Establish different requirements for disclosures, explanations, or sales information relating to different services or similar services to different natural gas supply classes of customers, whenever such different requirements are appropriate to carry out the provisions of this section.

(8) The commission may adopt rules under the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, to implement this section.

(9) If after notice and hearing the commission finds a person has violated this section, the commission may order remedies and penalties to protect and make whole another person who has suffered an economic loss as a result of the violation, including, but not limited to, 1 or more of the following:

(a) Order the person to pay a fine for the first offense of not less than $20,000.00 or more than $30,000.00. For a second and any subsequent offense, the commission shall order the person to pay a fine of not less than $30,000.00 or more than $50,000.00. If the commission finds that the second or any of the subsequent offenses were knowingly made in violation of subsection (2) or (4), the commission shall order the person to pay a fine of not more than $70,000.00. Each switch made in violation of subsection (2) or service added in violation of subsection (4) shall be a separate offense under this subdivision.

(b) Order an unauthorized supplier to refund to the customer any amount greater than the customer would have paid to an authorized supplier.

(c) Order a portion between 10% to 50% of the fine assessed under subdivision (a) be paid directly to the customer who suffered the violation of subsection (2) or (4).

(d) Order the person to reimburse an authorized supplier an amount equal to the amount paid by the customer that should have been paid to the authorized supplier.

(e) If the person is licensed under this act, revoke the license if the commission finds a pattern of violations of subsection (2) or (4).

(f) Issue cease and desist orders.

(10) Notwithstanding subsection (9), a fine shall not be imposed for a violation if the person shows that the violation was an unintentional and bona fide error which occurred notwithstanding the maintenance of procedures reasonably adopted to avoid the error.

(11) A natural gas utility shall not be found in violation of this section for switching a customer's supplier or adding optional services to a customer's account if the switch or addition was made pursuant to the request or notice of an alternative gas supplier that is responsible under a customer choice program for obtaining the customer's approval.

460.9b Alternative gas suppliers; licensing procedure; maintenance of office; capabilities; records; tax remittance.

Sec. 9b. (1) The commission shall issue orders establishing a licensing procedure for all alternative gas suppliers participating in any natural gas customer choice program approved by the commission. An alternative gas supplier shall not do business in this state without first receiving a license under this act.

(2) An alternative gas supplier shall maintain an office within this state.

(3) The commission shall assure that an alternative gas supplier doing business in this state has the necessary financial, managerial, and technical capabilities and require the supplier to maintain records that the commission considers necessary.

(4) The commission shall require an alternative gas supplier to collect and remit to state and local units of government all applicable users, sales, and use taxes if the natural gas utility is not doing so on behalf of the supplier.

This act is ordered to take immediate effect.
Approved December 22, 2002.

The People of the State of Michigan enact:

500.4072 Standard nonforfeiture law for individual deferred annuities.

Sec. 4072. (1) This section shall be known as the standard nonforfeiture law for individual deferred annuities.

(2) This section does not apply to any reinsurance, group annuity purchased under a retirement plan or plan of deferred compensation established or maintained by an employer, including a partnership or sole proprietorship, or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under section 408 of the internal revenue code, premium deposit fund, variable annuity, investment annuity, immediate annuity, a deferred annuity contract after annuity payments have commenced, or reversionary annuity, nor to a contract delivered outside this state through an agent or other representative of the company issuing the contract.

(3) Except as provided in subsection (2), for contracts issued on or after the operative date of this section, as defined in subsection (13), a contract of annuity shall not be delivered or issued for delivery in this state unless it contains in substance the following provisions, or corresponding provisions that in the commissioner's opinion are at least as favorable to the contract holder, upon cessation of payment of consideration under the contract:

(a) That upon cessation of payment of consideration under a contract, the company will grant a paid-up annuity benefit on a plan stipulated in the contract of a value specified in subsections (6), (7), (8), (9), and (11).

(b) If a contract provides for a lump sum settlement at maturity, or at any other time, that upon surrender of the contract at or before the commencement of any annuity payments, the company will pay in place of any paid-up annuity benefit, a cash surrender benefit of an amount specified in subsections (6), (7), (9), and (11). The company shall reserve the right to defer the payment of the cash surrender benefit for a period of 6 months after demand for the payment with surrender of the contract.

(c) A statement of the mortality table, if any, and interest rates used in calculating any minimum paid-up annuity, cash surrender, or death benefits that are guaranteed under the contract, together with sufficient information to determine the amounts of the benefits.

(d) A statement that any paid-up annuity, cash surrender, or death benefits that may be available under the contract are not less than the minimum benefits required by law of the state in which the contract is delivered, and an explanation of the manner in which the benefits are altered by the existence of additional amounts credited by the company to the contract, indebtedness to the company on the contract, or prior withdrawals from or partial surrenders of the contract.

(4) Notwithstanding the requirements of subsection (3), a deferred annuity contract may provide that if considerations have not been received under a contract for a period of 2 full years and the portion of the paid-up annuity benefit at maturity on the plan stipulated in the contract arising from considerations paid before this period would be less than $20.00 monthly, the company may at its option terminate the contract by payment in cash of the then present value of that portion of the paid-up annuity benefit, calculated on the basis of the mortality table, if any, and interest rate specified in the contract for determining the paid-up annuity benefit. This payment shall relieve the company of further obligation under the contract.

(5) The minimum values as specified in subsections (6), (7), (8), (9), and (11) of any paid-up annuity, cash surrender, or death benefits available under an annuity contract shall be based upon minimum nonforfeiture amounts as defined in this subsection:

(a) Except as otherwise provided in subdivision (b), for contracts providing for flexible considerations, the minimum nonforfeiture amount at any time at or before the commencement of any annuity payments shall be equal to an accumulation up to that time at a rate of interest of 3% per annum of percentages of the net considerations, as defined in this subsection, paid before that time, decreased by the sum of subparagraphs (*i*) and (*ii*), and increased by any existing additional amounts credited by the company to the contract:

(*i*) Prior withdrawals from or partial surrenders of the contract accumulated at a rate of interest of 3% per annum.

(*ii*) The amount of any indebtedness to the company on the contract, including interest due and accrued.

(b) Beginning on the effective date of the amendatory act that added this subdivision and continuing until January 1, 2005 for contracts providing for flexible considerations, the minimum nonforfeiture amount at any time at or before the commencement of any annuity payments shall be equal to an accumulation up to that time at a rate of interest of 1.5% per annum of percentages of the net considerations, as defined in this subsection, paid before that time, decreased by the sum of subparagraphs (*i*) and (*ii*), and increased by any existing additional amounts credited by the company to the contract:

(*i*) Prior withdrawals from or partial surrenders of the contract accumulated at a rate of interest of 1.5% per annum.

(*ii*) The amount of any indebtedness to the company on the contract, including interest due and accrued.

(c) The net consideration for a given contract year used to define the minimum nonforfeiture amount shall be an amount not less than zero, and shall be equal to the corresponding gross considerations credited to the contract during that contract year less an annual contract charge of $30.00 and less a collection charge of $1.25 per consideration credited to the contract during that contract year. The percentages of net considerations shall be 65% of the net consideration for the first contract year and 87-1/2% of the net considerations for the second and later contract years. Notwithstanding the preceding sentence, the percentage shall be 65% of the portion of the total net consideration for any renewal contract year which exceeds by not more than 2 times the sum of those portions of the net considerations in all prior contract years for which the percentage was 65%.

(d) For contracts providing for fixed scheduled considerations, minimum nonforfeiture amounts shall be calculated on the assumption that considerations are paid annually in advance, and shall be defined as for contracts with flexible considerations paid annually, except that:

(*i*) The portion of the net consideration for the first contract year to be accumulated shall be the sum of 65% of the net consideration for the first contract year plus 22-1/2% of the excess of the net consideration for the first contract year over the lesser of the net considerations for the second and third contract years.

(*ii*) The annual contract charge shall be the lesser of $30.00 or 10% of the gross annual considerations.

(e) For contracts providing for a single consideration, minimum nonforfeiture amounts shall be defined as for contracts with flexible considerations, except that the percentage of net consideration used to determine the minimum nonforfeiture amount shall be equal to 90% and the net consideration shall be the gross consideration less a contract charge of $75.00.

(6) Any paid-up annuity benefit available under a contract shall be such that its present value on the date annuity payments are to commence is at least equal to the minimum nonforfeiture amount on that date. This present value shall be computed using the mortality table, if any, and the interest rate specified in the contract for determining the minimum paid-up annuity benefits guaranteed in the contract.

(7) For contracts that provide cash surrender benefits, the cash surrender benefits available before maturity shall not be less than the present value as of the date of surrender of that portion of the maturity value of the paid-up annuity benefit arising from considerations paid before the time of cash surrender. The present value shall be calculated on the basis of an interest rate not more than 1% higher than the interest rate specified in the contract for accumulating the net considerations to determine the maturity value. However, a cash surrender benefit shall not be less than the minimum nonforfeiture amount at that time. The death benefit under contracts that provide cash surrender benefits shall be at least equal to the cash surrender benefit. As used in this subsection and except as otherwise provided in this subsection, "maturity value" means an accumulation up to the maturity date at the rate of interest guaranteed in the contract for accumulating the net considerations to determine the maturity value, but in no event less than 3% per annum, of the percentages of the net considerations, as defined in subsection (5), paid before that time, decreased by the sum of prior withdrawals from or partial surrenders of the contract accumulated at the rate of interest guaranteed in the contract for accumulating net considerations to determine the maturity value but in no event less than 3% per annum and the amount of any indebtedness to the company on the contract, including interest due and accrued, and increased by excess interest previously credited by the company to the contract. Beginning on the effective date of the amendatory act that added subsection (5)(b) and continuing until January 1, 2005, as used in this subsection, "maturity value" means an accumulation up to the maturity date at the rate of interest guaranteed in the contract for accumulating the net considerations to determine the maturity value, but in no event less than 1.5% per annum, of the percentages of the net considerations, as defined in subsection (5), paid before that time, decreased by the sum of prior withdrawals from or partial surrenders of the contract accumulated at the rate of interest guaranteed in the contract for accumulating net considerations to determine the maturity value but in no event less than 1.5% per annum and the amount of any indebtedness to the company on the contract, including interest due and accrued, and increased by excess interest previously credited by the company to the contract. As used in this subsection, the excess interest is the amount credited over and above the guaranteed interest.

(8) For contracts that do not provide cash surrender benefits, the present value of any paid-up annuity benefit available as a nonforfeiture option at any time before maturity shall not be less than the present value of that portion of the maturity value of the paid-up annuity benefit provided under the contract arising from considerations paid before the contract is surrendered in exchange for, or changed to, a deferred paid-up annuity. The present value shall be calculated for the period before the maturity date on the basis of the interest rate specified in the contract for accumulating the net considerations to determine the maturity value, and increased by any existing additional amounts credited by the company to the contract. For contracts that do not provide death benefits before the commencement of annuity payments, the present values shall be calculated on the basis of the interest rate and the mortality table specified in the contract for determining the maturity value of the paid-up annuity benefit. However, the present value of a paid-up annuity benefit shall not be less than the minimum nonforfeiture amount at that time.

(9) For the purpose of determining the benefits calculated under subsections (7) and (8), in the case of annuity contracts under which an election may be made to have annuity payments commence at optional maturity dates, the maturity date shall be considered to be the latest date for which election shall be permitted by the contract, but shall not be

later than the anniversary of the contract next following the annuitant's seventieth birthday, or the tenth anniversary of the contract, whichever is later.

(10) A contract that does not provide cash surrender benefits or does not provide death benefits at least equal to the minimum nonforfeiture amount before the commencement of annuity payments shall include a statement in a prominent place in the contract that those benefits are not provided.

(11) Any paid-up annuity, cash surrender, or death benefits available at any time, other than on the contract anniversary under a contract with fixed scheduled considerations, shall be calculated with allowance for the lapse of time and the payment of any scheduled considerations beyond the beginning of the contract year in which cessation of payment of considerations under the contract occurs.

(12) For a contract that provides, within the same contract by rider or supplemental contract provision, both annuity benefits and life insurance benefits that are in excess of the greater of cash surrender benefits or a return of the gross considerations with interest, the minimum nonforfeiture benefits shall be equal to the sum of the minimum nonforfeiture benefits for the annuity portion and the minimum nonforfeiture benefits, if any, for the life insurance portion computed as if each portion were a separate contract. Notwithstanding subsections (6), (7), (8), (9), and (11), additional benefits payable for total and permanent disability, as reversionary annuity or deferred reversionary annuity benefits, or as other policy benefits additional to life insurance, endowment and annuity benefits, and considerations for all such additional benefits, shall be disregarded in ascertaining the minimum nonforfeiture amounts, paid-up annuity, cash surrender, and death benefits that may be required by this section. The inclusion of the additional benefits shall not be required in any paid-up benefits, unless the additional benefits separately would require minimum nonforfeiture amounts, paid-up annuity, cash surrender, and death benefits.

(13) After October 1, 1980, a company may file with the commissioner a written notice of its election to comply with this section after a specified date before October 1, 1982. After the filing of this notice, then on that specified date, which shall be the operative date of this section for the company, this section shall become operative with respect to annuity contracts thereafter issued by the company. If a company does not make the election, the operative date of this section for the company shall be October 1, 1982.

(14) Notwithstanding the other provisions of this section, upon cancellation of an annuity subject to an assignment under section 2080(6), the minimum nonforfeiture amount of the annuity shall be 92% of the sum of the total premiums paid by the assignor at the time of the cancellation plus interest on such premiums at an annual rate of not less than 5% or the consumer price index, whichever is greater. As used in this subsection, "consumer price index" means that term as defined in section 2080.

This act is ordered to take immediate effect.

The People of the State of Michigan enact:

247.661 State trunk line fund; separate fund; appropriation; purposes; order of priority; expenditures; deductions; borrowing by county road commissions, cities, and villages; limitation; approval; notice; borrowing by state transportation commission; procedures for implementation and administration of loan program; expenditure for administrative expenses; conduct of performance audits; revised municipal finance act inadmissible; definition.

Sec. 11. (1) A fund to be known as the state trunk line fund is established and shall be set up and maintained in the state treasury as a separate fund. The money deposited in the state trunk line fund is appropriated to the state transportation department for the following purposes in the following order of priority:

(a) For the payment, but only from money restricted as to use by section 9 of article IX of the state constitution of 1963, of bonds, notes, or other obligations in the following order of priority:

(*i*) For the payment of contributions required to be made by the state highway commission or the state transportation commission under contracts entered into before July 18, 1979, under 1941 PA 205, MCL 252.51 to 252.64, which contributions have been pledged before July 18, 1979, for the payment of the principal and interest on bonds issued under 1941 PA 205, MCL 252.51 to 252.64, for the payment of which a sufficient sum is irrevocably appropriated.

(*ii*) For the payment of the principal and interest upon bonds designated "State of Michigan, State Highway Commissioner, Highway Construction Bonds, Series I", dated September 1, 1956, in the aggregate principal amount of $25,000,000.00, issued pursuant to former 1955 PA 87 and the resolution of the state administrative board adopted August 6, 1956, for the payment of which a sufficient sum is irrevocably appropriated.

(*iii*) For the payment of the principal and interest on bonds issued under section 18b for transportation purposes other than comprehensive transportation purposes as defined by law and the payment of contributions of the state highway commission or state transportation commission to be made pursuant to contracts entered into under section 18d, which contributions are pledged to the payment of principal and interest on bonds issued under the authorization of section 18d and contracts executed pursuant to that section. A sufficient portion of the fund is irrevocably appropriated to pay, when due, the principal and interest on bonds or notes issued under section 18b for purposes other than compre-

hensive transportation purposes as defined by law, and to pay the annual contributions of the state highway commission and the state transportation commission as are pledged for the payment of bonds issued pursuant to contracts authorized by section 18d.

(b) For the transfer of funds appropriated pursuant to section 10(1)(g) to the transportation economic development fund, but the transfer shall be reduced each fiscal year by the amount of debt service to be paid in that year from the state trunk line fund for bonds, notes, or other obligations issued to fund projects of the transportation economic development fund, which amount shall be certified by the department.

(c) For the transfer of funds appropriated pursuant to section 10(1)(a) to the railroad grade crossing account in the state trunk line fund for expenditure for rail grade crossing improvement purposes at rail grade crossings on public roads and streets under the jurisdiction of the state, counties, cities, or villages. Projects shall be selected for funding in accordance with the following:

(*i*) Not more than 50% or less than 30% of these funds and matched federal funds shall be expended for state trunk line projects.

(*ii*) In prioritizing projects for these funds, in whole or in part, the department shall consider train and vehicular traffic volumes, accident history, traffic control device improvement needs, and the availability of funding.

(*iii*) Consistent with the other requirements for these funds, the first priority for funds deposited pursuant to this subdivision for rail grade crossing improvements and retirement shall be to match federal funds from the railroad-highway grade crossing improvement program or other comparable federal programs if a match is required under federal law.

(*iv*) If the department and the road authority with jurisdiction over the crossing formally agree that the grade crossing should be eliminated by permanent closing of the public road or street, the physical removal of the crossing, roadway within railroad rights of way and street termination treatment will be negotiated between the road authority and railroad company. The funds provided to the road authority as a result of the crossing closure will be credited to its account representing the same road or street system on which the crossing is located and shall be used for any transportation purpose within that road authority's jurisdiction.

(d) For the total operating expenses of the state trunk line fund for each fiscal year as appropriated by the legislature.

(e) For the preservation of state trunk line highways and bridges.

(f) For the opening, widening, improving, construction, and reconstruction of state trunk line highways and bridges, including the acquisition of necessary rights of way and the work incidental to that opening, widening, improving, construction, or reconstruction. Those sums in the state trunk line fund not otherwise appropriated, distributed, determined, or set aside by law shall be used for the construction or reconstruction of the national system of interstate and defense highways, referred to in this act as "the interstate highway system" to the extent necessary to match federal aid funds as the federal aid funds become available for that purpose; and, for the construction and reconstruction of the state trunk line system.

(g) The state transportation department may enter into agreements with county road commissions and with cities and villages to perform work on a highway, road, or street. The agreements may provide for the performance by any of the contracting parties of any of the work contemplated by the contract including engineering services and the acquisition of rights of way in connection with the work, by purchase or condemnation by any of the contracting parties in its own name, and for joint participation in the costs, but

only to the extent that the contracting parties are otherwise authorized by law to expend money on the highways, roads, or streets. The state transportation department also may contract with a county road commission, city, and village to advance money to a county road commission, city, and village to pay their costs of improving railroad grade crossings on the terms and conditions agreed to in the contract. A contract may be executed before or after the state transportation commission borrows money for the purpose of advancing money to a county road commission, city, or village, but the contract shall be executed before the advancement of any money to a county road commission, city, or village by the state transportation commission, and shall provide for the full reimbursement of any advancement by a county road commission, city, or village to the state transportation department, with interest, within 15 years after advancement, from any available revenue sources of the county road commission, city, or village or, if provided in the contract, by deduction from the periodic disbursements of any money returned by the state to the county road commission, city, or village.

(h) For providing inventories of supplies and materials required for the activities of the state transportation department. The state transportation department may purchase supplies and materials for these purposes, with payment to be made out of the state trunk line fund to be charged on the basis of issues from inventory in accordance with the accounting and purchasing laws of this state.

(2) Notwithstanding any other provision of this act, at least 90% of state revenue appropriated annually to the state trunk line fund less the amounts described in subdivisions (a) to (i) shall be expended annually by the state transportation department for the preservation of highways, roads, streets, and bridges and for the payment of debt service on bonds, notes, or other obligations described in subsection (1)(a) issued after July 1, 1983, for the purpose of providing funds for the preservation of highways, roads, streets, and bridges. Of the amounts appropriated for state trunk line projects, the department shall, where possible, secure warranties of not less than 5-year full replacement guarantee for contracted construction work. If an appropriate certificate is filed under section 18e but only to the extent necessary, this subsection shall not prohibit the use of any amount of money restricted as to use by section 9 of article IX of the state constitution of 1963 and deposited in the state trunk line fund for the payment of debt service on bonds, notes, or other obligations pledging for the payment thereof money restricted as to use by section 9 of article IX of the state constitution of 1963 and deposited in the state trunk line fund, whenever issued, as specified under subsection (1)(a). The amounts which are deducted from the state trunk line fund for the purpose of the calculation required by this subsection are as follows:

(a) Amounts expended for the purposes described in subsection (1)(a) for the payment of debt service on bonds, notes, or other obligations issued before July 2, 1983.

(b) Amounts expended to provide the state matching requirement for projects on the national highway system and for the payment of debt service on bonds, notes, or other obligations issued after July 1, 1983, for the purpose of providing funds for the state matching requirements for projects on the national highway system.

(c) Amounts expended for the construction of a highway, street, road, or bridge to 1 or more of the following or for the payment of debt service on bonds, notes, or other obligations issued after July 1, 1983, for the purpose of providing funds for the construction of a highway, street, road, or bridge to 1 or more of the following:

(*i*) A location for which a building permit has been obtained for the construction of a manufacturing or industrial facility.

(*ii*) A location for which a building permit has been obtained for the renovation of, or addition to, a manufacturing or industrial facility.

(d) Amounts expended for capital outlay other than for highways, roads, streets, and bridges or to pay debt service on bonds, notes, or other obligations issued after July 1, 1983, for the purpose of providing funds for capital outlay other than for highways, roads, streets, and bridges.

(e) Amounts expended for the operating expenses of the state transportation department other than the units of the department performing the functions assigned on January 1, 1983 to the bureau of highways.

(f) Amounts expended pursuant to contracts entered into before January 1, 1983.

(g) Amounts expended for the purposes described in subsection (5).

(h) Amounts appropriated for deposit in the transportation economic development fund and the rail grade crossing account pursuant to section 10(1)(g) and 10(1)(a).

(i) Upon the affirmative recommendation of the director of the state transportation department and the approval by resolution of the state transportation commission, those amounts expended for projects vital to the economy of this state, a region, or local area or the safety of the public. The resolution shall state the cost of the project exempted from this subsection.

(3) Notwithstanding any other provision of this act, the state transportation department shall expend annually at least 90% of the federal revenue distributed to the credit of the state trunk line fund in that year, except for federal revenue expended for the purposes described in subsection (2)(b), (c), (f), and (i) and for the payment of notes issued under section 18b(9) on the preservation of highways, roads, streets, and bridges. The requirement of this subsection shall be waived if compliance would cause this state to be ineligible according to federal law for federal revenue, but only to the extent necessary to make this state eligible according to federal law for that revenue.

(4) Notwithstanding any other provision of this section, the state transportation department may loan money to county road commissions, cities, and villages for paying capital costs of transportation purposes described in the second paragraph of section 9 of article IX of the state constitution of 1963 from the proceeds of bonds or notes issued pursuant to section 18b or from the state trunk line fund. Loans made directly from the state trunk line fund shall be made only after provision of funds for the purposes specified in subsection (1)(a) to (f). Loans described in this subsection are not subject to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821.

(5) County road commissions, cities, and villages may borrow money from the proceeds of bonds or notes issued under section 18b or the state trunk line fund for the purposes set forth in subsection (4) that shall be repayable, with interest, from 1 or more of the following:

(a) The money to be received by the county road commission, city, or village from the Michigan transportation fund, except to the extent the money has been or may in the future be pledged by contract in accordance with 1941 PA 205, MCL 252.51 to 252.64, or has been or may in the future be pledged for the payment of the principal and interest upon notes issued pursuant to 1943 PA 143, MCL 141.251 to 141.254, or has been or may in the future be pledged for the payment of principal and interest upon bonds issued under section 18c or 18d, or has been or may in the future be pledged for the payment of the principal and interest upon bonds issued pursuant to 1952 PA 175, MCL 247.701 to 247.707.

(b) Any other legally available funds of the city, village, or county road commission, other than the general funds of the county.

(6) Loans made pursuant to subsection (4) if required by the state transportation department may be payable by deduction by the state treasurer, upon direction of the state transportation department, from the periodic disbursements of any money returned by the state under this act to the county road commission, city, or village, but only after sufficient money has been returned to the county road commission, city, or village to provide for the payment of contractual obligations incurred or to be incurred and principal and interest on notes and bonds issued or to be issued under 1941 PA 205, MCL 252.51 to 252.64, 1943 PA 143, MCL 141.251 to 141.254, 1952 PA 175, MCL 247.701 to 247.707, or section 18c or 18d. The interest rates and payment schedules of any loans made from the proceeds of bonds or notes issued pursuant to section 18b shall be established by the state transportation department to conform as closely as practicable to the interest rate and repayment schedules on the bonds or notes issued to make the loans. However, the state transportation department may allow for the deferral of the first payment of interest or principal on the loans for a period of not to exceed 1 year after the respective first payment of interest or principal on the bonds or notes issued to make the loans.

(7) The amount borrowed by a county road commission, city, or village pursuant to subsection (5) shall not be included in, or charged against, any constitutional, statutory, or charter debt limitation of the county, city, or village and shall not be included in the determination of the maximum annual principal and interest requirements of, or the limitations upon, the maximum annual principal and interest incurred under 1941 PA 205, MCL 252.51 to 252.64, 1943 PA 143, MCL 141.251 to 141.254, 1952 PA 175, MCL 247.701 to 247.707, or section 18c or 18d.

(8) The county road commission, city, or village is not required to seek or obtain the approval of the electors, the municipal finance commission or its successor agency, or, except as provided in this subsection, the department of treasury to borrow money pursuant to subsection (5). The borrowing is not subject to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821, or to section 5(g) of the home rule city act, 1909 PA 279, MCL 117.5. The state transportation department shall give at least 10 days' notice to the state treasurer of its intention to make a loan under subsection (4). If the state treasurer gives notice to the director of the state transportation department within 10 days of receiving the notice from the state transportation department, that, based upon the then existing financial or credit situation of the county road commission, city, or village, it would not be in the best interests of the state to make a loan under subsection (4) to the county road commission, city, or village, the loan shall not be made unless the state treasurer, after a hearing, if requested by the affected county road commission, city, or village, subsequently gives notice to the director of the state transportation department that the loan may be made on the conditions that the state treasurer specifies.

(9) The state transportation commission may borrow money and issue bonds and notes under, and pursuant to the requirements of, section 18b to make loans to county road commissions, cities, and villages for the purposes described in the second paragraph of section 9 of article IX of the state constitution of 1963, as provided in subsection (4). A single issue of bonds or notes may be issued for the purposes specified in subsection (4) and for the other purposes specified in section 18b. The house and senate transportation appropriations subcommittees shall be notified by the department if there are extras and overruns sufficient to require approval of either the state administrative board or the commission, or both, on any contract between the department and a local road agency or a private business.

(10) The director of the state transportation department, after consultation with representatives of the interests of county road commissions, cities, and villages, shall establish, by intergovernmental communication, procedures for the implementation and administration of the loan program established under subsections (4) to (9).

(11) Not more than 10% per year of all of the funds received by and returned to the state transportation department from any source for the purposes of this section may be expended for administrative expenses. The department shall be subject to section 14(5) if more than 10% per year is expended for administrative expenses. As used in this subsection, "administrative expenses" means those expenses that are not assigned including, but not limited to, specific road construction or preservation projects and are often referred to as general or supportive services. Administrative expenses shall not include net equipment expense, net capital outlay, debt service principal and interest, and payments to other state or local offices which are assigned, but not limited to, specific road construction projects or preservation activities.

(12) Any performance audits of the department shall be conducted according to government auditing standards issued by the United States general accounting office.

(13) Contracts entered into to advance money to a county road commission, city, or village under subsection (1)(g) are not subject to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821.

(14) As used in this section, "rail grade crossing improvement purposes" means 1 or more of the following:

AN ACT to amend 1893 PA 206, entitled "An act to provide for the assessment of rights and interests, including leasehold interests, in property and the levy and collection of taxes on property, and for the collection of taxes levied; making those taxes a lien on the property taxed, establishing and continuing the lien, providing for the sale or forfeiture and conveyance of property delinquent for taxes, and for the inspection and disposition of lands bid off to the state and not redeemed or purchased; to provide for the establishment of a delinquent tax revolving fund and the borrowing of money by counties and the issuance of notes; to define and limit the jurisdiction of the courts in proceedings in connection with property delinquent for taxes; to limit the time within which actions may be brought; to prescribe certain limitations with respect to rates of taxation; to prescribe certain powers and duties of certain officers, departments, agencies, and political subdivisions of this state; to provide for certain reimbursements of certain expenses incurred by units of local government; to provide penalties for the violation of this act; and to repeal acts and parts of acts," by amending section 44 (MCL 211.44), as amended by 2002 PA 479.

The People of the State of Michigan enact:

211.44 Collection of taxes; mailing, contents, forms, and expense of tax statement; failure to send or receive notice; time and place for receiving taxes; property tax administration fees; return of excess; cost of appeals; waiver of interest, penalty charge, or property tax administration fee; use of fee; cost of treasurer's bond; enforce-

ment of collection; seizing property or bringing action; amounts includable in return of delinquent taxes; distributions by county treasurer; local governing body authorization for imposition of fees or late penalty charges; annual statement; taxes levied after December 31, 2001 on qualified real property; definitions.

Sec. 44. (1) Upon receipt of the tax roll, the township treasurer or other collector shall proceed to collect the taxes. The township treasurer or other collector shall mail to each taxpayer at the taxpayer's last known address on the tax roll or to the taxpayer's designated agent a statement showing the description of the property against which the tax is levied, the taxable value of the property, and the amount of the tax on the property. If a tax statement is mailed to the taxpayer, a tax statement sent to a taxpayer's designated agent may be in a summary form or may be in an electronic data processing format. If the tax statement information is provided to both a taxpayer and the taxpayer's designated agent, the tax statement mailed to the taxpayer may be identified as an informational copy. A township treasurer or other collector electing to send a tax statement to a taxpayer's designated agent or electing not to include an itemization in the manner described in subsection (10)(d) in a tax statement mailed to the taxpayer shall, upon request, mail a detailed copy of the tax statement, including an itemization of the amount of tax in the manner described by subsection (10)(d), to the taxpayer without charge.

(2) The expense of preparing and mailing the statement shall be paid from the county, township, city, or village funds. Failure to send or receive the notice does not prejudice the right to collect or enforce the payment of the tax. The township treasurer shall remain in the office of the township treasurer at some convenient place in the township from 9 a.m. to 5 p.m. to receive taxes on the following days:

(a) At least one business day between December 25 and December 31 unless the township has an arrangement with a local financial institution to receive taxes on behalf of the township treasurer and to forward that payment to the township on the next business day. The township shall provide timely notification of which financial institutions will receive taxes for the township and which days the treasurer will be in the office to receive taxes.

(b) The last day that taxes are due and payable before being returned as delinquent under section 55.

(3) Except as provided by subsection (7), on a sum voluntarily paid before February 15 of the succeeding year, the local property tax collecting unit shall add a property tax administration fee of not more than 1% of the total tax bill per parcel. However, unless otherwise provided for by an agreement between the assessing unit and the collecting unit, if a local property tax collecting unit other than a village does not also serve as the local assessing unit, the excess of the amount of property tax administration fees over the expense to the local property tax collecting unit in collecting the taxes, but not less than 80% of the fee imposed, shall be returned to the local assessing unit. A property tax administration fee is defined as a fee to offset costs incurred by a collecting unit in assessing property values, in collecting the property tax levies, and in the review and appeal processes. The costs of any appeals, in excess of funds available from the property tax administration fee, may be shared by any taxing unit only if approved by the governing body of the taxing unit. Except as provided by subsection (7), on all taxes paid after February 14 and before March 1 the governing body of a city or township may authorize the treasurer to add to the tax a property tax administration fee to the extent imposed on taxes paid before February 15 and a late penalty charge equal to 3% of the tax. The governing body of a city or township may waive interest from February 15 to the

last day of February on a summer property tax that has been deferred under section 51 or any late penalty charge for the homestead property of a senior citizen, paraplegic, quadriplegic, hemiplegic, eligible serviceperson, eligible veteran, eligible widow or widower, totally and permanently disabled person, or blind person, as those persons are defined in chapter 9 of the income tax act of 1967, 1967 PA 281, MCL 206.501 to 206.532, if the person makes a claim before February 15 for a credit for that property provided by chapter 9 of the income tax act of 1967, 1967 PA 281, MCL 206.501 to 206.532, if the person presents a copy of the form filed for that credit to the local treasurer, and if the person has not received the credit before February 15. The governing body of a city or township may waive interest from February 15 to the last day of February on a summer property tax deferred under section 51 or any late penalty charge for a person's property that is subject to a farmland development rights agreement recorded with the register of deeds of the county in which the property is situated as provided in section 36104 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.36104, if the person presents a copy of the development rights agreement or verification that the property is subject to a development rights agreement before February 15. A 4% county property tax administration fee, a property tax administration fee to the extent imposed on and if authorized under subsection (7) for taxes paid before March 1, and interest on the tax at the rate of 1% per month shall be added to taxes collected by the township or city treasurer after the last day of February and before settlement with the county treasurer, and the payment shall be treated as though collected by the county treasurer. If the statements required to be mailed by this section are not mailed before December 31, the treasurer shall not impose a late penalty charge on taxes collected after February 14.

(4) The governing body of a local property tax collecting unit may waive all or part of the property tax administration fee or the late penalty charge, or both. A property tax administration fee collected by the township treasurer shall be used only for the purposes for which it may be collected as specified by subsection (3) and this subsection. If the bond of the treasurer, as provided in section 43, is furnished by a surety company, the cost of the bond may be paid by the township from the property tax administration fee.

(5) If apprehensive of the loss of personal tax assessed upon the roll, the township treasurer may enforce collection of the tax at any time, and if compelled to seize property or bring an action in December may add, if authorized under subsection (7), a property tax administration fee of not more than 1% of the total tax bill per parcel and 3% for a late penalty charge.

(6) Along with taxes returned delinquent to a county treasurer under section 55, the amount of the property tax administration fee prescribed by subsection (3) that is imposed and not paid shall be included in the return of delinquent taxes and, when delinquent taxes are distributed by the county treasurer under this act, the delinquent property tax administration fee shall be distributed to the treasurer of the local unit who transmitted the statement of taxes returned as delinquent. Interest imposed upon delinquent property taxes under this act shall also be imposed upon the property tax administration fee and, for purposes of this act other than for the purpose of determining to which local unit the county treasurer shall distribute a delinquent property tax administration fee, any reference to delinquent taxes shall be considered to include the property tax administration fee returned as delinquent for the same property.

(7) The local property tax collecting treasurer shall not impose a property tax administration fee, collection fee, or any type of late penalty charge authorized by law or charter unless the governing body of the local property tax collecting unit approves, by resolution or ordinance adopted after December 31, 1982, an authorization for the imposition of a property tax administration fee, collection fee, or any type of late penalty

charge provided for by this section or by charter, which authorization shall be valid for all levies that become a lien after the resolution or ordinance is adopted. However, unless otherwise provided for by an agreement between the assessing unit and the collecting unit, a local property tax collecting unit that does not also serve as the assessing unit shall impose a property tax administration fee on each parcel at a rate equal to the rate of the fee imposed for city or township taxes on that parcel.

(8) The annual statement required by 1966 PA 125, MCL 565.161 to 565.164, or a monthly billing form or mortgagor passbook provided instead of that annual statement shall include a statement to the effect that a taxpayer who was not mailed the tax statement or a copy of the tax statement by the township treasurer or other collector shall receive, upon request and without charge, a copy of the tax statement from the township treasurer or other collector or, if the tax statement has been mailed to the taxpayer's designated agent, from either the taxpayer's designated agent or the township treasurer or other collector. A designated agent who is subject to 1966 PA 125, MCL 565.161 to 565.164, and who has been mailed the tax statement for taxes that became a lien in the calendar year immediately preceding the year in which the annual statement may be required to be furnished shall mail, upon request and without charge to a taxpayer who was not mailed that tax statement or a copy of that tax statement, a copy of that tax statement.

(9) For taxes levied after December 31, 2001, if taxes levied on qualified real property remain unpaid on February 15, all of the following shall apply:

(a) The unpaid taxes on that qualified real property shall be collected in the same manner as unpaid taxes levied on personal property are collected under this act.

(b) Unpaid taxes on qualified real property shall not be returned as delinquent to the county treasurer for forfeiture, foreclosure, and sale under sections 78 to 79a.

(c) If a county treasurer discovers that unpaid taxes on qualified real property have been returned as delinquent for forfeiture, foreclosure, and sale under sections 78 to 79a, the county treasurer shall return those unpaid taxes to the appropriate local tax collection unit for collection as provided in subdivision (a).

(10) As used in this section:

(a) "Designated agent" means an individual, partnership, association, corporation, receiver, estate, trust, or other legal entity that has entered into an escrow account agreement or other agreement with the taxpayer that obligates that individual or legal entity to pay the property taxes for the taxpayer or, if an agreement has not been entered into, that was designated by the taxpayer on a form made available to the taxpayer by the township treasurer and filed with that treasurer. The designation by the taxpayer shall remain in effect until revoked by the taxpayer in a writing filed with the township treasurer. The form made available by the township treasurer shall include a statement that submission of the form allows the treasurer to mail the tax statement to the designated agent instead of to the taxpayer and a statement notifying the taxpayer of his or her right to revoke the designation by a writing filed with the township treasurer.

(b) "Qualified real property" means buildings and improvements located upon leased real property that are assessed as real property under section 2(1)(c), except buildings and improvements exempt under section 9f, if the value of the buildings or improvements is not otherwise included in the assessment of the real property.

(c) "Taxpayer" means the owner of the property on which the tax is imposed.

(d) When describing in subsection (1) that the amount of tax on the property must be shown in the tax statement, "amount of tax" means an itemization by dollar amount of each of the several ad valorem property taxes and special assessments that a person may

pay under section 53 and an itemization by millage rate, on either the tax statement or a separate form accompanying the tax statement, of each of the several ad valorem property taxes that a person may pay under section 53. The township treasurer or other collector may replace the itemization described in this subdivision with a statement informing the taxpayer that the itemization of the dollar amount and millage rate of the taxes is available without charge from the local property tax collecting unit.

Sec. 217. (1) An owner of a vehicle that is subject to registration under this act shall apply to the secretary of state, upon an appropriate form furnished by the secretary of state, for the registration of the vehicle and issuance of a certificate of title for the vehicle. A vehicle brought into this state from another state or jurisdiction that has a rebuilt, salvage, scrap, flood, or comparable certificate of title issued by that other state or jurisdiction shall be issued a rebuilt, salvage, scrap, or flood certificate of title by the secretary of state. The application shall be accompanied by the required fee. An application for a certificate of title shall bear the signature of the owner. The application shall contain all of the following:

(a) The owner's name, the owner's bona fide residence, and either of the following:

(*i*) If the owner is an individual, the owner's mailing address.

(*ii*) If the owner is a firm, association, partnership, limited liability company, or corporation, the owner's business address.

(b) A description of the vehicle including the make or name, style of body, and model year; the number of miles, not including the tenths of a mile, registered on the vehicle's odometer at the time of transfer; whether the vehicle is a flood vehicle or another state previously issued the vehicle a flood certificate of title; whether the vehicle is to be or has been used as a taxi or police vehicle, or by a political subdivision of this state, unless the vehicle is owned by a dealer and loaned or leased to a political subdivision of this state for use as a driver education vehicle; whether the vehicle has previously been issued a salvage or rebuilt certificate of title from this state or a comparable certificate of title from any other state or jurisdiction; vehicle identification number; and the vehicle's weight fully equipped, if a passenger vehicle registered in accordance with section 801(1)(a), and, if a trailer coach or pickup camper, in addition to the weight, the manufacturer's serial number, or in the absence of the serial number, a number assigned by the secretary of state. A number assigned by the secretary of state shall be permanently placed on the trailer coach or pickup camper in the manner and place designated by the secretary of state.

(c) A statement of the applicant's title and the names and addresses of the holders of security interests in the vehicle and in an accessory to the vehicle, in the order of their priority.

(d) Further information that the secretary of state reasonably requires to enable the secretary of state to determine whether the vehicle is lawfully entitled to registration and the owner entitled to a certificate of title. If the secretary of state is not satisfied as to the ownership of a late model vehicle or other vehicle having a value over $2,500.00, before registering the vehicle and issuing a certificate of title, the secretary of state may require the applicant to file a properly executed surety bond in a form prescribed by the secretary of state and executed by the applicant and a company authorized to conduct a surety business in this state. The bond shall be in an amount equal to twice the value of the vehicle as determined by the secretary of state and shall be conditioned to indemnify or reimburse the secretary of state, any prior owner, and any subsequent purchaser or lessee of the vehicle and their successors in interest against any expense, loss, or damage, including reasonable attorney's fees, by reason of the issuance of a certificate of title for

the vehicle or on account of any defect in the right, title, or interest of the applicant in the vehicle. An interested person has a right of action to recover on the bond for a breach of the conditions of the bond, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. The bond shall be returned at the end of 3 years, or before 3 years if the vehicle is no longer registered in this state and the currently valid certificate of title is surrendered to the secretary of state, unless the secretary of state has received notification of the pendency of an action to recover on the bond. If the secretary of state is not satisfied as to the ownership of a vehicle that is valued at $2,500.00 or less and that is not a late model vehicle, the secretary of state shall require the applicant to certify that the applicant is the owner of the vehicle and entitled to register and title the vehicle.

(e) Except as provided in subdivision (f), an application for a commercial vehicle shall also have attached a scale weight receipt of the motor vehicle fully equipped as of the time the application is made. A scale weight receipt is not necessary if there is presented with the application a registration receipt of the previous year that shows on its face the empty weight of the motor vehicle as registered with the secretary of state that is accompanied by a statement of the applicant that there has not been structural change in the motor vehicle that has increased the empty weight and that the previous registered weight is the true weight.

(f) An application for registration of a vehicle on the basis of elected gross weight shall include a declaration by the applicant specifying the elected gross weight for which application is being made.

(g) If the application is for a certificate of title of a motor vehicle registered in accordance with section 801(1)(p), the application shall include the manufacturer's suggested base list price for the model year of the vehicle. Annually, the secretary of state shall publish a list of the manufacturer's suggested base list price for each vehicle being manufactured. Once a base list price is published by the secretary of state for a model year for a vehicle, the base list price shall not be affected by subsequent increases in the manufacturer's suggested base list price but shall remain the same throughout the model year unless changed in the annual list published by the secretary of state. If the secretary of state's list has not been published for that vehicle by the time of the application for registration, the base list price shall be the manufacturer's suggested retail price as shown on the label required to be affixed to the vehicle under section 3 of the automobile information disclosure act, Public Law 85-506, 15 U.S.C. 1232. If the manufacturer's suggested retail price is unavailable, the application shall list the purchase price of the vehicle as defined in section 801(4).

(2) An applicant for registration of a leased pickup truck or passenger vehicle that is subject to registration under this act, except a vehicle that is subject to registration tax under section 801g, shall disclose in writing to the secretary of state the lessee's name, the lessee's bona fide residence, and either of the following:

(a) If the lessee is an individual, the lessee's Michigan driver license number or Michigan personal identification number or, if the lessee does not have a Michigan driver license or Michigan personal identification number, the lessee's mailing address.

(b) If the lessee is a firm, association, partnership, limited liability company, or corporation, the lessee's business address.

(3) The secretary of state shall maintain the information described in subsection (2) on the secretary of state's computer records.

(4) A dealer selling, leasing, or exchanging vehicles required to be titled, within 15 days after delivering a vehicle to the purchaser or lessee, and a person engaged in the sale of vessels required to be numbered by part 801 of the natural resources and environmental

protection act, 1994 PA 451, MCL 324.80101 to 324.80199, within 15 days after delivering a boat trailer weighing less than 2,500 pounds to the purchaser or lessee, shall apply to the secretary of state for a new title, if required, and transfer or secure registration plates and secure a certificate of registration for the vehicle or boat trailer, in the name of the purchaser or lessee. The dealer's license may be suspended or revoked in accordance with section 249 for failure to apply for a title when required or for failure to transfer or secure registration plates and certificate of registration within the 15 days required by this section. If the dealer or person fails to apply for a title when required, and to transfer or secure registration plates and secure a certificate of registration and pay the required fees within 15 days of delivery of the vehicle or boat trailer, a title and registration for the vehicle or boat trailer may subsequently be acquired only upon the payment of a transfer fee of $15.00 in addition to the fees specified in section 806. The purchaser or lessee of the vehicle or the purchaser of the boat trailer shall sign the application, including, when applicable, the declaration specifying the maximum elected gross weight, as required by subsection (1)(f), and other necessary papers to enable the dealer or person to secure the title, registration plates, and transfers from the secretary of state. If the secretary of state mails or delivers a purchaser's certificate of title to a dealer, the dealer shall mail or deliver the certificate of title to the purchaser not more than 5 days after receiving the certificate of title from the secretary of state.

(5) If a vehicle is delivered to a purchaser or lessee who has valid Michigan registration plates that are to be transferred to the vehicle, and an application for title, if required, and registration for the vehicle is not made before delivery of the vehicle to the purchaser or lessee, the registration plates shall be affixed to the vehicle immediately, and the dealer shall provide the purchaser or lessee with an instrument in writing, on a form prescribed by the secretary of state, which shall serve as a temporary registration for the vehicle for a period of 15 days from the date the vehicle is delivered.

(6) An application for a certificate of title that indicates the existence of a security interest in the vehicle or in an accessory to the vehicle, if requested by the security interest holder, shall be accompanied by a copy of the security agreement which need not be signed. The request may be made of the seller on an annual basis. The secretary of state shall indicate on the copy the date and place of filing of the application and return the copy to the person submitting the application who shall forward it to the holder of the security interest named in the application.

(7) If the seller does not prepare the credit information, contract note, and mortgage, and the holder, finance company, credit union, or banking institution requires the installment seller to record the lien on the title, the holder, finance company, credit union, or banking institution shall pay the seller a service fee of not more than $10.00. The service fee shall be paid from the finance charges and shall not be charged to the buyer in addition to the finance charges. The holder, finance company, credit union, or banking institution shall issue its check or bank draft for the principal amount financed, payable jointly to the buyer and seller, and there shall be imprinted on the back side of the check or bank draft the following:

"Under Michigan law, the seller must record a first lien in favor of (name of lender) _____ on the vehicle with vehicle identification number _____ and title the vehicle only in the name(s) shown on the reverse side." On the front of the sales check or draft, the holder, finance company, credit union, or banking institution shall note the name(s) of the prospective owner(s). Failure of the holder, finance company, credit union, or banking institution to comply with these requirements frees the seller from any obligation to record the lien or from any liability that may arise as a result of the failure to record the lien. A service fee shall not be charged to the buyer.

(8) In the absence of actual malice proved independently and not inferred from lack of probable cause, a person who in any manner causes a prosecution for larceny of a motor vehicle; for embezzlement of a motor vehicle; for any crime an element of which is the taking of a motor vehicle without authority; or for buying, receiving, possessing, leasing, or aiding in the concealment of a stolen, embezzled, or converted motor vehicle knowing that the motor vehicle has been stolen, embezzled, or converted, is not liable for damages in a civil action for causing the prosecution. This subsection does not relieve a person from proving any other element necessary to sustain his or her cause of action.

257.217c Acquisition of salvage, distressed, or older model vehicles; issuance of salvage or scrap certificates of title; salvage vehicle inspections; sale of vehicles; notice of designation as scrap vehicle; removal of scrap vehicle from state; determination of repair and labor costs; vehicle inspection fee; "actual cash value" defined.

Sec. 217c. (1) The secretary of state may conduct periodic reviews of the records of a dealer to determine whether adequate notice is given to a transferee or lessee of a rebuilt salvage vehicle of that vehicle's prior designation as a salvage vehicle. The secretary of state may request an insurance company to provide copies of salvage title documents and claims reports involving major component parts to assist the secretary of state in monitoring compliance with this act.

(2) Except for a late model vehicle that has been stolen and recovered and that has no major component part removed, missing, or destroyed, or damaged and not salvageable, an insurance company licensed to conduct business in this state that acquires ownership of a late model vehicle through the payment of a claim shall proceed under either of the following:

(a) If the insurance company acquires ownership of the vehicle through payment of a claim, the owner of the vehicle shall assign the certificate of title to the insurance company which shall do all of the following:

(*i*) Surrender a properly assigned certificate of title to the secretary of state.

(*ii*) If the estimated cost of repair, including parts and labor, is equal to or more than 75% but less than 91% of the predamaged actual cash value of the vehicle, apply for a salvage certificate of title, and if the estimated cost of repair, including parts and labor, is equal to or greater than 91% of the predamaged actual cash value of the vehicle, apply for a scrap certificate of title. The insurance company shall not sell the vehicle without first receiving a salvage or scrap certificate of title, which shall be assigned to the buyer. An insurance company may assign a salvage or scrap certificate of the title only to an automotive recycler, used or secondhand vehicle parts dealer, foreign salvage vehicle dealer, or vehicle scrap metal processor.

(b) If after payment of a total loss claim the insurance company permits the owner of the vehicle to retain ownership, the insurance company shall do all of the following:

(*i*) If the estimated cost of repair, including parts and labor, is equal to or greater than 75% but less than 91% of the predamaged actual cash value of the vehicle, require each owner of the vehicle to sign an application for a salvage certificate of title, or if the estimated cost of repair, including parts and labor, is equal to or greater than 91% of the predamaged actual cash value of the vehicle, require each owner of the vehicle to sign an application for a scrap vehicle certificate of title.

(*ii*) Attach the owner's certificate of title to the application for a salvage or scrap certificate of title or have the owner certify that the certificate of title is lost.

(*iii*) On behalf of the owner, apply to the secretary of state for a salvage or scrap certificate of title in the name of the owner. The owner shall not sell or otherwise dispose of the vehicle without first receiving a salvage or scrap certificate of title, which shall be assigned to the buyer. An insurance company may assign a salvage or scrap certificate of title only to an automotive recycler, used or secondhand vehicle parts dealer, foreign salvage vehicle dealer, or vehicle scrap metal processor.

(3) If an insurance company acquires ownership of a vehicle other than a late model vehicle through payment of damages due to an accident, the company shall surrender a properly assigned title to the buyer upon delivery.

(4) If a dealer acquires ownership of a late model vehicle that is a distressed vehicle from an owner, the dealer shall receive an assigned certificate of title. If the assigned certificate of title is not a salvage or scrap certificate of title, the dealer, other than a vehicle scrap metal processor, shall surrender the assigned certificate of title to the secretary of state, and if the estimated cost of repair, including parts and labor, is equal to or greater than 75% but less than 91% of the predamaged actual cash value of the vehicle, apply for a salvage certificate of title, or if the estimated cost of repair, including parts and labor, is equal to or greater than 91% of the predamaged actual cash value of the vehicle, apply for a scrap certificate of title within 5 days after the dealer receives the assigned certificate of title. The dealer may sell a salvage vehicle to another automotive recycler, used or secondhand vehicle parts dealer, foreign salvage vehicle dealer, or vehicle scrap metal processor by assigning the salvage certificate of title to the buyer. Unless the vehicle is rebuilt, inspected, and recertified pursuant to this section, if the vehicle is sold to a buyer other than a dealer, application shall be made for a salvage certificate in the name of the buyer in the manner provided in this act. The dealer may sell a scrap vehicle only to a vehicle scrap metal processor. A vehicle scrap metal processor shall surrender an assigned certificate of title to the secretary of state within 30 days after acquiring a vehicle for which a certificate of title was received. A vehicle scrap metal processor shall surrender an assigned salvage or scrap certificate of title to the secretary of state within 30 days after acquiring a vehicle for which a salvage or scrap certificate of title was received and report that the vehicle was destroyed or scrapped.

(5) An application for a scrap certificate of title shall be made on a form prescribed by the secretary of state accompanied by a fee of $15.00. The application shall contain all of the following:

(a) The complete name and current address of the owner.

(b) A description of the vehicle, including its make, style of body, model year, fee category or weight, color, and vehicle identification number.

(c) If the vehicle is a late model vehicle, a listing of each major component part that was not salvageable.

(d) Further information as may reasonably be required by the secretary of state.

(6) The scrap certificate of title shall authorize the holder of the document to transport but not drive upon a highway the vehicle or parts of a vehicle, and assign ownership to a vehicle scrap metal processor, automotive recycler, used or secondhand vehicle parts dealer, or foreign salvage vehicle dealer. A certificate of title shall not again be issued for this vehicle. A person shall not rebuild or repair a scrap vehicle and allow it to retain the original vehicle identification number.

(7) If a person, other than a dealer or insurance company that is subject to subsection (2) or (4), acquires ownership of a distressed, late model vehicle, the person shall surrender the title or assigned certificate of title to the secretary of state, and if the estimated cost

of repair, including parts and labor, is equal to or greater than 75% but less than 91% of the predamaged actual cash value of the vehicle, apply for a salvage certificate of title, or if the estimated cost of repair, including parts and labor, is equal to or greater than 91% of the predamaged actual cash value of the vehicle, apply for a scrap certificate of title before the vehicle may be transported.

(8) An owner of a vehicle may determine that a vehicle is a scrap vehicle or a salvage vehicle without making any determination as to the actual cash value of the vehicle.

(9) If a leasing company, vehicle manufacturer, insurance company not licensed to do business in this state, association, repossession company, self-insured owner, financial institution, governmental entity, or other company, institution, or entity, owns a distressed, late model vehicle, the titleholder shall surrender the title or assigned certificate of title to the secretary of state and apply for a salvage certificate of title if the retail cost of repair, including parts and labor, is equal to or greater than 75% but less than 91% of the predamaged actual cash value of the vehicle, or if the retail cost of repair, including parts and labor, is equal to or greater than 91% of the predamaged actual cash value of the vehicle, apply for a scrap certificate of title, before the vehicle may be transported or sold. If ownership is transferred, the owner shall sell the vehicle only to a dealer who is eligible to buy a salvage or scrap vehicle in this state unless the owner complies with subsection (12). When a leasing company, vehicle manufacturer, insurance company not licensed to do business in this state, association, repossession company, self-insured owner, financial institution, governmental entity, or other company, institution, or entity, estimates the repair of a distressed, late model vehicle for the purpose of determining whether to apply for a salvage or scrap certificate of title, a complete record of the estimate and, if the vehicle is repaired before a transfer of ownership, a complete record of the actual cost of the repairs performed and by whom shall be maintained for a minimum of 5 years by the leasing company, vehicle manufacturer, insurance company not licensed to do business in this state, association, repossession company, self-insured owner, financial institution, governmental entity, or other company, institution, or entity. The estimates and repair records required by this subsection shall be available for unannounced inspections by a law enforcement agency or a representative of the secretary of state. The secretary of state may request a leasing company, vehicle manufacturer, insurance company not licensed to do business in this state, association, repossession company, self-insured owner, financial institution, governmental entity, or other company, institution, or entity to provide copies of title documents, repair estimates, claims reports involving major component parts, and actual cash value determination documents to assist the secretary of state in monitoring compliance with this act.

(10) An application for a salvage certificate of title shall be made on a form prescribed by the secretary of state accompanied by a fee of $10.00. The application shall contain all of the following:

(a) The complete name and current address of the owner.

(b) A description of the vehicle, including its make, style of body, model year, fee category or weight, color, and vehicle identification number.

(c) An estimate of the cost repair, including parts and labor, and an estimate of the predamaged actual cash value of the vehicle.

(d) If the vehicle is a late model vehicle, a listing of each major component part that was not salvageable.

(e) Further information as may reasonably be required by the secretary of state.

(11) The secretary of state shall issue and mail the salvage certificate within 5 business days after the time the application is received at the secretary of state's office in Lansing.

Each salvage certificate of title shall include a listing of each major component part that was not salvageable.

(12) A salvage certificate of title authorizes the holder of the title to possess, transport, but not drive upon a highway, and transfer ownership in, a vehicle. The secretary of state shall not issue a certificate of title or registration plates for a vehicle for which a salvage certificate of title was issued unless a specially trained officer described in subsection (14) certifies all of the following:

(23) For the purpose of this section, the estimated costs of the repair parts shall be determined by using the current published retail cost of original manufacturer equipment parts or an estimate of the actual cost of the repair parts. The estimated labor costs shall be computed by using the hourly rate and time allocations which are reasonable and commonly assessed in the repair industry in the community where the repairs are performed.

(24) A police agency shall charge a fee for an inspection of a vehicle pursuant to subsection (12). Each local authority with a police agency shall determine the amount of the fee for inspections by that police agency, which shall not exceed $100.00. The police agency shall credit the fee to the budget of that police agency and use the fee for law enforcement purposes that affect stolen vehicles, stolen vehicle parts, and salvage vehicle inspections. A local police agency shall compensate an off-duty and limited enforcement police officer for a salvage vehicle inspection.

(25) For the purpose of this section, "actual cash value" means the retail dollar value of a vehicle as determined by an objective vehicle evaluation using local market resources such as dealers or want ads or by an independent vehicle evaluation or vehicle appraisal service or by a current issue of a nationally recognized used vehicle guide for financial institution appraisal purposes in this state.

The court may also assess a fine of not more than $10,000.00 against the person.

(7) The certificate of title for a police vehicle, a vehicle owned by a political subdivision of this state, a salvage vehicle, a rebuilt vehicle, a scrap vehicle, or a flood vehicle shall be different in color from the certificate of title for all other vehicles unless the vehicle is loaned or leased to a political subdivision of this state for use as a driver education vehicle.

(8) A scrap certificate of title shall contain a legend that the vehicle is not to be titled or registered and is to be used for parts or scrap metal only.

(9) A certificate of title shall not be issued for a vehicle that has had a salvage certificate of title unless the certificate of title contains the legend "rebuilt salvage".

257.226 Expiration of vehicle registration; duties of secretary of state; issuance of registration; tax; validity of certificate of title; special registration; certification; registration of trailer or semitrailer used for recreational purposes; assignment or reassignment of expiration date under international registration plan; leased vehicle multiyear registration.

Sec. 226. (1) A vehicle registration issued by the secretary of state expires on the owner's birthday, unless another expiration date is provided for under this act or unless the registration is for the following vehicles, in which case registration expires on the last day of February:

(a) A commercial vehicle except for a commercial vehicle issued a registration under the international registration plan or a pickup truck or van owned by an individual.

(b) Except for a trailer or semitrailer issued a registration under the international registration plan, a trailer or semitrailer owned by a business, corporation, or person other than an individual; or a pole trailer.

(2) The expiration date for a registration issued for a motorcycle is March 31.

(3) The expiration date for a registration bearing the letters "SEN" or "REP" is February 1.

(4) In the case of a vehicle owned by a business, corporation, or an owner other than an individual, the secretary of state may assign or reassign the expiration date of the registration.

(5) The secretary of state shall do all of the following:

(a) After the October 1 immediately preceding the year designated on the registration, issue a registration upon application and payment of the proper fee for a commercial vehicle, other than a pickup or van owned by an individual; or a trailer owned by a business, corporation, or person other than an individual.

(b) Beginning 60 days before the expiration date assigned on an international registration plan registration plate, issue a registration under section 801g upon application and payment of the proper apportioned fee for a commercial vehicle engaged in interstate commerce.

(c) After the February 14 immediately preceding the year designated on a registration, issue a registration upon application and payment of the proper fee for a motorcycle.

(d) Beginning 45 days before the owner's birthday and 120 days before the expiration date assigned by the secretary of state, issue a registration for a vehicle other than those designated in subsection (1)(a) or (b). However, if an owner whose registration period begins 45 days before his or her birthday will be out of the state during the 45 days

immediately preceding expiration of a registration or for other good cause shown cannot apply for a renewal registration within the 45-day period, application for a renewal registration may be made not more than 6 months before expiration.

(6) Except as otherwise provided in this subsection, the secretary of state, upon application and payment of the proper fee, shall issue a registration for a vehicle to a resident that shall expire on the owner's birthday. If the owner's next birthday is at least 6 months but not more than 12 months in the future, the owner shall receive a registration valid until the owner's next birthday. If the owner's next birthday is less than 6 months in the future, the owner shall receive a registration valid until the owner's birthday following the owner's next birthday. The tax required under this act for a registration described in this subsection shall bear the same relationship to the tax required under section 801 for a 12-month registration as the length of time of the registration bears to 12 months. Partial months shall be considered as whole months in the calculation of the required tax and in the determination of the length of time between the application for a registration and the owner's next birthday. The tax required for that registration shall be rounded off to whole dollars as provided in section 801.

(7) A certificate of title shall remain valid until canceled by the secretary of state for cause or upon a transfer of an interest shown on the certificate of title.

(8) The secretary of state, upon request, shall issue special registration for commercial vehicles, valid for 6 months after the date of issue, if the full registration fee exceeds $50.00, on the payment of 1/2 the full registration fee and a service charge as enumerated in section 802(1).

(9) The secretary of state may issue a special registration for each of the following:

(a) A new vehicle purchased or leased outside of this state and delivered in this state to the purchaser or lessee by the manufacturer of that vehicle for removal to a place outside of this state, if a certification is made that the vehicle will be primarily used, stored, and registered outside of this state and will not be returned to this state by the purchaser or lessee for use or storage.

(b) A vehicle purchased or leased in this state and delivered to the purchaser or lessee by a dealer or by the owner of the vehicle for removal to a place outside of this state, if a certification is made that the vehicle will be primarily used, stored, and registered outside of this state and will not be returned to this state by the purchaser or lessee for use or storage.

(10) A special registration issued under subsection (9) is valid for not more than 14 days after the date of issuance, and a fee shall be collected for each special registration as provided in section 802(3). The special registration may be in the form determined by the secretary of state. If a dealer makes a retail sale or lease of a vehicle to a purchaser or lessee who is qualified and eligible to obtain a special registration, the dealer shall apply for the special registration for the purchaser or lessee. If a person other than a dealer sells or leases a vehicle to a purchaser or lessee who is qualified and eligible to obtain a special registration, the purchaser or lessee shall appear in person, or by a person exercising the purchaser's or lessee's power of attorney, at an office of the secretary of state and furnish a certification that the person is the bona fide purchaser or lessee or that the person has granted the power of attorney, together with other forms required for the issuance of the special registration and provide the secretary of state with proof that the vehicle is covered by a Michigan no-fault insurance policy issued pursuant to section 3101 of the insurance code of 1956, 1956 PA 218, MCL 500.3101, or proof that the vehicle is covered by a policy of insurance issued by an insurer pursuant to section 3163 of the insurance code

of 1956, 1956 PA 218, MCL 500.3163. The certification required in this subsection shall contain all of the following:

(a) The address of the purchaser or lessee.

(b) A statement that the vehicle is purchased or leased for registration outside of this state.

(c) A statement that the vehicle shall be primarily used, stored, and registered outside of this state.

(d) The name of the jurisdiction in which the vehicle is to be registered.

(11) Upon request, the secretary of state may issue a registration valid for 6 months after the date of issuance for use on a trailer or semitrailer weighing 1,500 pounds or less and that is used for recreational purposes, upon payment of 1/2 the full registration fee imposed under section 801(1)(*l*).

(12) In the case of a commercial vehicle, trailer, or semitrailer issued a registration under the international registration plan, the secretary of state in mutual agreement with the owner may assign or reassign the expiration date of the registration. However, the expiration date agreed to shall be either March 31, June 30, September 30, or December 31. Renewals expiring on or after September 30, 1993 shall be for a minimum of at least 12 months if there is a change in the established expiration date.

(13) The expiration date for a multiyear registration issued for a leased vehicle shall be the date the lease expires but shall not be for a period longer than 24 months.

257.226a Temporary registration plates or markers.

Sec. 226a. (1) Temporary registration plates or markers may be issued to licensed dealers in vehicles and to persons engaged in the sale of vessels required to be numbered by part 801 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.80101 to 324.80199, upon application accompanied by the proper fee, for use by purchasers or lessees of vehicles, for not to exceed 15 days pending receipt of regular registration plates from the dealer or person.

Only 1 temporary plate or marker may be issued to a purchaser or lessee of a vehicle. If a dealer or person requires a purchaser or lessee of a vehicle or purchaser or lessee of a vessel to pay for a temporary plate or marker, the dealer or person shall not charge the purchaser or lessee more than the dealer or person was charged by the secretary of state for the individual plate or marker. The secretary of state shall determine the composition and design of the temporary registration plates or markers.

(2) A temporary registration plate or marker shall show in ink the date of issue, a description of the vehicle for which issued, and any other information required by the secretary of state. A dealer or person shall immediately notify the secretary of state of each temporary registration plate or marker issued by the dealer or person, on a form prescribed by the secretary of state. Upon the attachment of the regular plate to a vehicle for which a temporary registration plate or marker has been issued, the temporary plate shall be destroyed.

(3) All temporary registration plates or markers shall be serially numbered and upon issuance the number shall be noted on the statement of vehicle sale form or in the case of a boat trailer on a form prescribed by the secretary of state.

(4) A dealer or person, upon demand, shall immediately surrender any temporary registration plates or markers in his or her possession if the secretary of state finds, after

investigation, that the dealer or person has violated this section, and the dealer or person shall immediately forfeit any right to the temporary registration plates or markers.

(5) The secretary of state may issue a registration plate upon application and payment of the proper fee to an individual, partnership, corporation, or association who in the ordinary course of business has occasion to legally repossess a vehicle in which a security interest is held. A registration plate issued pursuant to this subsection shall be used to move and dispose of a vehicle.

(6) The secretary of state may issue a registration plate upon application and payment of the proper fee to an individual, partnership, corporation, or association who in the ordinary course of business has occasion to legally pick up or deliver a vehicle not required to be titled under this act, or to repair or service a vehicle, or to persons defined as dealers under part 801 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.80101 to 324.80199, for the purpose of delivering a vessel or trailer to a customer or to and from a boat show or exposition. A registration plate issued under this subsection shall be used to move the vehicle.

(7) The secretary of state may issue a registration plate upon application and payment of the proper fee to an individual, partnership, corporation, or association who in the ordinary course of business operates an auto auction, and who in the ordinary course of business has occasion to legally pick up a vehicle which will be offered for sale at the auction, or deliver a vehicle which has been offered for sale at the auction. The registration plate shall be used only to move vehicles as provided in this subsection. Auto auctions that make application for a registration plate under this subsection shall furnish a surety bond as required by the secretary of state.

257.233b Definitions; disclosure by dealer of damage or repair; exception; grounds for revocation.

Sec. 233b. (1) As used in this section:

(a) "Distributor" means that term as defined in section 3(1) of 1981 PA 118, MCL 445.1563.

(b) "Manufacturer" means that term as defined in section 4(2) of 1981 PA 118, MCL 445.1564.

(c) "Program vehicle" means a motor vehicle from either the current model year or the immediately preceding model year, that was repurchased by a manufacturer or distributor from a rental car company.

(2) Except as provided in this subsection, a new motor vehicle dealer shall disclose in writing to a purchaser or lessee of a new motor vehicle, demonstrator, executive or manufacturer's vehicle, or program vehicle before entering into a sales contract or lease agreement that, after the vehicle completed the manufacturing process, the vehicle was damaged and repaired, including an itemization of repairs, if the dealer has knowledge of the damage and repairs and if the cost of the cumulative repairs, as calculated at the rate of the dealer's authorized warranty rate for labor and parts exceeds either 1 of the following:

(a) Five percent of the manufacturer's suggested retail price of the vehicle.

(b) Seven hundred fifty dollars in surface coating repairs or corrosion protection restoration or a combination of these items. If a new motor vehicle dealer fails to comply with this subsection, the purchaser or lessee shall retain all applicable remedies available under article 2 of the uniform commercial code, 1962 PA 174, MCL 440.2101 to 440.2725.

(3) A dealer in new motor vehicles is not required to disclose to a purchaser or lessee under this act that any glass, tires, wheels, bumpers, audio equipment, in-dash components,

or components contained in the living quarters of a motor home that are not required for the operation of the motor home as a motor vehicle were damaged at any time if the damaged item has been replaced with original manufacturer's parts and material.

(4) Repaired damage to a motor vehicle, subject to this section, not exceeding the cost of cumulative repairs as determined pursuant to subsection (2) shall not constitute grounds for revocation of acceptance by the purchaser or lessee. The right of revocation ceases upon the purchaser's or lessee's acceptance of delivery of the vehicle.

257.244 Operation of vehicle by manufacturer, subcomponent system producer, dealer, or transporter with special plate; unauthorized use of special plate; penalties; surety bond or insurance; number of plates; operation of vehicle with dealer plate by vendee or prospective purchaser.

Sec. 244. (1) A manufacturer owning a vehicle of a type otherwise required to be registered under this act may operate or move the vehicle upon a street or highway primarily for the purposes of transporting or testing or in connection with a golf tournament or a public civic event, if the vehicle displays, in the manner prescribed in section 225, 1 special plate approved by the secretary of state.

(2) A producer of a vehicle subcomponent system essential to the operation of the vehicle or the safety of an occupant may operate or move a motor vehicle upon a street or highway solely to transport or test the subcomponent system if the motor vehicle displays, in the manner prescribed in section 225, 1 special plate approved by the secretary of state. To be eligible for the special plate, the subcomponent system producer must be either a recognized subcomponent system producer or must be a subcomponent system producer under contract with a vehicle manufacturer.

(3) A dealer owning a vehicle of a type otherwise required to be registered under this act may operate or move the vehicle upon a street or highway without registering the vehicle if the vehicle displays, in the manner prescribed in section 225, 1 special plate issued to the owner by the secretary of state. As used in this subsection, "dealer" includes an employee, servant, or agent of the dealer.

(4) Solely to deliver the vehicle, a transporter may operate or move a vehicle of a type otherwise required to be registered under this act upon a street or highway if the vehicle displays, in the manner prescribed in section 225, a special plate issued to the transporter under this chapter.

(5) A licensee shall not use a special plate described in this section on service cars or wreckers operated as an adjunct of a licensee's business. A manufacturer, transporter, or dealer making or permitting any unauthorized use of a special plate under this chapter forfeits the right to use special plates and the secretary of state, after notice and a hearing, may suspend or cancel the right to use special plates and require that the special plates be surrendered to or repossessed by the state.

(6) A transporter shall furnish a sufficient surety bond or policy of insurance as protection for public liability and property damage as may be required by the secretary of state.

(7) The secretary of state shall determine the number of plates a manufacturer, dealer, or transporter reasonably needs in his or her business.

(8) If a vehicle that is required to be registered under this act is leased or sold, the vendee or lessee is permitted to operate the vehicle upon a street or highway for not more than 72 hours after taking possession if the vehicle has a dealer plate attached as provided in this section. The application for registration shall be made in the name of the vendee or

lessee before the vehicle is used. The dealer and the vendee or lessee are jointly responsible for the return of the dealer plate to the dealer within 72 hours, and the failure of the vendee or lessee to return or the vendor or lessor to use due diligence to procure the dealer plate is a misdemeanor, and in addition the license of the dealer may be revoked. While using a dealer's plate, a vendee or lessee shall have in his or her possession proof that clearly indicates the date of sale or lease of the motor vehicle.

(9) A vehicle owned by a dealer and bearing the dealer's plate may be driven upon a street or highway for demonstration purposes by a prospective buyer or lessee for a period of 72 hours.

257.248 Dealer license; investigation; report; bond or renewal certificate; dealer plates; stipulation as to service of process; prohibited conduct, application, and classification; expiration; conduct not requiring separate or supplemental license.

Sec. 248. (1) The secretary of state shall not grant a dealer license under this section until an investigation is made of the applicant's qualifications under this act, except that this subsection does not apply to license renewals. The secretary of state shall make the investigation within 15 days after receiving the application and make a report on the investigation.

(2) An applicant for a new vehicle dealer or a used or secondhand vehicle dealer or broker license shall include a properly executed bond or renewal certificate with the application. If a renewal certificate is used, the bond is considered renewed for each succeeding year in the same amount and with the same effect as an original bond. The bond shall be in the sum of $10,000.00 with good and sufficient surety to be approved by the secretary of state. The bond shall indemnify or reimburse a purchaser, seller, lessee, financing agency, or governmental agency for monetary loss caused through fraud, cheating, or misrepresentation in the conduct of the vehicle business whether the fraud, cheating, or misrepresentation was made by the dealer or by an employee, agent, or salesperson of the dealer. The surety shall make indemnification or reimbursement for a monetary loss only after judgment based on fraud, cheating, or misrepresentation has been entered in a court of record against the licensee. The bond shall also indemnify or reimburse the state for any sales tax deficiency as provided in the general sales tax act, 1933 PA 167, MCL 205.51 to 205.78, or use tax deficiency as provided in the use tax act, 1937 PA 94, MCL 205.91 to 205.111, for the year in which the bond is in force. The surety shall make indemnification or reimbursement only after final judgment has been entered in a court of record against the licensee. A dealer or applicant who has furnished satisfactory proof that a bond similar to the bond required by this subsection is executed and in force is exempt from the bond provisions set forth in this subsection. The aggregate liability of the surety shall not exceed the sum of the bond. The surety on the bond may cancel the bond upon giving 30 days' notice in writing to the secretary of state and thereafter is not liable for a breach of condition occurring after the effective date of the cancellation.

(3) An applicant for a new vehicle dealer or a used or secondhand vehicle dealer license shall apply for not less than 2 dealer plates as provided by section 245 and shall include with the application the proper fee as provided by section 803.

(4) As a condition precedent to the granting of a license, a dealer shall file with the secretary of state an irrevocable written stipulation, authenticated by the applicant, stipulating and agreeing that legal process affecting the dealer, served on the secretary of state or a deputy of the secretary of state, has the same effect as if personally served on

the dealer. This appointment remains in force as long as the dealer has any outstanding liability within this state.

(5) A person shall not carry on or conduct the business of buying, selling, brokering, leasing, negotiating a lease, or dealing in 5 or more vehicles of a type required to be titled under this act in a 12-month period unless the person obtains a dealer license from the secretary of state authorizing the carrying on or conducting of that business. A person shall not carry on or conduct the business of buying, selling, brokering, leasing, negotiating a lease, or dealing in 5 or more distressed, late model vehicles or salvageable parts to 5 or more of those vehicles in a 12-month period unless the person obtains a used or secondhand vehicle parts dealer, an automotive recycler, or a salvage pool license from the secretary of state or is an insurance company admitted to conduct business in this state. A person shall not carry on or conduct the business of buying 5 or more vehicles in a 12-month period to process into scrap metal or store or display 5 or more vehicles in a 12-month period as an agent or escrow agent of an insurance company unless the person obtains a dealer license from the secretary of state. A vehicle scrap metal processor who does not purchase vehicles or salvageable parts from unlicensed persons is not required to obtain a dealer license. A person from another state shall not purchase, sell, or otherwise deal in distressed, late model vehicles or salvageable parts unless the person obtains a foreign salvage vehicle dealer license from the secretary of state as prescribed under section 248b. A person, including a dealer, shall not purchase or acquire a distressed, late model vehicle or a salvageable part through a salvage pool, auction, or broker without a license as a salvage vehicle agent. The secretary of state shall investigate and seek prosecution, if necessary, of persons allegedly conducting a business without a license.

257.249 Denial, suspension, or revocation of license as dealer; grounds.

Sec. 249. The secretary of state may deny the application of a person for a license as a dealer and refuse to issue the person a license as a dealer, or may suspend or revoke a license already issued, if the secretary of state finds that 1 or more of the following apply:

(h) The applicant or licensee has possessed a vehicle or a vehicle part that has been confiscated under section 415 of the Michigan penal code, 1931 PA 328, MCL 750.415. The secretary of state shall conduct a hearing pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, before the secretary of state takes any action under this subdivision.

(i) The applicant or licensee has been convicted under section 415 of the Michigan penal code, 1931 PA 328, MCL 750.415.

(2) Each record shall contain the date of the purchase, sale, lease, or exchange or receipt for the purpose of sale, lease, or exchange, a description of the vehicle, the name and address of the seller, the purchaser or lessee, and the alleged owner or other persons from whom the vehicle was purchased or received, or to whom it was sold, leased, or delivered. The record shall contain a copy of any odometer mileage statement received by the dealer when the dealer purchased or acquired a vehicle and a copy of the odometer mileage statement furnished by the dealer when the dealer sold, leased, or exchanged the vehicle as prescribed in section 233a. If the vehicle is purchased, sold, leased, or exchanged through a broker, the record shall include the broker's name and dealer license number and the amount of the broker's fee, commission, compensation, or other valuable consideration paid by the purchaser or lessee or paid by the dealer, or both. The records of all vehicles purchased, sold, leased, or exchanged through a broker maintained by the secretary of state shall be in an electronic format determined by the secretary of state. The written statement shall be dated, but not later than the actual date of delivery of the vehicle to the buyer. The original and all copies of the prescribed form shall contain identical information. The statement shall be furnished by the seller, shall be signed by the seller or the seller's agent and by the buyer, and shall be filed with the application for new title or registration. Failure of the seller to deliver this written statement to the buyer does not invalidate the sale between the seller and the buyer.

(4) A retail vehicle sale is void unless both of the following conditions are met:

(a) The sale is evidenced by a written memorandum that contains the agreement of the parties and is signed by the buyer and the seller or the seller's agent.

The secretary of state may issue an order summarily suspending the license of a dealer pursuant to section 92 of the administrative procedures act of 1969, 1969 PA 306, MCL 24.292, based on an affidavit by a person familiar with the facts set forth in the affidavit that the dealer has failed to maintain the records required by this act or failed to provide the records for inspection as requested by the secretary of state, or has otherwise hindered, obstructed, or prevented the inspection of records authorized under this section. The dealer to whom the order is directed shall comply immediately, but on application to the department shall be afforded a hearing within 30 days pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328. On the basis of the hearing, the summary order shall be continued, modified, or held in abeyance not later than 30 days after the hearing.

If the vehicle is sold, the record shall contain the date of sale and the name and address of the purchaser. The record shall indicate if the certificate of title or salvage or scrap certificate of title was obtained by the dealer. In the case of a late model vehicle, a record of the

purchase or sale of a major component of the vehicle shall be maintained identifying the part purchased or sold, the name and address of the seller or purchaser, the date of the purchase or sale, and the identification number assigned to the part by the dealer, except that a bumper remanufacturer is not required to maintain a record of the purchase of a bumper. (11) A dealer licensed as a foreign salvage vehicle dealer shall maintain records in a form prescribed by the secretary of state. The records shall contain the date of purchase or acquisition of each distressed vehicle, a description of the vehicle including the color, and the name and address of the person from whom the vehicle was acquired. If the vehicle is sold, the record shall contain the date of sale and the name and address of the purchaser. The People of the State of Michigan enact:

257.252a Abandoned vehicle; duties of police agency; contest by registered owner; hearing; request; obtaining release of vehicle; public sale; inability to determine ownership of abandoned vehicle.

Sec. 252a. (1) As used in this section, "abandoned vehicle" means a vehicle that has remained on public property or private property for a period of 48 hours, after a police agency or other governmental agency designated by the police agency has affixed a

written notice to the vehicle or on a state trunk line highway as described in section 1 of 1951 PA 51, MCL 247.651, as follows:

(a) If a valid registration plate is affixed to the vehicle, for a period of 18 hours.

(b) If a valid registration plate is not affixed to the vehicle.

(2) If a vehicle has remained on public or private property for a period of time so that it appears to the police agency to be abandoned, the police agency shall do all of the following:

(a) Determine if the vehicle has been reported stolen.

(b) Affix a written notice to the vehicle. The written notice shall contain the following information:

(*i*) The date and time the notice was affixed.

(*ii*) The name and address of the police agency taking the action.

(*iii*) The name and badge number of the police officer affixing the notice.

(*iv*) The date and time the vehicle may be taken into custody and stored at the owner's expense or scrapped if the vehicle is not removed.

(*v*) The year, make, and vehicle identification number of the vehicle, if available.

(3) If the vehicle is an abandoned vehicle, the police agency may have the vehicle taken into custody.

(4) A police agency that has a vehicle taken into custody shall do all of the following:

(a) Recheck to determine if the vehicle has been reported stolen.

(b) Within 24 hours after taking the vehicle into custody, enter the vehicle as abandoned into the law enforcement information network.

(c) Within 7 days after taking the vehicle into custody, send to the registered owner and secured party, as shown by the records of the secretary of state, by first-class mail or personal service, notice that the vehicle is considered abandoned. The form for the notice shall be furnished by the secretary of state. Each notice form shall contain the following information:

(*i*) The year, make, and vehicle identification number of the vehicle if available.

(*ii*) The location from which the vehicle was taken into custody.

(*iii*) The date on which the vehicle was taken into custody.

(*iv*) The name and address of the police agency that had the vehicle taken into custody.

(*v*) The business address of the custodian of the vehicle.

(*vi*) The procedure to redeem the vehicle.

(*vii*) The procedure to contest the fact that the vehicle is considered abandoned or the reasonableness of the towing fees and daily storage fees.

(*viii*) A form petition that the owner may file in person or by mail with the specified court that requests a hearing on the police agency's action.

(*ix*) A warning that the failure to redeem the vehicle or to request a hearing within 20 days after the date of the notice may result in the sale of the vehicle and the termination of all rights of the owner and the secured party to the vehicle or the proceeds of the sale.

(5) The registered owner may contest the fact that the vehicle is considered abandoned or the reasonableness of the towing fees and daily storage fees by requesting a hearing. A request for a hearing shall be made by filing a petition with the court specified in the notice within 20 days after the date of the notice. If the owner requests a hearing, the matter shall be resolved after a hearing conducted under sections 252e and 252f. An owner

who requests a hearing may obtain release of the vehicle by posting a towing and storage bond in an amount equal to the accrued towing and storage fees with the court. The owner of a vehicle who requests a hearing may obtain release of the vehicle by paying the towing and storage fees instead of posting the towing and storage bond. If the court finds that the vehicle was not properly considered abandoned, the police agency shall reimburse the owner of the vehicle for the accrued towing and storage fees.

(6) If the owner does not request a hearing, he or she may obtain the release of the vehicle by paying the accrued charges to the custodian of the vehicle.

(7) If the owner does not redeem the vehicle or request a hearing within 20 days after the date of the notice, the secured party may obtain the release of the vehicle by paying the accrued charges to the custodian of the vehicle and the police agency for its accrued costs.

(8) Not less than 20 days after the disposition of the hearing described in subsection (5) or, if a hearing is not requested, not less than 20 days after the date of the notice, the police agency shall offer the vehicle for sale at a public sale pursuant to section 252g.

(9) If the ownership of a vehicle that is considered abandoned under this section cannot be determined either because of the condition of the vehicle identification numbers or because a check with the records of the secretary of state does not reveal ownership, the police agency may sell the vehicle at public sale pursuant to section 252g, not less than 30 days after public notice of the sale has been published.

This act is ordered to take immediate effect.

(f) An application for registration of a vehicle on the basis of elected gross weight shall include a declaration by the applicant specifying the elected gross weight for which application is being made.

(g) If the application is for a certificate of title of a motor vehicle registered in accordance with section 801(1)(p), the application shall include the manufacturer's suggested base list price for the model year of the vehicle. Annually, the secretary of state shall publish a list of the manufacturer's suggested base list price for each vehicle being manufactured. Once a base list price is published by the secretary of state for a model year for a vehicle, the base list price shall not be affected by subsequent increases in the manufacturer's suggested base list price but shall remain the same throughout the model year unless changed in the annual list published by the secretary of state. If the secretary of state's list has not been published for that vehicle by the time of the application for registration, the base list price shall be the manufacturer's suggested retail price as shown on the label required to be affixed to the vehicle under section 3 of the automobile information disclosure act, Public Law 85-506, 15 U.S.C. 1232. If the manufacturer's suggested retail price is unavailable, the application shall list the purchase price of the vehicle as defined in section 801(4).

If the dealer or person fails to apply for a title when required, and to transfer or secure registration plates and secure a certificate of registration and pay the required fees within 15 days of delivery of the vehicle or boat trailer, a title and registration for the vehicle or boat trailer may subsequently be acquired only upon the payment of a transfer fee of $15.00 in addition to the fees specified in section 806. The purchaser or lessee of the vehicle or the purchaser of the boat trailer shall sign the application, including, when applicable, the declaration specifying the maximum elected gross weight, as required by subsection (1)(f), and other necessary papers to enable the dealer or person to secure the title, registration plates, and transfers from the secretary of state. If the secretary of state mails or delivers a purchaser's certificate of title to a dealer, the dealer shall mail or deliver the certificate of title to the purchaser not more than 5 days after receiving the certificate of title from the secretary of state.

(5) A dealer selling or exchanging an off lease or buy back vehicle shall apply to the secretary of state for a new title for the vehicle within 15 days after it receives the certificate of title from the lessor or manufacturer under section 235 and transfer or secure registration plates and secure a certificate of registration for the vehicle in the name of the purchaser. The dealer's license may be suspended or revoked in accordance with section 249 for failure to apply for a title when required or for failure to transfer or secure registration plates and certificate of registration within the 15-day period. If the dealer or person fails to apply for a title when required, and to transfer or secure registration plates and secure a certificate of registration and pay the required fees within the 15-day time period, a title and registration for the vehicle may subsequently be acquired only upon the payment of a transfer fee of $15.00 in addition to the fees specified in section 806. The purchaser of the vehicle shall sign the application, including, when applicable, the declaration specifying the maximum elected gross weight, as required by subsection (1)(f), and other necessary papers to enable the dealer or person to secure the title, registration plates, and transfers from the secretary of state. If the secretary of state mails or delivers a purchaser's certificate of title to a dealer, the dealer shall mail or deliver the certificate of title to the purchaser not more than 5 days after receiving the certificate of title from the secretary of state.

(6) If a vehicle is delivered to a purchaser or lessee who has valid Michigan registration plates that are to be transferred to the vehicle, and an application for title, if

required, and registration for the vehicle is not made before delivery of the vehicle to the purchaser or lessee, the registration plates shall be affixed to the vehicle immediately, and the dealer shall provide the purchaser or lessee with an instrument in writing, on a form prescribed by the secretary of state, which shall serve as a temporary registration for the vehicle for a period of 15 days from the date the vehicle is delivered.

(7) An application for a certificate of title that indicates the existence of a security interest in the vehicle or in an accessory to the vehicle, if requested by the security interest holder, shall be accompanied by a copy of the security agreement which need not be signed. The request may be made of the seller on an annual basis. The secretary of state shall indicate on the copy the date and place of filing of the application and return the copy to the person submitting the application who shall forward it to the holder of the security interest named in the application.

(8) If the seller does not prepare the credit information, contract note, and mortgage, and the holder, finance company, credit union, or banking institution requires the installment seller to record the lien on the title, the holder, finance company, credit union, or banking institution shall pay the seller a service fee of not more than $10.00. The service fee shall be paid from the finance charges and shall not be charged to the buyer in addition to the finance charges. The holder, finance company, credit union, or banking institution shall issue its check or bank draft for the principal amount financed, payable jointly to the buyer and seller, and there shall be imprinted on the back side of the check or bank draft the following:

"Under Michigan law, the seller must record a first lien in favor of (name of lender) _____ on the vehicle with vehicle identification number _____ and title the vehicle only in the name(s) shown on the reverse side." On the front of the sales check or draft, the holder, finance company, credit union, or banking institution shall note the name(s) of the prospective owner(s). Failure of the holder, finance company, credit union, or banking institution to comply with these requirements frees the seller from any obligation to record the lien or from any liability that may arise as a result of the failure to record the lien. A service fee shall not be charged to the buyer.

(9) In the absence of actual malice proved independently and not inferred from lack of probable cause, a person who in any manner causes a prosecution for larceny of a motor vehicle; for embezzlement of a motor vehicle; for any crime an element of which is the taking of a motor vehicle without authority; or for buying, receiving, possessing, leasing, or aiding in the concealment of a stolen, embezzled, or converted motor vehicle knowing that the motor vehicle has been stolen, embezzled, or converted, is not liable for damages in a civil action for causing the prosecution. This subsection does not relieve a person from proving any other element necessary to sustain his or her cause of action.

257.235 Dealer as transferee of vehicle; requirements; duties; liability of dealer or transferee; transfer of title or interest to another dealer; duties of dealer; dealer reassignment of title form; buy back or off lease vehicle.

Sec. 235. (1) If the transferee of a vehicle is a new motor vehicle dealer or a used vehicle dealer that acquires the vehicle for resale, the dealer is not required to obtain a new registration of the vehicle or forward the certificate of title to the secretary of state, but shall retain and have in the dealer's immediate possession the assigned certificate of title with the odometer information properly completed. A dealer shall obtain a certificate of title for a vehicle having a salvage certificate of title before the dealer may operate the vehicle under dealer's license plates. Upon transferring title or interest to another person that is not a dealer, the dealer shall complete an assignment and warranty of title upon

the certificate of title, salvage certificate of title, or dealer reassignment of title form and make an application for registration and a new title as provided in section 217(4).

(2) The dealer or transferee is liable for all damages arising from the operation of the vehicle while the vehicle is in the dealer's or transferee's possession.

(3) Upon transferring title or interest to another dealer, the dealer shall complete an assignment and warranty of title upon the certificate of title, salvage certificate of title, or dealer reassignment of title form and deliver it to the licensed dealer to which the transfer is made.

(4) The secretary of state shall prescribe the dealer reassignment of title form. The form shall contain the title number of the accompanying title; the name, address, and, if applicable, dealer license number of the transferee; the year, make, model, body type, and vehicle identification number of the vehicle; the name, address, dealer number, and signature of the transferor; an odometer mileage statement pursuant to section 233a; and any other information the secretary of state requires.

(5) This section does not prohibit a dealer from selling a buy back vehicle while the certificate of title is in the possession of a manufacturer that obtained the certificate of title under the manufacturer's buy back vehicle program. The manufacturer shall mail the certificate of title to the dealer within 5 business days after the manufacturer's receipt of a signed statement from the purchaser of the vehicle acknowledging he or she was informed by the dealer that the manufacturer acquired title to the vehicle as the result of an arbitration proceeding, pursuant to a customer satisfaction policy adopted by the manufacturer, or under 1986 PA 87, MCL 257.1401 to 257.1410, or a similar law of another state.

(6) This section does not prohibit a dealer from selling an off lease vehicle while the certificate of title is in the possession of a lessor. The lessor shall mail the certificate of title to the dealer within 21 days after the lessor receives the purchase price of the vehicle and any other fees and charges due under the lease.

257.248j Acting as dealer without license; warning; administrative fine; notice of assessment; actions; informal conference; administrative hearing; payment of administrative fine; reduction.

Sec. 248j. (1) In addition to any other remedies provided by law, if the secretary of state determines that a person has acted as a dealer without a dealer license, he or she may issue the person a verbal or written warning or assess an administrative fine of not more than $5,000.00 for a first violation, and not more than $7,500.00 for each subsequent violation occurring within 7 years of a prior violation.

(2) If the secretary of state assesses an administrative fine under subsection (1), the secretary of state shall provide notice of the assessment in writing pursuant to section 212. At a minimum, the notice of assessment shall contain all of the following:

(a) A unique identification number.

(b) A description of the alleged violation that is the basis for the assessment, including the date the alleged violation occurred and a reference to the specific section or rule alleged to have been violated.

(c) The administrative fine established for the violation.

(d) A statement indicating that if the fine is not paid, the secretary of state may refer the fine to the department of treasury for collection.

(e) A statement indicating that if the alleged violation is contested, the person has a right to request an informal conference before an administrative hearing, accompanied by simple instructions informing the person how to request or waive the informal conference.

(3) Not later than 20 days after receiving the written notice of assessment, the alleged violator shall do 1 of the following:

(a) Pay the administrative fine to the secretary of state. A payment waives the person's right to an informal conference and an administrative hearing.

(b) Request the secretary of state to conduct an informal conference.

(c) Waive the right to an informal conference and request the secretary of state to conduct an administrative hearing.

(d) If the person is not a licensed dealer, pay the administrative fine to the secretary of state and submit a properly completed dealer license application to the secretary of state.

(4) A person's request for an informal conference or an administrative hearing shall comply with all of the following:

(a) Be in writing.

(b) Be postmarked or received by the department within 20 days after the date the person received the written notice of assessment.

(c) State the name, address, and telephone number of the person requesting the informal conference or administrative hearing.

(d) State the written notice of assessment's unique identification number.

(e) State the reason for the request.

(f) If the request is for an administrative hearing without an informal conference, state the person is waiving his or her right to an informal conference.

(5) If the secretary of state receives a request for an informal conference or an administrative hearing that meets all of the conditions prescribed in subsection (4), the secretary of state shall schedule an informal conference or an administrative hearing, as applicable. If the request fails to meet all of the conditions prescribed in subsection (4), the secretary of state may in writing deny the request. A denial shall be served on the person by first-class mail and shall do both of the following:

(a) State the reason for the denial.

(b) Grant the person 14 days to submit a valid request to the secretary of state.

(6) The secretary of state shall conduct an informal conference under this section within 45 days after receiving a valid request for the conference. The secretary of state shall serve upon the alleged violator, by first-class mail not less than 5 days before the conference, a written notice that includes time, place, and date of the informal conference. The notice shall state that the alleged violator may be represented by an attorney at the informal conference.

(7) After the informal conference, the secretary of state shall evaluate the validity of the assessment of the administrative fine and affirm, modify, or dismiss the assessment. In making the evaluation, the secretary of state may consider 1 or more of the following:

(a) Whether there is reason to believe the alleged violation did in fact occur.

(b) The severity of the alleged violation and its impact on the public.

(c) The number of prior or related violations by the person.

(d) The likelihood of future compliance by the person.

(e) Any other considerations the secretary of state considers appropriate.

(8) Within 20 days after conducting the informal conference, the secretary of state shall serve upon the person by first-class mail a written statement describing whether the assessment of the administrative fine is affirmed, modified, or dismissed and the basis of the action. If the assessment is affirmed or modified, this statement shall also advise the person that he or she will receive a notice of hearing where the validity of the assessment may be contested or he or she may immediately pay the fine to the secretary of state and that payment of the fine will prevent scheduling of an administrative hearing.

(9) A notice of hearing under this section shall be served on the person by first-class mail not less than 5 days before the date scheduled for the administrative hearing and, at a minimum, advise the person of all of the following:

(a) The time, place, and date of hearing.

(b) That an impartial hearing officer will conduct the hearing and allow the person an opportunity to examine the secretary of state's evidence and present evidence in person or in writing.

(c) That the person has a right to be represented by an attorney at the administrative hearing.

(d) The common reasons why the secretary of state could dismiss an assessment of an administrative fine.

(e) That the hearing officer conducting the administrative hearing will be authorized to do all of the following:

(*i*) Affirm, modify, or dismiss the assessment of an administrative fine.

(*ii*) Correct any errors in the department's records that relate directly to the assessment.

(*iii*) Refer or not refer the fine to the department of treasury for collection.

(*iv*) Take or order any other action or resolution considered appropriate by the hearing officer.

(f) That if the department of treasury takes enforcement action against the person, he or she may seek a review in the court of claims.

(10) The secretary of state shall conduct an administrative hearing under this section pursuant to the contested case provisions of the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328. If an administrative fine assessed under this section is affirmed by the decision of the hearing officer, the hearing officer may assess the person costs of not more than $500.00, to reimburse the secretary of state for proving the validity of the alleged violation, in addition to any other penalties, sanctions, or costs imposed as provided by law.

(11) An administrative fine assessed under this section becomes final upon the first to occur of the following:

(a) The secretary of state does not receive a valid request for an informal conference or an administrative hearing within the time period described in subsection (4).

(b) Twenty days after a person waives his or her right to an administrative hearing.

(c) An administrative hearing decision is served upon the person.

(12) After a person pays the secretary of state the fine imposed, the secretary of state shall forward the money to the department of treasury for deposit in a separate fund within the general fund. Upon appropriation, this money shall be used first to defray the expense of the secretary of state in administering this chapter.

(13) If an administrative fine assessed under this section is not paid within 60 days after it becomes final, the secretary of state may refer the matter to the department of

treasury for collection as a state debt through the offset of state tax refunds and may use the services of the department of treasury to levy the salary, wages, or other income or assets of the person as provided by law.

(14) Payment of an administrative fine assessed under this section does not constitute an admission of responsibility or guilt by the person. Payment of an administrative fine assessed under this section does not prevent the secretary of state from charging a violation described in the assessment of the administrative fine in a subsequent or concurrent contested case proceeding conducted by the secretary of state pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(15) If the person submits a properly completed application and appropriate fee for a dealer license within 20 days after an administrative fine under subsection (1) is assessed, and if the secretary of state issues the person a dealer license within 45 days of receiving the properly completed application and fee, the secretary of state shall reduce the amount of the administrative fine by 50%.

(16) The secretary of state shall serve a notice, denial, decision, or statement under this section in compliance with section 212.

(17) An informal conference under this section is not a compliance conference under section 92 of the administrative procedures act of 1969, 1969 PA 306, MCL 24.292.

The owner of a motor vehicle is liable for an injury caused by the negligent operation of the motor vehicle whether the negligence consists of a violation of a statute of this state or the ordinary care standard required by common law. The owner is not liable unless the motor vehicle is being driven with his or her express or implied consent or knowledge. It is presumed that the motor vehicle is being driven with the knowledge and consent of the owner if it is driven at the time of the injury by his or her spouse, father, mother, brother, sister, son, daughter, or other immediate member of the family.

(2) A person engaged in the business of leasing motor vehicles who is the lessor of a motor vehicle under a lease providing for the use of the motor vehicle by the lessee for a period that is greater than 30 days, or a dealer acting as agent for that lessor, is not liable at common law for damages for injuries to either person or property resulting from the operation of the leased motor vehicle, including damages occurring after the expiration of the lease if the vehicle is in the possession of the lessee.

(3) Notwithstanding subsection (1), a person engaged in the business of leasing motor vehicles who is the lessor of a motor vehicle under a lease providing for the use of the motor vehicle by the lessee for a period of 30 days or less is liable for an injury caused by the negligent operation of the leased motor vehicle only if the injury occurred while the leased motor vehicle was being operated by an authorized driver under the lease agreement or by the lessee's spouse, father, mother, brother, sister, son, daughter, or other immediate family member. Unless the lessor, or his or her agent, was negligent in the leasing of the motor vehicle, the lessor's liability under this subsection is limited to $20,000.00 because of bodily injury to or death of 1 person in any 1 accident and $40,000.00 because of bodily injury to or death of 2 or more persons in any 1 accident.

(4) A person engaged in the business of leasing motor vehicles as provided under subsection (3) shall notify a lessee that the lessor is liable only up to the maximum amounts provided for in subsection (3), and only if the leased motor vehicle was being operated by the lessee or other authorized driver or by the lessee's spouse, father, mother, brother, sister, son, daughter, or other immediate family member, and that the lessee may be liable to the lessor up to amounts provided for in subsection (3), and to an injured person for amounts awarded in excess of the maximum amounts provided for in subsection (3).

(5) Subsections (3) and (4) shall not be construed to expand or reduce, except as otherwise provided by this act, the liability of a person engaged in the business of leasing motor vehicles or to impair that person's right to indemnity or contribution, or both.

(6) As used in subsections (3), (4), and (5), "motor vehicle" means a self-propelled device by which a person or property may be transported upon a public highway. Motor vehicle does not include a bus, power shovel, road machinery, agricultural machinery, or other machinery or vehicle not designed primarily for highway transportation. Motor vehicle also does not include a device that moves upon or is guided by a track.

(7) A lessee in possession of an off lease vehicle, and not the dealer of the vehicle, is liable as the owner of the vehicle for any damages awarded for an injury to a person or property resulting from the operation of the vehicle. The dealer of an off lease vehicle may be liable at common law for damages awarded for an injury to a person or property resulting from the operation of the vehicle only if the dealer is in possession of the vehicle and the certificate of title and has acknowledged possession of the certificate of title to the lessor.

CHAPTER 16. Creditor-Placed Insurance

500.1601 Insurer or producer transacting creditor-placed insurance; scope.

Sec. 1601. (1) This chapter applies to an insurer or producer transacting creditor-placed insurance as defined in this chapter.

(2) All creditor-placed insurance written in connection with credit transactions for personal, family, or household purposes is subject to the provisions of this chapter, except for the following:

(a) Transactions involving extensions of credit primarily for business or commercial purposes.

(b) Insurance on collateralized real property.

(c) Insurance offered by the creditor and elected by the debtor at the debtor's option.

(d) Insurance for which no specific charge is made to the debtor or the debtor's account.

(e) Blanket insurance, whether paid for by the debtor or the creditor.

500.1603 Private cause of action not created.

Sec. 1603. This chapter does not create or imply a private cause of action for violation of this chapter and does not extinguish any debtor rights available under common law or other state statute.

500.1605 Definitions.

Sec. 1605. As used in this chapter:

(a) "Actual cash value" means the cost of replacing damaged or destroyed property with comparable new property, minus depreciation and obsolescence.

(b) "Blanket insurance" means insurance that provides coverage on collateral as defined in a policy issued to a creditor, without specifically listing the collateral covered.

(c) "Collateral" means personal property that is pledged as security for the satisfaction of a debt.

(d) "Credit agreement" means the written document that sets forth the terms of the credit transaction and includes the security agreement.

(e) "Credit transaction" means a transaction by the terms of which the repayment of money loaned or credit commitment made, or payment of goods, services, or properties sold or leased, is to be made at a future date or dates.

(f) "Creditor" means the lender of money or vendor or lessor of goods, services, property, rights, or privileges for which payment is arranged through a credit transaction, or any successor to the right, title, or interest of a lender, vendor, or lessor.

(g) "Creditor-placed insurance" means insurance that is purchased unilaterally by the creditor, who is the named insured, subsequent to the date of the credit transaction, providing coverage against loss, expense, or damage to collateralized personal property as a result of fire, theft, collision, or other risks of loss that would either impair a creditor's interest or adversely affect the value of collateral covered by limited dual interest insurance. Creditor-placed insurance is purchased according to the terms of the credit agreement as a result of the debtor's failure to provide required physical damage insurance, with the cost of the coverage being charged to the debtor. It is either single interest insurance or limited dual interest insurance.

(h) "Debtor" means the borrower of money or a purchaser or lessee of goods, services, property, rights, or privileges, for which payment is arranged through a credit transaction.

(i) "Insurance tracking" means monitoring evidence of insurance on collateralized credit transactions to determine whether insurance required by the credit agreement has lapsed, and communicating with debtors concerning the status of insurance coverage.

(j) "Lapse" means that the insurance coverage required by the credit agreement is not in force.

(k) "Limited dual interest insurance" means insurance purchased by the creditor to insure its interest in the collateral securing the debtor's credit transaction. Limited dual interest insurance waives the 3 conditions for loss payment under single interest insurance and extends coverage on the collateral while in the possession of the debtor.

(*l*) "Loss ratio" means the ratio of incurred losses to earned premium.

(m) "Net debt" means the amount necessary to liquidate the remaining debt in a single lump-sum payment, excluding all unearned interest and other unearned charges.

(n) "Producer" means a person who receives a commission for insurance placed or written or who, on behalf of an insurer or creditor, solicits, negotiates, effects, procures,

delivers, renews, continues, or binds policies of insurance to which this chapter applies, but does not include the following:

(*i*) A regular salaried officer, employee, or other representative of an insurer who devotes substantially all working time to activities other than those specified in this subdivision and who receives no compensation that is directly dependent on the amount of insurance business written.

(*ii*) A regular salaried officer or employee of a creditor who receives no compensation that is directly dependent on the amount of insurance effected or procured.

(o) "Single interest insurance" means insurance purchased by the creditor to insure its interest in the collateral securing a debtor's credit transaction where the following 3 conditions must be met for payment of loss under the policy:

(*i*) The debtor has defaulted in payment.

(*ii*) The creditor has legally repossessed the collateral, unless collateral has been stolen from the debtor.

(*iii*) The creditor has suffered an impairment of interest.

500.1607 Dates on which insurance effective or terminated.

Sec. 1607. (1) Creditor-placed insurance shall become effective on the latest of the following dates:

(a) The date of the credit transaction.

(b) The date prior coverage, including prior creditor-placed insurance coverage, lapsed.

(c) One year before the date on which the related insurance charge is made to the debtor's account.

(d) A later date provided for in the agreement between the creditor and insurer.

(2) Creditor-placed insurance shall terminate on the earliest of the following dates:

(a) The date other acceptable insurance becomes effective, subject to the debtor providing acceptable evidence of the other insurance to the creditor.

(b) The date the collateralized personal property is repossessed, unless the property is returned to the debtor within 10 days of the repossession.

(c) The date the collateralized personal property is determined by the insurer to be a total loss.

(d) The date the debt is completely extinguished.

(e) An earlier date specified in the individual policy or certificate of insurance.

(3) An insurance charge shall not be made to a debtor for a term longer than the scheduled term of the creditor-placed insurance when it becomes effective, and an insurance charge shall not be made to the debtor for creditor-placed insurance before the effective date of the insurance.

(4) If a charge is made to a debtor for creditor-placed insurance coverage that exceeds a term of 1 year, the debtor shall be notified at least annually that the insurance will be canceled and a refund or credit of unearned charges made if evidence of acceptable insurance secured by the debtor is provided.

500.1609 Premiums; calculation; limitation; charges creating balloon payment prohibited.

Sec. 1609. (1) Premiums for creditor-placed insurance coverage may be calculated based on an amount not exceeding the net debt even though the coverage may limit the

insurer's liability to the net debt, actual cash value, or cost of repair, or other premium calculation methods that more closely reflect the exposure of each item insured and approximate the premium calculation method of the coverage required by the credit agreement.

(2) An insurer shall not write creditor-placed insurance for which the premium rate differs from that determined by the schedules of the insurer on file with the commissioner. The premium or amount charged to the debtor for creditor-placed insurance shall not exceed the premiums charged by the insurer, computed at the time the charge to the debtor is determined.

(3) A method of billing insurance charges to the debtor on closed-end credit transactions that creates a balloon payment at the end of the credit transaction or extends the credit transaction's maturity date is prohibited, unless specifically disclosed at the time of the origination of the credit agreement and specifically agreed to by the debtor at the time the charge is added to the outstanding credit balance.

500.1611 Exclusions.

Sec. 1611. (1) Creditor-placed insurance coverage does not include any of the following:

(a) Coverage for the cost of repossession.

(b) Skip, confiscation, and conversion coverage.

(c) Coverage for payment of mechanics' or other liens that do not arise from a covered loss occurrence.

(d) Coverage that requires a debtor's insurance deductible to be less than $250.00.

(e) Coverage that is broader than the insurance coverages that meet the minimum insurance requirements of the credit agreement.

(2) This section does not prohibit the issuance of a separate policy or endorsement providing the coverages listed in subsection (1). However, no charge shall be passed along to the debtor for these coverages.

500.1613 Evidence of insurance coverage.

Sec. 1613. Creditor-placed insurance shall be set forth in an individual policy or certificate of insurance. A copy of the individual policy, certificate of insurance coverage, or other evidence of insurance coverage shall be mailed, first-class mail, or delivered in person to the last known address of the debtor.

500.1615 Policy forms and certificates of insurance; filing; schedule of premium rates; withdrawal of approval.

Sec. 1615. (1) All policy forms and certificates of insurance to be delivered or issued for delivery in this state and the schedules of premium rates pertaining to them shall be filed with the commissioner.

(2) Within 30 days after the filing of the policy forms and certificates of insurance, the commissioner shall disapprove a form that does not conform to this act. Within 30 days of filing, the commissioner shall disapprove a schedule of premium rates pertaining to the form if it does not conform to the standard set forth in subsection (5).

(3) If the commissioner disapproves a form or schedule of premium rates, the commissioner shall promptly notify the insurer in writing of the disapproval, and the insurer shall not issue or use the form or schedule. The commissioner shall specify the reasons for disapproval in the notice and state that a hearing will be granted upon request pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(4) Unless the commissioner disapproves the form or schedule of premium rates as provided in this section or gives written approval of the form or schedule within 30 days after the filing, the form or schedule is considered approved 31 days after the filing.

(5) A schedule of premium rates shall provide for premiums that are not unreasonable in relation to the benefits provided by the form to which the schedule applies. A premium rate or schedule of premium rates is reasonable for purposes of this section if the rate or schedule of rates produces or may reasonably be expected to produce a loss ratio of 60% or greater. This subsection does not prohibit the commissioner from approving other loss ratios he or she finds reasonable.

(6) The commissioner may withdraw approval of an approved form or schedule of premium rates when the commissioner would be required to disapprove the form or schedule of premium rates if it were filed at the time of the withdrawal. The withdrawal shall be in writing and shall specify the reasons for withdrawal and the effective date of the withdrawal. An insurer adversely affected by a withdrawal may, within 30 days after receiving the written notification of the withdrawal, request a hearing pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, to determine whether the withdrawal should be annulled, modified, or confirmed. Unless the commissioner grants an extension in writing in the withdrawal or subsequently grants an extension, the withdrawal, in the absence of a request for hearing, shall become effective prospectively and not retroactively, 91 days after delivery of the notice of withdrawal and, if the request for hearing is filed, 91 days after delivery of written notice of the commissioner's determination.

500.1617 Refund of unearned premium or other charges; statement of refund; amount.

Sec. 1617. (1) Not later than 60 days after the termination of creditor-placed insurance coverage, and in accordance with sections 2833(1)(h) and 3020(1)(c), an insurer shall refund any unearned premium or other identifiable charges.

(2) Not later than 60 days after the termination date of creditor-placed insurance coverage, the insurer shall provide to the debtor a statement of refund disclosing the effective date, the termination date, the amount of premium being refunded, and the amount of premium charged for the coverage provided.

(3) If coverage under this chapter is not provided, the entire amount of premiums, minimum premiums, fees, or charges of any kind shall be refunded.

500.1619 Loss incurred; payment; reduced net debt or actual cash value amounts; subrogation; written statement; towing and storage charges.

Sec. 1619. (1) If a loss is incurred under a creditor-placed insurance policy, the insurer shall pay, at a minimum, the lesser of the following, determined as of the date of loss:

(a) The cost to repair the collateral less any applicable deductible.

(b) The actual cash value of the collateral, less any applicable deductible.

(c) The net debt, less any applicable deductible. The method of calculation of net debt payable pursuant to this subdivision shall be identical to the method of calculation of net debt for payment of premiums pursuant to section 1609(1).

(d) If single interest insurance is provided, the amount by which the creditor's interest is impaired.

(2) The net debt or actual cash value amounts in subsection (1) may be reduced by the value of salvage if the insurer does not take possession of the insured property.

(3) In the event of a loss, no subrogation shall run against the debtor from the insurer.

(4) Whenever a claim is made on a creditor-placed insurance policy, the insurer shall furnish to the claimant a written statement of the loss explaining the settlement amount and the method of settlement.

(5) A creditor or insurer shall not abandon salvage to a towing or storage facility in lieu of payment of storage fees without the consent of the facility and the claimant. The insurer shall be responsible for the payment of towing and storage charges for a covered loss occurrence from the time the claim is reported to the insurer in accordance with the terms of the policy to the time the claim is paid. The insurer shall give written notice to the claimant when the claim is paid that the claimant may incur storage charges after the date the claim is paid.

500.1621 Insurance on collateral; conditions.

Sec. 1621. (1) For a creditor to place insurance on collateral pledged by the debtor and pass the cost of the insurance on to the debtor, all of the following must be met:

(a) The creditor must have a security interest in the collateral.

(b) The credit agreement must require the debtor to maintain insurance on the collateral to protect the creditor's interest.

(c) The credit agreement must authorize the creditor to place the insurance if the debtor fails to provide evidence of the insurance.

(d) The requirements listed in subdivisions (a) to (c) must be clearly disclosed to the debtor at the inception of the credit transaction.

(2) A debtor has the right to provide required insurance through existing policies of insurance owned or controlled by the debtor or of procuring and furnishing the required coverage through an insurer authorized to transact insurance within this state. However, a creditor may establish maximum acceptable deductibles, insurer solidity standards, and other reasonable conditions with respect to the required insurance.

500.1623 Rebates or inducements; prohibitions.

Sec. 1623. (1) The entire amount of the premium due from a creditor shall be remitted to the insurer or its producer in accordance with the insurer's requirements. No commissions may be paid to, or retained by, a person or entity except a licensed and appointed producer.

(2) A creditor shall not retain unearned premiums upon cancellation of the insurance without crediting to the debtor's account the amount of unearned insurance charges.

(3) Rebates to the creditor of a portion of the premium charged to the debtor are prohibited as are other inducements provided to the creditor by an insurer or producer. All of the following activities are prohibited rebates or inducements:

(a) Allowing insurers or producers to purchase certificates of deposit from the creditor or to maintain accounts with the creditor at less than the market interest rates and charges that the creditor applies to other customers for deposit accounts of similar amounts and duration.

(b) Paying a commission to a person, including a creditor, who is not appropriately licensed as a producer in this state.

(c) Purchasing or offering to purchase certificates of deposit from, or maintaining or offering to maintain deposit accounts or investment accounts with a creditor as part of a creditor-placed insurance solicitation.

(d) Any other activity identified by the commissioner and prohibited by rule, regulation, or order.

(4) Prohibited rebates or inducements do not include any of the following:

(a) The paying of commissions and other compensation to a duly licensed and appointed producer, whether or not affiliated with the creditor.

(b) The paying to the creditor policyholder of group experience rated refunds or policy dividends.

(c) The providing of insurance tracking and other services incidental to the creditor-placed insurance program.

(d) The paying to the creditor of amounts intended to reimburse the creditor for its expenses incurred incidental to the creditor-placed insurance program, such as costs of data processing, mail processing, telephone service, insurance tracking, billing, collection, and related activities, provided that these payments are approved in a manner consistent with the procedures in section 1615 and are calculated in a manner that does not exceed an amount reasonably estimated to equal the expenses incurred by the creditor.

(5) An insurer that pays commissions to producers for creditor-placed insurance that are greater than 20% of the net written premium shall demonstrate to the commissioner that the commissions are not unreasonably high in relation to the value of the services rendered.

(6) This section does not prohibit or restrict an insurer or producer from maintaining a demand, premium deposit, or other account or accounts with a creditor for which the insurer or producer provides insurance if the accounts pay the market interest rate and charges that the creditor applies to other customers for deposit accounts of similar amounts and duration.

500.1625 Adequate disclosure of requirement to maintain insurance; notice; final notice; noncompliance.

Sec. 1625. (1) A creditor shall not impose charges, including premium costs and related interest and finance charges, on a debtor for creditor-placed insurance coverage unless adequate disclosure of the requirement to maintain insurance has been made to the debtor. Adequate disclosure is accomplished if all of the following occur:

(a) The credit agreement sets forth the requirement that the debtor must maintain insurance on the collateral as provided for in section 1621.

(b) The creditor makes reasonable efforts to notify the debtor of the requirement to maintain insurance and allows a reasonable time for compliance with this requirement.

(c) A final notice as required by this chapter is sent to the debtor.

(d) If creditor-placed insurance coverage is issued, a copy of the policy or certificate is sent to the debtor as provided for in section 1613.

(2) After adequate disclosure of the request to maintain insurance has been made to the debtor as required by this section, a creditor may proceed to impose charges for creditor-placed insurance if the debtor fails to provide evidence of insurance. A creditor may impose charges no earlier than 10 days after sending the final notice.

(3) Reasonable efforts to notify the debtor under subsection (1)(b) are accomplished if the creditor does all of the following:

(a) Mails a notice by first-class mail to the debtor's last known address as contained in the creditor's records, stating that the creditor intends to charge the debtor for creditor-

placed insurance coverage on the collateral if the debtor fails to provide evidence of the property insurance to the creditor.

(b) Allows the debtor at least 20 days to respond to the notice and provide evidence of acceptable insurance coverage before sending a final notice.

(c) Sends a final notice in compliance with this section by first-class mail to the debtor's last known address as contained in the creditor's records at least 10 days before the cost of insurance is charged to the debtor by the creditor. Proof of the mailing of the final notice shall be retained for at least 3 years following the expiration or termination of the coverage or as otherwise required by law.

(4) The initial notice under this section shall be in a form determined by the creditor to remind the debtor of the requirement to maintain insurance on the collateral. The final notice under this section shall be as complete as the following notice, printed in not less than 12-point type, and modified where necessary to fit the nature of the credit transaction:

FINAL NOTICE

Your credit agreement with us requires you to have property insurance on the collateral until you pay off your loan. You have not given us proof you have insurance on the property. You can ask your insurance company or agent to give us proof of insurance or you can send us proof you have property insurance within 10 calendar days after the date this letter was postmarked. If you do not, we will buy the insurance and charge the cost to you.

You must pay for the property insurance we buy. It may cost more than insurance you can buy on your own. The cost of the insurance we buy may be added to your loan balance and we may charge you interest on it. If we do, you will pay interest at the same rate you pay on your loan.

The insurance we buy will pay claims to us (the creditor) for physical damage to your property. It will not pay any claims made against you [and it may not pay you for any claims you make (delete if limited dual interest coverage)]. The insurance we buy will not give you any liability insurance coverage and will not meet the requirements of a state's financial responsibility law.

We may receive compensation for placing this insurance, which is included in the cost of coverage charged to you.

The property coverage we buy will start on the date shown in the policy or certificate, which may go back to the date of the loan or the date your prior coverage stopped. We will cancel the insurance we bought for you and give you a refund or credit of unearned charges if you give us proof you have bought property insurance somewhere else or if you have paid off the loan.

(5) All creditor-placed insurance shall be set forth in an individual policy or certificate of insurance. Not earlier than the sending of the final notice nor 25 days after a charge is made to the debtor for creditor-placed insurance coverage, the creditor shall cause a copy of the individual policy, certificate, or other evidence of insurance coverage evidencing the creditor-placed insurance coverage to be sent, first-class mail, to the debtor's last known address.

(6) A creditor's compliance with or failure to comply with this chapter shall not be construed to require the creditor to purchase insurance coverage on the collateral, and the creditor is not liable to the debtor or a third party as a result of its failure to purchase the insurance.

500.1627 Investigations or examinations; enforcement; hearing; consent agreement; injunctive relief.

Sec. 1627. (1) In addition to other powers under this act, the commissioner may conduct investigations or examinations of insurers and producers to ensure compliance with and enforcement of the provisions of this chapter.

(2) Upon finding that an insurer or producer has violated a provision of this chapter or a regulation promulgated under this chapter, the commissioner may issue an order directing that the insurer or producer cease and desist from committing the violations, impose a civil penalty for the violations, provide an equitable remedy for past violations, or any combination of these.

(3) Upon the issuance of an order under subsection (2), the insurer or producer may request a hearing. At the hearing, the burden shall be on the insurer or producer to show cause why an order issued pursuant to subsection (2) should be annulled, modified, or confirmed. Pending the hearing and the decision by the commissioner, the commissioner shall suspend the effective date of the order. Not more than 60 days after the hearing, the commissioner shall enter an order of final determination that shall specify all relevant findings of fact, conclusions of law, and orders. With the agreement of each affected insurer or producer, and in lieu of a hearing, the commissioner may enter into a consent agreement disposing of the matters that would be the subject of the hearing and order.

(4) The commissioner may bring an action in the circuit court for Ingham county for an injunction or other appropriate relief to enjoin threatened or existing violations of this chapter or of the commissioner's orders or regulations or for restitution on behalf of persons aggrieved by a violation of this chapter or of the commissioner's orders or regulations.

500.1629 Judicial review; court order.

Sec. 1629. (1) A person aggrieved by a final order, decision, finding, ruling, action, or inaction provided for under this chapter may seek judicial review as provided in section 244.

(2) To the extent that the order or final determination of the commissioner is affirmed, the court shall issue its own order commanding obedience to the terms of the commissioner's order or final determination. If either party applies to the court for leave to produce additional evidence, and shows to the satisfaction of the court that the additional evidence is material and that there were reasonable grounds for the failure to produce the evidence in the proceeding before the commissioner, the court may order the additional evidence to be taken before the commissioner and to be produced in a hearing in the manner and upon the terms and conditions the court considers proper. The commissioner may modify the findings of fact or make new findings by reason of the additional evidence taken and shall file the modified or new findings with a recommendation, if any, for the modification or setting aside of the original order or final determination, with the return of the additional evidence.

(3) An order issued by the commissioner under section 1627 shall become final upon the expiration of the time allowed for filing a petition for review if no petition has been duly filed within that time, except that the commissioner may thereafter modify or set aside the order to the extent provided in section 1627 or upon the final decision of the court if the court directs that the order of the commissioner be affirmed or the petition for review dismissed.

(4) An order of the commissioner under this chapter or an enforcement order of a court does not relieve or absolve any person affected by the order from liability under any other laws of this state.

500.1631 Violation of order of commission; penalty.

Sec. 1631. An insurer that violates an order of the commissioner under this chapter shall be afforded a hearing before the commissioner under the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328. An act to establish the revenue collection duties of the department of treasury; to prescribe its powers and duties as the revenue collection agency of the state; to prescribe certain powers and duties of the state treasurer; to regulate the importation, stamping, and disposition of certain tobacco products; to provide for the transfer of powers and duties now vested in certain other state boards, commissions, departments and offices; to prescribe certain duties of and require certain reports from the department of treasury; to provide procedures for the payment, administration, audit, assessment, levy of interests or penalties on, and appeals of taxes and tax liability; to prescribe its powers and duties if an agreement to act as agent for a city to administer, collect, and enforce the city income tax act on behalf of a city is entered into with any city; to provide an appropriation; to abolish the state board of tax administration; to prescribe penalties and provide remedies; and to declare the effect of this act.

205.1 Department of treasury as agency responsible for tax collection.

Sec. 1. (1) The department of treasury is the agency of this state responsible for the collection of taxes and is responsible for all of the following:

(a) Coordinated collection of state taxes, assessments, licenses, fees, and other money as may be designated by law.

(b) Specialized service for tax enforcement, through establishment and maintenance of uniformity in definition, regulation, return, and payment.

(d) Safeguarding tax and other collections wherever received until duly deposited in the state treasury.

(e) Providing an advisory service on fiscal status, processes, and needs of state government, including periodic reports on payments, receipts, and debts.

(f) Development of a state revenue enforcement service by means of a staff that is permanent, qualified by training and experience, protected by merit system procedure, and so organized as to serve the public with efficiency, economy, consistency, and equity.

(2) Any reference to the department of revenue in this act or any other act shall mean the state treasurer. Any reference to the state commissioner of revenue in this act or any other act shall mean the state treasurer.

(3) As used in this act, "department" means the department of treasury.

205.3 Department of treasury and state treasurer; powers and duties generally.

Sec. 3. The department shall have all the powers and perform the duties formerly vested in any department, board, commission, or other agency, in connection with taxes due to or claimed by the state and in connection with unpaid accounts or amounts due to the state or any of its departments, institutions, or agencies which may be made payable to or collectible by the department created by this act, and the power and authority incidental to the performance of the following acts, duties, and services:

(a) The state treasurer or any of the duly appointed agents of the state treasurer may examine the books, records, and papers touching the matter at issue of any person or taxpayer subject to any tax, unpaid account, or amount the collection of which is charged to the department. The state treasurer or any of the duly appointed agents of the state treasurer may issue a subpoena requiring a person to appear and be examined with reference to a matter within the scope of the inquiry or investigation being conducted by the department and to produce any books, records, or papers. The state treasurer or any of the duly appointed agents, referees, or examiners of the state treasurer may administer an oath to a witness in any matter before the department. The department may invoke the aid of the circuit court of this state in requiring the attendance and testimony of witnesses and the producing of books, papers, and documents. The circuit court of the state within the jurisdiction of which an inquiry is carried on, in case of contumacy or refusal to obey a subpoena, may issue an order requiring the person to appear before the department and produce books and papers if so ordered and any evidence touching the matter in question, and failure to obey the order of the court may be punished by the court as a contempt. A person shall not be excused from testifying or from producing any books, papers, records, or memoranda in any investigation, or upon any hearing when ordered to do so by the state treasurer, upon the ground that the testimony or evidence, documentary or otherwise, may tend to incriminate or subject him or her to a criminal penalty, however, a person shall not be prosecuted or subjected to any criminal penalty for or on account of any transaction made or thing concerning which he or she may testify or produce evidence, documentary or otherwise, before the board or its agent. A person so testifying shall not be exempt from prosecution and punishment for perjury committed while testifying.

(b) After reasonable notice and public hearing to promulgate rules consistent with this act in accordance with the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, as may be necessary to the enforcement of the provisions of tax and other revenue measures which are administered by the department.

(c) Consult with the governor and the legislature upon the subject of taxation, revenue, and the administration of the laws in relation to taxation and revenue, and the progress of the work of the department, including the furnishing of reports, information, and other assistance as the governor may require.

(d) Investigate and study all matters of taxation and revenue as the basis of recommending to the governor and the legislature those changes and alterations in the tax laws of the state as in the state treasurer's judgment may bring about a more adequate and just system of state and local taxation.

(e) Formulate a standard procedure whereby the departments, commissions, boards, institutions, and the agencies of this state which collect taxes, fees, or accounts for this state shall report all sums of money due and uncollected and those uncollected items as may be prescribed by law and by the state treasurer. The procedure prescribed in this subdivision shall include a standard practice for receiving, receipting, safeguarding, and periodically reporting all state revenue receipts, whether current, delinquent, penalty, interest, or otherwise, and the amounts, kinds, and terms of items either collected, compromised, or still outstanding, to be summarized, studied, and reported upon as the state treasurer considers advisable.

(f) The department may periodically issue bulletins that index and explain current department interpretations of current state tax laws. The department may charge a reasonable fee for subscriptions to this service not to exceed the cost of printing. The money received from the sale of such subscription shall revert to the department and be placed in the taxation manual revolving fund.

205.4 Submitting rules for public hearing; developing and assembling guidelines into employee handbook; publishing and distributing handbook for taxpayers and tax preparers.

Sec. 4. (1) Not later than 1 year after the effective date of this section, the department of treasury shall submit rules for a public hearing pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, that provide for all of the following:

(a) Standards to be followed by department officers and employees for the fair and courteous treatment of the public, and a system for monitoring compliance with those standards.

(b) The procedures governing an informal conference held under section 21. These procedures shall include at least all of the following:

(*i*) A method by which the department attempts to schedule the informal conference at a mutually convenient time and place.

(*ii*) A requirement that the department include in the notice for the informal conference the scope and nature of the subject of the informal conference.

(*iii*) Authorization for the taxpayer at whose request the informal conference is being held to make a sound recording of the informal conference with prior notice to the department and for the department to do the same with prior notice to the taxpayer.

(2) Not later than 1 year after the effective date of this section, the department shall develop guidelines to govern departmental employee responses to inquiries from the public and standards for tax audit activities. The guidelines shall explicitly exclude the use of a collection goal or quota for evaluating an employee. The department shall assemble the guidelines required by this subsection into an employee handbook. However, the handbook shall not disclose information or parameters excluded from disclosure under

section 28(1)(f). The department shall distribute the handbook to all departmental employees involved in the collection or auditing of taxes and shall make the handbook available to the public.

(3) The department shall publish a handbook for taxpayers and tax preparers. The handbook shall be made available at a reasonable cost, not to exceed the actual cost of publication, and shall contain all of the following:

(a) The audit and collection procedures used by the department.

(b) The procedures governing departmental communications with taxpayers in the audit and collection process.

205.12 Signing orders, certificates, jeopardy assessments, and subpoenas.

Sec. 12. All orders, certificates, jeopardy assessments, and subpoenas made or issued by the department shall be signed by the state treasurer or the state treasurer's designee.

205.19 Remittances of taxes; income tax withholding; failure to remit tax; penalties; disposition of money not paid to department of treasury; allocation of payment.

Sec. 19. (1) All remittances of taxes administered by this act shall be made to the department payable to the state of Michigan by bank draft, check, cashier's check, certified check, money order, cash, or electronic funds transfer. The money received shall be credited as provided by law. A remittance other than cash or electronic funds transfer shall not be a final discharge of liability for the tax assessed and levied until the instrument remitted has been honored.

(2) For reporting periods beginning after August 31, 1991, a taxpayer other than a city or a county who paid in the immediately preceding calendar year an average of $40,000.00 or more per month in income tax withholding pursuant to the income tax act of 1967, 1967 PA 281, MCL 206.1 to 206.532, shall deposit Michigan income tax withholding either in the same manner and according to the same schedule as deposits of federal income tax withholding or in another manner that has been approved by the department.

(3) For failure to remit a tax administered by this act with a negotiable remittance, the following penalty may be added in addition to any other penalties imposed by this act:

(a) For notices of intent to assess issued on or before February 28, 2003, 25% of the tax due.

(b) For notices of intent to assess issued after February 28, 2003, $50.00.

(4) The department may require that all money collected by the taxpayer for taxes administered by this act that has not been paid to the department of treasury is public money and the property of this state, and shall be held in trust in a separate account and fund for the sole use and benefit of this state until paid over to the department of treasury.

(5) For tax years after the 1995 tax year for which taxes are collected under an agreement entered into pursuant to section 9 of the city income tax act, 1964 PA 284, MCL 141.509, if a taxpayer pays, when filing his or her annual return, an amount less than the sum of the declared tax liability under the city income tax act, 1964 PA 284, MCL 141.501 to 141.787, and the declared tax liability under the income tax act of 1967, 1967 PA 281, MCL 206.1 to 206.532, and if there is no indication of the allocation of payment between the tax liabilities against which the payment should be applied, the amount paid shall first be applied against the taxpayer's tax liability under the city income tax act, 1964 PA 284, MCL 141.501 to 141.787, and any remaining amount of the payment shall be applied to the

taxpayer's tax liability under the income tax act of 1967, 1967 PA 281, MCL 206.1 to 206.532. The taxpayer's designation of a payee on a payment is not a dispositive determination of the allocation of that payment under this subsection.

205.21 Failure or refusal to make return or payment; obtaining information on which to base assessment; procedure; frivolous protest; penalty.

Sec. 21. (1) If a taxpayer fails or refuses to make a return or payment as required, in whole or in part, or if the department has reason to believe that a return made or payment does not supply sufficient information for an accurate determination of the amount of tax due, the department may obtain information on which to base an assessment of the tax. By its duly authorized agents, the department may examine the books, records, and papers and audit the accounts of a person or any other records pertaining to the tax.

(2) In carrying out this section, the department and the taxpayer shall comply with the following procedure:

(a) The department shall send to the taxpayer a letter of inquiry stating, in a courteous and nonintimidating manner, the department's opinion that the taxpayer needs to furnish further information or owes taxes to the state, and the reason for that opinion. A letter of inquiry shall also explain the procedure by which the person may initiate communication with the department to resolve any dispute. This subdivision does not apply in any of the following circumstances:

(*i*) The taxpayer files a return showing a tax due and fails to pay that tax.

(*ii*) The deficiency resulted from an audit of the taxpayer's books and records by this state.

(*iii*) The taxpayer otherwise affirmatively admits that a tax is due and owing.

(b) If the dispute is not resolved within 30 days after the department sends the taxpayer a letter of inquiry or if a letter of inquiry is not required pursuant to subdivision (a), the department, after determining the amount of tax due from a taxpayer, shall give notice to the taxpayer of its intent to assess the tax. The notice shall include the amount of the tax the department believes the taxpayer owes, the reason for that deficiency, and a statement advising the taxpayer of a right to an informal conference, the requirement of a written request by the taxpayer for the informal conference that includes the taxpayer's statement of the contested amounts and an explanation of the dispute, and the 30-day time limit for that request.

(c) If the taxpayer serves written notice upon the department within 30 days after the taxpayer receives a notice of intent to assess, remits the uncontested portion of the liability, and provides a statement of the contested amounts and an explanation of the dispute, the taxpayer is entitled to an informal conference on the question of liability for the assessment.

(d) Upon receipt of a taxpayer's written notice, the department shall set a mutually agreed upon or reasonable time and place for the informal conference and shall give the taxpayer reasonable written notice not less than 20 days before the informal conference. The notice shall specify the intent to assess, type of tax, and tax year that is the subject of the informal conference. The informal conference provided for by this subdivision is not subject to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, but is subject to the rules governing informal conferences as promulgated by the department in accordance with the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328. The taxpayer may appear or be represented by any person before the department at an informal conference, and may present testimony and argument. At

the party's own expense and with advance notice to the other party, a taxpayer or the department, or both, may make an audio recording of an informal conference.

(e) After the informal conference, the department shall render a decision and order in writing, setting forth the reasons and authority, and shall assess the tax, interest, and penalty found to be due and payable. The decision and order are limited to the subject of the informal conference as included in the notice under subdivision (d).

(f) If the taxpayer does not protest the notice of intent to assess within the time provided in subdivision (c), the department may assess the tax and the interest and penalty on the tax that the department believes are due and payable. An assessment under this subdivision or subdivision (e) is final and subject to appeal as provided in section 22. The final notice of assessment shall include a statement advising the person of a right to appeal.

(3) If a protest to the notice of intent to assess the tax is determined by the department to be a frivolous protest or a desire by the taxpayer to delay or impede the administration of taxes administered under this act, a penalty of $25.00 or 25% of the amount of tax under protest, whichever is greater, shall be added to the tax.

205.24 Failure or refusal to file return or pay tax; assessment; notice; penalty; interest; waiver; penalty for failure or refusal to file informational report; failure to pay estimated tax payment.

Sec. 24. (1) If a taxpayer fails or refuses to file a return or pay a tax administered under this act within the time specified, the department, as soon as possible, shall assess the tax against the taxpayer and notify the taxpayer of the amount of the tax. A liability for a tax administered under this act is subject to the interest and penalties prescribed in subsections (2) to (5).

(2) Except as provided in subsections (3) and (6), if a taxpayer fails or refuses to file a return or pay a tax within the time specified for notices of intent to assess issued on or before February 28, 2003, a penalty of $10.00 or 5% of the tax, whichever is greater, shall be added if the failure is for not more than 1 month, with an additional 5% penalty for each additional month or fraction of a month during which the failure continues or the tax and penalty is not paid, to a maximum of 50%. Except as provided in subsections (3) and (6), if a taxpayer fails or refuses to file a return or pay a tax within the time specified for notices of intent to assess issued after February 28, 2003, a penalty of 5% of the tax shall be added if the failure is for not more than 2 months, with an additional 5% penalty for each additional month or fraction of a month during which the failure continues or the tax and penalty is not paid, to a maximum of 25%. In addition to the penalty, interest at the rate provided in section 23 for deficiencies in tax payments shall be added on the tax from the time the tax was due, until paid. After June 30, 1994, the penalty prescribed by this subsection shall not be imposed until the department submits for public hearing pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, a rule defining what constitutes reasonable cause for waiver of the penalty under subsection (4), which definition shall include illustrative examples.

(3) If a person is required to remit tax due pursuant to section 19(2) and fails or refuses to pay the tax within the time specified, a penalty of 0.167% of the tax shall be added for each day during which the failure continues or the tax and penalty are not paid as follows:

(a) For notices of intent to assess issued on or before February 28, 2003, to a maximum of 50% of the tax.

(b) For notices of intent to assess issued after February 28, 2003, to a maximum of 25% of the tax.

(4) If a return is filed or remittance is paid after the time specified and it is shown to the satisfaction of the department that the failure was due to reasonable cause and not to willful neglect, the state treasurer or an authorized representative of the state treasurer shall waive the penalty prescribed by subsection (2).

(5) For failure or refusal to file an information return or other informational report required by a tax statute, within the time specified, a penalty of $10.00 per day for each day for each separate failure or refusal may be added. The total penalty for each separate failure or refusal shall not exceed $400.00.

(6) If a taxpayer fails to pay an estimated tax payment as may be required by the income tax act of 1967, 1967 PA 281, MCL 206.1 to 206.532, a penalty shall not be imposed if the taxpayer was not required to make estimated tax payments in the taxpayer's immediately preceding tax year.

205.25 Demand for payment; warrant; levy on and sale of property; refusal or failure to surrender property; personal liability; penalty; reduction of obligation; exemptions; effect of levy on salary or wages; service of warrant-notice of levy.

Sec. 25. (1) The state treasurer, or an authorized representative of the state treasurer, may cause a demand to be made on a taxpayer for the payment of a tax, unpaid account, or amount due the state or any of its departments, institutions, or agencies, subject to administration under this act. If the liability remains unpaid for 10 days after the demand and proceedings are not taken to review the liability, the state treasurer or an authorized representative of the state treasurer may issue a warrant under the official seal of that office. Except as provided in subsection (5), the state treasurer or an authorized representative of the state treasurer, through any state officer authorized to serve process or through his or her authorized employees, may levy on all property and rights to property, real and personal, tangible and intangible, belonging to the taxpayer or on which a lien is provided by law for the amount of the deficiency, and sell the real and personal property of the taxpayer found within the state for the payment of the amount due, the cost of executing the warrant, and the additional penalties and interest. Except as provided in subsection (6), the officer or agent serving the warrant shall proceed upon the warrant in all respects and in the same manner as prescribed by law in respect to executions issued against property upon judgments by a court of record. The state, through the state treasurer or an authorized representative of the state treasurer, may bid for and purchase any property sold pursuant to this section.

(2) A person who refuses or fails to surrender any property or rights to property subject to levy, upon demand by the state treasurer or an authorized representative of the state treasurer, is personally liable to the state in a sum equal to the value of the property or rights not surrendered, but not exceeding the amount due for which the levy was made, together with costs and interest on the sum at the rate provided in section 23(2) from the date of the levy. Any amount, other than costs, recovered under this subsection shall be credited against the liability for the collection of which the levy was made.

(3) In addition to the personal liability imposed by subsection (2), if a person required to surrender property or rights to property fails or refuses to surrender the property or rights to property without reasonable cause, the person shall be liable for a penalty equal to 50% of the amount recoverable under subsection (2), none of which penalty shall be credited against the liability for the collection of which the levy was made.

(4) A person in possession of, or obligated with respect to, property or property rights subject to levy and upon which a levy has been made who, upon demand of the state

treasurer or an authorized representative of the state treasurer, surrenders the property or rights to property or discharges the obligation to the state treasurer or an authorized representative of the state treasurer or who pays a liability under subsection (1) shall have his or her obligation to a person delinquent in payment of a tax or other account reduced in an amount equal to the property or rights to property surrendered or amounts paid to the state.

(5) There shall be exempt from levy under this section:

(a) For an unpaid tax, the type of property and the amount of that property as provided in section 6334 of the internal revenue code of 1986.

(b) For an unpaid account, or amount due the state or any of its departments other than an unpaid tax, disposable earnings to the extent provided in section 303 of title III of the consumer credit protection act, 82 Stat. 163, 15 U.S.C. 1673.

(c) The effect of a levy on salary or wages shall be continuous from the date the levy is first made until the liability out of which the levy arose is satisfied.

(6) A warrant-notice of levy may be served by certified mail, return receipt requested, on any person in possession of, or obligated with respect to, property and rights to property, real and personal, tangible and intangible, belonging to the taxpayer or on which a lien is provided by law. The date of delivery on the receipt shall be the date the levy is made. A person may, upon written notice to the state treasurer, have all notices of levy by mail sent to 1 designated office.

205.26 Demand for immediate return and payment of tax; jeopardy assessment; warrant or warrant-notice of levy; time for payment.

Sec. 26. If the state treasurer or the state treasurer's designated representative finds that a person liable for a tax administered under this act intends quickly to depart from the state or to remove property from this state, to conceal the person or the person's property in this state, or to do any other act tending to render wholly or partly ineffectual proceedings to collect the tax unless proceedings are brought without delay, the state treasurer or the state treasurer's designated representative shall give notice of the findings to the person, together with a demand for an immediate return and immediate payment of the tax. A warrant or warrant-notice of levy may issue immediately upon issuance of a jeopardy assessment. In that instance, the tax shall become immediately due and payable. If the person is not in default in making a return or paying a tax prescribed by this act, and furnishes evidence satisfactory to the state treasurer or the state treasurer's designated representative under rules promulgated by the department that the return will be filed and the tax to which the state treasurer's or the state treasurer's designated representative's finding relates will be paid, then the tax shall not be payable before the time otherwise fixed for payment.

205.27a Selling or quitting business; final return; escrow account for payment of taxes; liability for taxes, interest, and penalties; assessment of deficiency, interest, or penalty; claim for refund; fraud or failure to notify of alteration or modification of federal tax liability; assessment and payment of tax, penalties, and interest; suspension of statute of limitations; personal liability of corporate officers; conditions to paying claim for refund.

Sec. 27a. (1) If a person liable for a tax administered under this act sells out his or her business or its stock of goods or quits the business, the person shall make a final return within 15 days after the date of selling or quitting the business. The purchaser or succeeding

purchasers, if any, who purchase a going or closed business or its stock of goods shall escrow sufficient money to cover the amount of taxes, interest, and penalties as may be due and unpaid until the former owner produces a receipt from the state treasurer or the state treasurer's designated representative showing that the taxes due are paid, or a certificate stating that taxes are not due. Upon the owner's written waiver of confidentiality, the department may release to a purchaser a business's known tax liability for the purposes of establishing an escrow account for the payment of taxes. If the purchaser or succeeding purchasers of a business or its stock of goods fail to comply with the escrow requirements of this subsection, the purchaser is personally liable for the payment of the taxes, interest, and penalties accrued and unpaid by the business of the former owner. The purchaser's or succeeding purchaser's personal liability is limited to the fair market value of the business less the amount of any proceeds that are applied to balances due on secured interests that are superior to the lien provided for in section 29(1).

(2) A deficiency, interest, or penalty shall not be assessed after the expiration of 4 years after the date set for the filing of the required return or after the date the return was filed, whichever is later. The taxpayer shall not claim a refund of any amount paid to the department after the expiration of 4 years after the date set for the filing of the original return. A person who has failed to file a return is liable for all taxes due for the entire period for which the person would be subject to the taxes. If a person subject to tax fraudulently conceals any liability for the tax or a part of the tax, or fails to notify the department of any alteration in or modification of federal tax liability, the department, within 2 years after discovery of the fraud or the failure to notify, shall assess the tax with penalties and interest as provided by this act, computed from the date on which the tax liability originally accrued. The tax, penalties, and interest are due and payable after notice and hearing as provided by this act.

(3) The running of the statute of limitations is suspended for the following:

(a) The period pending a final determination of tax, including audit, conference, hearing, and litigation of liability for federal income tax or a tax administered by the department and for 1 year after that period.

(b) The period for which the taxpayer and the state treasurer have consented to in writing that the period be extended.

(4) The running of the statute of limitations is suspended only as to those items that were the subject of the audit, conference, hearing, or litigation for federal income tax or a tax administered by the department.

(5) If a corporation liable for taxes administered under this act fails for any reason to file the required returns or to pay the tax due, any of its officers having control or supervision of, or charged with the responsibility for, making the returns or payments is personally liable for the failure. The signature of any corporate officers on returns or negotiable instruments submitted in payment of taxes is prima facie evidence of their responsibility for making the returns and payments. The dissolution of a corporation does not discharge an officer's liability for a prior failure of the corporation to make a return or remit the tax due. The sum due for a liability may be assessed and collected under the related sections of this act.

(6) Notwithstanding the provisions of subsection (2), a claim for refund based upon the validity of a tax law based on the laws or constitution of the United States or the state constitution of 1963 shall not be paid unless the claim is filed within 90 days after the date set for filing a return.

(7) Subsection (6) does not apply to a claim for the refund of a tax paid for the 1984 tax year or a tax year after the 1984 tax year on income received as retirement or pension

benefits from a public retirement system of the United States government if the claimant waives any claim for the refund of such a tax paid for a tax year before 1984. Claims for refunds to which this subsection applies shall be paid in accordance with the following schedule:

Refunds for tax year:	Payable on or after:
1988 and 1987	July 1, 1990
1986	July 1, 1991
1985	July 1, 1992
1984	July 1, 1993

205.28 Conditions applicable to administration of taxes; violation; penalties; records required; "adjusted gross receipts" and "wagering tax" defined.

Sec. 28. (1) The following conditions apply to all taxes administered under this act unless otherwise provided for in the specific tax statute:

(a) Notice, if required, shall be given either by personal service or by certified mail addressed to the last known address of the taxpayer. Service upon the department may be made in the same manner.

(b) An injunction shall not issue to stay proceedings for the assessment and collection of a tax.

(c) In addition to the mode of collection provided in this act, the department may institute an action at law in any county in which the taxpayer resides or transacts business.

(d) The state treasurer may request in writing information or records in the possession of any other department, institution, or agency of state government for the performance of duties under this act. Departments, institutions, or agencies of state government shall furnish the information and records upon receipt of the state treasurer's request. Upon request of the state treasurer, any department, institution, or agency of state government shall hold a hearing under the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, to consider withholding a license or permit of a person for nonpayment of taxes or accounts collected under this act.

(e) Except as otherwise provided in section 30c, the state treasurer or an employee of the department shall not compromise or reduce in any manner the taxes due to or claimed by this state or unpaid accounts or amounts due to any department, institution, or agency of state government. This subdivision does not prevent a compromise of interest or penalties, or both.

(f) Except as otherwise provided in this subdivision, an employee, authorized representative, or former employee or authorized representative of the department or anyone connected with the department shall not divulge any facts or information obtained in connection with the administration of a tax or information or parameters that would enable a person to ascertain the audit selection or processing criteria of the department for a tax administered by the department. An employee or authorized representative shall not willfully inspect any return or information contained in a return unless it is appropriate for the proper administration of a tax law administered under this act. A person may disclose information described in this subdivision if the disclosure is required for the proper administration of a tax law administered under this act, pursuant to a judicial order sought by an agency charged with the duty of enforcing or investigating support obligations pursuant to an order of a court in a domestic relations matter as that term is

defined in section 2 of the friend of the court act, 1982 PA 294, 552.502, or pursuant to a judicial order sought by an agency of the federal, state, or local government charged with the responsibility for the administration or enforcement of criminal law for purposes of investigating or prosecuting criminal matters or for federal or state grand jury proceedings or a judicial order if the taxpayer's liability for a tax administered under this act is to be adjudicated by the court that issued the judicial order. A person may disclose the adjusted gross receipts and the wagering tax paid by a casino licensee licensed under the Michigan gaming control and revenue act, the Initiated Law of 1996, MCL 432.201 to 432.226, pursuant to section 18, sections 341, 342, and 386 of the management and budget act, 1984 PA 431, MCL 18.1341, 18.1342, and 18.1386, or authorization by the executive director of the gaming control board. However, the state treasurer or a person designated by the state treasurer may divulge information set forth or disclosed in a return or report or by an investigation or audit to any department, institution, or agency of state government upon receipt of a written request from a head of the department, institution, or agency of state government if it is required for the effective administration or enforcement of the laws of this state, to a proper officer of the United States department of treasury, and to a proper officer of another state reciprocating in this privilege. The state treasurer may enter into reciprocal agreements with other departments of state government, the United States department of treasury, local governmental units within this state, or taxing officials of other states for the enforcement, collection, and exchange of data after ascertaining that any information provided will be subject to confidentiality restrictions substantially the same as the provisions of this act.

(2) A person who violates subsection (1)(e) or (1)(f) is guilty of a felony, punishable by a fine of not more than $5,000.00, or imprisonment for not more than 5 years, or both, together with the costs of prosecution. In addition, if the offense is committed by an employee of this state, the person shall be dismissed from office or discharged from employment upon conviction.

(3) A person liable for any tax administered under this act shall keep accurate and complete records necessary for the proper determination of tax liability as required by law or rule of the department.

(4) As used in subsection (1), "adjusted gross receipts" and "wagering tax" mean those terms as described in the Michigan gaming control and revenue act, the Initiated Law of 1996, MCL 432.201 to 432.226.

205.31 Waiver of criminal and civil penalties; conditions; amnesty program; prohibition; notice; payment in installments.

Sec. 31. (1) If a taxpayer does not satisfy a tax liability or makes an excessive claim for a refund as a result of reliance on erroneous current written information provided by the department, the state treasurer shall waive all criminal and civil penalties provided by law for failing or refusing to file a return, for failing to pay a tax, or for making an excessive claim for a refund for a tax administered by the department of treasury pursuant to this act if the taxpayer makes a written request for a waiver, files a return or an amended return, and makes full payment of the tax and interest.

(2) For a period to be designated by the state treasurer of not less than 30 days and not more than 60 days, and ending before September 30, 2002, there shall be an amnesty period during which the state treasurer shall waive all criminal and civil penalties provided by law for failing or refusing to file a return, for failing to pay a tax, or for making an excessive claim for a refund for a tax administered by the revenue division of the department of treasury under this act if the taxpayer makes a written request for a waiver, files a return or an amended return, and makes full payment in either a lump sum or installments as provided under subsection (9), of the tax and interest due for any prior tax year.

(3) This section applies to the nonreporting and underreporting of tax liabilities and to the nonpayment of taxes previously determined to be due, but only to the extent of the penalties attributable to the taxes that were previously due and that are paid during the amnesty period provided for in subsection (2).

(4) The department shall administer this section.

(5) Subsection (2) does not apply to taxes due after June 1, 2001.

(6) There is appropriated from the revenues generated by taxes paid under subsection (2) the sum of $1,500,000.00 to the department of treasury for administration of the amnesty program created by the amendatory act that added this subsection. This appropriation is allotted for expenditure on and after October 1, 2001. Only general purpose revenue generated by the amendatory act that added this subsection may be used to finance this appropriation.

(7) The state treasurer shall not waive criminal and civil penalties applicable to a tax under subsection (2) if 1 or more of the following circumstances apply:

(a) If the taxpayer is eligible to enter into a voluntary disclosure agreement under section 30c for that tax.

(b) If the tax is attributable to income derived from a criminal act, if the taxpayer is under criminal investigation or involved in a civil action or criminal prosecution for that tax, or if the taxpayer has been convicted of a felony under this act or the internal revenue code of 1986.

(8) The department shall provide reasonable notice to taxpayers that may be eligible for the amnesty program at least 30 days before the start of the designated amnesty period. Notification shall include, but is not limited to, a description of the amnesty program on appropriate tax instruction forms and on the internet.

(9) Under the amnesty program described in subsection (2), a taxpayer may pay tax and interest due in installments if the taxpayer meets 1 of the following:

(a) The taxpayer is an individual and submits the greater of $10,000.00 or 50% of the tax and interest due with the request for waiver under subsection (2) and pays the remaining tax and interest due in 2 equal installments, the first installment due no later than August 15, 2002 and the second installment due no later than September 15, 2002.

(b) A taxpayer that is not an individual submits the greater of $100,000.00 or 50% of the tax and interest due with the request for waiver under subsection (2) and pays the remaining tax and interest due in 2 equal installments, the first installment due no later than August 15, 2002 and the second installment due no later than September 15, 2002.

This act is ordered to take immediate effect.

462.359 Chemical test and analysis of operator's blood, urine, or breath.

Sec. 359. (1) The amount of alcohol or presence of a controlled substance or both in the operator's blood at the time alleged as shown by chemical analysis of that person's blood, urine, or breath shall be admissible into evidence in a criminal prosecution for any of the following:

(a) A violation of section 353 or 357 or of a local ordinance substantially corresponding to section 353(1) or (2) or 357.

(b) Manslaughter or murder resulting from the operation of a locomotive engine while the operator is alleged to have been impaired by or under the influence of alcoholic liquor or a controlled substance or a combination of alcoholic liquor and a controlled substance,

or to have had a blood alcohol content of 0.04 grams or more per 100 milliliters of blood, per 210 liters of breath, or per 67 milliliters of urine.

(2) If a test is given, the results of the test shall be made available to the person charged or the person's attorney upon written request to the prosecution, with a copy of the request filed with the court. The prosecution shall furnish the report at least 2 days before the day of the trial and the results shall be offered as evidence by the prosecution in that trial. Failure to fully comply with the request shall bar the admission of the results into evidence by the prosecution.

(3) Except in a prosecution relating solely to a violation of section 353(2), the amount of alcohol in the operator's blood at the time alleged as shown by chemical analysis of that person's blood, urine, or breath shall give rise to the following presumptions:

(a) If there was at the time less than 0.04% grams per 100 milliliters of blood, per 210 liters of breath, or per 67 milliliters of urine, it shall be presumed that the person was not impaired by or under the influence of intoxicating liquor.

(b) If there was at the time 0.04% grams or more per 100 milliliters of blood, per 210 liters of breath, or per 67 milliliters of urine, it shall be presumed that the person was impaired by or under the influence of intoxicating liquor.

(4) A sample or specimen of urine or breath shall be taken and collected in a reasonable manner. Only a licensed physician, or an individual operating under the delegation of a licensed physician under section 16215 of the public health code, 1978 PA 368, MCL 333.16215, and qualified to withdraw blood acting in a medical environment, at the request of a peace officer, may withdraw blood for the purpose of determining the amount of alcohol or presence of a controlled substance or both in the person's blood, as provided in this section. Liability for a crime or civil damages predicated on the act of withdrawing or analyzing blood and related procedures shall not attach to a licensed physician or individual operating under the delegation of a licensed physician who withdraws blood or analyzes blood or assists in the withdrawal or analysis in accordance with this section unless the withdrawal or analysis is performed in a negligent manner.

(5) The tests shall be administered at the request of a peace officer having probable cause to believe the person has committed a crime described in subsection (1). A person who takes a chemical test administered at the request of a peace officer, as provided in this section, shall be given a reasonable opportunity to have a person of his or her own choosing administer 1 of the chemical tests described in this section within a reasonable time after his or her detention. The results of the test shall be admissible and shall be considered with other admissible evidence in determining the innocence or guilt of the defendant. If the person charged is administered a chemical test by a person of his or her own choosing, the person charged is responsible for obtaining a chemical analysis of the test sample. The person charged shall be informed that after taking a test administered at the request of a peace officer he or she has the right to demand that a person of his or her own choosing administer 1 of the tests provided for in subsection (1), that the results of the test shall be admissible and shall be considered with other admissible evidence in determining the innocence or guilt of the defendant, and that the person charged is responsible for obtaining a chemical analysis of the test sample.

(6) The person charged shall be advised that if the person refuses the request of a peace officer to take a test described in this section, a test shall not be given without a court order, but the officer may seek to obtain the court order.

(7) This section shall not be construed as limiting the introduction of any other competent evidence, including a video tape recording taken of, and with prior notice to the person, bearing upon the question of whether or not the person was impaired by or under

the influence of alcoholic liquor or a controlled substance, or a combination of alcoholic liquor and a controlled substance, or whether the person had a blood alcohol content of 0.04 grams or more per 100 milliliters of blood, per 210 liters of breath, or per 67 milliliters of urine.

(8) If a jury instruction regarding a defendant's refusal to submit to a chemical test under this section is requested by the prosecution or the defendant, the jury instruction shall be given as follows:

"Evidence was admitted in this case which, if believed by the jury, could prove that the defendant had exercised his or her right to refuse a chemical test. You are instructed that such a refusal is within the statutory rights of the defendant and is not evidence of his or her guilt. You are not to consider such a refusal in determining the guilt or innocence of the defendant.".

(9) If after an accident the operator of a locomotive engine involved in the accident is transported to a medical facility and a sample of the operator's blood is withdrawn at that time for the purpose of medical treatment, the result of a chemical analysis of that sample is admissible in any criminal proceeding to show the amount of alcohol or presence of a controlled substance or both in the person's blood at the time alleged, regardless of whether the person had been offered or had refused a chemical test. The medical facility or person performing the chemical analysis shall disclose the results of the analysis to a prosecuting attorney who requests the results for use in a criminal prosecution as provided in this subsection. A medical facility or person disclosing information in compliance with this subsection is not civilly or criminally liable for making the disclosure.

(10) If after an accident the operator of a locomotive engine involved in the accident is deceased, a sample of the decedent's blood shall be withdrawn by the medical examiner or attending personnel of the medical facility in a manner directed by the medical examiner for the purpose of determining the amount of alcohol or presence of a controlled substance or both. The results of the blood testing shall be released to a prosecuting attorney for use in a criminal prosecution as provided in this section. A medical facility disclosing information in compliance with this subsection is not civilly or criminally liable for making the disclosure.

(11) The obtaining or analysis of a person's blood, breath, or urine under this section shall not be performed in a manner prohibited by the federal railroad administration, United States department of transportation.

462.361 Chemical tests of blood, breath, or urine; consent; administration.

Sec. 361. (1) A person who operates a locomotive engine upon the railroad tracks of this state is considered to have given consent to chemical tests of his or her blood, breath, or urine for the purpose of determining the amount of alcohol or presence of a controlled substance or both in his or her blood if:

(a) The person is arrested for a violation of section 353 or a local ordinance substantially corresponding to section 353(1) or (2).

(b) The person is arrested for murder or manslaughter resulting from the operation of a locomotive engine, and the peace officer had probable cause to believe that the person was operating the locomotive engine while impaired by or under the influence of alcoholic liquor or a controlled substance or a combination of alcoholic liquor and a controlled substance, or while having a blood alcohol content of 0.04 grams or more per 100 milliliters of blood, per 210 liters of breath, or per 67 milliliters of urine.

(2) A person who is afflicted with hemophilia, diabetes, or a condition requiring the use of an anticoagulant under the direction of a physician shall not be considered to have given consent to the withdrawal of blood.

(3) The chemical tests shall be administered as provided in section 359.

462.365 Report of certain convictions; form.

Sec. 365. If a person is convicted of a violation of section 353 or of a local ordinance substantially corresponding to section 353(1) or (2), a report of the conviction shall be forwarded by the court in which the conviction occurred to the United States department of transportation. The form of the report shall be prescribed and furnished by the department of state police.

(1) In all criminal cases where a person has entered into any recognizance for the personal appearance of another and such bail and surety afterwards desires to be relieved from responsibility, he or she may, with or without assistance, arrest or detain the accused and deliver him or her to any jail or to the sheriff of any county. In making the arrest or detainment, he or she is entitled to the assistance of any peace officer.

(2) The sheriff or keeper of any jail is authorized to receive the principal and detain him or her in jail until he or she is discharged. Upon delivery of his or her principal at the jail by the surety or his or her agent or any officer, the surety shall be released from the conditions of his or her recognizance.

(3) Whenever the prosecuting attorney of a county is satisfied that a person who has been recognized to appear for trial has absconded, or is about to abscond, and that his or her sureties or either of them have become worthless, or are about to dispose or have disposed of their property for the purpose of evading the payment or the obligation of such bond or recognizance or with intent to defraud their creditors, and that prosecuting attorney makes a satisfactory showing to this effect to the court having jurisdiction of that person, the court or judge shall promptly grant a mittimus to the sheriff or any peace officer of that county, commanding him or her forthwith to arrest the person so recognized and bring him or her before the officer issuing the mittimus and on the return of that mittimus may, after a hearing on the merits, order him or her to be recommitted to the county jail until such time as he or she gives additional and satisfactory sureties, or is otherwise discharged.

The notice shall be served upon each surety in person or left at the surety's last known business address. Each surety shall be given an opportunity to appear before the court on a day certain and show cause why judgment should not be entered against the surety for the full amount of the recognizance. If good cause is not shown, the court shall enter judgment against the surety on the recognizance for an amount determined appropriate by the court but not more than the full amount of the recognizance. Execution shall be awarded and executed upon the judgment in the manner provided for in personal actions.

(2) Except as provided in subsection (3), the court shall set aside the forfeiture and discharge the bail or surety bond within 1 year from the date of forfeiture judgment if the defendant has been apprehended, the ends of justice have not been thwarted, and the county has been repaid its costs for apprehending the person. If the bond or bail is discharged, the court shall enter an order to that effect with a statement of the amount to be returned to the surety.

(3) Subsection (2) does not apply if the defendant was apprehended more than 56 days after the bail or bond was ordered forfeited and judgment entered and the surety did not fully pay the forfeiture judgment within that 56-day period.

If you obtain this loan, the lender will have a mortgage on your home. You could lose your home, and all money you have invested in it, if you do not meet your obligations under the loan, including making all your payments.

Mortgage loans rates and closing costs and fees vary based on many factors, including your particular credit and financial circumstances, your earnings history, the loan-to-value requested, and the type of property that will secure your loan. Higher rates and fees may be applicable depending on the individual circumstances of a particular consumer's application.

You should shop around and compare loan rates and fees. This particular loan may have a higher rate and total points and fees than other mortgage loans. You should consider consulting a qualified independent credit counselor or other experienced financial adviser regarding the rate, fees, and provisions of this mortgage loan before you proceed. For information on contacting a qualified credit counselor, ask your lender or call the United States Department of Housing and Urban Development's counseling hotline at 1-888-466-3487 for a list of counselors.

You are not required to complete any loan agreement merely because you have received these disclosures or have signed a loan application. If you proceed with this mortgage loan, you should also remember that you may face serious financial risks if you use this loan to pay off credit card debts and other debts in connection with this transaction and then subsequently incur significant new credit card charges or other debts.

Property taxes and homeowner's insurance are your responsibility. Not all lenders provide escrow services for these payments. You should ask your lender about these services.

Your payments on existing debts contribute to your credit ratings. You should not accept any advice to ignore your regular payments to your existing creditors."

45.1638 Examinations and investigations by commissioner.

Sec. 8. The commissioner may conduct examinations and investigations of a person over whom the commissioner has regulatory authority as necessary to determine whether the person is brokering, making, servicing, or collecting mortgage loans as required by this act.

(2) A person is not liable for a violation under section 10 if, within 60 days after discovery of the violation and before the institution of an action under section 10, the person notifies the borrower or buyer of the violation and corrects the violation in a manner that, to the extent it is reasonably possible to do so, restores the borrower or buyer to the position in which the borrower or buyer would have been if the violation had not occurred.

(3) The person alleged to have violated this act has the burden of proving that he or she is not liable as provided under this section.

445.1642 Enforcement not limited.

445.1644 Municipal actions; statutory conflict; preemption; severability.

Sec. 14. (1) The federal government and state solely regulate the business of brokering, making, servicing, and collecting mortgage loans in this state and the manner in which any such business is conducted.

(2) Any charter, ordinance, resolution, regulation, rule, or other action by a municipal corporation or other political subdivision of this state to regulate, directly or indirectly, the brokering, making, servicing, or collecting of mortgage loans constitutes a statutory conflict with the uniform operation throughout the state of residential mortgage lending and is preempted.

(3) Any charter, ordinance, resolution, regulation, rule, or other action by a municipal corporation or other political subdivision of this state to collect information about, require reporting of, pledges regarding, notices, or certifications concerning loans, lenders, applicants, deposits, or credit experiences, character, and criminal background checks of employees, agents, customers, or other persons is preempted by this act.

(4) Any charter, ordinance, resolution, regulation, rule, or other action by a municipal corporation or other political subdivision of this state that attempts to regulate the brokering, making, servicing, or collecting of mortgage loans constitutes a statutory conflict and is preempted, including, without limitation, if the ordinance, resolution, regulation, or other action does either of the following:

(a) Disqualifies a person, or its subsidiaries or affiliates, from doing business with the municipal corporation or other political subdivision based upon the acts or practices of the person or its subsidiaries or affiliates in brokering, making, servicing, or collecting mortgage loans.

(b) Imposes reporting requirements or other obligations upon a person, or its subsidiaries or affiliates, based upon the person's, or its subsidiaries' or affiliates', acts or practices in brokering, making, servicing, or collecting mortgage loans.

(5) If any provision of this section, or any application of any provision of this section, is for any reason held to be illegal or invalid, the illegality or invalidity shall not affect any legal and valid provision or application of this section, and the provisions and applications of this section shall be severable.

445.1645 Standards; uniformity; preemption.

Sec. 15. (1) The laws of this state relating to the brokering, making, servicing, and collecting of mortgage loans prescribe rules of conduct upon citizens generally, comprise a comprehensive regulatory framework intended to operate uniformly throughout the state under the same circumstances and conditions, and constitute general laws of this state.

(2) Silence in the statutes of this state with respect to any act or practice in the brokering, making, servicing, or collecting of mortgage loans shall not be interpreted to mean that the state has not completely occupied the field or has only set minimum standards in its regulation of brokering, making, servicing, or collecting of mortgage loans.

(3) It is the intent of the legislature to entirely preempt municipal corporations and other political subdivisions from the regulation and licensing of persons engaged in the brokering, making, servicing, or collecting of mortgage loans in this state.

A notification to the person in charge of a hospital, agency, or school does not relieve the member of the staff of the hospital, agency, or school of the obligation of reporting to the department as required by this section. One report from a hospital, agency, or school shall be considered adequate to meet the reporting requirement. A member of the staff of a hospital, agency, or school shall not be dismissed or otherwise penalized for making a report required by this act or for cooperating in an investigation.

(4) The written report required in this section shall be mailed or otherwise transmitted to the county family independence agency of the county in which the child suspected of being abused or neglected is found.

(5) Upon receipt of a written report of suspected child abuse or neglect, the department may provide copies to the prosecuting attorney and the probate court of the counties in which the child suspected of being abused or neglected resides and is found.

If a written report or subsequent investigation indicates that the individual who committed the suspected abuse or neglect is a child care provider and the department believes that the report has basis in fact, the department shall transmit a copy of the written report or the results of the investigation to the child care regulatory agency with authority over the child care provider's child care organization or adult foster care location authorized to care for a child.

(7) If a local law enforcement agency receives a written report of suspected child abuse or neglect, whether from the reporting person or the department, the report or subsequent investigation indicates that the abuse or neglect was committed by a person responsible for the child's health or welfare, and the local law enforcement agency believes that the report has basis in fact, the local law enforcement agency shall provide a copy of the written report and the results of any investigation to the county family independence agency of the county in which the abused or neglected child is found. Nothing in this subsection or subsection (6) shall be construed to relieve the department of its responsibility to investigate reports of suspected child abuse or neglect under this act.

(8) For purposes of this act, the pregnancy of a child less than 12 years of age or the presence of a venereal disease in a child who is over 1 month of age but less than 12 years of age is reasonable cause to suspect child abuse and neglect have occurred.

The person, agency, or organization shall not release information identifying a person named in the report or record unless that person's written consent is obtained. The person, agency, or organization shall not conduct a personal interview with a family without the family's prior consent and shall not disclose information that would identify the child or the child's family or other identifying information. The department director may authorize the release of information to a person, agency, or organization described in this subdivision if the release contributes to the purposes of this act and the person, agency, or organization has appropriate controls to maintain the confidentiality of personally identifying information for a person named in a report or record made under this act.

(3) Subject to subsection (9), a person or entity to whom information described in subsection (2) is disclosed shall make the information available only to a person or entity described in subsection (2). The notice shall set forth the individual's right to request expunction of the record and the right to a hearing if the department refuses the request. (6) If the department refuses a request for amendment or expunction under subsection (5), or fails to act within 30 days after receiving the request, the department shall hold a hearing to determine by a preponderance of the evidence whether the report or record in

whole or in part should be amended or expunged from the central registry on the grounds that the report or record is not relevant or accurate evidence of abuse or neglect. The hearing shall be before a hearing officer appointed by the department and shall be conducted as prescribed by the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(7) If the investigation of a report conducted under this act fails to disclose evidence of abuse or neglect, the information identifying the subject of the report shall be expunged from the central registry. If evidence of abuse or neglect exists, the department shall maintain the information in the central registry until the department receives reliable information that the perpetrator of the abuse or neglect is dead.

(8) In releasing information under this act, the department shall not include a report compiled by a police agency or other law enforcement agency related to an ongoing investigation of suspected child abuse or neglect. A member or staff member of a citizen review panel is a member of a board, council, commission, or statutorily created task force of a governmental agency for the purposes of section 7 of 1964 PA 170, MCL 691.1407. Sec. 8d. (1) For the department's determination required by section 8, the categories, and the departmental response required for each category, are the following:

(a) Category V - services not needed. Following a field investigation, the department determines that there is no evidence of child abuse or neglect.

(b) Category IV - community services recommended. Following a field investigation, the department determines that there is not a preponderance of evidence of child abuse or neglect, but the structured decision-making tool indicates that there is future risk of harm to the child. The department shall assist the child's family in voluntarily participating in community-based services commensurate with the risk to the child.

(c) Category III - community services needed. The department determines that there is a preponderance of evidence of child abuse or neglect, and the structured decision-making tool indicates a low or moderate risk of future harm to the child. The department shall assist the child's family in receiving community-based services commensurate with the risk to the child. If the family does not voluntarily participate in services, or the family voluntarily participates in services, but does not progress toward alleviating the child's risk level, the department shall consider reclassifying the case as category II.

(d) Category II - child protective services required. The department determines that there is evidence of child abuse or neglect, and the structured decision-making tool indicates a high or intensive risk of future harm to the child. The department shall open a protective services case and provide the services necessary under this act. The department shall also list the perpetrator of the child abuse or neglect, based on the report that was the subject of the field investigation, on the central registry, either by name or as "unknown" if the perpetrator has not been identified.

(e) Category I - court petition required. The department determines that there is evidence of child abuse or neglect and 1 or more of the following are true:

(*i*) A court petition is required under another provision of this act.

(*ii*) The child is not safe and a petition for removal is needed.

(*iii*) The department previously classified the case as category II and the child's family does not voluntarily participate in services.

(*iv*) There is a violation, involving the child, of a crime listed or described in section 8a(1)(b), (c), (d), or (f) or of child abuse in the first or second degree as prescribed by section 136b of the Michigan penal code, 1931 PA 328, MCL 750.136b.

(2) In response to a category I classification, the department shall do all of the following:

(a) If a court petition is not required under another provision of this act, submit a petition for authorization by the court under section 2(b) of chapter XIIA of the probate code of 1939, 1939 PA 288, MCL 712A.2.

(b) Open a protective services case and provide the services necessary under this act.

(c) List the perpetrator of the child abuse or neglect, based on the report that was the subject of the field investigation, on the central registry, either by name or as "unknown" if the perpetrator has not been identified.

(3) The department is not required to use the structured decision-making tool for a nonparent adult who resides outside the child's home who is the victim or alleged victim of child abuse or neglect or for an owner, operator, volunteer, or employee of a licensed or registered child care organization or a licensed or unlicensed adult foster care family home or adult foster care small group home as those terms are defined in section 3 of the adult foster care facility licensing act, 1979 PA 218, MCL 400.703.

(4) If following a field investigation the department determines that there is a preponderance of evidence that an individual listed in subsection (3) was the perpetrator of child abuse or neglect, the department shall list the perpetrator of the child abuse or neglect on the central registry.

(5) The department shall furnish a written report described in subsection (6) to the appropriate legislative standing committees and the house and senate appropriations subcommittees for the department within 4 months after each of the following time periods:

(a) Beginning October 1, 1999 and ending September 30, 2000.

(b) Beginning October 1, 2000 and ending September 30, 2001.

(c) Beginning October 1, 2001 and ending September 30, 2002.

(6) The department shall include in a report required by subsection (5) at least all of the following information regarding all families that were classified in category III at some time during the time period covered by the report:

(a) The total number of families classified in category III.

(b) The number and percentage classified in category III that voluntarily participated in services and that did not participate in services.

(c) The number for which the department entered more than 1 determination that there was evidence of child abuse or neglect.

(d) The number the department reclassified from category III to category II.

This act is ordered to take immediate effect.

(a) Assume 100% of all liability as provided in subsection (2).

Excesses or deficiencies from previous periods may be fully adjusted in a single period or may be adjusted over several periods in a manner provided for in the plan of operation. Each member shall be charged an amount equal to that member's total written car years of insurance providing the security required by section 3101(1) or 3103(1), or both, written in this state during the period to which the premium applies, multiplied by the average premium per car. The average premium per car shall be the total premium calculated divided by the total written car years of insurance providing the security required by section 3101(1) or 3103(1) written in this state of all members during the period to which the premium applies. A member shall be charged a premium for a historic vehicle that is insured with the member of 20% of the premium charged for a car insured with the member. As used in this subdivision:

(*i*) "Car" includes a motorcycle but does not include a historic vehicle.

(*ii*) "Historic vehicle" means a vehicle that is a registered historic vehicle under section 803a or 803p of the Michigan vehicle code, 1949 PA 300, MCL 257.803a and 257.803p.

(8) In addition to other powers granted to it by this section, the association may do all of the following:

(a) Sue and be sued in the name of the association. A judgment against the association shall not create any direct liability against the individual members of the association. The association may provide for the indemnification of its members, members of the board of directors of the association, and officers, employees, and other persons lawfully acting on behalf of the association.

(b) Reinsure all or any portion of its potential liability with reinsurers licensed to transact insurance in this state or approved by the commissioner.

(c) Provide for appropriate housing, equipment, and personnel as may be necessary to assure the efficient operation of the association.

(12) As part of the plan of operation, the board shall adopt rules providing for the composition and term of successor boards to the initial board, consistent with the membership composition requirements in subsections (11) and (13). Terms of the directors shall be staggered so that the terms of all the directors do not expire at the same time and so that a director does not serve a term of more than 4 years.

(13) The board shall consist of 5 directors, and the commissioner shall be an ex officio member of the board without vote.

(14) Each director shall be appointed by the commissioner and shall serve until that member's successor is selected and qualified. The chairperson of the board shall be elected by the board. A vacancy on the board shall be filled by the commissioner consistent with the plan of operation.

(17) Not more than 60 days after the initial organizational meeting of the board, the board shall submit to the commissioner for approval a proposed plan of operation consistent with the objectives and provisions of this section, which shall provide for the economical, fair, and nondiscriminatory administration of the association and for the prompt and efficient provision of indemnity. If a plan is not submitted within this 60-day period, then the commissioner, after consultation with the board, shall formulate and place into effect a plan consistent with this section.

(18) The plan of operation, unless approved sooner in writing, shall be considered to meet the requirements of this section if it is not disapproved by written order of the commissioner within 30 days after the date of its submission. Before disapproval of all or any part of the proposed plan of operation, the commissioner shall notify the board in what respect the plan of operation fails to meet the requirements and objectives of this section. If the board fails to submit a revised plan of operation that meets the requirements and objectives of this section within the 30-day period, the commissioner shall enter an order accordingly and shall immediately formulate and place into effect a plan consistent with the requirements and objectives of this section.

(19) The proposed plan of operation or amendments to the plan of operation are subject to majority approval by the board, ratified by a majority of the membership having a vote, with voting rights being apportioned according to the premiums charged in subsection (7)(d) and are subject to approval by the commissioner.

(20) Upon approval by the commissioner and ratification by the members of the plan submitted, or upon the promulgation of a plan by the commissioner, each insurer authorized to write insurance providing the security required by section 3101(1) in this state, as provided in this section, is bound by and shall formally subscribe to and participate in the plan approved as a condition of maintaining its authority to transact insurance in this state.

(21) The association is subject to all the reporting, loss reserve, and investment requirements of the commissioner to the same extent as would a member of the association.

(22) Premiums charged members by the association shall be recognized in the rate-making procedures for insurance rates in the same manner that expenses and premium taxes are recognized.

(23) The commissioner or an authorized representative of the commissioner may visit the association at any time and examine any and all the association's affairs.

The People of the State of Michigan enact:

500.456 Legal process served on resident agent effective as personal service on company, association, or group; stipulation; filing copy of appointment; fee; duration of appointment; service of process.

Sec. 456. Service upon the resident agent designated under this section is service on the company, association, or group. This designation shall remain in force as long as any liability remains within this state.

(2) As a condition of doing business in this state, an unauthorized insurer who does not have a resident agent shall file with the commissioner an irrevocable written stipulation agreeing that any legal process affecting the company, association, or group that is served upon the commissioner or his or her designee has the same effect as if personally served upon the company, association, or group. A copy of the appointment shall be filed with the commissioner. Service upon the commissioner is service upon the company, association, or group and the fee for service is $10.00 payable at time of service. This appointment remains in force as long as any liability remains within this state.

(3) Every insurance company not organized under the statutes of this state that provides a surety bond required or permitted under the laws of the United States shall irrevocably appoint the commissioner or his or her designee as the company's agent to receive service of process in any action in United States district court on the surety bond. Upon receipt of service of process, the commissioner or his or her designee shall forward the service of process to the resident agent designated under subsection (1). Service of process on the commissioner under this subsection only applies for a bond provided within this state and is in addition to and not in place of any other method of service authorized by law or court rule.

500.2236 Forms generally; filing; approval; type size; effect of membership in or subscription to rating organization; substitute form; readability score and other requirements; approval of changes or additions; notice of disapproval or withdrawal of approval; hearing; separate violation; penalty; applicability of filing requirements; "exempt commercial policyholder" defined; court review of order.

Sec. 2236. (1) A basic insurance policy form or annuity contract form shall not be issued or delivered to any person in this state, and an insurance or annuity application form if a written application is required and is to be made a part of the policy or contract, a printed rider or indorsement form or form of renewal certificate, and a group certificate in connection with the policy or contract, shall not be issued or delivered to a person in this state, until a copy of the form is filed with the insurance bureau and approved by the commissioner as conforming with the requirements of this act and not inconsistent with the law. Failure of the commissioner to act within 30 days after submittal constitutes approval. All such forms, except policies of disability insurance as defined in section 3400, shall be plainly printed with type size not less than 8-point unless the commissioner determines that portions of such a form printed with type less than 8-point is not deceptive or misleading.

(2) An insurer may satisfy its obligations to make form filings by becoming a member of, or a subscriber to, a rating organization, licensed under section 2436 or 2630, which makes such filings and by filing with the commissioner a copy of its authorization of the rating organization to make the filings on its behalf. Every member of or subscriber to a rating organization shall adhere to the form filings made on its behalf by the organization except that an insurer may file with the commissioner a substitute form, and thereafter if a subsequent form filing by the rating organization affects the use of the substitute form, the insurer shall review its use and notify the commissioner whether to withdraw its substitute form.

(3) Beginning January 1, 1992, the commissioner shall not approve a form filed pursuant to this section providing for or relating to an insurance policy or an annuity contract

for personal, family, or household purposes if the form fails to obtain the readability score or meet the other requirements of this subsection, as applicable:

(a) The readability score for a form for which approval is required by this section shall not be less than 45, as determined by the method provided in subdivisions (b) and (c).

(b) The readability score for a form shall be determined as follows:

(*i*) For a form containing not more than 10,000 words, the entire form shall be analyzed. For a form containing more than 10,000 words, not less than two 200-word samples per page shall be analyzed instead of the entire form. The samples shall be separated by at least 20 printed lines.

(*ii*) Count the number of words and sentences in the form or samples and divide the total number of words by the total number of sentences. Multiply this quotient by a factor of 1.015.

(*iii*) Count the total number of syllables in the form or samples and divide the total number of syllables by the total number of words. Multiply this quotient by a factor of 84.6. As used in this subparagraph, "syllable" means a unit of spoken language consisting of 1 or more letters of a word as indicated by an accepted dictionary. If the dictionary shows 2 or more equally acceptable pronunciations of a word, the pronunciation containing fewer syllables may be used.

(*iv*) Add the figures obtained in subparagraphs (*ii*) and (*iii*) and subtract this sum from 206.835. The figure obtained equals the readability score for the form.

(c) For the purposes of subdivision (b)(*ii*) and (*iii*), the following procedures shall be used:

(*i*) A contraction, hyphenated word, or numbers and letters when separated by spaces shall be counted as 1 word.

(*ii*) A unit of words ending with a period, semicolon, or colon, but excluding headings and captions, shall be counted as 1 sentence.

(d) In determining the readability score, the method provided in subdivisions (b) and (c):

(*ii*) Shall not be applied to words or phrases that are defined in an insurance policy form, an annuity contract, or riders, indorsements, or group certificates pursuant to an insurance policy form or annuity contract.

(*iii*) Shall not be applied to language specifically agreed upon through collective bargaining or required by a collective bargaining agreement.

(*iv*) Shall not be applied to language that is prescribed by state or federal statute or by rules or regulations promulgated pursuant to a state or federal statute.

(e) Each form for which approval is required by this section shall contain both of the following:

(*i*) Topical captions.

(*ii*) An identification of exclusions.

(4) If any kind of insurance, subdivision, or combination thereof, or type of coverage, subject to this chapter, is also subject to regulation by another rate regulatory chapter of this act, an insurer to which both chapters are otherwise applicable shall file with the commissioner a designation as to which rate regulatory chapter shall be applicable to it with respect to such kind of insurance, subdivision, or combination thereof, or type of coverage.

(5) If, pursuant to subsection (6), the commissioner certifies the absence of a reasonable degree of competition for a specified classification, type, or kind of insurance, the commissioner may order that each insurer file for prior approval, subject to the provisions of this chapter, any changes to its manuals of classification, manuals of rules and rates, and rating plans the insurer proposes to use for that specified classification, type, or kind of insurance. The People of the State of Michigan enact:

CHAPTER IX

769.34 Sentencing guidelines; duties of court.

Sec. 34. (1) The sentencing guidelines promulgated by order of the Michigan supreme court do not apply to felonies enumerated in part 2 of chapter XVII committed on or after January 1, 1999.

(2) Except as otherwise provided in this subsection or for a departure from the appropriate minimum sentence range provided for under subsection (3), the minimum sentence imposed by a court of this state for a felony enumerated in part 2 of chapter XVII committed on or after January 1, 1999 shall be within the appropriate sentence range under the version of those sentencing guidelines in effect on the date the crime was committed. Both of the following apply to minimum sentences under this subsection:

(a) If a statute mandates a minimum sentence for an individual sentenced to the jurisdiction of the department of corrections, the court shall impose sentence in accordance with that statute. Imposing a mandatory minimum sentence is not a departure under this section. If a statute mandates a minimum sentence for an individual sentenced to the jurisdiction of the department of corrections and the statute authorizes the sentencing judge to depart from that minimum sentence, imposing a sentence that exceeds the recommended sentence range but is less than the mandatory minimum sentence is not a departure under this section. If the Michigan vehicle code, 1949 PA 300, MCL 257.1 to 257.923, mandates a minimum sentence for an individual sentenced to the jurisdiction of the department of corrections and the Michigan vehicle code, 1949 PA 300, MCL 257.1 to 257.923, authorizes the sentencing judge to impose a sentence that is less than that minimum sentence, imposing a sentence that exceeds the recommended sentence range but is less than the mandatory minimum sentence is not a departure under this section.

(b) The court shall not impose a minimum sentence, including a departure, that exceeds 2/3 of the statutory maximum sentence.

(3) A court may depart from the appropriate sentence range established under the sentencing guidelines set forth in chapter XVII if the court has a substantial and compelling reason for that departure and states on the record the reasons for departure. All of the following apply to a departure:

(a) The court shall not use an individual's gender, race, ethnicity, alienage, national origin, legal occupation, lack of employment, representation by appointed legal counsel, representation by retained legal counsel, appearance in propria persona, or religion to depart from the appropriate sentence range.

(b) The court shall not base a departure on an offense characteristic or offender characteristic already taken into account in determining the appropriate sentence range unless the court finds from the facts contained in the court record, including the presentence investigation report, that the characteristic has been given inadequate or disproportionate weight.

(4) Intermediate sanctions shall be imposed under this chapter as follows:

(a) If the upper limit of the recommended minimum sentence range for a defendant determined under the sentencing guidelines set forth in chapter XVII is 18 months or less, the court shall impose an intermediate sanction unless the court states on the record a substantial and compelling reason to sentence the individual to the jurisdiction of the department of corrections. An intermediate sanction may include a jail term that does not exceed the upper limit of the recommended minimum sentence range or 12 months, whichever is less.

(b) If an attempt to commit a felony designated in offense class H in part 2 of chapter XVII is punishable by imprisonment for more than 1 year, the court shall impose an intermediate sanction upon conviction of that offense absent a departure.

(c) If the upper limit of the recommended minimum sentence exceeds 18 months and the lower limit of the recommended minimum sentence is 12 months or less, the court shall sentence the offender as follows absent a departure:

(*i*) To imprisonment with a minimum term within that range.

(*ii*) To an intermediate sanction that may include a term of imprisonment of not more than 12 months.

(5) If a crime has a mandatory determinant penalty or a mandatory penalty of life imprisonment, the court shall impose that penalty. This section does not apply to sentencing for that crime.

(6) As part of the sentence, the court may also order the defendant to pay any combination of a fine, costs, or applicable assessments. The court shall order payment of restitution as provided by law.

(7) If the trial court imposes on a defendant a minimum sentence that is longer or more severe than the appropriate sentence range, as part of the court's advice of the defendant's rights concerning appeal, the court shall advise the defendant orally and in writing that he or she may appeal the sentence as provided by law on grounds that it is longer or more severe than the appropriate sentence range.

(8) All of the following shall be part of the record filed for an appeal of a sentence under this section:

(a) An entire record of the sentencing proceedings.

(b) The presentence investigation report. Any portion of the presentence investigation report exempt from disclosure by law shall not be a public record.

(c) Any other reports or documents the sentencing court used in imposing sentence.

(9) An appeal of a sentence under this section does not stay execution of the sentence.

(10) If a minimum sentence is within the appropriate guidelines sentence range, the court of appeals shall affirm that sentence and shall not remand for resentencing absent an error in scoring the sentencing guidelines or inaccurate information relied upon in determining the defendant's sentence. A party shall not raise on appeal an issue challenging the scoring of the sentencing guidelines or challenging the accuracy of information relied upon in determining a sentence that is within the appropriate guidelines sentence range unless the party has raised the issue at sentencing, in a proper motion for resentencing, or in a proper motion to remand filed in the court of appeals.

(11) If, upon a review of the record, the court of appeals finds the trial court did not have a substantial and compelling reason for departing from the appropriate sentence range, the court shall remand the matter to the sentencing judge or another trial court judge for resentencing under this chapter.

(12) Time served on the sentence appealed under this section is considered time served on any sentence imposed after remand.

CHAPTER XI

771.1 Requirements for probation; delayed sentence; fee; applicability of section to certain juveniles.

Sec. 1. (1) In all prosecutions for felonies or misdemeanors other than murder, treason, criminal sexual conduct in the first or third degree, armed robbery, and major controlled

substance offenses not described in subsection (4), if the defendant has been found guilty upon verdict or plea and the court determines that the defendant is not likely again to engage in an offensive or criminal course of conduct and that the public good does not require that the defendant suffer the penalty imposed by law, the court may place the defendant on probation under the charge and supervision of a probation officer.

(2) In an action in which the court may place the defendant on probation, the court may delay sentencing the defendant for not more than 1 year to give the defendant an opportunity to prove to the court his or her eligibility for probation or other leniency compatible with the ends of justice and the defendant's rehabilitation. When sentencing is delayed, the court shall enter an order stating the reason for the delay upon the court's records. The delay in passing sentence does not deprive the court of jurisdiction to sentence the defendant at any time during the period of delay.

(3) If a defendant is before the circuit court and the court delays imposing sentence under subsection (2), the court shall include in the delayed sentence order that the department of corrections shall collect a supervision fee of not more than $135.00 multiplied by the number of months of delay ordered, but not more than 12 months. The fee is payable when the delayed sentence order is entered, but the fee may be paid in monthly installments if the court approves installment payments for that defendant. In determining the amount of the fee, the court shall consider the defendant's projected income and financial resources. The court shall use the following table of projected monthly income in determining the amount of the fee to be ordered:

Projected Monthly Income	Amount of Fee
$ 0-249.99	$ 10.00
$ 250.00-499.99	$ 10.00
$ 500.00-749.99	$ 25.00
$ 750.00-999.99	$ 40.00
$1,000.00 or more	5% of projected monthly income, but not more than $135.00

The court may order a higher amount than indicated by the table, up to the maximum of $135.00 multiplied by the number of months of delay ordered but not more than 12 months, if the court determines that the defendant has sufficient assets or other financial resources to warrant the higher amount. If the court orders a higher amount, the amount and the reasons for ordering that amount shall be stated in the court order. The fee shall be collected as provided in section 25a of the corrections code of 1953, 1953 PA 232, MCL 791.225a. A person shall not be subject to more than 1 supervision fee at the same time. If a supervision fee is ordered for a person for any month or months during which that person already is subject to a supervision fee, the court shall waive the fee having the shorter remaining duration.

(4) This section does not apply to a juvenile placed on probation and committed under section 1(3) or (4) of chapter IX to an institution or agency described in the youth rehabilitation services act, 1974 PA 150, MCL 803.301 to 803.309.

771.2 Probation period; order fixing period and conditions of probation; registration pursuant to sex offenders registration act; reduction in probation period; subsection (1) inapplicable to certain juveniles.

Sec. 2. (1) Except as provided in section 2a of this chapter, if the defendant is convicted for an offense that is not a felony, the probation period shall not exceed 2 years. Except as provided in section 2a of this chapter, if the defendant is convicted of a felony, the probation period shall not exceed 5 years.

(2) The court shall by order, to be filed or entered in the cause as the court may direct by general rule or in each case, fix and determine the period and conditions of probation. The order is part of the record in the cause. The court may amend the order in form or substance at any time.

(3) A defendant who was placed on probation under section 1(4) of this chapter prior to the effective date of the act that amended this section is subject to the conditions of probation specified in section 3 of this chapter, including payment of a probation supervision fee as prescribed in section 3c of this chapter, and to revocation for violation of these conditions, but the probation period shall not be reduced other than by a revocation that results in imprisonment or as otherwise provided by law.

(4) If an individual is placed on probation for a listed offense enumerated in section 2 of the sex offenders registration act, 1994 PA 295, MCL 28.722, the individual's probation officer shall register the individual or accept the individual's registration as provided in that act.

(5) Subsection (1) does not apply to a juvenile placed on probation and committed under section 1(3) or (4) of chapter IX to an institution or agency described in the youth rehabilitation services act, 1974 PA 150, MCL 803.301 to 803.309.

(HB 5736)

AN ACT to amend 1937 PA 94, entitled "An act to provide for the levy, assessment and collection of a specific excise tax on the storage, use or consumption in this state of

tangible personal property and certain services; to appropriate the proceeds thereof; and to prescribe penalties for violations of the provisions of this act," by amending sections 2, 3, 4, and 4k (MCL 205.92, 205.93, 205.94, and 205.94k), sections 2 and 3 as amended by 2002 PA 511, section 4 as amended by 2002 PA 456, and section 4k as amended by 2000 PA 200.

The People of the State of Michigan enact:

205.92 Definitions.

Sec. 2. As used in this act:

(a) "Person" means an individual, firm, partnership, joint venture, association, social club, fraternal organization, municipal or private corporation whether or not organized for profit, company, limited liability company, estate, trust, receiver, trustee, syndicate, the United States, this state, county, or any other group or combination acting as a unit, and the plural as well as the singular number, unless the intention to give a more limited meaning is disclosed by the context.

(b) "Use" means the exercise of a right or power over tangible personal property incident to the ownership of that property including transfer of the property in a transaction where possession is given.

(c) "Storage" means a keeping or retention of property in this state for any purpose after the property loses its interstate character.

(d) "Seller" means the person from whom a purchase is made and includes every person selling tangible personal property or services for storage, use, or other consumption in this state. If, in the opinion of the department, it is necessary for the efficient administration of this act to regard a salesperson, representative, peddler, or canvasser as the agent of a dealer, distributor, supervisor, or employer under whom the person operates or from whom he or she obtains tangible personal property or services sold by him or her for storage, use, or other consumption in this state, irrespective of whether or not he or she is making the sales on his or her own behalf or on behalf of the dealer, distributor, supervisor, or employer, the department may so consider him or her, and may consider the dealer, distributor, supervisor, or employer as the seller for the purpose of this act.

(e) "Purchase" means to acquire for a consideration, whether the acquisition is effected by a transfer of title, of possession, or of both, or a license to use or consume; whether the transfer is absolute or conditional, and by whatever means the transfer is effected; and whether consideration is a price or rental in money, or by way of exchange or barter.

(f) "Price" means the aggregate value in money of anything paid or delivered, or promised to be paid or delivered, by a consumer to a seller in the consummation and complete performance of the transaction by which tangible personal property or services are purchased or rented for storage, use, or other consumption in this state, without a deduction for the cost of the property sold, cost of materials used, labor or service cost, interest or discount paid, or any other expense. The price of tangible personal property, for affixation to real estate, withdrawn by a construction contractor from inventory available for sale to others or made available by publication or price list as a finished product for sale to others is the finished goods inventory value of the property. If a construction contractor manufactures, fabricates, or assembles tangible personal property before affixing it to real estate, the price of the property is equal to the sum of the materials cost of the property and the cost of labor to manufacture, fabricate, or assemble the property but does not include the cost of labor to cut, bend, assemble, or attach property at the site of affixation to real estate. For the purposes of the preceding sentence, for property withdrawn by a construction contractor from inventory available for sale to

others or made available by publication or price list as a finished product for sale to others, the materials cost of the property means the finished goods inventory value of the property. For purposes of this subdivision, "manufacture" means to convert or condition tangible personal property by changing the form, composition, quality, combination, or character of the property and "fabricate" means to modify or prepare tangible personal property for affixation or assembly. The price of a motor vehicle, trailer coach, or titled watercraft is the full retail price of the motor vehicle, trailer coach, or titled watercraft being purchased. The tax collected by the seller from the consumer or lessee under this act is not considered part of the price, but is a tax collection for the benefit of the state, and a person other than the state shall not derive a benefit from the collection or payment of this tax. A price does not include an assessment imposed under the convention and tourism marketing act, 1980 PA 383, MCL 141.881 to 141.889, 1974 PA 263, MCL 141.861 to 141.867, the state convention facility development act, 1985 PA 106, MCL 207.621 to 207.640, the regional tourism marketing act, 1989 PA 244, MCL 141.891 to 141.900, 1991 PA 180, MCL 207.751 to 207.759, or the community convention or tourism marketing act, 1980 PA 395, MCL 141.871 to 141.880, that was added to charges for rooms or lodging otherwise subject, pursuant to section 3a, to tax under this act. Price does not include specific charges for technical support or for adapting or modifying prewritten, standard, or canned computer software programs to a purchaser's needs or equipment if the charges are separately stated and identified. The tax imposed under this act shall not be computed or collected on rental receipts if the tangible personal property rented or leased has previously been subjected to a Michigan sales or use tax when purchased by the lessor.

(g) "Consumer" means the person who has purchased tangible personal property or services for storage, use, or other consumption in this state and includes a person acquiring tangible personal property if engaged in the business of constructing, altering, repairing, or improving the real estate of others.

(h) "Business" means all activities engaged in by a person or caused to be engaged in by a person with the object of gain, benefit, or advantage, either direct or indirect.

(i) "Department" means the revenue division of the department of treasury.

(j) "Tax" includes all taxes, interest, or penalties levied under this act.

(k) "Tangible personal property" includes computer software offered for general use by the public or software modified or adapted to the user's needs or equipment by the seller, only if the software is available from a seller of software on an as is basis or as an end product without modification or adaptation. Tangible personal property does not include computer software originally designed for the exclusive use and special needs of the purchaser. As used in this subdivision, "computer software" means a set of statements or instructions that when incorporated in a machine usable medium is capable of causing a machine or device having information processing capabilities to indicate, perform, or achieve a particular function, task, or result.

(*l*) "Tangible personal property" beginning September 20, 1999, includes electricity, natural or artificial gas, or steam and also the transmission and distribution of electricity used by the consumer or user of the electricity, whether the electricity is purchased from the delivering utility or from another provider.

(m) "Tangible personal property" does not include a commercial advertising element if the commercial advertising element is used to create or develop a print, radio, television, or other advertisement, the commercial advertising element is discarded or returned to the provider after the advertising message is completed, and the commercial advertising element is custom developed by the provider for the purchaser. As used in this subdivision, "commercial advertising element" means a negative or positive photographic image, an

audiotape or videotape master, a layout, a manuscript, writing of copy, a design, artwork, an illustration, retouching, and mechanical or keyline instructions. "Tangible personal property" includes black and white or full color process separation elements, an audiotape reproduction, or a videotape reproduction.
